> Can Your Child Achieve Better Grades?

Your child's success in life depends on his success If Your Child Is Behind In School you are not alone. A recent survey by the entagon found that 68% of draft eligible young men fell below grade seven in reading. Nost low achievers are not mentally slow but are impaired by attitudes that convince them that tearning is difficult. Such impairment destroys a child's interest in his school work and his grades may suffer. Reading disability particularly affects comprehension in all other Accelerated Learning The Ebronix approach accelerates the students'

earning and retention rates dramatically and improvement usually begins immediately. Once he begins to taste success his self-confidence improves and learning becomes a pleasant experience. Ebronix uses a unique combination of electronic teaching machines, programmed learning, private tutoring and positive motivational techniques to bring students up to and beyond their grade level in reading, spelling and math (Grades 1 - 12) Ebronix has a remarkable success record which makes it possible to guarantee your child's progress. The application of positive motivational techniques produces powerful responses in the student. He competes only with himself, giving him the desire to improve on a standard he has set himself. deemed injurious to the trees.

An ordinance to regulate indiscriminate cutting of trees in Rahway and to protect the growth of trees was adopted by the Municipal Council. The ordinance applies to all persons or corporations applying for building permits for more than one dwelling or for a permit for a dwelling to be erected as part of an uncompleted development.

The law was enacted because indiscriminate and excessive cutting of trees on tracts of land has caused increased surface water drainage and more soil erosion, the ordinance A plan, prepared by a licensed engineer or land surveyor, must show the locations of trees to be removed and must pe submitted to the city before a building permit is issued. The regulations prohibit the cutting of any trees in excess of three inches in diameter unless the trees would cause hardship and endanger the public or adjoining property owner; the trees are in the area to be used for a building, driveways

or recreation area, or the area has a cut or fill of land
