By JOHN STRANGE WINTER. CHAPTER XXII.—CONTINUED. "Innocent men have been hanged be-fore today, my darling, and your father feels it," said he, more full of pity for

her than of sorrow for his own broken hopes.
"But, Jim," she cried, eagerly, "did you not tell father that you could prove yourself innocent at any time?"
Beautiful Jim shook his head. "No, I did not tell him that." But why?"

"Ohl no. I shall tell him. Yes, it is no use trying to persuade me against it. I have made up my mind to do it. It is all very well to be generous and merciful to others; but I ought to be your first thought, and it will be but a poor sort of generosity to secure some one their peace of mind at the cost of breaking my heart." "But he will certainly deliver son up to justice," Jim persisted.
"And if he does, does not that person "Why deserve it?" she said, passionately. "Why should the innocent have to suffer for the

guilty? Or if some such must so suffer, why should it be you and I? Why not the - No Jim. I have made up my mind. I will not let you lie under this suspicion a day longer. In fact, I tell you frankly and honestly, that I cannot understan your being so weak about the whole affair." For a moment Beautiful Jim did not say one word. The little clock on the chimney shelf beside them, ticked loudly

and cheerily on, and Nancy was resting, tapping her foot upon the fender. Jim felt that he must speak, at least that he must convey to her the necessity for no speaking to her father further than he No Extra Charges. had arreauy how to begin.

"Nancy," he said, thus urged, "you know you are making it horribly hard for me. Oh! my dear, my dear, why can't you, or won't you understand that it is impossible for me to say a word about my power to clear myself to your father, and I imperative that you should not do so, She had not fully grasped his meaning and yet she realized that there was truth in his words. Her face grew pale, and full of love and sadness.

her lips stiff and strained, as she stood looking straight into his honest eyes, so "What is it?" she whispered. Jim put his arm around her and held her closely to him.
"Must I speak more plainly?" he asked "Yes? Oh! my darling, I am so sorry, so grieved to say it—but he is the one person in the world to whom I could not tell t, except in the face of the most dire danger."
"It—was—not—our—boy?" she whispered, painfully; and for answer Beautiful

Jim did not speak, made no gesture, no sign—only he looked at her with an infinite and tender pity shining through the love which filled his eyes. CHAPTER XXIII. FOR THE OLD MAN'S SAKE.

Undoubtedly it was the most bitter mo ment which had ever come into Nancy Earle's life, when she stood tightly clasped in the arms of the man who lo true story of the terrible murder which had taken place in Walmsbury barracks; when she learned with shame and anguish that it was no other than the last of he proud race who had done this damnable and cowardly deed. She was so ashamed! That was the key note of her thoughts—shame, only shame. Although she had not known it, she had been proud of her faith and trust in the man she loved—she had unconsciously been thrilled with a delightful sense o

pleasure in her own brave faithfulness, which could stand up, though all the world should be against him and all the evidence of circumstances might conspire to do him to death, and yet say: "I love this man—I believe in him—he is incapa-ble of this vile thing that is laid to his and noble in her love, and she had felt that, come what might in the after years, he could and would always feel that the woman he loved had never wavered in her trust of him! And then, after all, to find out that he had kept silence for her sake and for that of the old father who had borne his good name as a bright jewel to be guarded and treasured, that he had kept silence in the face of a charge which borne his good name as a bright jewel to be guarded and treasured, that he had kept silence in the face of a charge which could, and most probably would, cling to bim all the rest of his life; Oh! it was a bitter, bitter blow to the girl who had been reared in pride, and whose training had been one of honor.

Duck's Tail, and the part which she had taken in the tragedy.

"I must see her," she said. "I must do something for her; I wonder what it is possible I can do? She must be a good woman, a very good woman, or she would have used her knowledge to marry him before this. Anyway I must see her." In those few minutes of reflection she went back over the years of the past, the years during which she had willingly stood on one side for her younger brother because he was the last of the Earles, be cause he was a boy and she was only a as to the manner in which Nancy might girl—a girl—a thing of no particular im. have taken his decision. He went into portance, and though she was an Earle the room where they still were together, like him, yet she was an Earle who did not count. There was no thought, or room for such in her mind, of pity for any temptation which might have led him excuse. "You see we had a good deal to to do this horrible thing—she had no feeling of mercy toward him. Oh! no, only a

"You must tell my father," she said, decidedly. "Yes—yes—I know all that you would say. But I am doing what I know he would like best if he knew. It will be an awful blow to him, but he would hever forgive me if he found out that I had kept such a thing from him Beautiful Jim shook his head.

"I will not tell him," he said, firmly. "In the face of suspicion he has trusted me, and I will not reward him in that way. I could not, my darling, even for "But if he were to find out," she began, "Then he never must find it out," re-joined Jim, firmly. "Who is to tell him?" "I will." said Nancy.
"It will be his death blow—it will kill him! He has always been the best of fathers to you, and for the sake of that young?—he broke an ugly word off here and substituted a milder one for it—

or him?" she cried, incredulously.
"Yes, that I have," Jim answered. "It is no light matter to have murder on your mind, and he doesn't look as if he found "Ah! you don't know him," Nancy cried.
"I do. He is like an india rubber ball—
while you hold him tight he is crushed
and quiet, but once release your grip of
him and he is as full of bounce as ever. If he knows that you know, I can well be-lieve that he is humble and abject to you. That has been his way out of difficulty an danger over since he was a boy—a baby; but now that he is out of your sight, I would not mind staking my very life that he is filrting with one of the Leslie girls at this moment." "Not at this moment," said Jim, smil

ing sadly, "If you would be very accurate, that is—but likely enough he is thinking She flushed up angrily all over her fair face.

"I can not understand you," she cried.

"He was your friend, your best friend—and yet you willingly let his assassin go free—you"——

"Don't you understand that your brother is sacred to me!" Jim asked, gravely.

"For himself, for his sake, I would not have held my hand one moment, and he knows it. Right willingly and cheerfully would I see him langed to morrow—nay, this very day."

this very day."
Nancy shuddered at the dreadful word, but she did not attempt to speak, and Jim "But he is your brother—that made him

safe from me in the first instance; now, since your father has shown me such trust and generosity. I could not betray him except to save my own life; even then it would be a hard task for me to be com pelled to speak." And then poor Nancy broke down altogether, and began to weep bitterly and passionately, and somehow Jim got his arms round her again and drew her head down upon his breast, soothing her as if she were a weary child in distress. "There, there, my darling, don't cry so," he murmured "At least let us wait a little while and see what happens. We are young, and it may only be a little time to wait, and if we love one mother

"I don't know how to say it," he said, always, it will sor go past; and it is not as if we were to be kept apart altogether. "It's so hard," she sobbed; "and are you to be under this hideous suspicion while he flaunts about as 'the last of the Earles?' And is my father to put all his trust and faith in him blindly and believe in him still? Oh! I know how good, how unselfish you are, Jim, to do this; but it indeed. I am sure nd good will ever come of it. And what am I to say if—if—oh I mean when they say that you did it!
And people will say it, Jim; I know it." "But their saying it won't make it true," he said, quietly. And, after all, you can know. And, Nandy, my dear love, do you think that I shall lever forget that when all the world might have been justified in being against me you were my own brave, loyal hearted derling, who believed in me apart from all the evidence that seemed

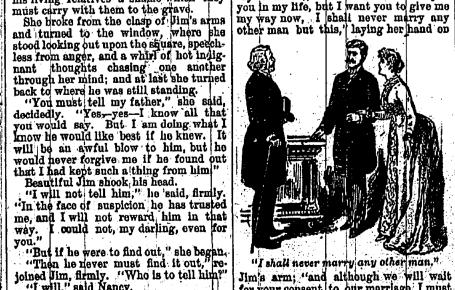

to be against me—do you think that I shall ever forget that? Oh! my love, my own darling, how little you realize what my love for you is if you can think so for one moment." And thus Beautiful Jim won the day, conquered in the battle, against his own interests, against all that would have made him the happiest man upon God's green earth that day, and after a little while Nancy got over her first burst of indignation against young Tommy, and became more calm and collected. And then she was in a measure able to realize Beautiful Jim's real worth, to have some idea what a brave, true hearted, honest gentleman she had won for her own

"But." she said suddenly, and in stern, determined voice, "there is one to do, for I never will. That is, as long as I live, to acknowledge Stuart as my brother. When you go back to Blank hampton you must tell him that I know the truth, and that so far as is necessary to blind my father I will behave to him as have always done; but out of my father's presence he must distinctly understand that he is, for the future, dead to me. have consented + unwillingly, as you know-to help to hide his crime for my old father's sake, and for that alone: bu I have not yet sunk so low as to liave any dealings with a criminal. So make that absolutely clear to him, and tell him, too, that I am bound by no promise of secrecy— and if he in the smallest way presumes upon the knowledge that we wish to keep it from my father. I shall have neither hesitation nor compunction in speaking out at once." "Very well, I'll make it clear

said Jim, quietly. And presently she asked him to tell her the precise details of the terrible event, and, after a good deal of persuasion, Jim compiled and did so. Then, for the first time, she learned all there was to know about Rose Meeking, the bar maid at the Duck's Tail, and the part which she had before this. Anyway, I must see her. It will not be easy unless she comes to town, but it must be managed somehow."

It was not veryllong after this that Mr. Earle returned from his club, if the truth be told, in a very uneasy frame of min

and Jim got up with a sort of apology for excuse. "You see we had a good deal to talk over, and"-"As long as you like, as long as you like, my dear fellow," the old man cried. "I am only very sorry that"
"Father," broke in Nancy, "I want to
say something. I have never disoboyed
you in my life, but I want you to give me

contempt for, and such an aversion to, the young scoundrel, that if he could possibly halp it he never addressed him, or even allowed his eyes to rest upon him. Still, as I have said, so it seemed to Tommy; and it was not until Beautiful Jim went off for his short leave that the lad began it has the with anything like freedom. to breathe with anything like freedom. But as it is but a step from the sublime to the ridiculous, so it was but a step for Tommy's light and buoyant nature to slip from the depression which was the result of Jim's presence to the gay and airy lightness of his usual demeanor; and then it was that Blankhampton society was able to welcome him to itself again.

Now mind, it was not that Tommy had in any way got over the horror and dis-tress which the Walmsbury tragedy had caused him-not at all; it was only that he had a very singular and adaptable dis-position; and after the first great/dread of scovery was over and he realized that, for his people's sake, he was safe from Beautiful Jim's wrath, he began to smooth the irrevocable past over, to whittle away a motive here and to heighten an aggravaion there, until he at last began to feel that, so far from his having committed a crime in being the actual cause of Owen's death, Owen had behaved with really

vindictive and remarkable shabbiness t dim in being knocked over by the dumb poor old Owen had some to harm, but undoubtedly Owen had always had a particu larly disagreeable way of interfering in matters which did not in the smallest degree concern him, and, of course, as all the world knows, when follows will do that sort of thing, they often come in for more than the bargain for. All the same. he was sorry enough about poor old Owen, whom he had liked very well on the whole and he would have given worlds to have undoug or averted such a deplorable acci dent-yes. Tommy always now thought o Owen's death as a pure accident; it was such a much more palatable word than murder, which had something coarse and revolting about the very sound and look of it-but since that could not be, he had come to the conclusion that it would be simply useless to worry himself into s fretting about it. So you may believe, after Tommy had arrived at this decision, that it was not

very long before he took to the old ways. and the pretty drawing rooms of the pretty women in Blankhampton knew him With regard to the young lady at the Duck's Tall at Walmsbury, it can only be said that Tommy had already come to ook upon the recent events of the past as distinct intervention of Providence to save him from the consequences of the dull and dreary life into which he had been mercilessly thrust. And the odd part of it all was that he had meant seriously enough to marry her, to make her the mistress of Earles Hope, and the pos sible mother of the Earles to come. Well, that had been an escape fo which he could nover been sufficiently grateful-never; and, although he had no oubt that she could, if she chose, make herself uncommonly disagreeable, that sort of person is always open to being "squared," and happily he would always have the power to settle matters with her n that way, So when Beautiful Jim, in great disap cointment and yet not wholly sad, went ack to Blankhampton, he found young

"All right," returned Tommy, "will you come to my room or shall I come to So to Jim's room they went, and owner turned the key in the lock so as t secure them from interruption. Just at first Tommy tried on the old air of jaunty equality. "Well," he said, settling himself in the most comfortable chair that the room contained, "I suppose you've nothing especially pleasant to say to me, chi I don't expect it in the least, so I'm prepared." "That's as well," said Jim, shortly, not looking at Tommy at all, but at the pipe he was filling; "for what I've got to say you'll find devilish unpleasant—I should, it least. You probably don't know why thing," returned Tommy, trying hard to keep cool and unconcerned, and only suc-ceeding in looking thoroughly ill at ease. "Ah! I thought so," said Jim, drawing

means by 'your doing anything that she "Not in the least, except for the usual want to marry—the girl at the Duck's Tail. for instance." 'Oh! that is altogether dut of the question," said Tommy, in a relieved tone and with a "last of the Earles" air about him. "Yes, I'm sure it is," said Jim, "for to go for the usual thing at all. I went to isk your sister to marry me." For a moment young Tommy simply gasped; all the "last of the Earles pride seemed to stiffen him, and mingied with t was a curious contempt that any fellow marriage with you would be. Least of should be thinking seriously of marrying his sister. Then the advantages of the connection flooded in upon him, and he the Leslies, so you had better let your at-tentions cool off in that quarter."

You know it; so be warned in time, and be sure that your sister "I quite admit your sister's inferiority to the young lady at the Duck's Tail," said Jim, brusquely; "but you see you were beforehand with me there. However, your sister did accept me." "I'm awfully glad—let me congratulate you, old chap," cried Tommy, effusively, holding out his hand. "And when is it to be?"
"When I am free from any fear of being replied and very properly too. And I'll tell you; Earle, the very first thing you've got to charged with Owen's murder," replied Jim, coldly, and taking no notice of the the false idea you've cajoled yourself into

"Nothing," Jim returned. "For myself, I don't know that I should have told you about it at present, only your sister charged me with a message for you." "Yes," said Tommy, breathing more locked the door, as an intimation to reely. "And it was"—— Tommy that the interview was at an end. freely. "And it was"—— I had to tell her, you know," said Jim, looking straight at him.

All the fear came back into the lad's eyes again. "You told her-Nancy!" he gasped. Good God! You must have been "I don't think so," said Jim, icily. 'And I would leave that name out of the question if I were you—it doesn't sound well Well, as to telling your sister, as

a matter of fact. I did not tell her—she found it out." "How?" Tommy hardly spoke above a whisper, and his heart began to beat so fast that he was nearly suffecated. "Well, I naturally told her that I was not the man who murdered Owen." And then she expressed great anxiety lest I might fall under suspicion again. So, in order to reassure her, and not in him! He has always been the best of fathers to you, and for the sake of that young?—he broke an ugly word off here and substituted a milder one for it—
"that young idlot, would you reward him thus? No, my child, I am sure you will see that it cannot be! Besides, he is so old and we are young. We can wait a little for each other."

There was a long and death like silence; but at last Tommy looked up. "And what is she going to do?" he asked. "Nothing!" returned Jim. "She is going to wait. But she charged me to tell you that she forbears only for your father's sake; that she has neither pity nor mercy for you that, but for him, she would willingly deliver you up to justice to-morrow. J But Beautiful Jim soon found that Tommy was incorrigible. True, warhed by the threat conveyed in his sister's message, that young gentleman had al-most entirely ceased his visits to the Leslies home and his attentions to the Itelies' home and his attentions to the blithe and bonny daughters thereof; but apparently his mind had quite (as a general rule, that is to say) thrown off the events of the past, and he was having just as good a time as he had over had. Only he was careful, unless Beautiful Jim was safely out of the way, to confine his flirtations to the married women, to whose flirtations to the married women, to whose the same privilege, but young Elizan rul, N. In truth, the lad was anything but any holders, Briani, Doty, Donahue, Houston, Jones Kyte, Kleiuhans, Pierson, Vanderlieck, Van Saun houses—being such a mere boy—he was In truth, the lad was anything but anxalways welcome.

Just about this time Polly Antrobus' and sister had been in town it is probable wedding came off, and she was, with that he would have begged hard for leave and have made his farewell to them and other farewells at the same time. But being at Earles Hope, and slond Tommy had no heart for begging a favor of his colonel, whom he knew disliked him that he might go and face Nancy and all the

And, in answer to the old man's anxlous inquiries, he replied that he was afraid Earle had not the most remote chance in the world of getting even six hours leave out of Blankhampton, while to Nancy he confided the fact that her brother had not got leave because he had. to his knowledge, not asked for it.

"No; the the fact was, I thought, not being much of a favorite with the chief, that he might have a good deal of difficulty in getting have a good deal of dimentry in gotting that or any other privilego, so when I got mine I put in a word for him. I thought your father would certainly be very anxious to see him. However, the colonol cut my hint precious short. 'If Earle wants leave, Jim,' he said, sharply, 'he can at least ask for it; and so, of course I hadn't any more to say, though guessed from that that the young beggar wasn't keen to come home at all." Nancy understood her brother's feeling well enough; she knew that he lacked courage, after what had happened, to come home and face his gallant old fa-ther's honest eyes; she knew that he did not dare to face her at all. It was, therefore, with a pang of dismay that within ten minutes of saying good by to her Jim, Mr. Earle came to her and told her that he had given her maid and his man orders to be ready to start for Blankhampton by the earliest train in the morning, "which passes Marchton" (their nearest railway station) "at twenty minutes past 0," he ended, briskly.

Nancy stared at him for a moment simply speechless with surprise. "But father, my dear," she exclaimed, "It will

However, he had no excuse but to go through with the day as best he could— although he wished himself already in Burmah over and over again, and fairly hated Nancy for the part which she played, giving him a limp hand for an instant: without a shake in it, looking right over his head when she spoke to him, giving him the edge of her jaw to kiss if he wished to do so. Only once, indeed,

did she look at or speak to him fair or "Stuart," she said, sharply, when they were just back to town again, "the alone. Do you understand?' "Can you arrange it?" he asked, sulkily, not daring to refuse.
"Yes. Mr. Beresford is coming at that time also, and I will take you into my bedroom while I say what I want to say to you. It will not take me more than

"Oh, perfectly," returned Tommy, with a sneer. The sneer roused every feeling of evil that had sny foothold in Nancy's gentle heart; they were not many, but they were enough to make Tommy thoroughly uncomfortable for the rest of that

Then was Nancy's opportunity, nor did she neglect to take advantage of it. 'Oh;

Jim bowed, and made some polite rejoinder, and Nancy, went briskly out of the room, followed by Tommy.

They found her maid busily arranging her gown for the evening. "You can go down for half an hour, Susan," said Nancy, and as the maid obeyed, closed the door behind her and turned the key in the lock. Then she went across the room to Tommy's side, and surely, if Beautiful Jim could have seen her at that moment, he would not have found much forgetful ness of the past in the sternly compressed.
