Change in Billing "Foreign Messages."

COLLOWING the suggestion of many of our subscribers, that bills for tolls, or "foreign messages," be rendered as promptly as possible, we are adopting a new method of billing for such messages. Heretofore charges for "foreign messages" sent during any month have appeared on the bill for the second month following, or, some thirty days after the "foreign messages" were sent. After a careful study of the whole accounting problem, a change has been decided upon, by which the billing of "foreign messages" will be brought up to within ten days of the end of the month during which

To make this change effective at once, and to bring the billing up to date, the bills to be sent out February 1st will carry charges for "foreign messages" for the month of December, under the old method, and up to and including January 20th, under the new method. Subsefrom the 21st of one month up to and including the 20th of the next mouth. Per instance, the March let bill will lacinde such charges from January 21st up to and including February 20th.

In addition to bills being rendered as promptly as pos-

BEAVER RANGES ARE BEST BY ACTUAL TEST

The bane of common ranges is their uncertainty—you are never sure "where you are at" with them. Sometimes they burn flercely; at other times you can't get any heat. Why not have a "worry-proof," easy-working, smooth-working range like the "Beaver," when it costs no more than the other kind. Don't be a slave to your range, but get "Beaver" and have liberty.
