High Grade PIANOS

TT will be conceded by any one in the trade willing to give you a square deal that this store represents more good makes of pianos and carries a larger assortment of really high grade instruments than any piano store in New Jersey.

These splendid instruments are housed in the most beautiful piano rooms in the State. Here you can see them to excellent advantage and hear them played by experts and have their qualities fully explained to you.

Included in our piano family are these well-known makes-pianos that have stood the test of time-a number of them having been in the market for more

We shall have later and more interesting information to offer about some of the commissioners and their public acts in later issues of this publication. When commissioners sell out the city for private gain as some commissioners do men besitute to do, it is time the people were informed. Commissioner Hoffman knows fairly well what the old Board did in the matter of the purchase of a high school site and the matter of adopting a beating system. It ought to keep him fairly busy explaining to the public just why he deliberately energions the interests of the city in these affairs.

majority of the citizens will give him the highest praise if he will exercise wirtually repealed the previous ordinance compelling the muzzling of dogs. The interests of 4,549 people certainly are of more importance than the interests of five or six hundred dog owners and their friends. One woman who signed the petition to Common Countil on Tuesday night said that she did so because her neighbors' does were not mustled and she did not choose a signer of the petition stated that her husband dared not either but on or remove the mustle from their dog; that she had to do it herself in every instance. This means, then, that a dog that the owner dares not handle. shall bereafter be allowed at large to attack children and others at its pleasure. It is to be bosed in the course of time that Councilman Bartlett and his friends will find something more worthy of their time and attention of the best and most intelligent service. Picarunish affairs like the protection of the pupples against an inconvenience are about the problems that meet their capacity, and if the News-Herald is not very much mistaken. Conneilman Bartlett has landed on the job which will test his capacity to the stmost. Anything beyond the protection of the pupples we feel might cause him the sensation of brain-fax.

The News-Herald, contemplating the engagement of a lecturer on the subject of compulsory vaccination, addressed a letter, with stamp for reply, asking each member of the Board of Education if he would consent at the ment meeting of the Board to the use of the Auditorium for that particular puriose. It was desired to learn their decision so that arrangements could be completed without delay. Of all the members of the Board, only form an opinion without advice. One of the latter has changed his opinion marest in the city until he first learns what the others are going to do and say A man rapable of bolding an important office should have a mind of his own and be willing to state his position openly on every public question. The Republicans of Rahway being without a medium of general circuistion to reach the masses, it is the pleasure of the News-Herald to offer the use of its columns for a reply to our charges in the last edition in connection with the increased tax rate. We assume that the reply will be based upon facts and susceptible of proof, but we shall take no responsibility for the accuracy of the figures; also we contend and believe that the policy of the Republican party, especially in the State, and in the nation, is a policy of extravagance.

The Finest Goods and the Lowest Prices

S. PLAUT & CO., are recognized as a house that maintains a single high standard of merit in its wares all the year 'round, year in and year out. This applies with equal force and truth to its lowest

priced merchandise, as well as to its more expensive lines. It may not, perhaps, be known to all that this old established concern carries assortments of some of the highest grade goods on the market. For example, a woman, if her needs require something particularly fine in ribbons, has a range of selection at this store up to as high as two seventyfive a yard; or lace handkerchiefs up to twenty-five dollars: hosiery up to five dollars the pair; merino underwear up to five dollars the garment; laces up to ten lifty the yard: waists up to twenty-two and a half; and up to eighty-five dollars for a trimmed hat.

Or a man may find neckwear here in the most exclusive styles and patterns up to as high as two dollars: hosiery to two dollars the pair; and America's standard collars and cuffs, the "E. & W."

In these finer lines it is, of course, not the price that establishes their superiority, but the very exceptional beauty. style or workmahship—or all three—of the articles quoted (which have been selected with the utmost care in many foreign centres as well as at home), to the end that whatever their patrons may care to choose, according to their wishes, may it entail merchandise of the highest cost or the less expensive kinds, they are still bound to get the best that the stipulated amount of money they have to spend may buy. Which is why the L. S. Plaut & Co. store, as a store, is equally popular with all—pay they little or much.
