#### Residential tenant rights

I would like to believe that it was the successful jury verdict which I obtained on behalf of my former clients in their products liability suit against a major manufacturer which brought them back to my front door with their latest problem. I was a bit disappointed to learn that it was the availability of a parking space in front of my office rather than that of my competitor up the block that prompted my clients return visit. So much for client loyal-

After exchanging pleasantries, my former clients, I'll all them the Khents, explained to me that they were experiencing problems with their landlord. Mrs. Klient nowed me a one paragraph hand written letter from her landlord which simply stated that they were to vacate their premises by the first of the month. Having received the letter only a few days earlier, the Klients were quite naturally upset since the end of the month was only two (2) weeks away. Mr. Klient explained to me that he telephoned his landlord to find out the reason why he wished them to leave the townhouse which they had The Rahway Branch of | States Army where he serv- | rented from him for the past several months. My explanation to the Klients concerning their rights under the law as residential tenants began by my everything that they are told by their attorneys. I was reminded of this shortcoming when Mrs. Klient said that ficers and to enhance their she had an idea of what the term "statute" meant, but was "Throughout United image in communities unsure of its precise meaning, I explained that a statute, such as the Anti-Eviction Act, is nothing more than an act of our legislature declaring, commanding or prostitutional principles, the Committee and is a former known as the Anti-Eviction Act. This Act limits and landlords to reasonable grounds or "good cause" as specifically set forth in the statute. (N.J.S.A. 2A:18-61.1) The stated purpose of the Act is to meet the rental hous-

home without the fear of eviction or lease renewal, thereby protecting them from involuntary displacement. The Klients explained to me that they had no written lease with their landlord and they payed rent on the first of every month. Although the Klient's landlord told Mrs. Denson, served in the U.S. | Force in 1951 and was | Klient, (before the Klients moved in), that no pets were allowed on the premises, Mrs. Klient indicated that the landlord would "horse around" with her poodle, Fee Fee, each and every time he came to collect the rent. During this time their landlord never said anything about the presence of Klient's pet poodle. Mr. Klient also told me that he knew, from a conversation he had with a neighbor, that their landlord did not actually intend to live in the townhouse, but, in fact, wished to rent it out to his best friend who had recently separated from his wife.

ing shortage by affording residential tenants the right, ab-

sent "good gause" for eviction, to continue to live in their

Armed with the information provided to me to the Klients, I explained their rights to them under the Anti-Exiction Act. The requirements for proper notice for residential tenants to vacate the rental premises is governed by N.J.S.A. 2A:18-61.2. The form of notice, manner in He has received leadership | ficer for the Rahway Police | which it is served upon the tenant and the number of days ahead of time the notice must be served, are spelled out, in detail, in this section of the Act. Generally speaking, in He was active in the Civil | a month to month tenancy situation, such as that of the Rights movements such as Klients, at least 30 days notice is required under the Act. The notice requirements vary anywhere from three days to three years depending upon the grounds or "cause" Carolina, which was the relied upon by the landlord in his endeavors to evict or remove his tenant. I explained to the Klients that the letter they received from their landlord to vacate the premises was insufficient under the provision of the Act as it only provided two weeks notice and did not state the cause or grounds upon which the landlord relied in re-

Concerning the presence of the Klient's dog, Fee Fee, I assured the Klients that due to the fact that their landlord said nothing to them about their dog each and every time he visited the rental premises to collect his rent, the landlord would be considered to have impliedly permitted their dog to be maintained on the premises. In either event, since the landlord did not provide the Khents with written notice to cease, he could not, persuant to the applicable statute, establish "good cause" or

"Soul Man" is a genuinely funny comedy that ocuses on the touchy subject of racism by attacking it with a sense of humor and wit that is seldom seen in comedies today "Soul Man", in essence, is another one of those college comedies that teen audiences flock to eagerly. Yet, this film is miles ahead of predecessors such as "Fraternity" Vacation" and "Up the Creek" because it deals with reallife and heretofore taboo subjects such as racism and interracial romance. The filmmakers can take just credit for taking on these potentially explosive subjects in an inof-

fensive way that ultimately entertains and hopefully enlightens the viewer. The film humorously details the story of a Califorman undergraduate whose decision to enter Harvard Law School is hindered by one thing only - money! Rather han let something as little as this stop him, Mark Watson . Thomas Howell) undertakes a bizarre scheme to hoax a fellowship by pretending to be black. He achieves this by gulping down lots of experimental suntaining pills and us sham appears to be destined for success. The script is unique because this campus comedy doesn't rely on the usual moronic "Animal House" slapstick style so frequently copied by other films of this Rather than divulge all of the humorous chicanaries hat occur, I will reveal that some of Mark's obstacles in-

clude a couple of repugnant bourgeoise snots who taunt him with bigoted black lokes and even more odious is his. landlord's daughter, a campus tart and minority groupic | will also be honored that tager to seduce the young masquerader just because she thinks he is a black man. Scenes like this are broadly lampooned in a near slapstick way that proves to be humorous rather than harmful. Through this all, the har ried young collegian must always be on his guard lest the ill powerful Student Faculty Judiciary Committee iscover his hoax and throw him out of school. Mark's ingenuity and his firsthand discovery of racial prejudice make up a moral as well as comedic core for this film that eleverly sidesteps between farce and Sunday School lecture.

thought provoking coincdy.

The difficult role of Mark is essayed by C. Thomas Howell (last seen in "The Hitcher") in a most convincing manner. Howelf does a commendable job in transforming | program of the maternity Mark from a vacuous and self-centered preppie into an 1 area, a film of labor and idealistic and mature graduate.
