## Congrats, Crusaders!

Those of us who attended the Johnson Regional Caldwell football game (North Jersey, Group 7, See Semifinal) were treated to a game that will be long remembered. The Johnson players gave 100%, aithough coming up on the short end of a 22-19 score. In a game that went into triple overtime, Johnson lost by a touchdown scored by Caldwell on a 4th and 1 situation.

As the players left the field dejected, the fans ap plauded them, many with tears in their eyes. Some of the players were embraced by family and friends. I'm sure that everyone who played or saw the game, will remember it for a long time to come. As a fermer graduate and long time tan, I applaud

Johnson for its best season ever, an enviable 9-2 record. There are many people to thank for a memorable season. the players, who gave of themselves and provided us with many thrilling moments during the season; the coaches, who spent many hours directing these fine, young athletes; the parents, who provided the support and en couragement; the cheerleaders, who boosted everyone's morale; and the band, who provided us with many enter taining moments. Thanks for the memories.

Perhaps Mayor Nucera, in his zealous defense of the Township's Business Administrator, did not mean all of Citing one example, it was noted that "He (Councilman Hayden) has harassed all of the present and past clected officials and employees by making false italements, misstatements and downright lies."

Had Mayor Nucera asked me I would have denied his accusation. Further, I wonder whether Mayor Nucera obtained this opinion by checking with "all past elected fficials and employees" who served with Mr. Havden. Let's get on with important issues such as leaf collection, opening of the dump, lowering taxes, etc., etc.

## Eavesdrop

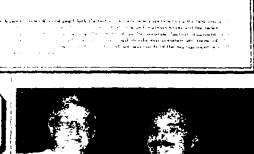

The "American Heritage Dictionary" define overdee as "to listen secretly to the private conversation of others." It should logically follow that an eavesdrip rould be the correct name for an eavesdropper. However, had you thought this you would have been "all wet," as you will soon see. In fact, the Anglo Saxon organ of this word is fload ppe, "the ground around a house where roof water | between you.

falls from the yes." Yes, or the English version enves, is defined as "the lower edge of the roof." Before the development of gutters and leaders the wide roo overhang kept water away from a building's foundation, A person standing on the enverdree, therefore, could erhear conversations within the house, especially in medieval German or English thatched roof houses. Such a person today is called an eavesdropper or worse.

Modern day eavesdropping has become very sophis-ticated with "wire tapping," "electrons, surveillance," and "reconnaissance satellites," About all you could "pick up" on the cavesdrops of most modern houses would be a life tle mud on your shoes. (1986 by ahea bispressions, Inc.
