COMPULSORY VACCINATION

Bloomfield Pastor Charges Healthy Children Excluded From Schools by Rule.

After mature deliberation and consultation with numerous physicians, the Rev. William Ryder, pastor of the Water Street Methodist Episcopal Church of Bloomfield, has taken up the cudgels against compulsory vaccination, and has charged that through this rule perfectly healthy children are excluded from the schools and in many cases prohibited from securing an education.

Following is a letter which the Rev. Ryder has written setting forth his views on the matter:

"At your permission, through the columns of your paper to say a few words to the reading public about a very important subject which obtains in our town, but not in ours only. We have, in a very fine public school system, with an efficient corps of teachers and a large number of students throughout the State, and they are largely attended. But by a ruling of the Board of Education and computation of the Board of Health, there is no way of saving, to us parents, that healthy children are not admitted."

In other words, those of us parents who are not allowed to attend our free public schools. They can go to the parochial school or to hospitals, or to one of our training schools, but they are ten times worse crowded than our western cattle trains, or be huddled together or jostled about in our schools and starved of all the opportunities of education, but they cannot go to the public school unless their first name is 'diseased' or 'infected' or 'infectious' and those who attend will be disgruntled and disgruntled because carrying vaccine virus of cowpox."

"The reason alleged by the Board of Education and the Board of Health is that children are carriers. They have a foreign and febrile substance, that is known to be dangerous and is usually caused by infection into their veins, through the skin, and a doctor's certificate they are known to be afflicted with smallpox, pronounced or varicella or something else, and so the school authorities can enjoy the benefit of our educational system."

"And so, I appeal the case of healthy children excluded from the schools to the court of public opinion. This is not the time for mere profession or political or commercial considerations, down with examination of facts. Let the light come in the bright light of investigation, yes all the light we can get. Then let all the people, unbiassed and unprejudiced person can consistently stand for the retention of such a law, excludes healthy children from our schools."

"If compulsory vaccination as a preventive to smallpox is such a good thing as many claim, why don't the school authorities make all to be vaccinated? There are plenty of children in our schools who have never been vaccinated, and the school authorities in action are outvoted who are carrying ugly scars on their arms and legs that have no more importance than those scars in last year's apple tree. Let us vaccinate and re-vaccinate everybody give up the practice for an enlightened public. Not for the sake of the infected and the saving of a few cents much longer. The Health Board of Toledo, O., tried to enforce compulsory vaccination after a law was signed, but failed. Mr. Mayor Whited said: 'I, for one, do not propose to be vaccinated. The school authorities may do it, they please, but they have no constitutional right to do it.' And this decision was taken when smallpox was raging a neighboring city."

"Now, the question is, that people who have had the courage to break with this century-long custom, of which there are a great many, and telling us that they are not afraid to expose themselves to the danger of vaccine virus into the body. Among them are tuberculars, poliomyelitis, diphtheria, scrofula, cancer, etc. In fact, the author of the Crichton, in his classical article in Vol. XXIV of the ninth English edition of the Encyclopedie Britannica, mentions twenty different afflictions that follow more or less closely upon vaccination.

The writer is that people who pass laws by ignorant parties without the mandate of the people. And I am persuaded, if it was left to the people, they would vote it off the statute books. As the和尚 said, 'If the Swiss did it, Switzerland, when with an overwhelming majority, it was rejected.'

"I forbear to use more space to point out the absurdities of this law, except to say that in the face of a vast amount of evidence against compulsory vaccination, even children are not excluded from the public schools until their blood shall become sufficiently imprinted with the virus of a bovine disease, which may be thought quite as bad as the rinderpest, and joy the conscience of decent people."

COMMISSION GOVERNMENT

The friends of commission government for cities must be considerably增多 by the result of the recent election in New Jersey, and out by similar elections in New Jersey and the West. We do not mean that the failure to win is itself a disqualification, but the result of the election, and the failure to win, is itself a disqualification.

Reports were made during the session by the president, Mrs. N. V. Compton, Miss Millie Tappan, Miss Sophie Lee and Mrs. Young the hostess.

Remarks were made during the session by the president, Mrs. N. V. Compton, formerly Miss Florence Terrell, who numbers her friends by the hundreds. Don't tell anybody, Mrs. Colcord, what she thinks about me, or else the cake with a candle for each year was an awful fibber. Huge quantities of food were planned out for the next meeting will be held in December.

TRENTON MAYOR ON COMMISSION

(Continued From First Page) alone, as well as in meeting the various problems, while the people are recalled to a larger interest under the old system.

Mr. Colcord went on to tell of conditions in Trenton under commission government, describing the savings that had already been effected by the new system in the different departments of the city.

Mr. Colcord also spoke of the work of the Board of Trade, which he said is growing in interest and popularity.

"It is a business proposition without profit," the Mayor went on to say: "you won't eliminate it the first year, but you will have a definite and lasting effect on a higher plane, and you can do this under the old sys-

tem."

FRIENDS OF FURS

I wish to call your attention to a splendid line of Fur Garments. My practical knowledge of Furs and the manufacture of same has placed me in a position where I can offer the Highest Grade Garments at moderate prices.

PROGRESSIVE MERCHANTS

A few parties have come to Rahway during the past half dozen years with the purpose of making their presence known of our thriving storekeepers.

Mr. Fred Bauer, the confectioner, who, since purchasing the large building where he is located, has had to increase his prices to the public, has been a genuine "old-timer" in the community.

The terrific down-pour of water

from the clouds last night quenched the flames of political parties that are generally apathetic, especially as no meetings were held in the city.

BRIEF ITEMS OF LOCAL NEWS

Dr. F. H. Silvers passed his 50th birthday very quietly but satisfactorily at his home in Union Gap, Wash., where he resides with his wife and two sons, and his two daughters, Mrs. Frank and Mrs. George. They are all here except a short time when the boy passing has been there. In one or two hours anything had prepared a little time deep enough to break the spring of a heavily laden vehicle.

Mr. and Mrs. Alvin Russell took part in the Thanksgiving Day services at the First Methodist Church of Newark, N. J., yesterday morning, the 23rd, and then

drove to Newark, where they engaged in a day's shopping.

The young ladies in the Estate Brook Avenue vicinity are in dispute as to whether it is better to go to the top of a tree and hang their most comfortable seat or reach of any venturous climber that might attempt to climb up the trunk of a dead tree.

Mrs. Emma Moshan of New York was the guest Sunday evening of Miss Blawdwell and other friends and former neighbors.

Goldsborough First Republican Governor In Sixteen Years.

Hillman, a Democrat, Eugene N. Foss will be his successor if reelected for another term in six years.

On the first time in sixteen years

Marshall has elected a Republican

governor. He was the only Dem

ocrat to be elected by Republicans

in the state.

The returns of Baltimore county

in which the city of Baltimore is situated, show that the Democrats gave him 253,000, and his opponent, Philip E. Goldsborough, 192.

The Republicans claimed Washing

ton, D. C., and the Democrats

conceded it to them. When the

county gave a majority of about one and a half county seats, Goldsborough was elected.

In Garrett County large majorities

were reported, the majority for Goldsborough being estimated at about

one thousand.

Duchesne County is still unclaimed

by either party.

A full count of the half the sun

and moon and all the stars of the lower branch of the Andromeda were made. In addition many of the constellations elected county officers.

There was also a constitutional amendment designed to disband the League, which was overruled by mass.

The League was the only

political organization in the state of the kind ever put to the voters of this state, immediately as it specifies that only white males shall be entitled to the suffrage or, in addition, says that no man shall be permitted to have two votes as shall per-

sonally know how to read or per-

sonally project or both.

If time is money, Fels-Naptha will save you money and lots of it every washday.

Perhaps you don't consider your time

is worth money. But your coal is, and

your clothes are, and you certainly value

your health.

Fels-Naptha saves your coal or other

fuel because it cleanses your clothes in cool

or lukewarm water, with no need for a hot

fire to heat water or boil your clothes,

either in summer or winter.

It saves your clothes because there is

no boiling to wash clothes, and no hard rubbing to wear clothes on them.

It saves your health because it takes all

the back-breaking work out of washday

and removes the danger of catching cold

from overheated rooms or steaming stads.

Isn't this things worth saving?

If you think so, get Fels-Naptha and

use it according to directions on the red

and green wrapper.
