

## Marsh waste plant move ruled illegal; voted down

By R.R. Faszczewski  
An attempt by Second Ward Republican Councilman John C. Marsh Monday to amend the resolution adopted by the City Council last month on a referendum on the resource-recovery facility proposed for Rahway was turned back by a 6-3 vote.

The Marsh resolution said the measure passed last month was misleading, a 'yes' vote on the August measure would lead the city administration to erroneously conclude the four conditions set forth in the August resolution before the waste-to-energy plant could be built were the only ones of concern to the city's voters and a 'no' vote would leave the administration and voters in doubt as to what conditions the voters had rejected.

It also called for the only question to be placed on the Tuesday, Nov. 5, General Election ballot on resource recovery to read, "Do you favor the construction in Rahway of a resource recovery facility (waste-to-energy garbage incinerator), available for use by all Union County municipalities?"

Prior to the vote Council attorney, Louis Rainone, advised Councilman Marsh the legal time limit for placing a new referendum on the November ballot had already passed and his resolution would be "a nullity."

Councilman Marsh replied as far as he was concerned as long as a coun-

cilman wished to put something on the agenda he should be allowed to do so.

However, Councilman-at-Large James Cadigan, denying Councilman Marsh had spoken to the county clerk to get advice on whether the referendum could still be changed, as Councilman Marsh said he had, said the item shouldn't be on the agenda.

Councilman Marsh replied although a person in the county clerk's office had told him that office could not render a legal opinion a spokesman for the office had told him to submit the referendum wording and let the county attorney rule whether it was legal or not.

The Second Ward representative said the wording in his resolution was the same as that in the one originally proposed before the Governing Body amended the referendum resolution last month.

Responding to claims the Marsh resolution could not be put on the agenda because the city clerk had not been notified of the title and content of the resolution before he made up the agenda last Friday, the co-sponsor of the measure, First Ward Democratic Councilman Jerry L. Coleman said the August resolution had been presented the night of the August regular meeting and it had been placed on the agenda.

Councilman Coleman also said the Council should have a second legal opinion as to whether the Marsh

resolution could legally be put in as a referendum question.

Mr. Rainone replied the absolute final time limit for putting a referendum on the November ballot was 60 days before the election, and that time limit was meant only to apply to cases in which voters had submitted a petition for a referendum to be changed.

He also said the county counsel would probably not give his opinion on the matter unless a lawsuit was filed on it.

Responding to the Coleman charge about the August measure being placed on the agenda at the meeting, Sixth Ward Republican Councilman James Fulcomer, who sponsored that measure, said the title had been submitted to the city clerk in advance and only the content had been changed.

City Business Administrator Joseph M. Hartnett told the councilmen responsible public officials should not vote for something on which they have gotten advice is a legal "nullity."

Councilman Fulcomer called the Marsh proposal "partisan" against resource recovery. He said his resolution was neither for nor against resource recovery and gave the voters the chance to make up their own minds.

He added under the Marsh measure the city would have to accept the plant in the form the county chose to build it if the voters

okayed it and it would compromise the city's negotiating position.

The Sixth Ward representative said his resolution would set forth the four conditions under which the city would accept the plant and the plant would be accepted only after those conditions were met satisfactorily.

Third Ward Democratic Councilman Max Sheld called the Marsh proposal a political diatribe which would never have any legal force.

Councilman Coleman, however, asked if conditions were to be put in the referendum why couldn't the negative factors involved with the plant be put in also — such as the state can manage other communities besides Union to use the plant, it is almost impossible to control truck traffic coming to and from the plant, property values would probably go down if the facility is built in a residential area and the level of dioxin which the plant might emit.

Fifth Ward Councilman George Wagenhoffer, who joined Councilmen Marsh and Coleman in voting for

the measure, said he could only have supported the August resolution if the words "if and only if these conditions are met" were included in the referendum to make it clear the city would not accept the plant without the conditions being met.

He also said if the Council attorney believed the Marsh resolution could not legally be put on a referendum it should be passed by the Governing Body and then settled by attorneys later.

Councilman Wagenhoffer also objected to what he said were "games being played" at the beginning of the meeting — when Mr. Rainone had asked Councilman Marsh if he would be willing to have the August resolution rescinded to enable the Council to pass his measure.

Responding to Mr. Hartnett's charge the Council members were being irresponsible by voting on something that had been advised was illegal, the Sixth Ward councilman said he had been elected and had kept the public trust in his ward by resolving many

issues of concern to his constituents and had not changed in his view of that responsibility.

Responding to a question from a resident, Edward Robertson of 1253 Clark St., later in the meeting, Mr. Hartnett said under present state law Union County was required to provide its own solid waste plant and the other counties were required to provide their own or come up with a definite plan for disposing of garbage.

He added present plans call for the design capacity of the Rahway plant to be 1,500 tons per day and the city would definitely make sure the agreement with the county made it perfectly clear the plant was not to be expanded.

### City announces playground winners

The Meyer L. Stein Award is donated by a Rahway citizen in memory of Meyer L. Stein, who gave his life for his country during the Second World War.

The award is given to the outstanding boy and girl enrolled in the summer recreation program.

Playground leaders submit a summary on one boy and one girl from their playgrounds. Included in

this summary are the following: Contributions to the program, citizenship, attitude, behavior, willingness to work with others, attendance, participation in inter-playground competition and a general paragraph on why they think the child should receive the award.

This year's winners were Donna Darrien of Williams Field and William Young of Showell Field.

**SUPER STARS** ... At the awards presentation to the winners of the Rahway Summer Playground Annual Meyer Stein Award, presented to the outstanding boy and girl in the playgrounds, shown, left to right, are: Richard Gonsky, Rahway's superintendent of recreation; Donna Darrien of Williams Field, the girls' winner; William Young of Showell Field, the boys' winner; and Jim Laddley, Rahway's summer playground general supervisor. Not shown is Miss Ruth Stein.

**KIWANIS SCHOLARSHIP** ... Susan Kosinski, the winner of the Kiwanis Club of Rahway scholarship, receives a certificate of appreciation from George Argast, a member of the club. Her mother, Mrs. Mary Ann Kosinski, looks on. The scholarship, dating back to 1928, has been given annually to a deserving high school graduate residing in Rahway. Miss Kosinski was chosen by the scholarship committee from the many students who submitted applications. She will attend The Berkeley School. The Kiwanis Club of Rahway meets on Wednesdays at 12:15 p.m. at the Columbian Club in Rahway.

### Arts center offers 'Recognition Seat'

Rahway Landmarks calls it a "Seat of Recognition." Other arts centers have different names for it, but the objective is the same: GIVE CONTRIBUTORS THE OPPORTUNITY TO PROVIDE FINANCIAL AID TO THE PROJECT WHILE, AT THE SAME TIME, PERPETUATING THE MEMORY OF A LOVED ONE VIA AN INSCRIBED PLAQUE ON THE BACK OF AN AUDITORIUM CHAIR.

Rahway Landmarks is a bargain compared with some others. For example, an art center in San Diego requires a \$5,000 donation, spread over five years, for a single commemorative seat-back plaque. (For the same size donation, Landmarks offers a distinctive individual wall plaque in the lobby). The required minimum donation for a Seat of Recognition — only

\$1,000 — total.

It should be made clear the Seat of Recognition is merely a perpetual memorial, and does NOT grant the contributor a permanently reserved seat for attendance at future shows. The honoree may be a person living or deceased, an organization, a pet, a memorable event... There are no specific stipulations.

However, the wording will be negotiable, the number of words being limited mainly by the approximately four-by-six inch uniform size of the plaque. Location within the auditorium may be freely chosen from among available seats in designated areas.

As a bonus the contributor will be granted a three-year complimentary

membership in Rahway Landmarks (the non-profit organization operating the arts center), and the honoree's name will be listed in all future printed programs. Membership benefits include receipt of the Arts Center Newsletter (six issues per year) and discounts on souvenir items and on tickets to certain events.

Act Now... this offer will be limited to the first 200 seats only, and will then be increased to \$1,500 and up per "recognition" ... Send in your check now to Union County Arts Center — Seat of Recognition, Post Office Box 1061, Rahway, N.J. 07065.

**HOLDERS OF CROWN** ... Members of the Riverside Auto Parts team, the Rahway Recreation Dept. Men's Slowpitch Softball League Eastern Division and league champions for 1985, shown, left to right, are: Front

row, Hugh Tracey, Gerry Duffy, Pete Daniele, Paul Maurer and Ben LaSalle; rear row, Mike Fernandez, player-manager, Chuck Specht, Dan Shively, Dave Kables and Tom Butler.

PLANNING FUNDRAISER... Cub Pack No. 30 from Clark-Linden is planning its 10th Annual Chinese Auction at 7 p.m. on Friday Sept. 20 at Roselle Catholic High School's auditorium. Looking over some of the prizes, left to right, are: Mrs. Darlene Holobinko, ticket chairwoman; Mrs. Caroline Jolly, chairwoman of big business solicitations; Mrs. Loretta Decker, the pack administrator, and auction chairwoman, and Mrs. Linda Griss, the gift co-ordinator. Tickets may be purchased at the door or in advance by telephoning 381-9796.

### Phone customers given ballots

Telephone customers in the Rahway area soon will get the opportunity to choose the company that will provide their long distance service without the need to dial extra digits or use a push-button telephone. Beginning Aug. 26, 27,000 customers in the Rahway area have been receiving ballots from New Jersey Bell listing the names and numbers of the companies offering long distance service for calls outside the 201 area.

This new service is available in the 381, 382, 383, 396, 499, 574, 737 and 740 exchanges serving customers in Rahway and part of Carleer, Clark, Edison, Linden, Scotch Plains and Woodbridge. These customers will have the opportunity to choose a primary long distance company at no charge. They should mark their selections and return the pre-addressed ballot. The New Jersey Bell Telephone Co. then will notify the carriers.

Customers who do not choose a long distance company, after having had two opportunities to make a selection, will be allocated on a proportional basis to one of the companies participating in the allocation process. Previously, customers not making a choice remained with AT&T Communications. After customers have chosen or have been allocated to a primary long distance company, they'll only have to dial "one" plus the area code and phone number to make a long distance call outside of the 201 area using that carrier. Customers also may use other long distance companies, but they'll have to dial a five-digit code plus the area code and phone number to use them. They may be required to establish an account with each additional company for billing purposes.

The new ballot/allocation method gives customers two opportunities to make a choice before they are assigned to a long distance carrier. Customers have nine months after the first notification to select a carrier without being charged. The affected Rahway area customers who do not choose will receive notice of tentative allocation to a long distance carrier at no charge. Customers who select a company and then change their mind will be charged \$5 per line. Final access will be available in the Rahway area on Sunday, Dec. 1, 1985.

### This month honors square dancers

Gov. Thomas Kean has joined with many chief executives across the nation in proclaiming "Square Dance Month" in New Jersey. To celebrate square dance clubs in the area have planned special demonstrations and open houses to introduce the public to this activity that offers fun and wholesome recreation for singles and couples of all ages, reports a spokeswoman.

Locally Y-Squares is planning an open house on Friday, Sept. 27 at the Carl Kumpf School on Mildred Terr., Clark. (Mildred Terr. is off Madison Hall Rd.) Modern Western square dancing, although a traditional activity, is as modern as today and as fresh as the challenge of tomorrow. Today's smoothly-choreographed dance bears little resemblance to the barn dance and is performed to modern melodies as often as to traditional tunes, the spokeswoman added.

Anyone who completes a series of lessons covering the basic steps may dance with clubs all across the United States, Canada and many foreign countries around the world, she said.

The Northern New Jersey Squares Assn. consists of 40 member clubs located throughout New Jersey, New York and Pennsylvania which hold dances every night of the week. Many of these clubs sponsor beginners classes that start in the fall.

**Unit trusts--Secret worth uncovering**

Editor's Note: Following is the sixth in a series of columns on financial planning by Jennifer Hicks, a financial consultant with Shearson Lehman/American Express, Inc. of East Brunswick.

To most people the word "trust" means an investment portfolio set up by their children and administered by a bank trust officer. But that's not what you're looking for. A unit trust is a professionally-selected portfolio of high quality securities - municipal or corporate bonds, federal government debt obligations or dividend producing stocks, such as utility issues.

It is designed to preserve capital and produce a high current income for investors. The portfolio is fixed, which simply means the securities selected for the portfolio are not actively bought and sold but are held until maturity.

These investments are called trusts because the actual securities are held "in trust" by a bank, which collects the interest, dividends and principal as they mature and sends regular payments to investors. However, investors need not deal with the trustee bank; they can simply buy and sell their units through a brokerage firm - called the sponsor - that has "packaged" securities into a trust.

Each unit trust produces a specific current yield, which is set forth in the prospectus you receive from your broker. The rate is not fixed; it varies with the price of the underlying securities. Each unit trust produces a specific current yield, which is set forth in the prospectus you receive from your broker.

**Ex-Record editor edits 'Family Letter'**

A Rahway native, Anthony J. Palisi, who holds a doctorate in education, and Mary D. Kelly, doctor of philosophy, have taken the "positions" of editor-in-chief of "Family Letter," the newsletter of the National Academy of Counselors and Family Therapists, Inc., according to the organization's executive director, Ellen Chalmers.

Assuming the editor's role brings Dr. Palisi full circle. Early in his career he served The New Jersey Record as both interim editor and sports editor. A column published in the News-Record brought him the title of "Who's Who" in the newspaper industry.

Unit trusts are custom-designed to meet specific investment needs. For example, Shearson Lehman Brothers offers six different municipal bond portfolios, each containing stocks thoroughly researched by fixed-income analysts.

You can choose a portfolio of long-term (20 to 30 years), short-term (three years) or intermediate (10 to 12 years) bonds. Investors of certain states can invest in a portfolio of bonds from their home state for a tax-exempt amount. Finally, there are floating-rate and safety deposit-like unit trusts, although at a somewhat lower rate of return. A similar range of choices exists for corporate, federal government and equity unit trusts.

Confab to explore workplace smoking

Industrialists from all over New Jersey will meet during the first week of October to finalize plans for their compliance with the new state laws on smoking.

Mathew Martin, of the state department of health, said reservations are being received from chief executive officers, personnel directors and others representing firms with 50 or more employees.

Sponsored by the Interagency Council on Smoking and Health, including 23 New Jersey public and private health, government, and related agencies, the seminars were planned by the Respiratory Health Assn., the New Jersey Division of the American Cancer Society and the New Jersey Group Against Smoking Pollution (GASP).

Invitations have been extended to the thousands of members of the New Jersey Business and Industry Assn., the Meadowlands Chamber of Commerce, the Essex-Clifton Chamber of Commerce.

Identical agendas at the three seminars will advise on policy and introduction of policy to employees, avoidance of legal and labor problems, reduction of health-care and insurance premiums, opportunity for employee health.

Heart group starts new unit in area

The first strictly local unit of the American Heart Assn. in the state, to be named on a volunteer basis, will begin organizing next week as the Clark/Rahway Unit.

He pledged one of the major goals of the Clark/Rahway Unit will be to acquaint local residents with the importance of reducing the risk of heart disease by learning to eliminate smoking and eat the proper foods to reduce cholesterol.

County to open 18th nutrition site

County Manager Louis J. Coletti announced the Union County Nutrition program for the elderly will open a new nutrition site at the Westfield Community Center in Westfield, bringing the total number of sites to 18.

The Union County Nutrition program, which began in 1972, is a federally-funded project operated through the Union County Dept. of Human Services Division on Aging.

Participants must be 60 years of age or older or be married to a person 60 years of age or older. Each participant is asked to make a 75-cent donation. Funds collected are used to offset the cost of the meals and to expand the program.

According to Mr. Coletti much of the program's success is attributed to the success in how many of the who contribute the 75-cent donation.

This program is a great example of people and government joining forces to improve the quality of life for the elderly and the quality of services offered to the community, he said.

Book focuses on newspapers in suburbia

The story of the behind-the-scenes struggles by New Jersey's newspaper owners to survive and prosper since the 1950s is told in a candidly-written book published recently by Rutgers University's Center for Urban Policy Research.

The book, entitled "The Press and the Suburbs," tells the story of an even larger theme affecting America's fourth estate: The necessity for newspapers to adjust to the suburbanization of American life if they are to succeed.

Information for the profiles was also drawn from interviews with reporters, editors and publishers; an examination of the papers' historical background and previous studies of the papers.

### People-to-People Service

**"Sometimes the elderly need extra help."**  
*Patricia Ebron, Service Representative  
Newark Customer Service Center*

That's why we've prepared this special booklet for senior citizens.

**Special Assistance Programs**

You'll find information on many of PSE&G's services, but the information on PSE&G's special assistance programs could be of particular interest to you.

Our **THIRD PARTY NOTICE SERVICE** can be used by anyone, but it can be especially helpful in trying to prevent loss of service for the elderly or handicapped. Sometimes, due to a financial or health crisis, they might not respond to notices of overdue payments. If a relative or friend agrees to act as a "third party," they will get copies of any overdue payment notices sent to the customer. While the Third Party is not responsible for payments, they will be alerted to the problem so they can let the customer know. This program also works well for those with reading or language difficulties.

There's an explanation of the **LIFELINE CREDIT PROGRAM** administered by the New Jersey Department of Community Affairs. This program is designed to assist qualified senior citizens and disabled persons in paying their energy bills.

If you depend on **LIFE SUSTAINING EQUIPMENT**, such as respirators or dialysis machines, we can give you service restoration priority if there is an electrical outage which affects your service.

You'll find full descriptions of all these programs in the booklet, with details on how you can participate. There's a lot more information included so you'll want to keep it handy for the times you may need it — such as how to reach emergency personnel at any time of day, or billing and payment information.

Send for your copy today by filling out the coupon. Or ask for one next time you visit one of our Customer Service Centers.

**That's people to people service**  
We want to help you use energy more wisely too. Look for our "Seal-up and Save" energy conservation messages with your bill, or in your local newspaper.

Please send me a copy of the Senior Citizen Handbook of PSE&G Services.
