Anty Drudge-"Quite true, my dear, and the way to remedy that is to use Fels-Naptha in cool or lukewarm water for all your housework-for washing dishes, windows, floors, all house-cleaning, and washing clothes. It will save your hands and the work will be much easier."

A soap that spoils hands and temper can't be good for clothes. You need a soap that won't hurt any one of the three!

How many racking hours you've spent at the wash-tub! And while you were wearing away your strength, you were wearing out the clothes! That's the KILLING way of washing clothes.

But now the Fels-Naptha soap way: Soap the clothes with Fels-Naptha, let them stand for 30 minutes in cool or lukewarm water. Rub lightly, rinse and hang out to dry.

You'll find that Fels-Naptha soap has done the work. Try it next Monday. Best for colored clothes as for white things. Follow the simple directions on the red and green wrapper, and you will be con-

THE ADVOCATE SAYS

"The arrack made upon the Volunteer firemen in a local paper last week in connection with a report of the fire in the Royal Manufacturing Col's plant on Memorial Day caused intense indignation among the firemen, and citizens generally condemn the article, as not only unjust but calculated to seriously injure the city. While it may be true that some of the dro dichters indulered in intersecutes, no one who witnessed the effective manner in which the firemen handled the big blaze, can justly withhold the praise that is their due. It must be remembered that these men risk their lives and health to protect life and property, without hav or reward? that they own with two exceptions their apmaratus, and volunteer their services, to protect the homes and projects of citizens against fire. The National League for Medica Freedom sprang into existence about a year ago during the crisis of the fight by the American Medical Association in Congress to establish s National Bureau of Health, the found ers of the League being opposed to this move in National politics on the ground of the unnecessary expense connected with the running of such a Board; the danger of paternal legislation, the fact that the legislation issued from one school of medicine and the undesirability of loading the Government with too many bureaus. Within the space of a few weeks over 200,000 members enrolled and such active measures were taken as resulted in defeating the hills then before Congress The meeting on this coming Thursday evening, in Newark, is to discuss and make plain to the public the League's reasons for not sanctioning such so-called "health" legislation and the prominence of the speakers and of the presiding officer warrants the prediction that there will be a targe attendance.
