It is without question the most talked of magazine in the country today. Every month the leading newspapers throughout the country devote large space in reviewing the articles which appear in its columns.

In addition to political articles every item contains a mass of general magazine articles and finely illustrated stories by the greatest living magazine authors which makes it the equal of any ten or fifteen cent magazine, and a' welcome visitor each month to every member of the family.

to infer that Mr. Furber contemplated today and the laylessness and sickness disposing of the News-Herald. Such a possibility is most remote. The News Herald is engaged in a fight for civic purity and decency in Rahway. and the fight has only just begun. Every day brings new supporters and new recruits to the ranks of News-Herald readers. Every issue shows increased advertising patronage. Every issue opens up new opportunities for those who are interested with us in removing the possibility of graft (petty or grees) in municipal affairs. That it may become necessary to remove his family to Plainfield in order that he may educate his children without interference from a lot of half-baked grafting medics who are blind to the advances going on around them and deaf to all testimony against the nefarious practices of their profession, is not unlikely.

In Plainfield the Board of Education respects the conscientious belief of its ditisons that they have the right to control their own bodies—a right Written by William C. The Frelinghuysen Senate Investigating Committee is scrutinizing the records in Elizabeth and it may be that the commissioners have decided it to be unwise for the practice to grow into a confirmed habit. That it has been done is not questioned; that it was unbesisessitive and uniawful we believe is also unquestioned.

From the Trenton True American we are reproducing a business talk by Wm. C. Freeman, one of the greatest advertising experts of the age. His idea of the relation of a newspaper to its advertisers corresponds so fully with our own, and with the well known practice of the News-Herald that is suite natural we should place it before our readers as added proof that we are on the right track. The duty of a newspaper to its readers must be paramount; by making it so the paper becomes more valuable to the adver-

oct zgo, Mas, w abeth, who had four days previously received a piano from us, said: "Already the atmosphere seems to be changed in our home." Can you doubt it? Can you conceive of a piano being brought into your residence without bringing with it a new life interest, a new culture, a new

If there be no piano in your home now. or if the piano there be not satisfactory, there is really no Christmas problem for you. You should have a piano—a delightful gift for every member of the family in common.

Come here and select a piano for Christmas delivery. It will be sent home on the 24th, or earlier if you prefer. We have a vast storage room already filled with pianos that have been purchased for Christmas delivery. By all

Pianos, PIANISTA Pianos, CABLE Pianos, LLEWELLYN Pianos; etc. We have easily ten times as many pianos in stock as you would find anywhere else hereabouts.

Every piano in our vast collection is soldon a legitimate low profit basis. We do not do business on the plan (that is followed in many piano stores) of greatly inflating the price of each instrument, and being "nice" by giving you \$75 to \$125 through such "pyilanthropies" as dot-counting "contests," so called "club plans," gold bond "certificates," geographical "puzzles," or other schemes designed to defraud

We arrange easy terms of payment on any instrument you may like without charging interest, without requiring security and without asking you to sign notes. A first payment of TEN DOLLARS in the great majority of instances will prove satisfactory to us.

Our warerooms are OPEN EVENINGS until Christmas. By all means visit us as soon as possible.

You have but to investigate the LLEWELLYN Flame that we sell at \$195 to \$600, according to style, and compare it with planes seld ordinarily at \$600 and \$275 to appreciate how great is the secondary for you in purchasing a plane from Mi.
