UNDER A VOLCANO Town That Lives in Perennial

Dread of Extinction COLIMA'S CRATER IN ACTION.

It's a Selemn Spostable For the Dwell-ers in the Shadew of the Giverny Peak When "Old Faithful" Explodes. as It Does Regularly Once a Year.

It is singular how indifferent to a possistently threatened danger human blings can become, even when the danger is of a deadly nature and may imperil their very lives. Harry H. Dunn, in the Montreal Herald and Star, tells of a case in which a whole townful of people its under the constant threat of a vitoction by a vectors. stant threat of extinction by a volcano.

The roof of the little boxilia hotal in olima, expital of the state of Colima in Mexico, was freshly drenched with water in a vain effort to fight off some of Reptember's heat. I think there were eighteen of us gathered there in the cool, gray night. The almost silent fown lay like a black and white checkerboard at our feet.
Twenty miles away Acress a valley still green with the rains of summer, rose a conical mountain, almost colli-tary. Even by night it looked sinister; by day it was terrible, with its barren, lave coated sides, its gas exuding cone sbunned even by the vultures which

larly once a year-and it was almost "He should begin soon," droped th notel keeper. "May be today, maybe to morrow, maybe not for a wook, but I is the middle of September, and it The old man had scarcely finished when a bubble, black as night crowd-led itself out of the broken end of the mountain, which we know was a not o nolten stone, (wenty miles away. The bubble, so durk that we could see in plainly, swelled like a growing pufficil and then, pushed out from below rose speed, into the sky. Beliliid it came a

Coal is one item that you should save on, and if you are wise you will buy all your onal this month as you know you'll save the advance price and you'll get much better coal because what you buy now is just come out of the mine and well ecreened. By leaving it off till later you know what you get, you get old stored up roal that has been exposed to all kinds of weather and mixed with all kinds of distand if you happen to get it in on a rainy or snowy day you pay the price for water as well as enal as it all weighs alike. You leave your order with us this week and we will take care of It and see that you get coal for your money and no dirt. Try na this year and we will convince you, Cost prices advance September 1st, 1914

and early one.

Jet Embinideries. Jet embroideries done on the fa-bric are to be a notable feature of Fall trimmings. Not only the black eads, but colored ones to match the one of the satin, which is back again idding for the smart lead, and liable to secure it, unless velvet quite puts it in the shade later, which seems not improbable. Beaded nets and

by judicious beading are favored interials, which can be cleverly imitated at home at little cost.

Ruffles and Tucks. Paris has capitulated to ruffled skirts, almost abandoning the long tunics that are leaders here. The under petticoat is matrow and close fitting; and the ruffles of lace are put When made of lace flounding these runtles need no adornment When fulle or net are used they are finished with bems of satin or silk.

The dress introduced by Beer, with cross tuckings on both wals

first, but it is now gaining favor and we will see considerable cross-tuck Skeleton Waists and Wraps. The liking for "Skeleton" walst d wraps shown during the Sprin and Summer is another style wrinkle that will persist, and a boon to the woman who wants to keep her wardobe fresh and up-to-date. This type of overwaist is easy to construct and brings a worn or out-of-style waist in line with modish requirements. The liking for eleeves of odd ma

erials, but matching the waist i one, is anöther continued fad that is pretty, comfortable, and that con usually the first part of a waist to show wear, and these can now easily e replaced with net or chiffon. If

olor is permissible, transparen sleeres having proved popular with exclusive dressers. The woman who has learned how to spend to the best points and plans for Fall this month while resting in her hammock per-

Models for School. nized as the proper caper for school wear the year round, the problem of keeping the children well dressed in greatly simplified. One can use one or two models for the entire outfit ranging colors and trimming touche so that there is no monotony of effect. Long warm coats that completel cover and protect the pretty frocks make them just right indoors or out. Rather—plain—atyles—designed—onsmart, up-to-date lines should be solected, and for material nothing is quite so nice looking and satisfactory for wear as Renfrew Devoushire Cloth. This is warranted sun proof especially clear and handsome, woven

in, not printed on, the fabric as in Galatea, which it outclasses both in wear and appearance." that have been so smartly worn lately are bound to last well into the Autumn, hence both are an excellent investment for people who must count cost and that means nearly

everyone these days.
Very simple small shapes have been the rule so far. but we are Widow" type of wide-brimmed velve st since Georgette has alread made that a favorite in Paris.

## MARKET & HALSEY STS.

Anniversary Sale Important!

Do you realize the importance of the Bamberger 22d Anniversary Sale? Do you know that thousands of dollars' worth of staple merchandise is being offered for much less than its regular price? Are you aware of the great and farreaching economic value of a sale like this? We realize all of these things and we realize, moreover, that we are now offering many lines of goods which, on account of the war on the other side, will be very scarce before snow flies. Is it any wonder that this great sale has created such a sensation? Indeed we would have been much disappointed if the shopping public had not shown its approval in the manner in which it has. This is no ordinary sale, we assure you, and
