Where Time Is a Factor

Some people seem to have the impression that if their affairs are left in the hands of individuals as Executors, that they will receive more prompt attention and an earlier adjustment than would be the case if left with a Trust Company.

The untracked drift. The man or woman with commercial training

knows business channels and steers toward success. And those are the

men and women the world of business and the world in general needs.

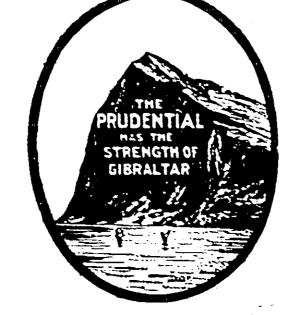

Come This is not justified by experience.

when adjusting the affairs of an estate makes promptness a feature. Economy alone demands this. Then again, the Trust Department, in order to give satisfactory service, MUST GIVE PROMPT SERVICEas prompt as legal limitations permit.

Individual Executors may never have another estate to handle. They haven't therefore the same incentive to prompt action that a Trust Company has.

The "Big" Men of Business

are almost without exception strong advocates of life insurance. They know and appreciate its helpfulness and necessity, and they are prompt to secure its help and protection for themselves, their families and their business interests. You can follow no better example. Apply now for the policy you should have to

RAHWAY NEWS-HEARLD, TUESDAY, SEPTEMBR 19 1911

TEN REASONS

Why You Should Vote For

Commission Government

Because it is in force in over 175 cities in the United States, and in every case the people of those cities are getting better results than under the old form of government.

2 Because you elect those who manage the affairs of your city at large, and they represent all citizens, instead of only a ward.

3 Because those you elect are given power and authority to

accomplish results, which is not now the case. Because city government is properly divided, with a responsible head to each branch, and citizens know to whom to look for

Because the Commissioners you elect have power to appoint all necessary officers and employees, and to get efficient and economical results

Because it replaces an obsolete method of handling city affairs with a modern, and puts it up to the voters to elect good Commissioners.

Because franchises and bond issues cannot be issued to the people's detriment without the people's approval.

Because with the recall, any Commissioner who is not serving you properly can by your votes be removed.

Because city improvement will be intelligently planned with a system for the whole city and not merely for wards.

10 Because no change is made affecting the rights of citizens vou elect your own Commissioners only they have power and authority which is now sub-divided.

connection and was found shouting A DIGEST of chapter 221 of the laws of 1911, relating to, regulating and providing for the government of cities, approved April 25, 1911, and generally known as the Commission Government Bill, as it affects the city of Rahway.

> Under this Act, the City of Rahway can adopt an entirely new system of have power to decide how many officers or employees are required and to prescribe their duties, and require them to perform duties in one or more de-Procedure Necessary. Twenty per cent of the legal voters voting at the last general election

Thomas Stiles, a veteran conductor must sign a petition or request for a special election to adopt the provisions Park, has been presented with a purse It is necessary in Rahway to have the petition signed by at least 440 sioners meets once a week and a report is made by each department and of \$65 by the Cottagers' Association legal voters who voted at the election held in November, 1910. This petition is then filed with the City Clerk. The City Clerk must thereupon call an election, to be held on the third Tuesday following the date of filing, at which election ballots are provided marked "For the Adoption" and "Against the Adoption" of the Act. In order to secure the adoption of the Act in this city it is necessary that power and no authority over and above that of any other commissioner. ations to observe the day. Mr. Ran- quickest method of securing this is to a majority of the votes cast at this special election be in favor of the proposi-

kin is living with his daughter, Mrs. fill your refrigerator to the top with tion, and it is also necessary that there shall be cast about 660 votes in favor. If The Act Is Adopted. Then the primary election is held on the fourth Tuesday following the

adoption of the Act. We don't think we ever pungled for didate for Commissioner by filing a certificate with the City Clerk at least two weeks before they can be adopted. A GOOD CAUSE—HELP IT The voce of one man in Indiana was done to a Population Pexac and addon that state to the Union in 1845 and three below it payment. When the (Continued From First Page.)

by any year of also Hanne lan or horizan, who would are evolve or annexation was closed a nator by one vote in the Indiana House of Representatives, and are cutifled to-The burden of this campaign ought not to devolve upon a few individmals. The citizens in every section of the city ought to help. There is theo is a majority of one, and whoever the man who east that dugle vote he plenty of work to be done. There is nothing to be gained in street-corner arguments with those who are pronouncedly apposed to the new system, but there is something to be gained by cetting your neighbors and friends interested, by putting literature and information into their hands, by stirring them up to such a pitch of enthus lasm that nothbor can keep them from going to the polls and voting. Luquestionably, a majority of the people of Rahway are in favor of abandoning the o'd system of government. The new system will be adopted If only the people can be induced to go out and vote their sentiments. YOF can help to get out the vote.

We have heard some criticism of the methods of some few of the advosystem" Is it afraid it cannot command, all the party patronage or is it cates of Commission Government. We have heard very harsh things said sincerely carnest in its present attitude taxoring now the old system which it about the motives that are betrayed in some quarters. But these things ought not to count. Every cause, no matter how worthy, has its fool friends and tis selfish devotees, but that ought not to deter good citizens from doing what We doubt it, but there may be a few unworthy ones among the supporters of Commission Government. You will find however the fire average of honesty and integrity among its advocates is very high and you will be get-

Persil Turns Hours of Scrubbing into Hours of Freedom

Persil cuts the dreaded wash-day in half... Persil soon makes the washing, which took you all day, spotlessly clean without rubbing and without injury to fabric or colors.

Persil is a compound of OXYGEN brought into the laundry and made to do all the work of clothes-cleaning better than ever before in the world. It makes white clothes dazzlingly white and brightens up colored goods. German women use more Persil than any other article — last year thirty million pounds (and there are less than that number of women in the Kaiser's empire). And now the American housewives are taking Persil as readily, for it will mean Liberation from the Slavery of wash-day. Be one of the first women of your

town to "discover" Persil. Get the start, by at least one wash-day, of the women who forgot to order Persil today. Persil and All his Socre 100 page

in every possible way, with thoroughly venti-

lated fore-door bodies, inside control, magne-

to, gas lamps, Prest-O-Lite tank, and includ-

ing also Chalmers mohair top and automatic

We think you will agree that "claims" are

unnecessary in view of such value at such a

price. The facts are elequent and convincing.

New Model "Thirty-six" \$1800

new mode', the Chalmers "Thirty-six,"

we instructed our engineers to build a

four cylinder, five-passenger car that

would leave absolutely nothing to be

We said we would fix the price when

the car was ready. We think that in

When we considered bringing out a

mera guarantee.

Remember this car has a grace of line and

won the hardest Glidden Tour ever held.

TERE are the motor car pace makers for 1912—the Chalmers "30," \$1500—the Chalmers "Thirty-six," \$1800. These cars win their way to your approval by sheer merit. They set new standards of motor car

This managaza

When the Chalmers "30" was first announced four years ago the words "astounding value" were used to describe it. It set a new standard.

Each season since, by better factory methods, by improvements and refinements, we have greatly increased the value of the car without increasing the price. Each year the verdict on Chalmers cars has been "best value at the

Our Astounding Values And now for 1912 we say to you. the motor buying public, with perfect assurance, that this year more than ever before we offer you "astounding

The "30" remains the leader among \$1500 cars. The new "Thirty-six" at \$1800 represents a further development along the lines of greater size and increased power. The reliable, standardized, beautiful, "Forty" is continued for those requiring a car of unusual power and 7-passenger capacity.

"30" Fully Equipped \$1500 We ask you to remember these facts: The Chalmers "30" was the first gen-

More power, perhaps ? You really could not use more than the splendid long stroke motor will develop. With large cylinders and four forward speed transmission; long stroke motor (4) xx14; ventilated long stroke (411" x 511") the new motor is a great puller at high speed; a wonderful hillclimber; and will give you all the speed you want. Though called a 36 it actually develops

the Chalmers "Thirty-six" we are

offering a car that leaves nothing to be

Four-Speed Transmission Greater flexibility? The four forward apred transmission—a feature until now found only on the highest priced makes—gives a flexibility of control hitherto unknown on med-Direct drive is on the fourth speed. A third speed is provided which will carry you over the hardest grades without loss of time. If a very steep hill is encountered, you can still drop back to second, which is powerful enough for the steepest grade and yet much faster than first speed of an ordinary car.

Do you sak more room in the body ) This body is as roomy as any five passenger car built. It is a big body. If it were any bigger, it would become awkward and less comfortable. More comfort? We honestly believe that t is not possible to buy a more comfortable car at any price. The big wheels and tires-36 x 4—the ample wheel base, sturdy frame, i-elliptic rear aprings, tilted, luxuriously upholstered seats, afford the passengers the acme

Chalmers Self-starter Greater convenience > The new Chalmers compressed air self-starter does away beauty of finish which the costlicst cars do not with the last of the original inconveniences of excel, that it has given satisfactory service to automobiling. This starting device is built in the Chalmers factory. It is not an accessory added to the car, but an essential feature. With it there is no need of cranking. Any woman can now rive a Chalmers car. The compressed air of the self-starter can be used for inflating tires

Convenience has been considered in little

things, too. The control levers on both the

Consider These Details

fore-door and torpedo bodies are located inside A dash adjustment enables the driver to adjust the carbinetor without leaving his seat

As to details of finish we ask you to compare the "Thirty-six" with any car selling Body fittings are of the luxurious type found on high priced cars. Black enamel finish instead of brass is used on metal parts, such as door handles, coat rail, hinges, lamps, etc. An option of nickel plating, at an extra com ul \$50, is offered. The ventilated dash is covered on the inered with cocoa mat. The front foot board and the running boards are covered with dark on the fender where it joins the running board; arge, completely equipped tool box on the running board; amouth finish of bonnet and fenders, all rivet heads being entirely concealed: improved Mercedes type honeycomb radiator such as you and on the high priced cars. Many other exclusive features you will note when you examine the car.

"Thirty-six" Already Proved Do you ask greater reliability in a motor Probably no new model has ever received more thorough testing before being Months ago-in November, 1910-we completed the first three cars of the "Thirty-six"

One of these was sent to Uniontown, Pa., where for four months we kept it going day in and day out, up and down the celebrated Uniontown Hill and other Pennsylvania hills. Motorists know there is no severer hill-climb-The second of these cars was sent to Florida,

where, for weeks, it was driven through heavy

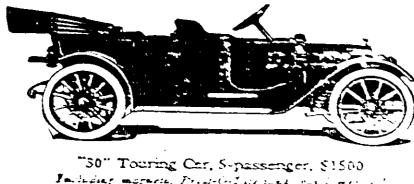

sand in the hottest weather. The third car, driven through the Middle West, averaged 200 miles a day for 8000 miles. on the block, running 1500 revolutions per minute, 24 hours a day for weeks at a time-It seems almost incredible, but it is the absolute truth, when we tell you that in all of our testing of this car and its motors we have never broken down a single motor, transmission, or other vital part. We have tested not only one car but a

number of them; we have tested not only one motor, but many; we have not driven a few hundred miles, but tens of thousands of And we have done all this so that we might be able to stand behind an absolute guarantee of all of the parts of this car for one year and a further guarantee of Chalmers service.

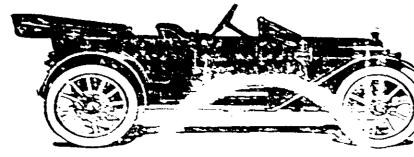

Our Cars Fully Guaranteed We guarantee Chalmers cars to be

iree from defects in material and parts.

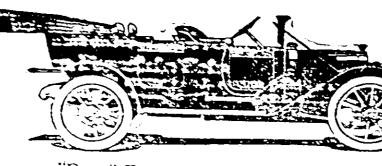

For one year from date of delivery we will replace free any defective part, if returned to our factory for inspection. The parts of Chalmers cars are made from the best materials obtainable, and they are built, for the most part, in our own factory. Hence we are perfectly safe to guarantee them. We really believe, whether you buy a Chalmers or not, it is worth your while to see the We invite you to come in and see the new side with leather. The tonneau floor is cov- models. Early deliveries are assured.
