#### ''Dirty Dancing''

"Dirty Dancing" is an upheat, crowd pleasing film that depicts a young girl's loss of innocence with sensitivity, romance and a lot of energetic dancing. The time is 1963 when Francis "Baby" Houseman (Jennifer Grey). her prim sister and her unassuming parents are vacationing at a swarter, commer resort in the Caskills. The spunky yet shy Baby crosses her social stratum and falls in love with a swaggering dance hall instructor from the rother side of the tracks" (Patrick Swayzer. The result of this unlikely pairing is a sexual chemistry exibited by Grey and Swayze which will melt your hearts and certainly send your based pressure up'

The reason for this generated heat is unique and in genious, you see, "Dirty Dancing" perfectly blends hard driving early sixties is ck and roll with an eighties sensibili ty towards sex and modern morality. Many of the numerous dance numbers are certainly erotic by today's standards, yet not so distasteful as to "turn off" or embarray the audience. Indeed, "Dirty Dancing" is a celebration. of the human body and spirit. The dancers' bodies are aperior instruments which Director Emile Ardolino uses to illustrate this conception within the storyline of the

SKILLS PROGRAM....Mrs. Betty Ruffley, standing, contact person for the Basic Skills Improvement Program (BSIP) of the Union County Regional High School District 1, explains the specifics of the Regional Districts's basic skills program at the first 1987-88 meeting of the BSIP Parent Advisory Council held recently at the Jonathan Dayton Regional High School in Springfield. Mrs. Ruffley, Superintendent of Schools Dr. Donald Merachnik and Director of Pupil Personnel Services Dr. Francis Kenny were also available to answer questions concerning this program. There are 249 students enrolled in the district's BSIP at the four regional high schools. Upcoming BSIP Parent Advisory Council meetings are scheduled for Feb. 3, 1988, at ALJ, and

AGAIN AND AGAIN... New Jersey Bell is moving ahead with a statewide expansion of

its 14-year-old recycling program. The company-wide effort aims to cut the company's

solid waste by 25 percent by 1988. New Jersey Bell employees, including Payrol

Clerk Marie Brown of Irvington, use special recycling containers as part of the com-

pany's enhanced recycling program. Brown and her co-workers are participating in the program, cutting garbage pickups from five to three days per week at two East Orange

locations where the enhanced recycling program was tested

Cooperative Extension report that researchers have been looking at ways to lower the levels of formaldehyde in indoor environments. Some of these addies have been sponsored by NASA, which is interested in ways to maintain the air quality in enclosed space vehicles.

It is well known that plants absorb carbon dioxide, and produce oxygen. Can they absorb other gasses? Experiments at the National Space Technology Laboratories have shown that the common spider plant (Chlorophytum elatum vittatum) is able to emove formaldehyde from he atmosphere. These workers estimated that : house with moderate for maldehyde levels (from fit
