## Family service gets problems under control

Many people have problems to deal with, such as stress, loneliness, inadequacy, nervousness and alcoholism. Many individuals can avoid years of unhappiness and stress by seeking help before a situation becomes critical. The understanding of a particular problem through counseling frequently prevents other problems arising, she explained.

The service also assists families who are experiencing marital problems. Marital counseling is available to young couples to clarify their roles in marriage and their expectations of each other. The group can also help married couples with problems such as the inability to communicate, tensions arising from economic difficulties, behavior of children and changes in a relationship brought on by retirement.

To make an appointment, you may telephone the service's office at 233-2042. All fees are based on a sliding scale.

## Woman's Club plans new season

Twenty-three board members of the Rahway Woman's Club met in the garden of club president, Mrs. Tor Cedervall, recently to review departmental and general club activities as planned for the upcoming 1981-1982 year.

The morning business meeting adjourned for a picnic lunch, with each member contributing a "covered dish" or other food, followed by a return to business.

Mrs. Cedervall reported arrangements have been finalized for a club move from its past meeting place at the New Jersey Dance Theater Guild Hall on Perpont St., Rahway, to the Second Presbyterian Church

## City residents told to dispose of oil

All residents of Rahway were asked to properly dispose of their used oil at local service stations with used-oil holding tanks by city health officer, Anthony D. Diege.

Mr. Diege stated the New Jersey Dept. of Energy requires, in accordance with state law, all service stations with used-oil holding tanks on the premises to accept without charge up to five gallons of used oil per day from any person.

"Post and maintain a durable and legible sign not less than 11 by 15 inches in size informing the public it is a collection site for the disposal of used oil."

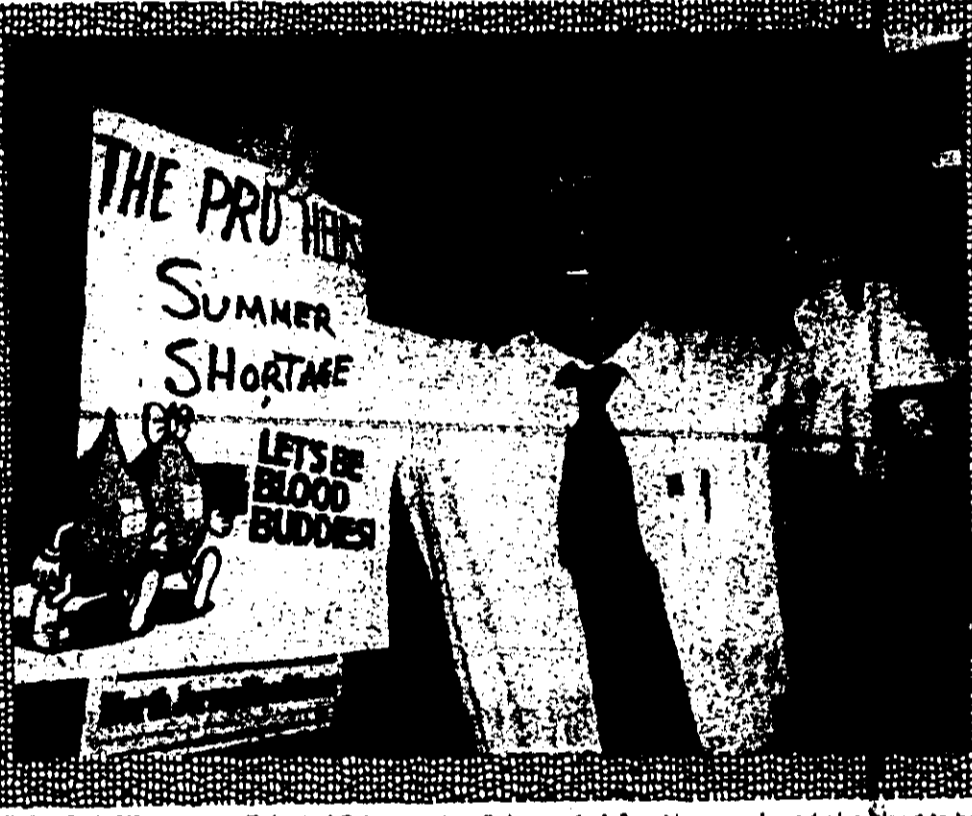

Failure on the part of an owner of a service station to meet these requirements may subject him to a penalty of as much as \$300 per day for the first offense and \$1,000 per day for the second or any subsequent offense.

Individuals who are refused in their attempt to return oil to the proper collection sites should telephoned the Energy Information Line's toll-free number, 800-422-2422.

**'Sidewalk sale'**

A spokesman for the Rahway Police Dept. announced Thursday, Aug. 13, and Friday, Aug. 14, there will be a "sidewalk sale" in the downtown area of Rahway.

To facilitate the safe passage of pedestrians the use of both sides of the street will be closed to vehicular traffic on both days, Cherry St. from Irving St. east to Main St. and Main St. from Lewis St. to Monroe St. and the parking lot entrance on Cherry St.

HELPING HAND - Rahway Relief of Rahway asks all donors to follow the example and give blood to help ease the blood shortage now occurring in the South Jersey Medical Center in East Orange. Mr. Bartlett gave blood at a drive sponsored by The Prudential Insurance Co. of America, headquarters in Newark, and conducted by the blood center. A total of 151 pints of blood were given by the company's employees at the drive. Anyone wishing to give blood may do so by visiting the center's headquarters at 45 S. Grove St., or by telephoning 678-4700. In exchange, to make an appointment to give blood.

## Rahway Hospital to join Mobile Intensive Care

Emergency medical coverage provided to residents of Union County through the Mobile Intensive Care system will be more comprehensive as a result of the recently announced decision by Rahway Hospital to join the network.

Coverage for Rahway and Clark residents has been assigned by the state to a system developed jointly by Memorial General Hospital in Union, Overlook Hospital in Summit, Saint Barnabas Medical Center in Livingston, and Mount Sinai Hospital in Montclair.

As a result, sophisticated mobile intensive care coverage from Memorial General was projected for the first time for many communities in the southern part of Union County, including Rahway.

According to John Yoder, director of Rahway Hospital, his institution had initially sought to join a consortium of hospitals in his area which hoped to gain approval for an additional MIC designation.

State authorities, however, urged him to join the existing system.

The new system is expected to be fully operational by September. Rahway Hospital will name its own associate coordinator, and Mr. Yoder will be a member of the MIC Steering Committee.

The hospital will also have to join MIC crews. Under the original state-approved plan, coverage for Rahway and Clark was assigned to units housed at Memorial General.

Because of its centralized geographical position, central dispatch services will be located at Overlook. When the system is operational, police and first aid squads will use a central "hot line" number to call for MIC services for life-threatening emergencies such as heart attacks or major accidents.

## Law would require city employee residency

By R. R. Fuzerewski

Residents of Rahway would be given preference when applying for jobs in city government if an ordinance introduced at Monday's City Council meeting becomes law after its public hearing and possible final adoption on Monday, Sept. 14.

According to City Business Administrator Joseph M. Hartnett, this policy has always been the practice in Rahway, but the state Civil Service law now requires an ordinance to be adopted clarifying the policy.

He did state, however, the city cannot force those who are on the various lists to remain residents once they are employed, because this is against state law.

At the suggestion of Councilman-at-Large Walter McLeod, however, the Council's attorney, Charles Brandt, was instructed to draw up a resolution requesting the Legislature to change the state law to make residency a requirement.

An ordinance was adopted 5-4 along party lines, with the Republicans in favor, to lower the following fees for copies of documents provided by city agencies:

"Certified copy or resolution or ordinance supplied by city clerk, from \$1 for first page to 25¢ and from 50¢ to 10¢ for each additional page."

Copies of documents other than those listed above furnished by the municipality, lowered from 50¢ for the first to 10th page and 25¢ for the 11th to final page to 10¢ for any number of pages. The new ordinance, as originally proposed, had asked for only 5¢ for pages over 10, but Councilwoman Irene F. Rinaldi, pointing out the five-cent fee wouldn't be worth the effort of making the copy, moved for the 10-cent across-the-board fee.

In support of the ordinance, Adam Mackow of 1990 Luthery St. said the high fees previously charged had violated the rights of citizens to know what is going on in Rahway.

Although Mr. Hartnett disagreed with those who would like to see the fees eliminated altogether, he said it was an infringement on the rights of the city's taxpayers to ask them to pay the freight for someone such as a developer to come in anytime he wanted and make copies of lengthy documents for his own use.

He added, "Everyone should pay his own way."

An ordinance to give city residents better protection against thefts of precious metal objects was unanimously adopted.

It requires a license fee of \$25 per year for those who specifically set up businesses to deal in precious metals.

The councilmen explained the measure and the fee are patterned after those in other communities to enable police to trace stolen precious metals.

The license will have to be purchased from the city clerk, and the chief of police will make an investigation of the dealer and his employees to make sure they have not been convicted of a crime before a license is issued.

A clarification was made in the ordinance to allow for the dealing of coins worth under \$500.

Mr. Brandt explained the police chief had requested the \$500 limit to make it easy to trace valuable stolen coins without infringing on the rights of private hobbyists.

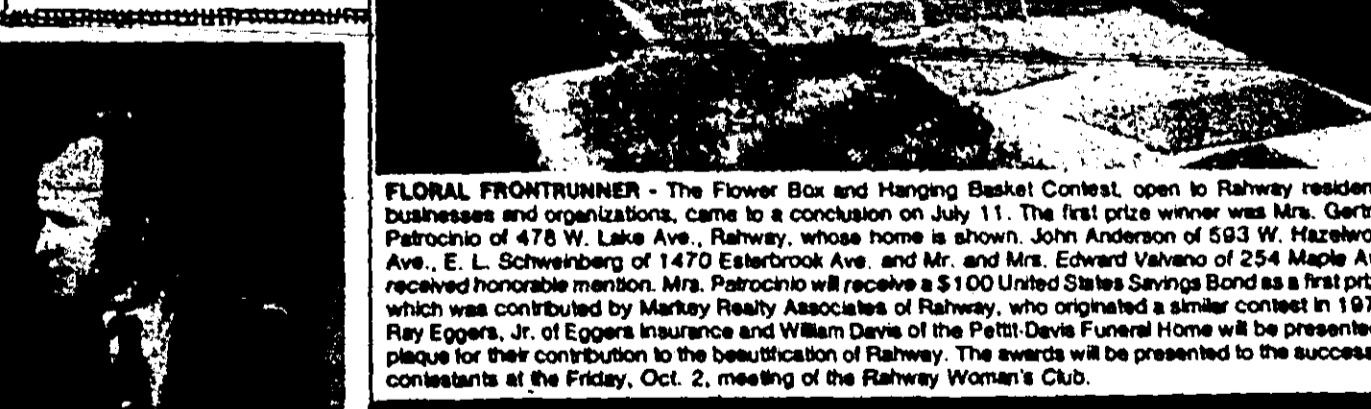

## Nuclear waste no big bang

The problem of what to do with nuclear wastes may be overmagnified.

The wastes from one year's operation of a 100-megawatt plant would easily fit under a card table, while the ashes alone from a 1000-megawatt coal-fired plant would fill 40,000 trucks, it has been calculated.

Each of the parodies has spent a minimum of 150 hours in training at the College of Medicine and Dentistry of New Jersey, as well as an additional 350 hours of clinical training at both Memorial General and Overlook.

All paramedics in the system, both paid and volunteer, are certified.

## Golden Agers' officers to be seated Sept. 2

Rahway's Golden Agers Club closed the past season's meetings with a picnic behind the Rahway Senior Citizens Center at 1106 Euterbrook Ave. About 200 hundred attended.

A catered affair, was arranged by president, Mrs. Josephine Parris with vice president, Mrs. Hazel Parris, and her helpers.

The guests were city recreation superintendent, Richard Glinka and Mrs. Cheryl Mackey and Mrs. Lorraine Wright, both from the Rahway Recreation Dept.

The first meeting of the 1981-1982 season will be held on Wednesday, Sept. 2.

The incoming president is Mrs. Parris, and the other officers are Vice president, Mrs. Rita Colgan, corresponding secretary, Mrs. Ann McWhorter, recording secretary, Miss Helen McWhorter and treasurer, Mrs. Colanda Longo.

The club will sponsor a trip to Saratoga, Fla. West Coast Wonderland from Monday to Friday, Oct. 25 to Nov. 6.

The tour will leave the Rahway Senior Citizens Center at 1106 Euterbrook Ave., Rahway on Oct. 25 at 8:30 a.m.

The tour rate will include round-trip transportation via a deluxe, air-conditioned, lavatory-equipped, 47-passenger motor coach with reclining seats. Four nights, with motel accommodations enroute, seven nights' accommodations in Saratoga at the Azure Hotel on the Gulf and 14 meals on a dine-in-Round plan will cost only \$400 per person twin or triple occupancy and \$225 single occupancy per person.

For more information, please telephoned 381-1851 after 4 p.m.

## Fulcomer proposes state courts funding

A fight for legislation to have the state take over all court expenses presently financed by county property taxes as part of a program for property tax relief was announced today by District No. 20 Assembly candidate, James J. Fulcomer of Rahway.

The Rahway South Ward councilman said the effect of a state takeover of court expenses would be to cut property taxes in Union County by millions of dollars, leading to a much better tax situation for homeowners in Rahway and other municipalities.

## Flea market set in Wayne for retarded

The Wayne Valley High School One-to-One Committee for the Mentally Retarded will sponsor a flea market on Saturday, Sept. 16, from 9 a.m. to 5 p.m. The market will feature a wide variety of items, including clothing, household goods, and toys. ## Regional body asks adult education aid

An application for a total of \$71,300 in state funds for adult education for the 1981-1982 school year was made Aug. 4 by the Union County Regional High School District No. 1 Board of Education, which governs Arthur L. Johnson Regional High School in Clark.

The funds will be used for the hiring of an adult education director and for courses in high school equivalency, adult basic education and evening schools for the foreign born.

In other action, the school board:

- Increased the teaching salaries of Mr. Gorman Trabert, a part-time teacher at Johnson, to full time to allow for the addition of a second class for the trainable mentally retarded at the township school.
- Approved the employment of Carol Riegel, Charles Drews, Robert Morrow, Anita Williams, Dorothy Watter, Maxine Samwick, Myrna Schneider, and Karen Vinasour, child study team personnel, this summer.
- Hired Lou Jenner, a librarian, Robert Taylor, a science teacher, and Eugene Fox, a librarian, for the 1981 summer school.
- Agreed to the employment of the following personnel in summer personnel in summer workshops: John Redfern, science; Robin Edstrom, science; Robin Edstrom, science; Robin Edstrom, science.
- Agreed to the resignation of Michael Rea, a teacher of special education at the township school.
- Agreed to the resignation of Michael Rea, a teacher of special education at the township school.

## Letters to the Editor

### Mona Zudiker asks 'real' Mideast peace

All of us who yearn for the day when Jew and Arab alike may live in peace, in dignity and in security despite the fact that civil wars on both sides of the Israeli-Lebanon border have been raging for years.

The Israeli officials have publicly expressed regret at casualties resulting from the Beirut bombing. The Palestine Liberation Organization is boasting still of its killing of Israeli men and women and children. Just last week they boasted of an attack on a bus which took the life of an unborn baby.

For the Jewish people, whose faith holds that even one life is as precious as the entire world, the escalation of violence was troubling. With the welcome announcement of the ceasefire, we rejoice.

However, it is wrong to forget who is responsible and who is launching a new series of attacks. It is also wrong to forget there is only one cause of fighting. "The PLO vows to reject the Zionist presence in Palestine."

The PLO is neither a government nor an army, but it has developed the peaceful leadership of Lebanon by turning it into a base from which to carry out its war against Israel. The recent ceasefire confirmed Israel's use of the time to re-group and re-arm, and it is feared they will do so again.

In addition, the Israelis can remember the agreement under which they removed their troops from southern Lebanon in 1978 was quickly broken by the re-introduction of terrorist units, even with the presence of the United Nations troops.

At the same time Israel has accepted the ceasefire the PLO is bragging of its weapons which can hit civilian kibbutzim, agricultural settlements, and towns in northern Israel which are only 20 to 30 kilometers away. Thus the PLO can now strike Israel from north of the Litani River.

Yes, all Jews deserve the killing of any human being. Yes, we welcome wholeheartedly the ceasefire and pray it will last. But we ask also all men and women of goodwill understand the situation from both sides and then join with us in searching for a true peace in the Middle East, and not one which is based on the PLO goal of the obliteration of the state of Israel.

**Energy 'savings' could prove costly**

Here are five words which should make you suspicious when you are buying anything that uses energy. It will pay for itself.

Any claim about an energy saving feature on a car, appliance or on a heating or cooling system should be viewed cautiously. Salesmen and pressure tactics may emphasize only positive predictions and obscure or leave unfavorable data.

Whenever you are faced with a claim energy savings will allow a unit to "pay for itself" make the following analysis:

First, how much time will it take for the pay back to be realized? What is the basis for this calculation? Is the pay back time prediction merely a hyped up promotional gimmick based on unrealistic assumptions or is it based on real world experience?

Second, demand all claims be backed up by documented, independent tests. Look at test results yourself. Don't rely on a salesperson's testimonials. You should understand there is a big difference between objective data from controlled, scientific tests and merely subjective, personal testimonials from satisfied customers.

Even if it is signed by three notaries and sealed with a

## Report From Washington

### Matt Rinaldo

#### 12th District, New Jersey

### Fighting inflation needs group effort

Inflated prices and high interest rates have turned the American dream of home ownership into a financial nightmare for thousands of Union County residents.

In just three years the median price of a house and monthly mortgage costs have climbed by more than 60%.

The number of first-time homebuyers has declined by as much as 50%, and housing sales are off 25% from 1979.

Economists estimate that less than 5% of all households can now afford a new home, and that figure will continue to dwindle unless rising costs are contained.

Since 1970 the cost of home ownership, principle, interest, taxes and insurance on a median-priced house, has risen at an annual rate of 13.8%, and has been projected by some market observers to continue climbing at a rate of 10% or more.

The median price of a home in Union County has increased from \$27,300 in 1972 to \$55,000 today. The monthly mortgage on the median-priced house has increased over the same period from \$180 to \$1,000 a month.

These grim statistics have had a devastating impact on the county's building industry. Hundreds of new home-construction projects are being lost annually in the county.

Millions of dollars are being drained from the economy as scores of construction jobs are lost. Additional dollars in tax revenues that would have been derived from the construction are lost to the county and municipalities.

Based on current activity in the housing industry, the National Association of Homebuilders is anticipating a 14% reduction this year in housing starts in New Jersey. New starts are expected to tumble from last year's 231,000 to 197,000. At the same time, unemployment among construction workers is expected to average about 14% for the year.

The slump in the housing and automobile industries has seriously disrupted the economy. The problem is not only due to the fact that 25 years the trend has been toward a larger and more expensive car, but also the fact that the policy to let for several consecutive years of double-digit inflation has raised the rate for long-term loans to 15% and a national debt approaching \$1 trillion.

Finally, Congress has taken positive action to stimulate the economy by passing the President's budget and tax cuts. Draconian reductions have been made in government spending for next year, and the cuts will continue through fiscal 1984.

It is estimated all Americans will benefit from savings of approximately \$140 billion in reduced government costs over the next five years.

These pending cuts, combined with the 25% across-the-board reductions in individual taxes, will provide incentive for the individual and incentives for business to prosper.

Signer ring and box was a personal testimonial from Mrs. X. in Topeka, Kansas the W.B. Frazier Fuel Filler saved her 50% on her heating bill does not mean you will save even a nickel. There are just too many variables among individual cases to rely on testimonial claims.

In evaluating energy-saving devices, you should closely examine any warranty or guarantee. The most important way to evaluate a claim is to examine the proof, which back it up.

Who offers the warranty? The dealer? The manufacturer? How long does it last, what does it cover and what remedies does it provide? There are all these questions that must be answered before you.

Be certain you understand clearly the requirements for federal and state tax credits. Check with the Internal Revenue Service devices qualify. Remember, a sales person's primary motive is to sell, not to help you minimize your tax liability.

### Young men receive draft signup notice

Young men who reach their 18th birthday are required by law to register with the Selective Service. At any Post Office.

To register within 30 days of his birthday, a man must fill out a registration form which asks for name, address, telephone number, date of birth, and social security number.

The purpose of this is to maintain a computer file of all young men born in 1963 and later years who could be called into military service.

Registration and Selective Service are two different things. Registration is required for all young men. Selective Service is required for those who are drafted.

To date, nearly six million young men have registered. Failure to register is a felony, punishable by a maximum penalty of a \$5,000 fine and/or five years in prison, he concluded.

### Mrs. Sinnott backs one county college

A proposal the Rutgers University model be adopted for Union County's community college system to "save the taxpayers money and provide long-term solution to the financial crisis facing the Union County Technical Institute" was made today by Union County freetholder chairman, Mrs. Rose Marie Sinnott of Summit.

Under Mrs. Sinnott's proposal following the precedent of Rutgers University, the privately managed Union County Technical Institute should be sold to the publicly owned Union County Technical Institute to form a new public county college.

In evaluating energy-saving devices, you should closely examine any warranty or guarantee. The most important way to evaluate a claim is to examine the proof, which back it up.

Who offers the warranty? The dealer? The manufacturer? How long does it last, what does it cover and what remedies does it provide? There are all these questions that must be answered before you.

Be certain you understand clearly the requirements for federal and state tax credits. Check with the Internal Revenue Service devices qualify. Remember, a sales person's primary motive is to sell, not to help you minimize your tax liability.

NEW OFFICER - Arthur W. Burns joined the Summit and Elizabeth Township Co. as an assistant vice president of the Corporate Banking and Lending Division. Mr. Burns earned his Bachelor of Science degree in Commerce from Row College in Lawrenceville, and was formerly associated with a central New Jersey bank, Summit and Elizabeth, as Vice President.

### Releases must meet new policy

The Railway News-Record and The Clark Patriot will no longer accept unsigned letters to the editor or political press releases.

As of the Thursday, March 19 issue, all letters and political releases must be signed and include the full names and addresses of all persons submitting them.

In addition, those submitting letters and releases must come to the offices of the papers at 1316 Lawrence St., Rahway, in order to pick up affidavits to signify the authenticity of the letters and releases.

These affidavits may be notarized at the paper's office or by another notary public.

They must be back in the hands of the editor of the paper by 5 p.m. on Thursday before publication.

### Phobia classes to be held in county

The Phobia Release Program, known as PRP, sponsored by the Mental Health Assn. of Union County is now accepting applications for the fall session.

Held weekly for persons with diagnosed phobias, the program offers group therapy, individual direction and practical instruction in fear-management techniques under professional supervision.

Registration and Selective Service are two different things. Registration is required for all young men. Selective Service is required for those who are drafted.

To date, nearly six million young men have registered. Failure to register is a felony, punishable by a maximum penalty of a \$5,000 fine and/or five years in prison, he concluded.

### NAACP sponsors forum on youth

The Railway Chapter of the National Assn. for the Advancement of Colored People recently sponsored a youth forum at the John F. Kennedy Community Center at 796 E. Hazelwood Ave., Rahway.

This workshop featured the following speakers, who spoke on various topics: Mrs. Catherine Brooks, director of urban counseling of adolescents at the New Jersey College of Medicine and Dentistry in Newark.

Dr. Irene Lewis, associate dean for research at Rutgers University, and Mrs. Elizabeth Allison, director of urban counseling of adolescents at the New Jersey College of Medicine and Dentistry in Newark.

The admission fee forum was attended by youth and their parents from various parts of New Jersey.

"Since youth are the key to the future, we must prepare them now for the challenges ahead," said Dr. Lewis.

Both evening and daytime sessions are open. Registration is required. For information regarding fees and application please telephone 359-0900.

### Lad, Lula look for friendly foyers

At Kindness Kennels at 90 St. George Ave., Rahway, many pets are in search of homes. Two of the most popular are Lad and Lula.

Lad, No. 399, is a tan and white, all-American female dog who is in need of a home with people who can spend time with her.

Lula, No. 435, is a large, male Collie who is an exact replica of "Lassie," the television star. Lula was found roaming the streets of Colonia in Woodbridge in 1980.

The kennel is looking for a loving, responsible owner for these two dogs. They are available for adoption for \$100.00. For information concerning these dogs, please telephone 353-2500.

CALLING GOURMETS - At the food preparation class sponsored by the Union County Comprehensive Employment Training Act program being held at the Union County Regional High School District No. 1 students on the campus at lunchtime. The menu consists of sandwiches, salad, dessert, and beverage. In addition to the food service, the students learn to handle money, preparing a meal, serving, and cleaning up. The class is held on Thursdays at 12:30 p.m. at the Union County Regional High School in Clark.

### Red Cross cautions on dodging lightning

In the wake of recent severe lightning storms, Walter T. Cooker, disaster chairman for the Greater Union County Chapter of the American Red Cross, reminded area residents there are precautions that should be taken in regards to lightning.

If swimming or in a small boat get out of the water.

If you are in a wooded area seek shelter in a low area under a thick growth of small trees or bushes. Never seek shelter under a tree or on high ground.

If you are in a vehicle, keep your hands and feet inside the car. Do not touch anything outside the car.

If you are in a building, avoid using electrical appliances. Do not use a shower or bathtub. Do not use a corded telephone.

If you are in a field, avoid standing in open areas. Do not touch anything metal.

If you are in a car, avoid using the car's radio or other electronic equipment.

If you are in a boat, avoid using the boat's engine or other electronic equipment.

If you are in a plane, avoid using the plane's electrical system.

If you are in a train, avoid using the train's electrical system.

If you are in a bus, avoid using the bus's electrical system.

If you are in a truck, avoid using the truck's electrical system.

If you are in a car, avoid using the car's electrical system.

If you are in a boat, avoid using the boat's electrical system.

If you are in a plane, avoid using the plane's electrical system.

If you are in a train, avoid using the train's electrical system.

If you are in a bus, avoid using the bus's electrical system.

If you are in a truck, avoid using the truck's electrical system.

## Keeping your cool during mid-summer

Midsummer heat probably has you thinking about ways to keep cool.

The safety director of the Red Cross first aid programs, Dorothy Kotuby, says there is a lot that can be done to protect ourselves from illness or death during these torrid months.

The best advice, she noted is enrolling in a Red Cross first aid class. "It gives a person solid grounding in the prevention of heat and in first aid for, if not, heat and injury," she explains.

Should there be no time for such training, the U.S. Coast Guard gave the following advice:

Excessive heat can cause the body in a variety of

ways, which result in several conditions referred to as heat stroke, heat cramps or heat exhaustion. Heat stroke is characterized by extremely high body temperature. The skin is red, hot and dry. The pulse is rapid and strong and the person may be unconscious. This is an immediate life-threatening problem. The person should be cooled immediately, cool the body should be taken. Get the victim out of the sun, undress the victim and sponge off the skin with wet, cool

abdomen are likely to be first affected. Give the victim sips of salt water, half a glass every five minutes, over a period of 30 to 45 minutes. Exert pressure with your hands on the cramped muscles, or gently massage them, and use warm applications to help relieve the spasm.

**Heat exhaustion** is characterized by fatigue, weakness and collapse. The skin is white, pale, cool and clammy. Victims usually complain of great weakness, nausea, and dizziness and

perhaps cramps. Get the victim to a shaded, cool place. Give him sips of salt water every five minutes. Elevate and raise his feet about 12 inches above the level of the head. Be sure to loosen clothing.

People should avoid lying out in the sun, except for short periods of time, during the hottest part of the day—early morning and late evening. Also, avoid time while in the sun when one has to go out.

For those who work in the sun or do

the heat of the day or the elderly be sure to limit salt intake and take frequent rest breaks. It is most helpful to sponge bathe at intervals during the day. Be sure to drink plenty of liquids, non-alcoholic, and keep to available shade.

If indoors without air conditioning, use fans to circulate the air. Open windows in the house or building to promote air circulation.

Eat nutritious meals to maintain strength. Consult with your doctor if you have special health problems or on special diets. Increase your water intake.

For more information, contact any Red Cross chapter. Further information may also be obtained from any Red Cross First Aid textbook.

---

Time must be taken away from people who are not working. People find happiness in many different ways some find it in their work, some find their right

**Karen Dziak**  
**on dean's list**

A township resident, Karen Marie Dziak, 21, of Devon, La., was named to the dean's list at the University of Delaware in Newark, Del., for the spring semester.

In order to achieve honor, the junior major in technology must maintain a grade-point average of at least 3.25 on a 4.0 scale.

**BRUSHING UP** - Students in the building and grounds maintenance program sponsored by the Community Comprehensive Employment and Training Act program spend a few weeks at each high school working to keep the buildings and grounds of the United County Regional High School District No. 1, which includes Arthur L. Johnson Regional High School in Clark, in good condition. Cleaning up teachers shown, left to right, are Phil Venezia of Arthur L. Johnson Regional High School in Clark, Ed Moore of David Brainerd Regional High School in Kew-Forest, Harry Brand of Johnson and Steve Kucera of Gov. Livingston Regional High School in Brainerd Heights.

**RIGHT KICKER** - Rachel Hesse demonstrates her kicking ability at the Rahway Recreation Dept. Soccer Clinic held at Green Field in Rahway.

**Future Peles kick for victory at clinic**

**PELE PROTEGES** - Some of Rahway's future soccer stars are shown with their directors, top, Chris O'Brien, left, and Richard Demaree, center, and sports supervisor, William Hensch, right, at the annual soccer clinic held at Green Field in Rahway.

**CANADIAN CAMPERS** - Members and leaders of Rahway Troop No. 47 of the Boy Scouts of America are shown before departing for summer camp in Haliburton, Can., on July 25. The group stopped at Niagara Falls then went on to Haliburton, returning on Aug. 2. They were led by Ed McLean, scoutmaster.

### Hospital appoints Theodore Ketcham

A spokesman for Rahway Hospital announced the recent appointment of Theodore Ketcham as radiology administrator. He came to Rahway Hospital from United Hospital in Port Chester, where he had also served as radiology administrator.

Mr. Ketcham completed a two-year program in radiology at Memorial Sloan-Kettering Cancer Center in Manhattan. He remained there to teach in the school of radiology, and ultimately assumed the position of chief technician.

After 12 years at Memorial, he became chief technician at Morrisania Hospital, then went on to serve as administrator of

### Delaware cites Miss Edelberg

A Rahway woman, Cheryl Dee Edelberg of 921 W. Lake Ave., received her bachelor of science degree from the University of Delaware in Newark, Del., on Saturday, June 6.

### BRAND NEW!

Did you forget to check your number? If so, look inside. The N.J. State Lottery Numbers are published every week.

### Joan Chilikos gets degree

A Rahway scholar, Joan Ann Chilikos, was awarded the bachelor of music degree in education at Ithaca College's 86th commencement exercises in May in Ithaca, N.Y.

Miss Chilikos is the daughter of Mr. and Mrs. Nicholas W. Chilikos of 662 Maple Ave. At Ithaca she was in the college orchestra and in the string orchestra, and player in the pit orchestra for the production of "La Perichole," an opera.
