Poppies symbol of sacrifice

For many years, red poppies have been worn proudare draws near, we would like to tell you about this flower's significance and the purpose of Poppy Day, We in this country wear the Poppy once a year to signify the feeling of reverence in our hearts for the servicemen who died for America during the two World Wars, the Korean War and Vietnam Conflict. The Poppy is their flower. It grew on the battlefield of Europe where so many men fought and died and it has become the symbol of their sacrifice.

In addition to serving as a memorial to the War dead, the Poppy helps lighten the burden carried by the men who returned disabled in mind and body. Making poppies gives employment to veterans who otherwise might not be able to earn support for themselves and their families. Funds from Poppy Day sales enable the American Legion and American Legion Auxiliary to meet this need. Dimes and dollars contributed during this period go directly into the rehabilitation and child welfare programs of these organizations. The person whom you receive your Poppy from is a volunteer; their only pay is the satisfaction they receive for devoting time and effort for a worthy cause to honor the war dead by assisting the living. This is the true significance of Poppy Day.
