Weedrew Wilson Cheered The most noticeable feature of the evening was the absolute absence of any evidence of partisan spirit or bitterness. Every time Governor Wilson's name was mentioned it was cheered to the echo and Senator Cummins took occasion to say that Progressive Democrats were fighting the same battles and with the same purpose as Progressive Republicans.

The toastmaster declared that, Wilson has done, we care as little of his politics as of the color of his hair." He also made an interesting statement when he reminded his audi ence that in every state where Progressives were in control at t last election the Republicans were successful. He might almost have stated the converse to be true.

To a person of sensitive ear the quality of a piano is of the highest importance, for a piano is capable of giving the highest pleasure or the reverse, to all who may be within hearing. When you consider that the piano that is to enter your home is to become a life companion of every member of the family, you are obliged to concede the grave importance of fine quality.

It is because LAUTER pianos are of superlatively beautiful quality that they have secured for themselves the esteem of every pianist, every vocalist, every music lover who examines them. The LAUTER quality is patent to everyone.

The tone of the LAUTER piano is a joy to the listener, for it is rich and liquid and singing and round and sonorous and powerful, just as the performer may demand

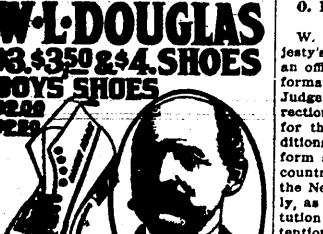

Just as the tone is beautiful, so is the modulation perfect, so is the finish of details faultless, so are the case designs harmonious and pleasing.

If you would learn more about this exquisite piano, let us send you "The Lauter Piano Book" a bound volume of 200 pages. It gives interesting

- their evidence in favor of the change. "Governor Wilson, in his message urging the passage of the Walsh act, which is practically the Des Moines charter, told the people of the State that its adoption would "enable them to simplify the processes by which they choose their officers and thus concentrate responsibility in the interests both of purity of administration and of efficiency." Experience elsewhere had shown, he said, that the change "has enabled the voters to exercise a real control, and has stimulated efforts at economy and businesslike reorganization," and has also made it possible for the people "to correct the mistakes of their Governors, to adopt measures upon their own initiative when necessary and to recall from office un-

natisfactory officials." "While Lafayette Young was United States Senator from lows, he told that body about the success of commission government in his home city of Des Moines. There is no stronger standpatter in this country than Mr. Young, yet he took occasion to say: "We have cut out all boards and commission. We never complain to paving inspectors; we complain to the commissioner having charge of the work. We never go to the subordinate; we go to his boss. . . I indorse the recall feature as applied to municipal governments: I do not indorse it in a wider field. We have the initiative and referendum. I think these pro-

visions might be beneficial in cities, but wholly impracticable in States. * * Governing municipalities is a business proposition and in no sense political. Cut out the city council. Ninety per cent. of all municipal functions are executive and not legislative; yet every municipal government has been organized on the supposition that at least one-half of the municipal functions

On the question of commission government, at least, the progressive and the standpatter have no need to differ."

Our neighbors of Woodbridge have spunk. When their officials perform their duties acceptably the people hold an indignation meeting and protest. Their protests are successful and the officials take a back track and correct their mistakes. If the WOORBDIDGE. Rahway Common Council repudiates the work of the Elevation Committee and passes the ordinance as drawn by the railroad company it will be up to the people, especially of the First Ward, to protest vigorously. The ordinance should be drawn in the interest of Rahway and not in the interest or for the protection of the Pennsylvania Railroad Company, which has always held the city in contempt and has treated it as though its rights were of no importance whatsoever.

nor put it in boiling water. Just wash it carefully in Fels-Naptha suds, made in cool or luke-warm water. and it will come out as bright as new. But be sure not to use hot water with Fels-Naptha!"

The Fels-Naptha way of washing gives the clothes a fair chance.

The old-fashioned way is destructive because it first softens the fibre by boiling, and then subjects it to the telling rub of the washboard.

With Fels-Naptha soap there is no boiling nor is there the hard back-breaking drudgery of the washboard.

Just rub Fels-Naptha soap on the clothes, roll and place them in cool or lukewarm water. Half an hour will be long enough for the soap to do its work. Then a light rub, thorough rinse, blued and the clothes are white, pure, and ready to hang out. And you'll find Fels-Naptha just as good for every other kind of household cleaning. Follow closely the easy directions on the red and green wrapper.
