# FIFTY L. W. W. MEN ARE SENTENCED

Charged With Trying to Intimidate Silk Strikers.

COULD NOT PAY FINES.

Only Two Furnished Necessary \$10. So the rest were sentenced to Thirty Days in the County Jail—Recorder Carroll Also Sentenced Frank Young.

PATERSON, N. J., May 9.—Forty-seven Industrial Workers of the World were sentenced before Recorder Carroll on charges of conspiracy to obstruct justice, after a trial which lasted for three days. There had been a strike among the silk workers, and the police arrested the men on the charge of obstructing justice, the other workers at the mill.

The men were each fined \$10, but when it came to paying the fines only two of the men had the money. The others were sentenced to the county jail for thirty days. The two who had paid their fines were sent away from the court, but in a short time they returned, having been released on bail for the same offense, and this time they were each fined \$10. They did not have the money and went to jail with the others.

While they were being arraigned there was a commotion outside. Frank Young, an organizer for the I. W. W. who lives in Detroit, was addressing a large crowd of strike sympathizers. He was denouncing the arrests as outrageous when a policeman was sent to "get him." When Young was arrested before the recorder the latter said:

"Well, I see you have been trying hard to get yourself into trouble, and you have succeeded. I sentence you to three months in the county jail without bail. Next time I hope you will know where you are well off."

When Young was arrested Samuel Silver of Paterson took his place as speaker. He was arrested and then attacked Douglas Adams when the latter was bringing him before the recorder. Adams had his glasses smashed—silver was sent to jail for one month without bail.

David Platt tried for speaking honors there, but he was also arrested, and sent to jail for one month.

PHYSICIANS IN CONVENTION.  
Many Distinguished Delegates Meet at Atlantic City.

Atlantic City, N. J., May 9.—Physicians from every section of New Jersey, Philadelphia and other cities are attending the annual convention of the State Homoeopathic Medical Society, which opened here.

Mayor Bachrach welcomed the 200 delegates, and Dr. Charles H. Church of Newark responded. "After twenty years of Paterson," Charles F. Hadley of Camden, corresponding secretary, and L. R. Hestrick of Newark, the treasurer, reported a general increase in the membership and finances of the organization, and Dr. H. F. Robinson of Passaic made a report on the members who have died during the year.

Dr. A. E. Cornell of Trenton, head of the legislative committee, reported that no new bills affecting the medical profession had been introduced by the state legislature during the year.

The session will be taken up with the address of the president, Dr. A. W. Atkinson of Trenton and reading of papers by Dr. W. B. Belling of Trenton and Dr. George C. O'Brien of New York.

One of the features of the convention will be an address by Dr. J. C. Beckwith of Atlantic City, head of the bench life saving force of the resort, who has treated over 10,000 cases of heart accidents. Dr. Beckwith will illustrate his talk in first aid to the drowning with a series of photographs showing the methods of resuscitation used on the Atlantic City beach.

Trial to Kill Brother-in-Law.  
Camden, N. J., May 9.—Paul Barker, twenty-seven years old, of this town, was held under \$1000 bail for court by Recorder Bachrach, charged with having attempted to kill his brother-in-law, Leonard Stephenson, by shooting at him with a revolver last June 10, 1910. After that time the men were in the hospital, all of which now were "one" better, however, Stephenson's wife, Mrs. L. S. Barker, now deceased, it was said, escaped injury. Another fatal shot was fired at Stephenson's wife, but she escaped injury.

# T. R. READY FOR FRAY IN OHIO; TAFT BUSY

Colonel Plans For Crucial Battle; President's Final Week.

Oyster Bay, N. Y., May 9.—As the reports of the Roosevelt successes in Texas, Washington, Kansas and Minnesota roll in on top of the Maryland victory, the colonel is overjoyed. Ohio is in the foreground now as the end and almost the final battlefield. Colonel Roosevelt refuses to comment on the outlook, saying:

"I'm a better warrior than a prophet. The ground for the Ohio fight is being won over most carefully. No detail is being left slight of. The colonel is giving a day ahead of time previously announced, leaving on Monday instead of Tuesday."

"What you say is no signal because I'm his, you'll notice it," was the colonel's answer to the president's cry that he is being "left below the belt."

Comptroller Prendergast will add Roosevelt in Ohio. He will leave for Ohio on Sunday.

Taft's Big Week in Ohio.  
Columbus, May 9.—President Taft will spend eight days, beginning next Monday, campaigning in Ohio. His schedule is especially heavy, with a day of more than 5,000 inhabitants.

The principal speeches will be at 10 a. m. Monday evening, Steubenville; Tuesday evening, Youngstown; Wednesday evening, Sandusky; Thursday evening, Cleveland; Friday evening, Toledo; Saturday evening, Springfield.

Mr. Taft made a vigorous speech at the Memorial hall, in which he criticized the political relations existing between Colonel Roosevelt and George F. Perkins, one of Mr. Roosevelt's campaign managers.

Kansas Goes For Roosevelt.  
Independence, Kan., May 9.—The Roosevelt party were in control of the state Republican convention here by a majority of virtually 2 to 1. Out of the 300 delegates to the convention Taft had only 104. Four delegates at large, Henry J. Allen of Wichita, Ralph Harris of Ottawa, John Landon of Independence and Judge A. R. Clark of Sterling were chosen and instructed for Roosevelt.

# WIRE POOL SECRETS.

Papers Destroyed and Admission Sent Out "Addition, Division, Silence."

New York, May 9.—In the star-trail hearing before Examiner Henry P. Brown, June 16, Dickinson, specialist assistant attorney general, succeeded in drawing from Harry A. Whitney the story of the destruction of hundreds of documents bearing upon the connection of the American Steel and Wire company with the wire pool.

Letters were read which were said to have passed between members of the pool. One of Supervisor Jackson's letters to the John A. Dickinson, son company of Trenton, N. J., contained this "evidence": "Addition, division and multiplication."

C. G. Roebing stated that to the best of his knowledge the last regular meeting of the committee had been held in May, 1900. After that time the meetings were informal, but he admitted were attended by practically the same members as before.

# HOME RULE WINS IN SECOND ROUND

Bill For Irish Rights Passes by 101 Majority.

# CHEERS FOLLOW DEBATE.

Measure Now Up to Committee of the Whole For Action on the Numerous Amendments — Redmond Jubilant, Bonar Law Hurts Shafts of Criticism.

London, May 10.—Division on the second reading of the home rule bill in the house of commons tonight brought out one of the fullest votes in recent years.

The vote in favor of the second reading was 372 and against 271, giving the government a majority of 101.

In the present state of parties in the house the government has 392 votes of which 44 are Nationalists. Only 31 Nationalists voted, so that the combined British majority in favor of the bill was only 20.

The closing hours of the debate on the second reading of the bill to give to the Irish people the right to manage their own affairs without any interference from imperial supremacy. It had been generally conceded, he said, that the moment home rule was granted it would be to the highest interests of all to safeguard the construction and protect it with the moderation of success. He accepted the bill as a final settlement of the Irish question.

Bonar Law, who followed Redmond, summed the minutes with not answering the criticisms of the opposition. That if the construction created a bill that would be so unworkable in theory that the government would not attempt to defend it, what earthly chance would there be for its working out in practice? Mr. Law ridiculed the alleged danger of a "split" in the union, and said that the bill was a final settlement of the Irish question.

Mr. Law strongly criticized the final provision of the bill.

# RAY OF HOPE GLEAMS THROUGH FLOOD GLOOM

Frantic Work of Rescue Corps Unhappily as Sun Shines.

New Orleans, May 10.—More sun and three days' absence of rain in the lower Mississippi valley have served to bring about marked improvement in the flood conditions. The levees in the New Orleans district have been thoroughly dried out and practically no work is being done in this section except along a short stretch on the west side of the river.

Reports received at the army engineers headquarters from points both above and below New Orleans were optimistic. A few weak spots above New Orleans are being strengthened. In the lower Mississippi district, where 4,000 federal workers and a still larger number of state troops are at work, the situation is improving. Citizens volunteers are contributing their efforts to strengthen the levees. A few water works are still in a state of repair, but the general situation is improving.

The task of bringing the river to its normal condition is a difficult one, but the army engineers are confident that it will be accomplished. The levees are being strengthened and the water works are being repaired. The general situation is improving.

Entered as second-class matter January 11, 1912, at the post office at Rahway, New Jersey, under the Act of March 3, 1879.

FRIDAY, MAY 10, 1912.

In view of the fact that our common Council has under consideration the establishing of a municipal electric lighting plant, a bit of yesterday's news from Orange is of interest.

The water and street lighting committee of the Orange Common Council has just authorized a postal card inquiry by means of which the citizens will be asked whether they are willing to purchase current for light and power from the city at the same rate as they are now paying the private company which serves them.

The chief engineer of the municipal plant has suggested a list of questions which will be put on the postal cards, which will be sent out with the next batch of water bills. The information to be obtained includes the attitude of the citizens on purchasing current, will be the number of lamps and motors, and the amount of last year's bills.

This looks as though municipal ownership of the street lighting system were a success in Orange, so much so that they have decided to extend it to apply to the sale of current for commercial use to the residents of the community. And it is even planned to go further, for the same purpose, to discuss the proposition of selling current for street lighting in other municipalities.

One of the most important questions facing the committee is to have the Council consider the possibility of the municipal lighting plant, which will be constructed, shall we call it, Orange street lighting, and then later take up the question of extending the service to include commercial current, or shall we start on a scale which will make possible the undertaking in the first event it will mean a smaller initial expense, in the second, while the initial expense will be greater, the latter will be very much larger earning possibility.

As a pure business proposition, the plant that will be able to supply commercial current would be the best investment at first glance. But expert advice, and a consideration of the city's financial resources might alter the matter. It however, we consider a plant it would be a good economy to build one with a fairly large capacity at the outset, rather than have to go to the expense of putting on additions later when we decide, as Orange gives evidence of doing, that it shall be enlarged to provide for commercial service. And in the meantime we shall have lost the service to come that we might have had.

The report of the committee will be awaited with great interest. In the meantime we would welcome communication from the citizens on the most important municipal problem: we would be particularly glad of any comment from engineers or persons who have had experience with electric power plants and with lighting problems. All the knowledge that can be brought to bear on the project will help just as much, and would be of service to the city.

We commend to the attention of the police department and the police court, the following facts: On Wednesday morning, May 9, 1912, Patrolman Thompson was excitedly hailed from a trolley car by a man who said he was a constable from Westfield, and told that the car was carrying stolen goods. The officer searched the man and found a revolver, which he took from him. The man was then taken to the police station, where he was held over for the next morning.

## VETERAN HENRY DECKER CELEBRATES BIRTHDAY

Captain Henry Decker, the war veteran and participant in nearly two score of battles, was given a birthday party in honor of his seventieth birthday anniversary last night at the Pullman Street residence of his son-in-law, James Bodwell.

A pleasant evening with music, good fellowship and anecdotes, history and narration of privations was thoroughly enjoyed by the neighbors, relatives, friends and comrades who gathered to do the veteran honor.

A fine supper was served, and red, white and blue decorated tables.

## OUR LETTER BOX

Rahway, N. J., May 10, 1912.  
To the Editor, Daily Record:

Am pleased you kindly published my last letter. Regarding the estimated value of Rahway property, if you will kindly refer you will find it purposely made a low estimate, simply by multiplying the seller's price by fifty. This should be at least 150.

Now make further allowance and say 100, then the estimated value of the city of Rahway would be \$18,000,000.

Further, if entire Rahway was for sale, I don't believe any corporation, firm or individual could buy Rahway for less than \$20,000,000. Then again I would ask a question. Why are we taxed on the small amount of about \$6,000,000? When I secured information, I did not visit the City Hall, but asked a former, respectfully ask you, a large taxpayer and property owner, and the figure he gave me I submitted, for I have always found him authentic in his statements.

Now, if the value of Rahway has a taxable valuation of over six millions, what portion of this does the city get? I was compelled to pay taxes. Why are not others so compelled?

In answer to a question by Chairman Clapp, Attorney Strong said that this report of the commission was binding on each side unless an appeal was taken, when the matter would go to the courts and be settled by a trial with jury. An appeal is allowed to either side in such cases.

Also said that it would not be allowable for the commission to secure any evidence in the matter outside of a meeting at which both sides were present. Mr. Pollard said that the commission wanted to know what the results of the building were, but there appeared to be no way of finding out unless Mr. Woodruff was willing to tell them.

Notices Sent Mr. Woodruff.

Mr. Woodruff had had the notices of the two meetings here. He came to the first one for minute and evidently did not intend to stay. If he declines to state what he receives in rentals, he ought to do so in the open at one of the meetings.

Chairman Clapp said that a letter had been received from Mr. Woodruff in which he stated his reasons for not appearing. The commission has given opportunity to Mr. Woodruff every chance possible to appear and state his case.

Chairman Clapp said "We will read Mr. Woodruff's letter, and if we do not want to unless it is necessary. The letter simply rehearses the case and his protest against the proposed action."

Mr. Strong, "Of course we will not insist in having the letter read, but I think it would be right to have it spread on the minutes that the commission has received a letter from Mr. Woodruff stating his reasons for not appearing."

This was done and the meeting adjourned until Monday afternoon, May 20, at 2 o'clock.

RECEPTION FOR G. TREMBLEY.

Seminary Whist Club Honor Member.

A reception was given last night in the Seminary Whist Club, in honor of George Trembley, one of the members of the club, who is soon to be married and who will shortly after that event sail for Lisbon, Portugal, where he will occupy a responsible position.

The affair was one of the pleasantest of the season. One of the unique features of the reception was a prize waltz, which was won by David Armstrong.

Among the guests were—Mrs. M. and Mrs. Henderson, Misses Ethel Lawrence, Lillian Davis, Elsie Garbaville, Mae MacWhitney, Emma Urnston, Esther Miller, Eva Brooks, Mae Arnes, Mrs. Freeman Gibbons, Mrs. David H. Trembley, and Mrs. Warren Lawrence, Leo Van Sant, Ira Ayres, John Haviland and John Hoffman.

The members of the club are—David Armstrong, Fredrick Gibbons, Raymond Howard, Robert Miller, Joe Garbaville, Chester L. Buckley, Harold Gibbons and George Trembley.

The Home Reading Club will meet with Mrs. Henry Woodruff of South Avenue, tomorrow afternoon. The subject will be Art Treasures of America.

Lincoln and Ladder Co. is making a big effort to ensure the complete success of its carnival, which will be held this year from July 1 to July 7, both dates included.

The company will have a larger and more attractive carnival than in previous years and will include a number of spectacular features such as, "On a Day's Journey into Night," which will make an ascent in its new aeroplane, which is now nearly completed. The committee will be able to announce the full program for the carnival in a short time.

PREPARING LAUNCH FOR SEASON.

Fred C. Frank is putting his large launch, Helen, into commission for the season. He expects to have a large and successful launch in a few days, and will take her out with a big fishing party on June 3.

The boat has been thoroughly overhauled, repainted and refitted, and Mr. Frank claims she is one of the best sea boats owned in the city. The boat provides comfortable accommodations for twelve persons.

WOODRUFF PROPERTY APPRAISAL WILL BE FIXED BY MAY 20TH

Tax Valuation is Known.

Alan H. Strong, attorney for the Pennsylvania Railroad, stated that he had procured the tax valuation of the Woodruff property, the valuation for 1911, and declared that they had given the appraisal commission all the information they could on the subject of the value of the property.

Commission To Fix Amount.

The commission will meet privately and fix the amount which it considers just and reasonable for the property and will report at the next meeting.

Monday afternoon, May 20, at 2 o'clock, in the Halstead building. The forms for the commission's report are made out and each only the amount to be inserted when the commission arrives at a conclusion. According to the order issued by Justice Bergen, the report must be made on or before May 20.

Report Binding Unless Appealed.

Also said that it would not be allowable for the commission to secure any evidence in the matter outside of a meeting at which both sides were present. Mr. Pollard said that the commission wanted to know what the results of the building were, but there appeared to be no way of finding out unless Mr. Woodruff was willing to tell them.

## GIMBELS

The Newest Mode in Women's Coats, and Yet We Shall Present!  
**The MACKINAW**  
 Tomorrow at \$10, \$11.50 and \$15  
 Unprecedented Prices for These Coats of the Genuine Mackinaw Cloth

The jacket of the woodmen is fashion's latest whim—and a clever and practical one at that. First of all, women will like it because it is so different and sportsmanlike in appearance. And when it is worn on the golf links, on mountain tramps, or aboard ship, its comfortableness will be a joy.

We introduced "The Mackinaw" several weeks ago at prices considerably higher than those which a large purchase has made possible for to-morrow—and then the coats were so enthusiastically received that we could scarcely keep them in stock. But we shall have plenty for to-morrow.

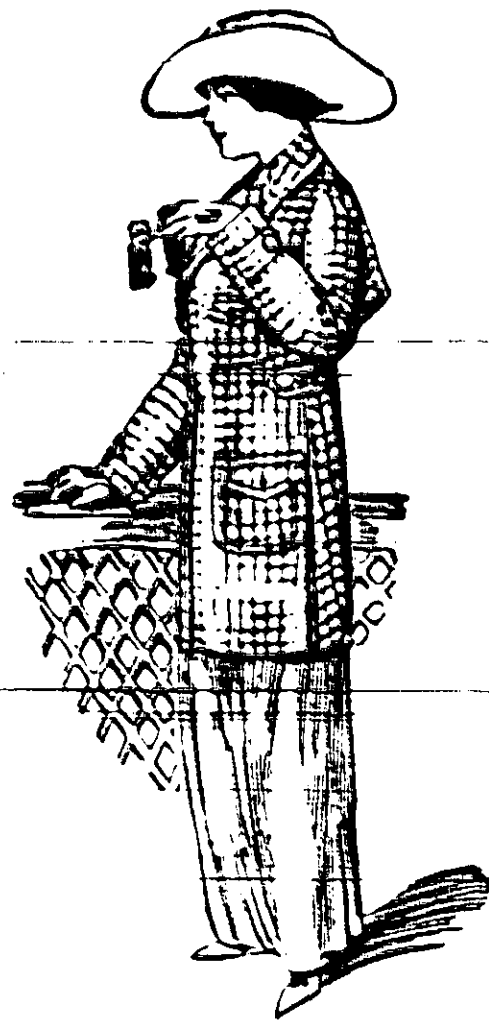

**\$10 Model**—Loose belted back, convertible collar and large flap pockets, plaid in gray and black, green and black, tan and black, black and white.

**\$11.50 Model**—Another belted style in rich plaid colors—a new shade of leather, red brown, gray and tan.

**\$15 Model**—Norfolk style, deep v-neck with either convertible or long roll collar, all white and smart checked combinations.

**\$15 Model**—The style with the hood, illustrated, in all white and these check combinations—black and white, tan and white, blue and brown, brown and tan, red and black.

**Blazer Jackets**—Special at \$5.50 and \$6.75—Finest quality American made in all the college and Healey colors. Straight jacket and Norfolk styles.

**Bounced!—300**  
**Men's Derby Hats**  
**\$1.95, were \$3**

Fine new Hats, in Spring styles, from our regular stock. Wide brim, low crowns—also staple blocks. In black and brown. Not every size in each style, but a good assortment, all told.

**\$1.95 tomorrow, from \$3**, because we need the room for straw hats. 'Twill be a good Derby Day. Also **\$2 and \$3 Soft Hats at \$1.50**

American and foreign, in so many different good styles that a man will have no trouble in picking out the hat he likes, at a good saving.

**More of the Gimbel Playing Cards at 10c**

We have been having a hard time keeping up with the demand for these excellent playing cards, which are in every respect of full 25c quality, of thin, snappy stock, and easy to deal; although we sell them at 10c a pack.

Either in white or pinocle decks, at the same price.

**Poker Chip Racks, \$1.35**  
 Well made racks, in oak or maple finish, with 300 chips of good quality—a very special value.

**Sheet Music, 7c**  
 Popular Pieces that Everyone Wants

This fine list of the vocal and instrumental successes of the day will be on sale on the lower floor of the Subway Store tomorrow, at the specially low price of 7c. If ordering by mail, please enclose 2c postage for each selection.

**1. Want to Be in Love**.—Tomorrow Land. Ragging the Baby to Sleep. After While, Lead Me to That Beautiful Land. Play Me an Old Fashioned Melody. If You Talk in Your Sleep Don't Mention My Name.
