MONEY ORDERS.

MARVELOUS STORY

TOLD IN TWO LETTERS.

FROM THE SON: "28 Cedar St., Not York, Oct. 28, 1882

Vt. He has been a great sufferer from Scrol-ula, and the inclosed letter will tell you what

Ayer's Sarsaparilla

have contained the lumbr for at least ten years; but it did not show, except in the form

of a scrofulous sore on the wilst, until about

five years ago. From a few spots which ap-

peared at that time, it gradually spread so as

to cover his entire body. I assure you he was

terribly afflicted, and an object of pity, when

he began using your medidine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case.

Yours truly,

W.M. PHILLIPS.

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the bouedt I have derived from the use of

Ayer's Sarsaparilla

Six months ago I was completely covered with a terrible humor and scrothlous sores. The humor caused an incessant and intolerable

itching, and the skin cracked so as to cause

itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My suffering were great, and my life a burdon. I commenced the use of the SARSAPARILLA in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all heated, and I feel perfectly well in every respect—being now able to do a good day's work althought? Years of size. Many inguire

work, although 73 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, Aven's Sarsaparitti. Glover, Vt. Oct. 21, 1882. Yours grattefully,

Aven's Sarsaparitha cures Scrotula and all Scrotulous Complaints, Evysipcias, Eczema, Ringworm, Biotches, Sores, Boils, Tumore, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion simulates the action of the bowels, and their restores vitality and strengthens the white system.

W. A. VESCELIUS

Hon. Joe Blackburn's first race for Congress was told the other day. Joe hap pened to be passing through Owenton the county seat of Owen County, on the occasion of the hanging of a noted oriminal. As a hanging is rather an exceptional episode in the State of Kentucky, the honorable Joe concluded he

would stop over a few hours and witness the event. The gallows was erected in the public square, so that uq citizen, however humble, should lose nu opportunity of witnessing the unusual spectacle. It was, in fact, a gala day Blackburn, as one of the distinguished guests present, to occupy a seat on the gallows. Blackburn did so. After the preliminaries had been arranged the Sheriff consulted his watch and discovered that it was not quite 12 o'clock,

the hour fixed for the execution. Turning to the prisoner, he said: "You have ten minutes yet to live. Is there anything you desire to say in The prisoner sullenly replied there At this instant Blackburn sprang from his seat, and, advancing to the edge of the scaffold, said:

"If the gentleman will allow me his emaining ten minutes I will be glad to announce myself a candidate for your suffrages. If elected to Congress-" At this point the prisoner interjected: "Say, you! Is your name; Joe Black-"Yes, Sir," responded Blackbur

said: "We won't stand on a few minutes, more or less, when the alternative is presented of death on the one hand or listening to one of Joe Blackburn's long-winded speeches on the other. The good-natured Sheriff obligingly "flipped the trap," and the next instant the desperado swung into eternity, while Blackburn clambered down the

gallows, exclaiming, as he went, that ho

Turning to the Sheriff, the prisoner

had lost the greatest opportunity of his PREACHING AND PRACTICE.

Several workingmen, some of them round & stove, which, likewise, had but little work to do owing to the mildness of the prevailing weather, were discussing the interesting questions of wages, hill times, and kindred matters. Sald the one who did most of the speaking: "I tell you \$1.50 isn't enough. man ought to get \$3 a day at the least. It I was in Congress I'd bring in a bill so 3 for a day's work; no less than that! It's no use talking," said another, "they couldn't afford to pay that much." "Couldn't afford it! Why, there's a firm in this city that cleared over \$2,000,-000 last year. Do you mean to say couldn't afford to pay \$3? I know in man that makes \$20,000 a year and only pays his help \$2 or \$3 a week, with board, such as it is, not fit for a dog,

and a place to sleep in where the rats'll cat up your hoots if you leave them on the floor at night." chance. If you was a rich man you wouldn't pay a darned cent more to your help than you had to." "Yes, I would. If a poor man asks me for a nickel to get something to out do you think I give him 5 cents? No. Sir; I let him have a quarter." "You? You wouldn't give a man a "No," answered the former, hotly. "I won't give tobacco to any one. I

draw the line at tobacco. I've sworn off. If a man makes a practice of giving tobacco he is liable to be imposed on, and a ten-cent package won t last—" But the laugh that went round the circle made the remainder of his exculpatory remarks quite inaudible. HARD WORK FOR TWO. When Nibson came home from busi

ness, the other night, he found his

somewhat better half with her head lied

up, and generally in a weary and used up condition. "What is the matter, my dear?" he gently inquired. "Oh, John, I have had such a har day's work I am completely worn but. "What have you been doing "Just shopping. I have through all the stores on Sixth an Eighth avenues, and have gone nearl the entire length of Broadway, too," "What did you bny?" "Nothing at all. I have been tryin

to match that gray silk for the from width of my new dress, but had to give it up. I am sure that there is no wor eo trying as shopping. The next night—that is to say at a early hour of the morning following the night-Nibson got home in a sad demoralized condition, shattered me tally and physically, and emitting strong odor of fusel-oil. "Wuy, John, what on earth can ha kept you out so late?" demanded nugel of the household, who say up I "What have you been doing yourself? Where have you been?"

"Jes' a-shoppin', m'dear," he ind tinetly replied. "Ts terrible im work. Went inter ev'ry doon on s avenoo, and lots of 'em on six avence, and lots of 'em on site time to match a drink of whiskey I got to dry, but had to give if up. To ain't nothin' 's half so tryin' as shoppi betcher life."

A "sweet girl graduate" wrole the owing on the fly-leaf of her tert-bond areal science: "If there should be there fly: The all the world should be submerged! wook would still be dry." "No," she said, stating her east livere lawyer, "I never did love married him beganser in kept an ream parler, and he have by salling mer coing into another business." National Democrat RAHWAY, N J., MAY 21st, 1886.

rith all colors of lining, and designs in handle and material and finish:

FOUR DON'TS!

- A little girl when recently asked her name said it was "Minnie Don't." Her mother so frequently said "Don't" to her that she thought it was her name. Still, it's a good word in its way, and we want to call your

attention to four things which please don't do. 1sr. DON'T imagine, when you want to purchase Clothing, that it makes little difference where you buy. It makes a big difference, unless you are overrun with money. Prices are not the same everywhere. Almost any store has its \$10, \$12 or \$15 Suit; but, the quality for the money—there is where the difference comes Why, we owe one half of our success to comparisons made between our goods and others. It pays to shop. But, if you dislike shopping, why buy of us at once, and we will have your custom as long as you

2ND. DON'T suppose that all that looks like wool is so. They have got the thing down so fine now that an expert can hardly tell the difference. Wool has got to grow on a sheep's back; and that's where the wook comes from of which our all-wool Suits are made. You may not be able to see the difference between ours a: de some others at the same price; but you'll find it out in

the wear--"and DON"T you forget it." 3RD. DON'T believe, or buy any goods of anybody who professes to sell at half cost. It can't be done. A merchant can no hore sell you a Suit at less than cost-unless it's an old style, shop worn thing he would be almost glad to give away-than you can afford to work for half a day's pay. We make no such foolish professions, but promise to give you the best value for your money that can be offered by any one who pays a fair price for the labor of manufacture and seeks only

a fair profit. 4TH. DON'T take it for granted that all clothes fit alike. They don't. A famous London tailor said he could take a meal lack and make a Suit worthy of a gentleman's wear." He meant that it would fit so well that the quality of the material would escape notice. And there is a good deal in the way a Suit fits, not university appearance, but also in the wear. If we were to extol our garments half as highly as many of them do, you buyers would thing we were blowing Call

and inspect them once, and you'll think they are up to the average of custom work. MCGEREOR & 950 & 852 Broad St., Newstl N.J.

National Democrat. RAHWAY, N. J., MAY 21st, 1886.

Special Correspondence of the DEMOCRAT. OUR NEW YORK LETTER. HOMES ON WHEEK HINTS TO HOUSEWIY -ENTERPRISES A LA MODE.

Strikes are in statu quo. The metro-olis moves on masse. The traffic in trucks is tremedous. The class to whom change is the annual order have small promise in the fashion of their flitting; yet it takes the fishion of the groves where form the fossils which are a bar to present progress.

Wall papers of cheerful pattern, present pleasing possibilities to those who are forced to figure losely in furnishing. All goods and chattels are cheap at the marts where wage makers buy their wares. Car-pets, Linoleums, Oil cloths, Mattings, and druggets of lufinite variety of American manufacture are purchaseable at figures which barely cover the ground of original material cost. Carpets slightly worn should

be thorout h'y slinken, beaten, or rejuven-ated, by one of the steam processes in vogue. Rip the middle seam and turn the breadths to the centre. If the selvage be slightly defaced, a bord r may be supplemented which adds materially to styl and service. Spots may be removed from carpets on the floot—by washing with a brush and suds dashed with oxgall.

Furniture too should be cleaned with warm soap suds dried quickly and polished with an oiled cloth. Window panes and mirrors washed with ammonia water and polished with soft chamois, retain their brilliance for weeks. Domestic draperies of all classes and conceits as well as the more substantial elements of home building are furnished at very low figures.

In view of the possibilities of national industry it seems poor policy to disparage the pluck and prowess of the people, who are the very bone and sinew of the corporate capitalist. It is one of those per

plexing enigmas of enterprise which only time can solve. Magnates of the Baltimore and Ohio R R. seem in nowise appalled by the present oudition of things. The processes of their proposed triumphal entree into the metropolis are being discussed and perfected by certain powers behind the throne which is greater than the throne itself! A pleasing departure after the new or-der alliance of commerce and literature comes to us in the last number of Strawbrillge and Clothier's Fashion quarterly, which is the finist thing of its kind in the field and defies competition upon a much broader basis than the Quaker city. A multiplicity of data destined to aid home makers in decorations for the interior of their dwellings are diversified and suggestive to a degree while the premiums offered in certain lines of labor and diversion are alluring to the last note of novelty. bere is also a volume specially adapted crazy patch work and art needle work,

ich is but 50 cents per year and can be btained by sending address to 804 Market work of art, and is very useful to ladies who devote their time and talent to fancy SALLIE J. BATTEY. LETTER FROM ASBURY PARK. ASBURY PARK, N. J., May 12th, 1886. MB. Epiton: Upon the approach of spother summer season, we once more report progress and improvements in every detail in our local affairs. This is a time of bustle preparation, merchants and hotel kerpers are completing their arrangements a contemplation of a busy and prosperous eason, and numbers of carpenters, painters and other mechanics are busy here and there adding the finishing touches to the winter's work. Several new buildings have been creeted, and a general air of newness, quite characteristic of spring, pervades everything. The beaches, pavi-lions, streets, houses, all bear witness to

this, and the recently erected water works distribute pure Artesian water through every street in the city, for fire purposes, street-sprinkling and for private consump-The beaches here, as well as in Ocean Grove, were greatly damaged by storms during the winter and early spring. The entire sea-front at Ocean Grove has washed back several yards, demolishing the plaza its whole length, and destroying the pavilions, sewer outlet and many of the bath-houses. The sand was so much washed away as to expose the underlying stratum of bedrock doing irreparable ic-jury to the bluft. In this respect, Astury Park has suffered much less! The plaza and most of the other improvements are still intact, though threatened at one time with destruction by a great washout. Some buried wreckage which was unearthed during a recent gale, caused much damage to the Asbury avenue pavilion and Library oicr. Opposite Sixth and Seventh avenues

fins been washed away to the extent the crip to the eash line of Ocean avenue. Across the gap thus formed, the plaza stretches like a bridge while the waves break at high tide directly beneath waves break at high tide directly beneath, twelve feet below. At this point a large ball of iron twenty inches in diameter, much corroded, was unearthed by the water. A few links of a gigantic chain is attached to one end, and a ring is fastened to the other. It is supposed to have formed the anchor of some ancient craft, though nothing is known of its origin or use. Sand is now gradually being washed in at this point, and all danger to the plaza in now Never before was the Coast City so well prepared to extend a hearty welcome to ier many summer guests. Everyone looks forward to the rapidly approaching sea-son, with its pleasures and festivities, its troubles and responsibilities, and with de termination to meet and conquer the inthis rock," &c., to the hordes of sanguine, pary pleasure-seekers who will soon fre

ent every corner and place from lake to lake, and from Ocean to railroad. There was an omission in the com mittees of Common Council as published last week, and we re-publish them com-Assessments-Housman, Tufts, DuRie. Streets-McManus, Shipman, Farrell. CLEVELAND SUPERIOR BAKING POWDER DOES NOT CONTAIN LIME,

AMMONIA, OR ALUM.

Cleveland's Superior Baking Powder, manufactured by Clevelanc Brothers, Albany, N. Y., is absolutely pure and wholesome. It is made only of strictly pure Grape Cream of Tartar, Bicarbonate of Soda, and a small portion of wheat flour, and does not contain Ammonia, Alum, Lime, or any adulteration whatever. The Cream of Tartar is refined by a new process which frees it

entirely from lime and every impurity, and is obtained in the pure crystals and ground in our own factory; the Bicarbonate of Soda is prepared expressly for us; and to ensure uniform and absolute purity of our baking powder all the ingredients are subjected to searching chemical analyses and none used unless proved to be perfectly pure. In confirmation of the above we publish the following from the able and reliable chemists of the New York Produce Exchange: "We are analyzing all the Cream of Tartar used in the manu-

facture of Cleveland's Superior Baking Powder, and we hereby

certify that it is practically chemically pure—testing as high as 99.95 per cent. and not less than 99.50 per cent. "Front a hygienic point of view we regard Cleveland's Superior Baking Powder as the ideal baking powder, composed as it is of pure Grape Cream of Tartar and pure Bicarbonate of Soda.
