The GIMBEL WHITE SALE

Presenting

White Goods, Laces, Embroideries, Lingerie Frocks, Blouses, Corsets, Silk Petticoats, Negligees---and \$150,000 Worth of French

And Domestic Lingerie At Economies of 20 to 50 Per Cent

II It is quite appropriate that on the first day of May, when woods and the country 'round are robed in dogwood and other snowy blossoms that the House of Fashions should be transformed into a veritable

The LINGERIE invites first attention as it is an unwritten tradition • that it should be foremost, and because of the unusualness of its economy-giving prices and new styles. For weeks, and we might say months, we have been preparing this Sale—yes, as far back as January we started. And it is fortunate that we did, because the price of cotton has been steadily increasing. And, besides, it gave the seamstresses plenty of time to do their best work—as we would not permit a seam or hem to be hurriedly or carelessly

Our first May Sale (just a year ago) was a tremendous success, and the White Sale last January was even greater, because we had the undermuslins that women wanted. These Sales guided us in the planning of this event, hence we are sure that we have just the Lingerie that will delight the woman who has but a few dollars to expend, as well as the one who desires French trousseau lingerie to the extent of several hundred dollars. However, we shall introduce many style-innovations in this Sale for in this progressive period new ideas are constantly appearing and many women want every new whim of Fashion. And it is natural that everything that is new is first presented by the House of Fashions. Without boasting, we must say that many of these new ideas are of our own creation!

Quality- that is our forte! Backed, as it is, by \$150,000 worth of undermusins for women. Then, too, we shall hips for infants, to extra-size garments for woman who require them. Each garment is as carefully made as though it had been done in your own home by a seamstress whose precise way of finishing seams and joining embroidenes and laces is a joy to all her patrons.

The nameocks, cambries, crepes and lingerie cloths are of exquisite fineness, and the laces and If you are already acquainted with our regular collection of French lingerie, you will know just what to expect in that section, for we have put this entire stock in the Sale at lessened prices that will measure up to the economies of the domestic—augmenting it with a few importations of the less expensive garments that were made in France especially for this Sale.
