The time has come when all of us, working together, can accomplish the task before us. Our success will mean a modern YMCA Family Community Center with adequate, up-to-date facilities.

The \$450,000 campaign will provide funds for a new swimming pool, full-sized gymnasium, new locker and shower facilities for men, women and children, and a new boiler room. The drive is the "Y's" first major capital funds effort in nearly 50 years.

Key speaker at the kick-off meeting will be the Rev. Dr. Robert W. Scott, pastor of Westminster Presbyterian Church, Elizabeth, who will deliver a message to the more than 150 assembled campaign workers.

Dr. Scott is known for his many diversified interests and activities — jazz, photography, writing, lecturing and traveling.

Newark State

occupied with classes as the student averaged three evenings of classes each week for the seven years. He also took courses each summer vacation during the day. Last February and March, Mr. De Loretto worked on the opposite side of the desk during his eight-week student teaching session for the fourth grade in Cedarbrook School, Plainfield.

The student teaching was the climax to a 15-year stretch of studies and "lots of sacrifices" for his degree. Mr. De Loretto left Rahway High School to enter the Naval Air Corps during World War II. In 1951 he finished at Batin High School, Elizabeth, at nights and received a Rahway H.S. diploma.

After marrying the former Miss Linda Marco, also of Rahway, in 1952, he later decided to enter Newark Prep to meet college entrance requirements. As one of the first students, and probably the only one with four children, at Newark State when it opened in September, 1958, he

begin a seven-year night program. Today, with five more children; the proud pop is one of the only students completing the course in that time at night.

"And I never got a 'No' the whole time," Mr. De Loretto says while explaining gratefully all the help he's received. He was especially grateful to Postmaster Warren T. Moulton, he said, because of all the encouragement and help he received when schedules were difficult to adjust. His advisor at Newark State, Mrs. Phyllis Kavett, and his co-operating teacher at Cedarbrook School, Miss Helen Freeland, were a great help to him, he stressed.

Because he attended evening classes the entire time he was often competing in class with teachers working for advanced degrees. When he needed suggestions for projects or research material in practical aspects "the administrators and teachers in Rahway were great," he said.

But the new teacher, who has been offered positions in the Rahway and Plainfield school systems, is proudest of the help he received from his family.

His wife, Linda, who was graduated from Newark State in 1947 and who took additional courses at Columbia University, taught fourth grade in Roselle Park before their marriage. Now she teaches as a "substitute between babies."

His mother, Mrs. Rose De Loretto, came to Rahway as a bride in 1916 and has lived in the house the family now shares since 1927. She has two other sons who are teachers—Joseph, a vice principal at Forrest Sherman U. S. Naval High School, Naples, Italy, and Lou, a high school teacher in Salem, Oregon. She minds the children all day when their mother works and proudly shares each of her son's achievements as he progressed toward his degree.

"You know, they have really sacrificed more than I have," Mr. De Loretto says proudly of his wife and mother. "In fact, today there should be three diplomas awarded."

HELPING INJURED BOY — Members of the Rahway First Aid Emergency Squad give Vincent Dixon, 7, of 2223 Allen St. first-aid after he was struck by a car on West Scott Ave. near Allen St., on June 9. (Photo by Steve Huszar.)

Two Local Youths Struck By Autos in Past Week

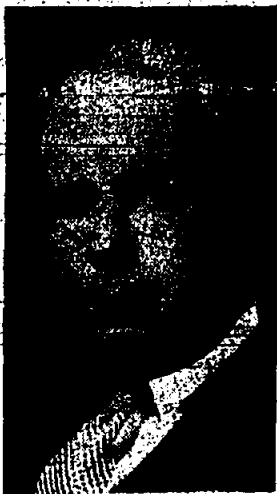

Two Rahway boys were injured when they were struck by cars on June 9 and on Friday.

Vincent Dixon, 7, of 2223 Allen St. is in fair condition at Rahway Hospital following an accident on June 9 at West Scott Ave. near Allen St.

Edmund Pakrul, 49, of 613 West Hazelwood Ave., driver of the car which struck the boy, told police that he was driving west on Allen St. and noticed the boy running on the sidewalk and behind a parked car. Mr. Pakrul said that the Dixon youngster ran behind a moving vehicle and attempted to cross West Scott Ave. As Mr. Pakrul turned into West Scott

Around and About

One of the two 50-year veteran pins awarded by Union Council of the City of Rahway to G. Edwin Cook of 318 Central Ave. was presented with the pin at a court of honor held by Boy Scout Troop 40 on June 9 in the Elks Clubhouse. The presentation was made by Dr. Kenneth N. Albrecht of Cranford, council president.

G. EDWIN COOK

Mr. Cook began his scouting career in 1913 when he became a member of Troop 1. The troop later became Troop 4 and met in St. Paul's Church. After having been out of scouting for two years, Mr. Cook joined Troop 8, which met in the First Baptist Church. He was junior scoutmaster, scoutmaster and troop committee member during his affiliation with that unit.

In 1929 Mr. Cook became the district commissioner for Rahway. He held that post until 1942.

Mr. Cook then succeeded Otto Schweiger as chairman of the Troop 40 committee and served until two years ago. He still is a member of the troop committee. He also has been the safety merit badge examiner for 20 years.

Mrs. Edna Blankley of 614 West Inman Ave., employed in the engineering department of the City of Rahway, finished at the top of the list in a promotional examination for administrative secretary at the local level. It has been announced by Thomas McLoughlin, president of Union Council 8, New Jersey Civil Service Association.

Mrs. Blankley is a council member and Mr. McLoughlin's personal secretary.

Commenting on the results of the test, Mr. McLoughlin declared, "There never was any doubt in my mind that she would not finish in first place." He told about the amount of correspondence.

Bank Interest Rate Increased to 4%

Growth of the Rahway Savings Institution during the past four years has enabled the bank to increase its interest rate to 4 per cent and to enlarge and renovate the bank building at 1500 Irving St., James Smith Sr., president, said yesterday.

The board of directors voted at the meeting on Monday to raise the interest rate on all savings accounts of \$5 or more

to 4 per cent compounded quarterly, Mr. Smith announced.

Mr. Smith pointed out that in the past four years the bank's assets have been increased from \$12½ million to \$21 million. During the same period the deposits showed a gain of approximately \$8 million, going from \$11 million to \$19 million, the president reported.

The building has been redecorated and modernized. The

'Y' Drive Leaders Are Optimistic

Campaign leaders were optimistic at the kick-off dinner on Thursday for all volunteer solicitors of the Rahway YMCA \$450,000 Building Fund Drive. The dinner was held in the First Presbyterian Church's Community House.

The featured speaker was the Rev. Dr. Robert Scott, pastor of Westminster Presbyterian Church, Elizabeth.

The remarks of the Rev. Dr. Scott and other guests at the speakers' table all expressed confidence that the campaign will be a winning community-wide effort.

William H. Rand Jr., campaign general chairman, in summarizing the comments, said,

"The way things are beginning to happen, we are going to make it." He also stated that "a few companies and a few individuals will not come near doing it although these gifts are now being finalized. The 'Y' is for everybody, and everybody will have to help do this job with very generous gifts if Rahway and its neighboring communities, who use the 'Y' facilities, are to have this better-living advantage that most people think we have needed for better than a quarter of a century."

The first report meeting for all campaign workers will be held on Monday at 7:30 p.m. in the YMCA building on Irving St. Coffee and dessert will be served.

Auxiliary Votes \$42,000 Gift

The executive board of the Woman's Auxiliary of Rahway Hospital voted during a meeting in the hospital to pledge \$42,000 to the hospital's board of governors for air-conditioning the lobby, patients' rooms and other areas. An initial payment of \$2,000 was made, Mrs. Robert L. Jones, president, announced yesterday.

The semi-private rooms in the new wing of the building are air-conditioned but in the old wing, where private rooms are located, only window units provide cooling. The lobby frequently is hot and crowded, it was pointed out. The auxiliary's board believes that air-conditioning of the rooms and the lobby will add to the comfort of patients and visitors.

The Board of Education at its meeting in Roosevelt School appointed Raymond Drake, Franklin School principal, as elementary schools supervisor and made six other assignments to strengthen the public school's administrative and supervisory functions for the 1965-66 school year.

Mr. Drake, who will continue to be principal of Franklin School, will receive \$1,000 additional for performance of his new duties. He will be employed on a 12-month basis with two months' vacation. It was pointed out by the board that an appointment of a teacher will be made later to assist Mr. Drake with Franklin School duties and to be responsible for the school when Mr. Drake is working in other schools.

John Kuhlman, vice principal of Rahway Senior High School, will not have any teaching duties next year, the board decided.

Alex Busse was assigned to teach one period and to be laboratory and secondary schools curriculum coordinator. He will receive \$500 additional.

Junior high school teachers given additional assignments and their areas are: Paul Zong, science; Mrs. Kay Hanson, mathematics; R. Brown, social studies; and Mrs. E. Egan, English. They will receive \$300 each.

Safety Unit Backs Freeholders' Plan

The advantages, desirability and fairness of having municipal control rather than state direction over traffic lights, stop street and other local traffic signs were emphasized on Tuesday night by the Rahway Safety Council in unanimously adopted a resolution to support the Board of Freeholders which has proposed that municipalities be given the responsibilities.

Strong opposition was expressed to the existing policy of allowing certain duplex and multiple properties to exist with only one exit. The fire hazards of such conditions were stressed. Commendation was given the Rahway Fire Department for the vast improvements made to the alarm and detector systems tending to greatly increase the department's efficiency. Fire Capt. Robert Duffy, a member of the council, explained some of the work done, while Robert R. Miller, fire safety chairman,

gave a general survey of the value of the work done.

Installation of a traffic light at Maple and Jefferson Aves. will be pushed as there are numerous near accidents at the intersection daily described by W. Howard Walker. C. A. Carlson, vice president, spoke on bus violations and speeding hazards on certain streets.

Frank Brunette reported that 285 children members of the school patrols had been given a bus trip to the World's Fair in appreciation of their services at the various schools. They were accompanied by chaperons and some members of the council.

Louis R. Rizzo, president, spoke on various services the council could render to make their safety work more effective. Wade Likins, Casimir Begier, Lt. Edward Coffey and Salvatore Prezioso also made recommendations for promoting the safety work throughout the city.

Designation of the East Hazelwood Ave. section of the city as a blighted area by the Planning Board, which has been asked to do so by the Redevelopment Agency, would be "a grave and serious error," Dr. Adam T. McDaniel, Fourth Ward councilman, declared yesterday.

The Planning Board will hold a public hearing on the Redevelopment Agency's request on Tuesday at 8 p.m. in the Municipal Council chamber of City Hall. The agency made the request in connection with its East Hazelwood Urban Renewal Project.

The hearing is necessary under state law to determine whether the area, bounded by Woodbridge Rd., Rahway River and Woodbridge Township line, falls within the state statute defining "blight."

Dr. McDaniel said that "after much thought and innumerable considerations" he has "concluded that we would commit a grave and serious error in doing so."

"I am thoroughly convinced that the local Redevelopment Agency is composed of honest and loyal citizens of our community and its executive director is a man to be held in high esteem," the councilman said. "On the other hand, experiences of such programs in other communities have led me to believe that such tentacular programs can serve to do damage to many of our citizens and their properties."

Dr. McDaniel observed that at present the city is involved in three programs "without having broken ground in one."

"In recent years, one of the areas in question, bounded by Woodbridge Rd., Witherspoon St., East Hazelwood Ave. and Randolph Ave., has been developed with homes in the \$13,500 to \$24,000 range," Dr. McDaniel pointed out. "To declare this area blighted at this time, I feel, will be of unques-

Rotarians To Meet At Fair

The Rahway Rotary Club will sponsor the Rotary meeting at the World's Fair tomorrow, it was announced yesterday by B. U. Smith, president of the local service club.

Rotary meetings are held at the World's Fair every day, Monday through Friday, and occasionally on Saturday. Mr. Smith stated. The purpose of the meetings is to enable those coming to the fair, who are Rotarians, to make up their meetings, to enjoy the fellowship of other Rotarians from other clubs throughout the world, and to have a place to eat with other men united by common interests. Wives and guests also are welcome at the meetings.

The luncheons are held in the Hawaiian Pavilion. Programs do not include speakers, for most persons are anxious to continue their visit to the fair displays and attractions.

The Rahway club will distribute information about its own club as well as information about the City of Rahway.

Alex Medvigy, assistant manager of Rahway Recreation Lanes, is chairman of the event. A bus has been chartered to take the Rotarians and their families to the fairgrounds. It will leave from Trinity Methodist Church at 9 a.m. and will return by 9 p.m. A few places still remain in the bus. Any persons desiring transportation from Rahway may call Mr. Smith or Mr. Medvigy.

Some people believe that discipline and punishment are the same and are used interchangeably.

Discipline is teaching and training. It involves leading, shaping, and guiding behavior. It should be emphasized that discipline is desirable — a fact often overlooked.

The goal of discipline is self-discipline, self-reliance. Its usefulness and reasonableness are accepted by children, and one step toward self-discipline has been accomplished.

Punishment inflicts discomfort of the offender. It may be bodily pain, such as slapping or whipping. It may take the form of scolding, shaming or depriving the child of pleasures, such as going to bed without dessert.

Fear is always connected with punishment: fear of pain and the fear of the loss of love, a deeper emotion than most adults realize.

Punishment really works because it threatens the youngster's security — by fear. And its success depends on whether the fear will be remembered well enough to stop action the next time. The child thinks of himself as bad, because he wants to disobey, and weak, because he is afraid. He feels guilty and helpless.

In order to be effective, punishment must be used with an understanding of why the crime is a crime, of what makes it undesirable. However, when both the parent and child genuinely understand, (and that is discipline) the punishment usually is not needed.

He earned his bachelor's degree at Yale College and his law degree at Yale Law School. He and his wife live in a Rahway home built before the American Revolutionary War. They have three children and 11 grandchildren.

Rider Degree Given — Miss Mary Ann Swierk, daughter of Mr. and Mrs. Julius Swierk of 212 West Scott Ave., received a bachelor of science degree in education from Rider College, Lawrence Township, on June 6 during the centennial commencement exercises. Miss Swierk majored in business education.

Findings of the Motor Club of America's Safety Division reveal that the older drivers appear to have less serious accidents than younger ones.

Pingry Diploma Given — Roger H. Taylor of 439 Central Ave. received his diploma from Pingry School, Hillsdale, on Friday night during the annual commencement exercises.

Operator Lorraine T. Cross: tracer of missing persons

Mr. H. W. Halderman wrote us:

"On Thursday morning of this past week I was in Camden on business and received a call from my secretary advising me that my sister out in San Francisco had called me at the office to say she was missing. I was very concerned. My husband had just been involved in a very serious accident. Unfortunately in her distraught condition, she failed to give me the name of the hospital where she was, so I had very little information to go on.

"I called the local operator and told her my problem, saying I could give her nothing but my brother-in-law's name and that the man was in an emergency ward somewhere in San Francisco. She was most cooperative, and assured me she would do everything possible. To make a long story short, this remarkable young lady of yours had me connected to the doctor in the particular hospital who was in charge of the case in no more than 20 minutes. Armed with this meager information as she was, I think this was an outstanding example of efficiency and service!

"I trust that you will be able to see that she receives a 'well done' for her excellent detective work over the long line. I am always appreciative of special service—this I believe was a most outstanding example."

Operator Lorraine T. Cross: tracer of missing persons

Mr. H. W. Halderman wrote us:

"On Thursday morning of this past week I was in Camden on business and received a call from my secretary advising me that my sister out in San Francisco had called me at the office to say she was missing. I was very concerned. My husband had just been involved in a very serious accident. Unfortunately in her distraught condition, she failed to give me the name of the hospital where she was, so I had very little information to go on.

"I called the local operator and told her my problem, saying I could give her nothing but my brother-in-law's name and that the man was in an emergency ward somewhere in San Francisco. She was most cooperative, and assured me she would do everything possible. To make a long story short, this remarkable young lady of yours had me connected to the doctor in the particular hospital who was in charge of the case in no more than 20 minutes. Armed with this meager information as she was, I think this was an outstanding example of efficiency and service!

year, explained that the additional supervisory personnel is needed since his successor will be business manager and will not be an assistant superintendent, a position Mr. Nash filled together with that of school board secretary.

Alonso W. Lawrence of 1343 Madison Ave. asked where the money for the additional salaries would be obtained by Mr. Nash. It was explained by Mr. Nash that no additional cost would be involved since the board has not authorized expenditure of the entire amount allotted in the 1965-66 budget. The difference was realized by the engagement of new teachers at lower salaries than their predecessors had received.

In answer to a question from the floor, Austin L. Singer, retiring superintendent of schools, stated that 34 teachers are leaving the system at the end of this year.

The resignations of eight teachers were accepted. They are John Casey, William Jones, Henry Muller, Ronald Pohola, Mrs. Pauline Dwyer, Mrs. Mary Wimmer, Miss Dolores Hlavka and Miss Shirley Hookavlo. Mrs. Catherine Turk and Mrs. Irene Tybursky were granted maternity leaves of absence.

The board also approved a year's leave of absence for Ray W. Cleveland, mathematics supervisor for the schools, to enable him to study for a degree of doctor of education. The leave will be without pay. Mr. Nash stated that Mr. Cleveland expects to return to the school system but is under no obligation to do so.

Richard H. Elliott, board member, was absent. He is a surgical patient in Elizabeth General Hospital.

on Whittier St. at about 25 mph when he saw the boy begin to ride out in front of him. He said that he sounded his horn and applied his brakes immediately. He stopped his car and was walking around to the front of the auto to see if the youngster was alright when the boy got up and ran to the curb. The youngster was x-rayed and treated at Rahway Hospital for contusions of the scalp and friction burns on his right side and released.

Sandy told police that he was riding his bicycle, stopped to see if there were any cars coming before he crossed and did not notice any. He proceeded into the street and said that in the middle of the street he fell off the bicycle and was hit. Police reported that the bicycle had been removed from the scene of the accident by an unidentified person before they arrived.

A test of the brakes on the Flagler auto showed that the brakes were poor and that there were no brake linings. The vehicle had not been inspected since July, 1964. Pti. John Lang issued summonses for both counts.

tionable detriment to those citizens who have invested thousands of dollars in their homes.

"Upon inquiry to the Redevelopment Agency, I have been told that the proposed boundaries of the East Hazelwood Ave. project are firm and it is in a state of 'take it or leave it.' I shall, therefore, ask the Planning Board and the Municipal Council to 'leave it' and to reject said request to name this area 'blighted.'"

"I firmly believe that the very few substandard structures in the area in question can be improved without this program of many ambiguities and much federal red tape.

"The redevelopment program could easily and justly develop the industrial area involved and also improve this area of the 'Bass Homes' without reaching into a recent and highly improved area."

The Redevelopment Agency's plans call for dividing the 102-acre parcel into two sections. The area between Woodbridge Rd. and Witherspoon St. is planned for conservation and rehabilitation.

The agency said most of the section is in "very fine condition" and that the only demolition necessary will be buildings such as the group known as the "Bass Homes" and a "very shabby" row of stores on East Hazelwood Ave.

Inclusion of this area in the plan would make it possible for the agency to make certain improvements such as the elimination of flooding on Randolph Ave., the paving of streets, construction of gutters and sidewalks, improved lighting, recreational facilities, and many other benefits at no cost to the homeowners.

The remaining area east of Witherspoon St. is comparatively undeveloped land. Diverse ownership of small vacant lots and complicated title problems have made assembling too costly for private operation and the tax return for 1964 was a minuscule \$28,000 instead of the \$200,000 or more which should come in from this area.

This prime industrial area is to be prepared for use as an industrial park, according to plans. The park, the agency stated, is sorely needed to balance the rising costs of Rahway's municipal and educational services. As a by-product, hundreds of new job opportunities would be created for local people, it was pointed out.

A suitable buffer zone is planned between the residential and industrial zones.

"If I'd only bought that XYZ stock, I'd be a millionaire today."

Who hasn't heard a remark along those lines? Now it turns out that buying any listed common stock at random over a 35-year period would probably have netted a profit. A computerized study by the University of Chicago indicates that if you bought between 1926 and 1963 any stock listed on the New York Stock Exchange the odds are better than 3 to 1 that the deal would have been profitable.

A stock market investor, during those years, should have done all right regardless of whether he had any particular talent for it. He had an even chance of earning 9.8 per cent a year or more, if he reinvested his dividends. If he bought during the years right after World War II, the chances are 9 to 1 that he at least "broke even." It now looks as though good old "XYZ" stock might have started you on the way to riches.

BITS O' BUSINESS — Two giant automobile companies announce plans to step up capital outlays. General Motors will lift capital improvements in 1965 to \$1.2 billion from \$1.1 billion announced earlier. Ford plans to add \$800 million to its capital spending through 1967, bringing four-year total to \$2.4 billion. Britain expects to change to the metric system over a 10-year period, partly as an effort to win bigger markets for its exporters. Last word from the Treasury is that silver dollars will not be minted at this time. Recently it was announced that car wheel production would be resumed for the first time in 30 years.
