Councilman Markey, re-elected in the Second Ward, earned the confidence of his constituents with his first term and the people have decided that he is entitled to a new term.

Councilman Flues, victor in the Third Ward, has also served in a commendable manner during his first term and his training in business and experience in governmental affairs will make him an even more important cog in the city's governmental machine

In the Fourth Ward, Councilman Jennings was prosperous condition, in this city, and much interest given his fourth term as a member of the governing is manifested by the members of Good Will Lodge body as an indication that the public has confidence No. 38.

Wednesday evening was the time for installing Charles E. Reed is returned to the governing body in the Fifth Ward after an absence of a year Rahway is fortunate in having a man of his type to handle the important financial affairs which, will come before this Council. He has already demonstrated his willingness to serve the city in his action this year of recommending the sale of the refunding bonds. Acting upon his advice, the Council was able to dispose of these bonds at the correct time and obtains favorable rate of interest which will save money for out taxpayers.

The victory of the Democratic party was a genument of the administration of Mayor Barger, During, his first year, Mr. Barger has established will work hard for the city's best interest. He is a mayor who has put public affairs ahead of politics.

FINAL SCORE:

S THE curtain falls on the bard-fought game A and two tired, battered teams break for the dressing rooms — what story does the score board

In the final count is a tale of the greater "fight," more power, broader experience or better condition that gave one team the edge over the other. Many factors influence victory.

Teamwork that supports your forward drive: experience that backs up your own skill and ambitions; far-sighted vision that sees the goal clearly these are qualities this progressive bank offers to patrons every day.

A DOLLAR IS NOT A LOT OF MONEY

A dollar is not a lot of money these days of high prices. But when you spend a dollar at home with a Rahway merchant or business firm it means a few cents profit to the seller. And every sale that gives a few tents profit adds to the grand total of the business done in Rahway and means more work for the people of our city.

In Rahway, as in every other city, there are a few merchants who are "crabby" and "grouchy" with customers, especially if they go into their places of business and do not buy. But we should not condemn all our local business people because a few are not agreeable. Usually you will find that the "grouch" is to be pitied rather than condemned. He is selfish to the extreme and he never does anything to help others or to further the interests of his town. And when he is asked for a donation for charity or any other worthy cause he "throws a fit." -It-is-not-to-be-expected-that-people-should-go-out-of-their-way to patronize this type-of-merchant. But there are those who do deserve the support and patronage of every citizen of Rahway. They are the progressive ones that are always doing what they can to boost Rahway. When they are called upon they are always ready to give of their time and money to do the things that will boost their town. They appreciate the husiness that they get.

They are always trying to give better values and lower prices. They spend money for advertising to tell people about their business and their merchandise and service. They are ready to serve us and they deserve our support.

Think it over! . . . Who should have the business of Rahway, the home merchant or the out-of-town store?

LET'S BOOST RAHWAY!

Along The Amusement Rialto TWO FEATURES AT THE EMPIRE

Regarded through the eyes of Mr. and Mrs. Public, who have bought seats to be entertained, "Ladies Crave Excitement," the lascot feature current at the Empire theatre tomorrow offers everything they have paid for. It is original in theme, dealing as Events." The fact that such a newsreel has recently been seen by the public in picture theatres makes the theme vital and real to an astonishing degree.

Two newsreel companies, bitter enemies, with their cameramen nudging each other at every public function or catastrophe,

humorous and at all times definitely thrilling.

The refreshing newness of the story, the feeling of "up-todateness" at seeing the fast-moving action brought satisfaction to audiences which enjoyed this picture.

The Public Demands A New Police Administration

GOOD AFTERNOON

Common Council, in considering the re-organization of the local police department, is correct in attempting to set up a department which will not have George McIntyre, Jr., as its chief.

Whether the office of chief is to be abolished, a commissioner placed at the head of the department instead of giving Drake, for Assembly, from 50 to 100 or some other set-up is decided upon, that plan should majority, as claimed by some of the Republicans, work better than one which would return the sus- gave him the bare majority of 11 against 89 last year. pended police head to his former position.

tion that it would not tolerate efforts to restore Mc-Intyre. The fact that large Republican majorities were wiped out in every district of the city by a public that was enraged at two members of the Republican party who ignored the desires of the public to and serving oysters at his place Monday found a huge oust McIntyre, is ample proof that it would be-folly size and perfect pearl in one of the bivalves. to consider placing McIntyre at the head of the department again. The public has given its mandate. The rest is up to the governing body and with last week's vote ringing in their ears, we feel safe in assuming that it will go beyond returning this man to the supervision of the department and thus place the force back in the identical spot it was in when Mayor Barger began his courageous effort to clean up for all time an unsavory mess.

As a matter of fact, the fortune held by this super-industrialist includes very little "ready money." It consists of factories, office buildings, manufacturing plants of one kind or another. These assets are at work producing jobs, needed goods and services and, possibly, dividends for many other stockholders.

If this man's holding is outrageously taxed, either in income or inheritance levies, the only way he or his estate can pay is to sell these industrial holdings at forced-sale values. Factories may be closed, men thrown out of work—for the value of machinery and other plant equipment cannot be expressed entirely in dollars. The machine, for example, that makes shoes, may have a market value of \$10,000 shoes, may have a market value of \$10,000—yet be the means of providing jobs whose economic importance
