I am confident all major issues will be debated fully between now and November. Mrs. Fulcomer raps I plan to actively participate in that debate so my position on the issues of economic recovery, crime, mass transit, hazardous waste disposal, education and the other areas of citizen concern will be well known. Coleman's 'facts' I have thoroughly enjoyed my service in the Assembly over the past two years, and am very grateful

Two things will never cease to amaze me in Rahway Republican politics: (1) Someone like Joe Coleman who aspires to higher Republican leadership positions gets his thrills by playing games with statistics concerning his Republican councilman and candidate for the Assembly; and (2) Someone like Joe Coleman is careless enough, or could care less if he uses incorrect or distorted informa-tion to do it tion to do it. Mr. Coleman stated Councilman James J Fulcomer's opponent in 1976 was 18.

PAGE 4 THURSDAY, JUNE 11, 1981

The oppopent was actually in his early 20's in 1976, according to the records at the Board of Elections. Before someone accuses me of "hairsplitting," may I point out any false statements concerning such verifiable information could only be attributed to a cavalier attitude of exaggeration, and a "Let's say this. They'll never check" approach. That approach I always find reprehensi-ble and dishonest. Mr. Coleman also tries to minimize Councilman Fulcomer's fine election victory by citing irrelevant election statistics. Well Joe, I can cite relevant statistics.

For instance, according to the Board of Elections, there are more registered Republicans in the Third Ward than there are in the Sixth Ward. Therefore, you could state the Third Ward is more Republican than the Sixth and go back to the same old comparison, which makes Council Fulcomer's victory in the Sixth Ward with about 80% of the vote all the more impressive, and Bernard D. Miller's defeat for Third Ward councilman all the more disquieting. In addition, Councilman Fulcomer was opposed by an outstanding Democrat who had served two terms as a councilman, while Mr. Miller was opposed by an equally-competent Democrat who had served only one term as a

Councilman Fulcomer ran well ahead of President Ronald Reagan in his vote totals, while Mr. Miller ran well behind President Reagan. My point is this. On one hand there are statistics and interpretations of statistics, and on the other hand there is

integrity and good common political sense. Integrity means you don't distort information to descredit another person's accomplishments, and good common political sense means if you claim to be a party leader you don't attack in the press a person who serves as your councilman and your party's nominee for the

Assembly. Some people might say I should not get involved in answering this type of letter, but I strongly feel Coun-cilman Fulcomer's supporters and constituents deserve an explanation and that the Rahway Republican should recognize that these unfounded and unwarranted attacks are damaging to all of us. Primary Election Postscript.

By submitting this letter, it is not my intention to jeopardize Mr. Miller's chances to defeat the Democratic Bernard Miller has my unqualified support for councilman-at-large. It is my intention, however, to point out those who distort and try to belittle the accomplishments of their fellow Republican should and will be reprimanded.
