There is little change in skirt lines. Two and one-quarter yards at the

skirt is very good looking and comfortable to walk in, for it is usually short

enough to clear the instep, and show a neat fitting shoe to advantage. Panels

either hanging loose more than half way down at front and back, or panel af-

fects obtained by wide plaits are the rule and there are more trimmings in

the way of bands, strappings and buttons than for several seasons past. Cor-

duroy skirts in white, black, or colors are very smartly worn, and go beau-

tifully with the long two-toned overcoats. These skirts are apt to be much

plainer than the cioth ones, depending for their style on the cut and finish

Petticont Styles

With dress skirts fitting the figure so snugly, a petticoat as perfectly ad-

justed is a necessity or the whole appearance of the dress is spoiled. Many

of the best gowned women are having their petticoats carefully fitted at home

and finished with the new Gilberta flounces that come in a fascinating array

of pretty styles in circular form, all ready to attach, to the skirt. All the

stores have them made up in silks, satins and a variety of cotton materials.

With these a new skirt may be tringmed or an old one renewed at little

Monest Mike-"Well, you see, it's this way, mam: I drive a coal wagon, and Gerry over there drives for a wholesale butcher. We get terribly dirty-I all sooty and Gerry all grease and stains. It's the same with all the boys. Anty Drudge told us about Fels-Naptha-how it dissolves the grime and grease; and you only use lukewarm or cool water. Saves money and makes our wives happy."

"Wear" is nothing but "rubbing." Every time you hard rub your clothes against anything, little particles are rubbed away.

Boiling softens the fibre of cotton. linen, silk and wool, and when rubbed hard on the washboard they wear away faster than at any other time. Try to think how many days of wear

are-represented by one trip to the oldtime washtub.

Fels-Naptha requires neither boiling water nor hard rubbing. And there is no washboard wear on

the clothes washed the Fels-Naptha way. Fels-Naptha is made to do away with boiling and hard rubbing; therefore if you use it as an ordinary soap, you cause yourself unnecessary work.

Use Fels-Naptha in cool or lukewarm water and it will do all we claim. It will cut the washday in half, summer or winter, and do silently and effecfively all the real hard work.

If you follow the simple directions on the red and green wrapper, you will never return to ordinary soaps and the Old-fashioned way of washing.

About Our Celebrated Tailored Suits

Talk is about the cheapest commodity in the world. It is one thing for a store to claim to have the best line of this or that, but the store that claims to excel in the production of a certain thing, and actually makes good, is the store for you.

We claim to have the best line of \$25 Tailored Suits in Newark and we back up our claim with the merchandise. Our \$25 line. to borrow an expression used in last Friday night's advertsement, is now at "high tide." :: :: Come and see it to-morrow :: ::

We wish we could describe each suit in detail, but the line is quite too large. The materials embrace fine broadcloths, plain or diagonal serges, wide wale chevious in black, navy and new shades; also mannish mixtures. Plain or trimmed suits,
