These are the men who ignored the pleadings of the citizens of Rahway, whose interests they are sworn to protect, and voted to the Pennsylvania Railroad Company the most valuable franchise that this city ever had or ever will have.

Of these nine men, three are employes of the Pennsylvania Railroad, one is the son of an employe of the Pennsylvania Railroad, and still another in close business relations with the company. Of another it is reported he has been promised a lot of business by the Pennsylvania Railroad if the ordinance went through as they wanted it.

These are the men who ignorantly believe that they are far greater than all the other citizens of Rahway combined, and in their ignorance have saddled themselves with a responsibility that the man of average civic intelligence would shudder at. It may be that in the near future they will awaken with a jolt.

If modesty restrains him, the opportunity may be forced upon him by a man of ability and of backbone, who is not afraid to stand up and speak out in meeting when he has something to say. Mr. Furber is running his newspaper for the purpose of truthfully telling the people of his town just what andient truth about the Volunteer Fire Department of Rahway, and he sale some things in a plain, straight from the shoulder fashion, and he started the town talking. The News doesn't know what the fight was all about, but it is evident from the copy of the News-Herald that reached this office that the members of the Volunteer Fire Company decided to get even and started out to boycott Mr. Furber's paper. They even went so far as to go to the various morohants of the city and get them to withdraw their ads. On various pages of the News-Herald there are blank white spaces with-the following information printed in them in places of the announcements of the merchants who

formerly contributed to the support of the paper: 'This space was formerly used by a Rahway merchant who has withdrawn his patronage because of threats made by the dograded element of the Rahway Volunteer Fire Department. It is

a genuine boycott—illegal and criminal, in its operation. 'The News-Herald will continue to tell the truth about Rahway affairs regardless of pressure brought to bear to prevent The people who care for Rahway's future will hardly approve by their patronage of such methods to muzzle the press.'

"As a plain disinterested outsider the News wants to go on record a congratulating Mr. Furber on his manly fight and hopes that he will keep up the battle. History repeats itself and the history of every boycott has been that it has proven a boomerang. Mr. Furber should thank the Volunteer Firemen for the stand they have taken for they are proving to the community as large in Rahway that there is some real truth and some real reason why hey fear the publication of the facts that have been printed in connection with them. Every day they continue their boycott they are giving Mr. Furber advertising that he could not buy at any price and they are booming his business and adding to his prosperity. Their opposition will eventually burn out but Furber and his paper will go on and will prosper in a greater measure than ever before. The people of Rahway will realize that a newspaper that is fearless enough to tell the truth is a valuable asset to a community and will support it. The merchants who withdrew their ads will want to come back and Mr. Furber-will be able to dictate his terms to them for his influence and the circulation of his paper will grow, and the very people who are trying to undermine him will have made him a power in the community and will have ensured his permanent success. LET THE FIGHT GO ON."

HONORED BY HIS ENEMIES.

RAHWAY NEWS-HERALD New honors have come to Governor Wilson-honors of which any man who aspires to distinction for service to the people may well feel proud. Last Saturday the two American newspapers that have built up the greatest reputation in all the world of journalism for effective service to the favorseeking Interests published attacks upon Governor Wilson.

Lincoln was denounced by every slave-holder. Washington was hated by every Tory in the world. "Cleveland was maligned in every nest of grafters in the Republic. Communications that the movement to nominate Governor Wilson to the Presidency is retrogressing, and seeks to turn the attention of the Democracy away from Governor Wilson to some other "available" candidate.

To those who are familiar with the trend of politics from one end of the Republic to the other it is apparent that nothing short of a political miracle can now prevent the nomination of New Jersey's Governor for the Presidency. In every State, in almost every community, the people are turning to Governor Wilson, not as an "available" candidate merely, but as the only logical American to lead the mighty hosts of Democrats and Progressives whose hearts are bent on the re-establishment of popular rule in National as well as in local

It is idle even to ask the question, what individual most appeals to the imagination of the great body of honest, progressive voters. From Maine to There may be those in Rahway who do not appreciate the truth especially | California the answer is, Woodrow Wilson, because of the distinctive character of his public service and because his views and his policies harmonize of graft. Anty Drudge Knows.

Mrs. Oldfogey-'I don't believe in new-fangled ideas. Old-fashioned ways are best. No Fels-Naptha soap

Asty Drudge-"Some day you will wake up. You'll grow tired of the old-fashioned way of washing with its long hours, washtub slavery and backache. Then you'll try the Fels-Naptha way. I know you will, because I've met just such prejudiced women before, and they always join the Fels-Naptha army some day."

It is a natural instinct to keep on thinking that one's own way is best. Which probably explains why there are still women enslaved by the old, hot, hard kind of washday.

But reason overcomes instinct. That is part of reason's business. And there are a million women who have gone over from the big range-fire, the overheated house, the steaming suds and smell, the scalded clothes and the hard-rubbing to—the Fels-Naptha cool, easy washday.

How is it with you? You have the testimony of the million. Better still, you have the chance any day, any hour, to test our claims for yourself

A cake of Fels-Naptha, water just as it comes from the spigot or pump, and the directions printed on the red and green wrapper and you are ready to wash or clean anything.

Will you make the trial?
