Blds Repudiated According to the report of the Building and Supply Committee the Bond Building Company, of Elizabeth, repudinted its bids for different parts of the various school buildings in this city. Acting on the opinion of the board's attorney. P. C. Hyer, the contracts were awarded to the next lowest bidder in each case. The bids	Attacked by two strangers in Grove street between Madison and Jefferson avenues about 6.30 o'clock Wednesday evening Russell O'Connor, 12 years old, son of Mr. and Mrs. Martin O'Connor, of 68 West Hazelwood avenue, was knocked down and robbed of \$1.04 and a basket of groceries he was delivering for Walter W. Lawson, who conducts a general store at the corner of St. George and Maple avenues, and for whom young O'Connor works each day after school hours. He was on his way to make a delivery at the home of Manuel Ferdmandez, Grove street. Without attempting further injury to the lad the pair of miscreants fled as soon as they secured their booty from the pockets and hasket of the boy. O'Connor ran back to the Lawson store and the police were notified by telephone. Officer Amos Mowery went to the scene of the hold-up and traced the pair in the snow until their tracks became confused with others in Inman avenue. O'Connor said that one man was tall and the other short and the latter had a hand-kerchief over his face. The boy had marks on the side of his face and neck where he was struck when knocked down, but he suffered little injury, although he was considerably frightened. Others report having seen two men answering the boy's description in the Milton section at an earlier hour. Wells Ingram, who served as an ambulance driver in the autumn of 1914, in those terrible days after the battle of Mons. France had so few ambulances that taxi-cabs were used to transport the wounded, and so little space available that churches were turned into hospitals. During the winter Capt. Ingram took the position of interpreter at the Belgian front where he worked at an excavation station where 8,000 and sometimes as many of 14,000 blesses passed through in one day. When organization was needed in the transport service at the American Ambulance Hospital. Neullly, Capt. Ingram went to Paris and helped to put the work on a war basis. Following this an Anglo-American Committee sent him to Belgrade, Serbiu; where Capt. Ingram worked among the Serbians assisting the five American doctors and eleven nurses in the hospital to care for the thousands of wounded, many of whom died for the lack of mere necessities. Returning to America Capt. Ingram was one of the passengers on the Arabic which was torpedoed and sunk by a German submarine. Capt. Ingram is peculiarly qualified because of his varied experiences to bring the needs of those in the war, over to the Red Cross workers of America. His active part "Over There" gives a vividness to his talk and a clearer understanding of the huge task the American Red Cross has pledged itself to do. He termed the present plan of taxation hap-hazard. He termed it an erroneous idea that those who believed they were not tax-payers because they lived in rented houses and therefore took no interest in taxation. There never was a more mistaken idea. All tenants are paying a tax on every bit of food they eat and all merchandise they buy. The lighter the tax on land the heavier the tax on buildings and personal property. This makes it far easier to hold iand out of use. The easier it is to do this the greater is the price the holder can demand of you for the use of the land. Has it ever occurred to you that the land owner can say that only by my consent and by paying me what I demand shall you have a right to use idle land, which was created for the use of all children of men. Hasald that the holding of land out of use by a few was the cause of the revolution in Mexico and in Russia. In both countries the cry went up that we want our birthright, the land. As soon as the land in Mexico was more evenly distributed among the people the revolution waned. Mr. Chandler said that the single tax plan is in operation in thirty-line cities in British Columbia, 140 in Alberta, 158 in New Zealand, 274 in New South Wales and general operation throughout Australia. Sydney, a city of over a half-million population has adopted the plan. Brazil and Argentine Republic have adopted it in certain sections. Attention was directed to the organization of the Farmers' Non-Partisan League organized in North Dakota estensibly to secure legislation permitting the adoption of the single tax plan. The speaker then traced the taxing of buildings and improvements and personal property from Cromwell's time to the present day. This makes it far easier to held land out of use. The easier it is to do this the greater is the price the holder can demand of you for the use of the land. Has it ever occurred to you that the land owner can say that only by my consent and by paying me what I demand shall you have a right to use idle land, which way created for the use of all children of men. He said that the holding of land out of use by a few was the cause of the revolution in Mexico and in Russia. In both countries the cry went up that we want our birthright, the land. As soon as the land in Mexico was more eyenly distributed among the people the revolution waned. Mr. Chandler said that the single tax plan is in operation in thirty-nine cities in British Columbia, 140 in Ai-berta, 163 in New Zealand, 274 in New South Wales and general operation throughout Australia. Sydney, a city of over a half-million population has adopted the plan. Brazil and Argentine Republic have adopted it in certain sections. Attention was directed to the organization of the Farmers' Non-Partisan League organized in North Dakota estensibly to secure legislation permitting the adoption of the single tax plan. The speaker then traced the taxing of buildings and improvements and personal property, from Cromwell's time to the preach that the per capita value per acre in New York is \$900 Manhattan Island, \$1,200; Newark, \$4.25 and Rahway \$250. HOLD ACTIVE MEETING

Chief of Police David H. Ramsey presented his report for the sixth year as chief of the department as fol

With the exception of one instance the discipline and conduct of the men in the department has been good, special mention should here be made the heroic work done by patrolman Peter Bartz and Chanceman Cornelius Crowley on June 12 at 8 Fulton street in saving the life of a mother and infant child from death by fire, as well as other occupants of the house, who were aided to safety at great risk of life by these officers. Again on June 19, when at a fire at 139 Main street, wherein Patrolmen Joseph Gerlach, Harry Orr and Amos Mowery, did excellent work in saving

report without having to neglect some part of his post. I have finished the drafting of a set of police rules, as I was directed to do by a former police committee. These rules were not approved by the former Common Council, and Y respectfully ask that they be approved by your honorable body as soon as can possibly be done, so that discipline and good order may be maintained throughout the department. By the resignation of Patrolman Peter Bartz and the appointment of Chanceman James Lynch as a perthe force. There should be more patrolmen appointed at once-one for the second ward and one for Post No. Z in the Third ward. The Fifth and Second wards are patroled now by one man and there should be a man in each ward. The population in these two wards has increased very ma-

terially in the last five years, and as it is now the territory is too large and valuable for one man to patrol, and do what is just and right to the taxpayers Third ward should be divided and two patrolmen installed there instead of one man as now, for the same reason as applies to Second and Fifth

rised and new men added. These new men should pass a thorough medical examination as to physical ability. Application for positions should be made upon regular forms to -be-put-in-use-by-the-department-for that purpose (I have a form ready for your approval to ben rinted for that purpose) so that the mental and moral qualifications of each applicant may be determined by your honorable

ations made in the interior of the nolice station and court room by the last Common Council, which have proven to be a great improvement over former conditions, all of which was accomplished by the untiring efforts of the police committee, especially chairman Robert Alden. All members of the department feel deeply grateful to the last council for recognition given to the police department. The improvements have not been finished as yet. The floor in the main room should be replaced by a new floor of some kind. The present floor is positively worn out and patched so that it is unsightly and often remarked by visiting strangers. The linoleum in the chief's office is worn out and some of it re-

moved to avoid accident; at the present time one-half of the chief's office is hare floor The rear wall of the station house should be pointed up the mortar has fallen out-of-the-joints-of-the-brick wall and some of the bricks have fallen out it should have attention as soon as the weather will permit. > Our Entire Fall and Winter Stock of Hilton'Stylebilt'Suits and Overcoats

IESS than WHOLESALE COST

Though it has been but two years since we enlarged our present quarters at 793 Broad Street, our business has since grown by such leaps and bounds as to make it necessary for us to find more space to accommodate this rapid expansion.

We recently acquired the building adjoining at 791 Broad Street, and when alterations are completed we shall have one of the finest shops of its kind in the State. The work of altering these two buildings is already under way, and for a time we shall be obliged to practically suspend business until the main work of tearing down partitions is

To expose our vast stock to flying dust and dirt would be ruinous. We have therefore decided to institute at once an absolute clearance sale of our entire quarter-of-a-million-dollar stock of Stylebilt Suits and Overcoats, and beginning tomorrow everything will go on sale at prices that should pack our store-with buyers almost from the moment our doors open.

Buy two suits and an overcoat at this sale, for next year you will not be able to duplicate them at DOUBLE the prices you paid. Every Suit and overcoat in this sale is a HILTON Stylebilt Hand Made creation; designed, cut and tailored by us on the premises. Every one 100 per cent. ALL WOOL.
