Anniversary

YN THIS CELEBRATION it isn't a question of how cheap we can sell, but how low we can offer the medium and better kind of merchandise

We cannot be too emphatic in dwelling upon this point: that all the goods were made up for this season—that every article is new, clean and thoroughly trustworthy-AND WE GUARANTEE EVERY-THING REGARDLESS OF HOW UNUSUAL THE PRICE.

Plan to come here tomorrow. There may have been many memorable sales in the past and there may be many great sales in the future, but judging by the values we know there never was and we doubt whether there'll ever be a money-saving event like this.

Anty Drudge Discovers Why George Has No Appetite.

Anty Drudge "What? eating dinner in this steamy,

ministry to be the modern of the miles of the first of the second of the first of the second of the Mrs. Slow: "I have noticed that George doesn't cat much Anty Drudge-- "How can be! Why don't you use Fels-Naptha? Boiling water isn't necessary; and you'll be through your wash plenty of time to have dinner in the dining-room. Or if you prefer the Litchen, there will be no steam or bad smells."

Talk about energy! A half cake of Fels-Naptha soap can display more energy in getting rid of dirt in half an hour than an able-bodied woman can in half a day.

But there's this difference: Much of the woman's energy is wasted. When she rubs clothes hard on a washboard she wears out the clothes in

trying to rub out the dirt. Fels-Naptha concentrates its energy on the dirt—clissolves it into tiny particles that are easily rinsed away—without

harming the most delicate labric. And it dees this in cool or lukewarm water, without hot water or boiling, summer or winter.

Do you prefer to supply the distremoving energy yourself or to use that stoled up in a cake of Fels-Naptha?

If you choose the easier and better way, follow directions on the red and green wrapper.

Important Presentation and Sale New Fall Curtains and Draperies LJOUSEKEEPEPS planning the embellishing, rejuvenating Tor redecorating of the home with new curtains, draperies, etc., will be highly interested in this presentation and sale. It brings before them elaborate and comprehensive stocks of everything required to embellish the home that may be classified under the caption of "Curtains, Draperies and

Upholstery Goods." And more it does-for it proffers values on a broad scale, in the very highest character and most desirable goods, such as are rarely seen at the beginning of a season.

We have been planning this presentation and sale for many weeksand now that it is launched we can conservatively assert that it will not only afford a deep sense of pleasure to beholders-but a positive conviction that the stocks represent a splendid exhibition of all that is new, rich and worthful in Curtains, Draperies, Damasks, Cretonnes, Madras, etc.; and the prices are as inviting as the keenest economist

About Our Celebrated Tailored Suits

Talk is about the cheapest commodity in the world. It is one thing for a store to claim to have the best line of this or that, but the store that claims to excel in the production of a certain thing, and actually makes good, is the store for you.

We claim to have the best line of \$25 Tailored Suits in Newark and we back up our claim with the merchandise. Our \$25 line

to borrow an expression used in last Friday night's advertsement, is now at "high tide."

:: :: Come and see it to-morrow :: ::

We wish we could describe each suit in detail but the line is quite too large. The materials embrace fine broadcloths, plain or diagonal serges wide wale cheviots in black, navy and new shades; also mannish mixtures. Plain or trimmed suits. beautifully tailored.
