The values of your home, your furniture and your business property have all increased tremendously. We cannot ignore the fact that jewelry, furs, automobiles, court judgments also cost more-much more than five years ago. In fact, values and costs have gone up like a rocketing pheasant. It is our duty as an insurance agent to call your attention to the possibility that you may be under insured dangerously so if your policies have not been reviewed during the last few years. For your protection we suggest that you call this office today. Our advice costs you nothing and places you under no obligation.

ON'THE HIGHWAY

That's right! When you must walk on the highways in rural or suburban areas, always walk on the left side of the road—Jacing traffic. There is plenty of reason for this. Last year for every person killed facing traffic three were killed walking with traffic. 49 Jerseyites lost their lives and \$50 were injured walking the wrong way instead of facing oncoming cars. For every daytime fatality there were 4 deaths' during the dusk and dark hours. Twenty-one more people lost their

dives merely standing in the road. Never assume you are safe when walking on the highways many times you are hard to see. Then, too, the despicable hit and run driver is still at large - his numbers and his victims increasing. Last year 75 people were killed by these car cowards. So remember for your own sake—on highways, always walk to the lest facing traffic - be alert to danger - be alive tomorrow.
