## Plan Increase In '65 Budget

CLARK - Introduction of a \$5,500 budget increase amendment and the surprise request by Robert Lee to rescind a variance granted to him highlighted a stormy Municipal Council meeting on Monday night. Less than 75 residents attended.

The \$5,500 budget addition amendment was introduced after a lengthy public hearing on the proposed budget. The increase, which will raise the total to be collected in taxes to \$515,288.82, includes a \$5,000 appropriation for the new libraryand \$500 for a new police sergeant. The budget will be voted on at a special meeting on Monday at 8 p.m. in Council chambers.

The newly-proposed amendment will bring the total library appropriation to \$50,950.

Following the reading of the budget by the municipal auditor, Frank E. Suplee, residents' questions centered on the new tax rate, which is \$5.26 per \$100 at 50 per cent of true valuation; oup-insurance-for-employes:library appropriations, and salaries and wages in the departments of administration, and engineering and public works. Mr. Suplee also explained that the \$117,122.90 reserve for uncollected taxes is more than double last year's reserve because this year's total is estimated on 96.5 per cent of tax collections as opposed to a 98 per cent estimate last vear.

When council opened the hearing on rescinding a variance granted last year to Mr. Lee for construction of a funeral-home-on Madison Hill Rd., Mr. Lee requested that his application for a variance be withdrawn. Stating that he "doesn't feel that it would be fair for the money" for legal action, he said that he had no objection to the Council's rescinding his vari-

By Agencies A series of eight articles on "What United Fund's Failure Will Mean" are to be published in the Rahway News-Record. The first article is on page five of today's issue. The articles will explain how the eight agencies of the United-Fund-plan-to-curtailtheir services because the fund collections were \$22,000 less than the goal of \$78,000. The failure of the public to

contribute the amount sought will result in the decrease in services, the fund said.

The need for a reassessment program in Rahway is emphasized this year by the fact that there will be two municipal tax rates, one for business personal property and one for all other property.\_\_\_\_ \* Assessor Anthony F. Boresch pointed out yesterday that the city is the only municipality in Union County which has not undertaken a reassessment program. He said the failure to have property reassessed will

cost Rahway more in county taxes. Mr. Boresch emphasized that he has asked that a reassessment program be instituted. While the city's 1965 tax rates have not been set because the final figures have not been re-

ceived from the county government, a comparison of the tax rates with previous rates will be impossible.

Earlier this month ... City Comptroller Eugene F. Kenna announced that the city decided to institute two tax rates because of an examination of the provisions of State Assembly Bill 724, Mr. Kenna pointed out that the act requires the establishment of different rates for real estate and business personal property.

The Rahway Rotary Club won the attendance award at the inter-city meeting at Kenney Acres, Woodbridge, yesterday, in a competition against the clubs from Woodbridge, Perth Amboy, Carteret, Linden and Cranford A trophy was presented to B. U. Smith, Rahway president.

The inter-city get-together brought 125 Rotarians together to hear Dr. Richard P. McCormick, professor and historian of Rutgers University, speak about "What's Wrong with Jersey?"

In his talk, Dr. McCormick noted that in spite of the fact that New Jersey was one of the leading states in industry, per capita income, size in population and industrial development, the state is at the bottom of the list for aid to education, roads, opportunities for New Jerseylles to attend their own universities, and a number of other categories.

Mr. Smith introduced Dr. Mc-Cormick, who was a fellowclassmate at Rutgers.

## **Come to Comet's celebration!**

. We're celebrating because we have the liveliest, fieriest-lineup of cars in the business waiting for you to turn a key-the 1965 Comets, 10 models all priced right. And all tough. All powerful. All beautiful.

- We're celebrating because this month is the date of Comet's 5th birthday. And this car has gone a long way in those years. We've just completed the best year in Comet history. Now we're out to top it! Want a popular car? That's Comet!
- # We're celebrating because the 1965 Comet showed its championship performance by roaring 16,000 miles, from the bottom to the top of the worldfrom Cape Horn to Fairbanks, Alaska-in 40 days and nights of driving. A free 16-page, full-color booklet about this run is waiting at your Mercury dealer's.
- We're-celebrating because a specially equipped 1964 Comet, after traveling 100,000 miles at Daytona, went on to complete another 130,000 stopand go miles cross country-more than the distance to the moon. And this Comet's hardy engine is still running strong, without a single major repair.
