When one is bargaining for large stakes it is customary to take time and take advantage of every opening. If the city can get Monroe "Scoland is Burning," characterized street opened at the expense of the Railroad Company why not do it? Shall a mere desire to vent spite on a certain Councilman be allowed to interfere with the welfare of the city?

It is said on good authority, that the only thing that stands in the way of an ordinance providing for the opening of Monroe street at the expense of the waite. Railroad Company, is the feeling of certain Councilmen and certain of their supporters, against Councilman Martin whose mother happens to own some of the land that would be required for the purpose. That this condition does exist is best proven by the remark of a certain citizen present at the last meeting of Council, when a resolution was passed eliminating from the ordinance all that part referring to Monroe street. He said, in substance, that "Council had finally gotten even with Martin." Is the city's future prosperity to be sacrificed to such motives and to the desire of certain property owners on Cherry street to prevent the opening of a new street that might weaken their hold on the traffic from the First Ward? The Com-! mon Council as now constituted is a body of men devoted to serving five conflicting interests. Every move of Mayor Howard, backed up by Councilmen Martin and Valentine and occasionally by one or two other members, for the protection and advancement of Rahway must "buck up" against a stonewall of opposition from men who have a fire company, a dog owner or some other pet supporter whose idea must take precedence over the rights of the people as a whole.
