

BRIEF ITEMS OF LOCAL NEWS

At a Meeting of the Board of Health—The board of health met at the city hall on Wednesday evening for the purpose of considering the report of the health officer regarding the case of typhoid fever in the family of Mrs. J. J. Smith. The board decided to issue a quarantine order against the premises occupied by the patient and to have the premises disinfected. The board also decided to have a further investigation made into the source of the infection.

At a Meeting of the Board of Education—The board of education met on Wednesday evening for the purpose of considering the report of the superintendent regarding the progress of the schools during the past year. The board decided to continue the same system of management and to have a further investigation made into the source of the infection.

At a Meeting of the Board of Public Works—The board of public works met on Wednesday evening for the purpose of considering the report of the engineer regarding the progress of the harbor improvements. The board decided to continue the same system of management and to have a further investigation made into the source of the infection.

From Top to Bottom

Washington Letter
The adjournment of Congress which was postponed for August 15, has been indefinitely postponed, owing to the disagreement of the conference committee on the tariff schedule. How long this situation will continue cannot now be predicted, but it is thought that it will not be more than a few days.

Colonel Roosevelt Before Investigating Committee
The adjournment of Congress which was postponed for August 15, has been indefinitely postponed, owing to the disagreement of the conference committee on the tariff schedule. How long this situation will continue cannot now be predicted, but it is thought that it will not be more than a few days.

Common Council Meets Again Tonight
In Regular Session
Many matters requiring attention of city fathers

Weather—No rain, no activity of the city's legislative body. Council chambers will doubtless be packed as usual.

The "Things To Be Done" Book of Common Council is filling up rapidly. Whether the state will be cleaned at tonight's session is not known. The council has such a happy faculty of neglecting to do the things that should be done and doing the things that should be left undone, that only an occult power could outline its actions twenty-four hours in advance.

It should have a report on the investigation of Judge Buckley and his court.

It should have a report on the possible cost of a paid fire department.

It should have a report on the investigation of the plant of the Royal Manufacturing Company.

It is hoped to open bids on the paving street—whichever should not be done until the funds are in sight.

It should be able to show some result of the activity in out-of-town reports.

It should remember its action in unseating Commission Martin.

And it should instruct the police department to back up the Dog Ward in the exercise of his duty as such.

Not being inspired, the News-Herald will not attempt to predict what Council will do further than that it will make the usual allowance of all honorarium to its official organ for supporting the truth about the members of that august body.

TICKET ISSUE UP TO BOARD

Decision Result of Continued Agitation. TRENTON, Aug. 14.—The question whether or not the railroad companies in this state may refuse to sell tickets on interstate journeys to and from Jersey City, Hoboken, Camden and Newark points in this state will be determined at a public hearing just initiated by the State Board of Public Utility Commissioners. The hearing will take place in Chancery Chambers in Jersey City on Friday, September 1, at 10:30 A. M.

CONTROL OF COUNTY COMMITTEE TO BE WRESTED FROM HIM

Newark, Aug. 14.—Having been disciplined by the drastic action of the Democratic State Committee in depositing the party name on the ticket for the primary election August 22, Newark voters must choose five of these.

TEMPEST KEEPS UP ITS WINNING STREAK

But the Race Was an Uninteresting One. The Tompat, owned and manned by the Houman brothers, of Jersey City, continued to make all the other boats cross the finish line in her wake.

ANNUAL OUTING OF COUNTY COMMITTEE

A Grosse Collection of Canine Caprices

Far be it from the News-Herald to discourage any useful and healthful enterprise but the untold campaign which is going on in this city for the extermination of dogs does not seem to us to be particularly praiseworthy in the light of recent events. The following vignettes from neighboring papers are respectfully referred to the advocates of the "Let the dog alone" policy.

From the Plainfield Courier News: Oswald Howley, a resident of Summit, had a desperate struggle with a mad dog near Milton, Wednesday. He was riding a bicycle and leading his pet dog. About four miles out in the country the dog suddenly developed rabies and attacked the man. Howley was badly bitten on the hand and the dog ran into the woods.

SAVED GIRL FROM DOG, DIED OF HYDROPHOBIA

New York, Aug. 11—George Martin, sixteen years old, died at Bellevue Hospital yesterday of hydrophobia, having been bitten by a dog on July 1 while trying to save a little girl from the animal. The dog bit Martin twice in the palm of the right hand. The girl escaped the animal's teeth.

After a politician who the dog bit Martin had the wounds cauterized and the animal destroyed and sent to the Pasteur Institute for treatment, but he stopped going there after two weeks and recovered. Two weeks ago the boy went camping with some friends at Huntington, Long Island, and seemed in perfect health. Gradually he began to lose the use of his right arm, which grew numb and lame Monday he had a return home where he was boarded with Max Annie Scheel, of 207 East 103rd street.

He went back to the Pasteur Institute, where he was advised to go to Bellevue. By this time his condition was hopeless. The paralysis had extended down his right side.

PERTH AMBOY, Aug. 12—While walking among Pennon street, near Second, yesterday morning, George Mould, 12 years old, of 207 Third avenue, was attacked by a bull dog, the property of James Walsh, of the Pennon street, and badly bitten upon the chest. He was taken to the Albert Hospital, where the laceration was dressed, after which the little fellow was sent to his home. The dog was later killed by Patrolmanweeney and Dempsey, seven bullets being required to end the life of the vicious animal.

It was without warning that the dog sprang at the boy, who was scowling, orders for a bull dog dealer on 12 Atlantic street. The dog dashed to the first attack of the animal, but was unable to get away when the dog sprang the second time. The screams of the Mould boy attracted the attention of several spectators who, after a hard struggle with the dog, managed to separate it from the boy, who was fast weakening.

Mould was carried to the office of Dr. Arthur Stern, in East Seventh street, but was ordered at once to Bellevue.

ELIZABETH, Aug. 12—A white bull dog named to have been found brown mongrel dog that ran amok here yesterday and bit six persons and several dogs. The dog was sent to the Pasteur Institute in New York to be examined and was returned today to doctors found the dog was suffering from a severe attack of rabies.

The persons know to have been bitten are: Harry Cohen, manager of a moving picture theatre; Frank Carr, aged 15, of 412 Avenue B, and Patrick Bryson, aged 15, of 142 Boulevard. They are under care of physicians.

GIRL TAKES MAD DOG IN MOTOR-CAR TO A DOCTOR

STAMFORD, Conn., Aug. 9—Miss Laura Smith, daughter of W. Marlette Smith, a contractor of Hubbard's Hill, caught her pet bull terrier, which when the dog seemed to be mad yesterday, placed him on the seat beside her and drove her motor-car to the veterinary establishment of Dr. J. Palmer, three-quarters of a mile distant.

TRAIN DESPATCHING BY TELEPHONE

Demonstrated That It Saves Money For The Railroads
The Telephone Review for July states that train despatching by telephone was not introduced into practice until 1907, yet in those few years approximately 43,000 miles of railway in the United States and Canada have been equipped for telephone train despatching, and 15,329 miles in the United States were equipped between June 1, 1910 and June 1, 1911, an increase of over 60 per cent. It is further demonstrated that telephone train despatching has effected a saving of 10 per cent of the cost of despatching in the United States and Canada.

AFFAIRS MUNICIPAL

Chicago's Water Mains Ruined by Electricity
CHICAGO, Ill.—Only one-third of the 20,000,000 gallons of water pumped to the city's water works every day ever reaches the faucets of the taxpayers, who defray the expense of pumping. Rotting water mains, ruined by the escape of electric currents from surface and elevated railways, are charged with responsibility for this heavy loss. These facts were revealed in a report by the Chicago Bureau of Efficiency, which has just completed an investigation of the cause of the water loss. The report states that the loss of water is due to the escape of electric currents from the surface and elevated railways, which are charged with responsibility for this heavy loss. These facts were revealed in a report by the Chicago Bureau of Efficiency, which has just completed an investigation of the cause of the water loss.

SAYS HIS WIFE DID NOT ELOPE
Statement Was Result of Misunderstanding

Mr. Henry Ziegler, of Central avenue, paid a visit to the News-Herald office Monday afternoon in order to set right the misunderstanding concerning the disappearance of his wife. In the issue of last Tuesday it was stated that Mrs. Ziegler, formerly Miss Annie Carlson, had eloped with Mr. A. P. Villard, who is employed in the Regina Company of this city. Mr. Ziegler wishes to state through these columns that the statement was the result of a misunderstanding and that, after investigation, he has found it to be false. It seems that Mrs. Ziegler did leave on a certain day last week and as Mr. Villard was seen with Mrs. Ziegler at about that time, Mr. Ziegler accepted the statement as being true. He has found this week that his wife has been living with friends in Elizabeth and that Mr. Villard has had no relations with her whatsoever.

Municipal Water System Pays

CHICAGO, Ill.—An electric check for \$10,000,000, being amount of last year's water bill, was paid to the municipal water system, for the six months ending June 30, 1911. The receipts from the sale of water amounted to \$4,432. This is nearly double the amount received for the same months of the previous year. The increase is due in a great measure to the fact that the supply of water this year has been sufficient to furnish the railroad company with all its needs. Previously the supply had been short at this season of the year. The surplus revenue from water receipts is to be used in making improvements to the system, with the idea of increasing the capacity.

Auto Engine Proves Its Worth
BATTLE CREEK, Mich.—Battle Creek is gradually motorizing its streets. The second of the auto apparatus has been put into commission. Hoping to do its first alarm auto engine No. 1 covered four blocks in less than a minute, and had saved a blaze in the Battle Creek plant in less than three minutes from the time of the alarm. Fire officials declare that the time gained saved the gas company several thousand dollars, as a stiff wind had started, indicating that a general alarm was turned in.

Public Utilities Commission Reduces Cost of Illumination
TRENTON, N. J.—Sixteen municipal utilities situated in the vicinity of Long Branch will be benefited by an order of the Board of Public Utility Commissioners requiring the Consolidated Gas Company of Long Branch to put into effect a new schedule of rates on September 1. Since 1907 business done by the company in this city has increased by 50 per cent and the reductions ordered by the board will amount to \$21,350 for both gas and electric current. This is approximately 19 per cent of the total gross revenues. The loss to the company will be \$2,391 on gas and \$5,795 on electricity. The order will be the first of the kind issued by the Commission, which undertook to investigate the rates charged by the Consolidated Gas Company upon its own volition following its refusal to approve a franchise to another company to compete in the same territory. After the inquiry had been ordered the company expressed a willingness to revise its rate schedule upon a basis which the board has decided to approve. It is an interesting circumstance that in the revision of the small consumers rather than the larger ones will be the principal gallopers.

Mrs. Apartment—"It's the hardest thing to get hot water here; you're not supposed to do any washing in the rooms. And when I do get hot water, it takes so long to wash that the rooms get awful smelly."
Anty Drudge—"Why don't you use Fels-Naptha? Then you won't have to use hot water. You will get through with your wash in a jiffy and there'll be no steam to make your rooms offensive."
To women who live in apartments the washing of clothes is a problem. The solution is Fels-Naptha soap.
No need of hot water; no boiler, no washboard. For light washing you don't even need a washbub, because the bathtub or basin will do quite well.
All you require is Fels-Naptha, cool or lukewarm water and a place to dry the clothes.
Say you have a shirtwaist or two, nappies, lingerie and other small things, that you don't have time or don't want to send out to be washed. You can do much better at home in this way.
Wet the clothes, soap well with Fels-Naptha, roll and leave to soak in cool or lukewarm water for a short time. Then rub lightly, rinse and hang up to dry.
Takes but one-fourth the time and one-tenth the work of the old way. Also saves the clothes.
Follow directions on the red and green wrapper.
