Upon motion of Councilman Schafer chairman of the street committee, it was voted to transfer \$100 from the contingent fund to the street depart ment fund in order to cover additional expense in removing garbage more frequently during the present infantile paralysis epidemic. The report of Street Commissioner

Geisel for July showed the expendi

ture of \$922.97 for work done. The account was itemized as per instructions giving at the previous meeting of the council and contained the fol-lowing figures: Collection of garbage, \$254.74; sweeping streets, \$168. 75; hauling ninety one loads of cinders, \$67.25, rebuilding roads, \$263.88; patching roads, \$1150; turnpiking roads, \$4.50; filling lights for stree traffic signs, \$6.82, sawing and taking care of trees blown down by storm, \$37.31; cutting weeds, \$6; cleaning gutters, \$17.57, putting gravel on asphalt roads, \$13; repairing wooden; course, \$3.75; cleaning city-park, \$2. clearing catch basins, \$43.65, flushing sewer in East Milton avenue, \$5.25 laying crosswalks, \$12; total, \$922.97. According to the report of City

Treasurer Coles the following bal ances were in the various city funds Contingent, \$5,279.49; fire, \$2,900.62 lamps, \$3,958.53; roads, \$4,035,68 poor, \$1,222.88; police, \$6,047.77. Bills amounting to \$3,246.82. For the fire and water committee Councilman Gage said that a partial report could be given of the plans already made for housing the new \$8,500 motor fire engine which is expected to

arrive at any time. He said that the

put in and posts removed at the quar

Main street if the machine is to be sed there and that the floor would No More Winding by Hand.

THE SHELTON ELECTRIC MOTOR DOES IT FOR YOU

THE Shelton Phonograph Electric Motor will electrify your Talking Machine-no more winding up by hand. You may now get the greatest possible enjoyment out of your Talking Machine. The Shelton Electric Phonograph Motor is indeed simple; just con

nect the ten foot cord to any convenient electric light socket, place the electric motor against turntable of Phonograph and push the electric button, and then promptly dismiss the winding from your mind. The speed of the turntable is controlled by the speed regulator or

governor already on phongraph. Shelton Electric Motor not being attached to the cabinet can be moved a fraction of an inch away from the turntable, then you can insert crank handle and wind the machine in the usual way should you at any time wish to play the Phonograph where electric light socket is not convenient

This much-called for means of talking machine drive was developed and perfectedby W. Gentry Shelton the inventor of Shelton Vibrators, Dental Engines, Electric Therapeutic Appliances, etc., all recognized and acknowledged leaders in their line.
