

# LINDEN.

Several Commissioners and Mrs. E. St. Dunbar are visiting relatives in Linden.

Mrs. Frederick McMillan and children are spending a month at Spring Mountain.

A musical was given in the Grace Episcopal Church Friday evening, Aug. 31, under the direction of Clarence Smith, which proved to be a great success and was enjoyed by all who attended.

Miss Ruth Potter has returned to Massachusetts, after a visit with her parents in St. George avenue.

A new flag pole has been raised on the corner of Wood avenue and Blanche street by the new Borough hall.

The Rev. and Mrs. Edward Bateman have gone in their new automobile on a trip to Newburg for a week.

A fire drill was held at the corner of Roselle and Blanche streets by the members of U. S. Grant Hose Company. The new \$10,000 fire engine was again on duty and the hose turned on for about a half-hour. Several of the people in the St. George section had not seen the apparatus and were decidedly pleased with the exhibition.

Services will be resumed in the M. E. Church Sunday, Sept. 3, when Rev. Edward Bateman will preach at both services.

Mr. and Mrs. Richard Braithwaite of Jersey City, are visiting J. P. Johnson on Stiles street.

Another case of infantile paralysis has developed and was brought to the notice of the Board of Health Tuesday afternoon, by Dr. H. Page Hough. The victim is Bertha Hergert, the 19-month-old daughter of Herman Hergert, Wood avenue.

Robert Bacon and family are at the White Mountain.

About 1:30 o'clock Tuesday afternoon the new fire engine of the township was called into real service, when a fire broke out in Curtis street at the home of Samuel Krykowsky. The fire was caused by wood too close to the kitchen stove.

Marian Blanche has returned from a visit with relatives at Long Branch.

WALTZ AND POLKA REVIVAL. Away with "Fox Trot," "Walking the Dog" and other such dances at which heavy eyed Bacchus would have smiled.

The New York Society of Professors of Dancing will meet at the Hotel Majestic Sept. 5. For three days they will deliberate over the dances that should be in vogue during the coming season and, with charming partners, will demonstrate them.

No more will the shrill piccolo, the snare drum and the metallic triangle be the chief instruments in an orchestra that plays for dancing. This was predicted confidently by a nimble-footed professor yesterday. Instead, the sedate violin and the sombre cello will be heard. The waltz and the polka, so old that they are new to this generation, will be revived and, after years, the strains of "The Blue Danube" will agitate the perfumed air.

# THE FALL OF A NATION

Minister Film Production Stated for U. S. Garden Theatre, Elizabeth.

One of the greatest treats in the history of pictures is in store for the patrons of the United States Garden Theatre, Broad street, Elizabeth, in "The Fall of a Nation," the Dixon-Herbert musical film spectacle which has to do with a multi-millionaire whose money finances an uprising of alien residents of the United States, aided by a foreign power, the insurgents capture the Atlantic seaboard and their huge fleets guns land death and destruction on New York. America falls, the multi-millionaire is made Governor General of the province of America, with the title of prince, and the United States becomes an imperial domain.

The American forces driven westward, but not defeated spend two years in preparing. They are aided by a woman's "Loyal Legion" which was organized by the prince to spread the doctrine of imperialism. When the time comes to strike the blow, the reorganized American Army sweeps from the West, falls on the invading forces and drives them to sea. The foreign power is driven out for once and the flag once more flies over the land of the free.

The score written by Victor Hebert is exceptionally well suited to the picture and is accompanied by a large orchestra. This monster production will be shown at the U. S. Garden theatre, Broad street, Elizabeth, Sept. 4, 5, 6, and 7.

# FURNITURE FORM SAWDUST

Remarkable Examples of UNUSUAL "Waste" Materials

News comes from Sheboygan, Wis., that three corporations have been organized there to make furniture from sawdust, or rather from paper made from sawdust, according to processes on which the Federal Forest Laboratory at Madison is now working. This utilization of sawdust, so long a "waste" which the lumber industry found it a vexing problem merely to get rid of, illustrates how science goes on to convert into valuable materials the wastes of yesterday, says "The Chicago Herald."

Some of these days some one will write a most interesting true romance about the utilization of what former generations regarded as useless. It will find much material in the mining industry, beginning, perhaps, with the shrewd Scotchman who found a fortune in the waste dumps that the ancient silver miners of Athens left behind them, unregarded for at least a millennium. It will show how American copper, coal and other miners are today working over and winning wealth from what an earlier generation left behind as waste.

Another chapter will tell the story of cottonseed, which for years planters burned as the lumber millers did sawdust, merely to get rid of it. Another will tell how long coke-makers let billions of feet of gas escape into the air, before science found how to save it profitably. Still another will tell the story of how the Chicago meat packers made their fortunes largely through avoiding waste.

# EMBARGOES ON FREIGHT

Leading Railroads Adopt Measures to Prepare for Proposed Strike.

In view of the impending nationwide strike of the engineers, conductors, firemen and trainmen in the freight and yard services, the Pennsylvania Railroad Company, the Philadelphia, Baltimore & Washington Railroad Company, and the West Jersey & Seashore Railroad Company have been compelled to issue the following embargo notices on freight, to apply to shipments from all points for all destinations:

Item 1. Effective at close of business Thursday, August 31, embargo all shipments of explosives and inflammables of every kind and description.

Item 2. Effective at close of business Friday, September 1, embargo all shipments of perishable freight, including livestock, dressed beef, live and dressed poultry and fresh fruits and vegetables.

Item 3. Effective at close of business Saturday, September 2, embargo all freight of all kinds from all points for all destinations.

As soon as practicable on or after Sept. 4, which is the date set for the strike to become effective, these embargoes will be modified to permit resumption of the movement of stock, mail and perishable freight. Other modifications will be made as promptly as circumstances will permit. It will not be possible, however, to give definite information on these points until the railroad companies, and their associated lines are at present filled with freight, a great part of which is moving toward the great centers of population.

The purpose of the embargo is to clear the lines up as far as possible so that congestion and confusion will be avoided at the opening of the strike, and the management will have the best possible opportunity to reorganize the service with the greatest practicable speed.

In the event that the strike orders should be withdrawn before Monday, Sept. 4, the embargoes will be cancelled by wire.

All freight described under Embargo Items 1, 2 and 3 which may be in transit will not be accepted from the New York, Philadelphia & Norfolk Railroad, Cumberland Valley Railroad, Cornwall & Lebanon Railroad, Spar-

row Point and Baltimore Railroad, Pennsylvania Lines West of Pittsburgh, or other connecting lines at any junction point after date and hour in each item above named, regardless of date on which shipment was accepted as indicated by date on bill of lading.

All bills of lading issued on and after Wednesday, August 31, and until further notice, must bear the following notation: "This shipment accepted subject to delay, loss and damage, at consignor's risk."

Station agents at all points of the Pennsylvania Lines east of Pittsburgh are being notified today to urge that special efforts should be made by all parties interested to remove from the premises or care of the railroad all explosives and inflammables before 6 p. m. on Sept. 1, and all perishable freight on or before Monday, Sept. 4. This applies to all explosives, inflammables and perishables whether in stations or in transit.

The management of the Pennsylvania Railroad has notified the Adams Express Company that after today all shipments over the lines of the Pennsylvania Railroad must be accepted subject to delay, and that no live stock or perishables should be accepted that cannot be delivered on or before Saturday, Sept. 2. Notice is also given that the developments of the next day or two may determine whether or not it will be necessary to place express shipments under a complete embargo pending the results of the strike call.

BASEBALL GAMES. The Railway Baseball Club will play the Ridgeview A. C. of Brooklyn at Riverside Park tomorrow afternoon and will have a holiday bill on Monday the crack Mariner A. C. of Brooklyn.

Both sides made the local travel extra linings earlier in the season in order to register victories. The Railway nine will finish the season on Saturday, Sept. 9, when the Plainfield A. C. of Newark will be the attraction.

The Rambler A. C. will have a hard game Sunday afternoon at the new junction grounds when they tackle the Mt. Airy A. C. of this city, in the third and deciding game of the series. Each nine has a game to its credit. Tomorrow the Ramblers are billed to play the Westfield High Stars.

The Mt. Airy A. C. of this city will play the Perth Amboy Y. M. C. A. Juniors tomorrow.

The Rambler Colts will tackle the newly organized Otis A. C. of this city, on Sunday.

# PROHIBITION CONVENTION

Candidates for County Officers to be Named Next Tuesday.

Reginald A. Smith, chairman of the Prohibition County Committee, has just issued a call for the county Prohibition convention for the selection of candidates for assemblyman, coroner and other county offices and the transaction of such other business as may properly come before such a meeting.

The convention will be held at Carver Arms, Elizabeth, on Tuesday evening, September 5, at 8 o'clock. The meeting place is on Broad street opposite the Public Library and but a half-minute's walk from the county courthouse.

The speaker of the evening will be Prof. Livingston Barbour, for the past twenty-five years a member of the faculty of Rutgers College, who is the Prohibition Candidate this year for United States Senator.

The general public will be cordially invited to attend the convention, and all party Prohibitionists are invited to participate in the business part of the program.

The Prohibitionists of Union county are much more active this year than they have been for many years before, and they expect to poll a greatly increased vote at the coming election. A number of street meetings have been held throughout the county under the auspices of the Prohibition county committee in conjunction with the State committee, and others are being planned for the coming weeks. A considerable amount of periodical work has been done in the county, and quantities of literature are being distributed.

Former Governor J. Frank Hanley of Indiana, the Prohibition candidate for President this year, and Ira Landrith, of Tennessee, the Prohibition candidate for vice-president, will be in a tour of the country within a few days in a special train which will visit hundreds of places from the Atlantic to the Pacific. The train will be in the East the latter part of September and in October. The Union County Prohibitionists will try to have this train stop at one or more points in the county.
