Mr. Rollinson said that the first communication the Finance Board made to Council was a gratuitous insult, and the one under consideration is virtually in the same strain. Mr. Tutts: It is an Advisorv Board, Denike: That is just what it is. Analyses and careful examinations of Cleveland's Superior and Royal Baking Powders enable us to bear testimony to the superiority of Cleveland's. It yields more carbonic acid gas than the Royal, and contains no ammonia salts. Cleveland's Baking Powder is made of pure substances and is absolutely free from any kind of adulteration. We endorse it most cordially as an honest and efficient article, and one that will give entirely satisfactory results.
