## PICTURE DONATED FOR ART LEAGUE AUCTION

Hugo Asbach of Captiva and New York has donated an oil painting of an island scene which will be given away in a drawing at the Sanibel-Captiva Art League Auction on March 14. Proceeds from the event (donation \$3.00) will go to the Sanibel-Captiva Conservation Foundation.

Mr. Asbach is well-known in Southwest Florida art circles. He has displayed in exhibits in the Ringling Museum in Sarasota. In 1967 he won best in show with an oil painting "Topkapi" at the Cape Coral National Art Show. His oil, "Macao," was best in show at the Art Council of Southwest Florida Annual Exhibit at Edison Junior College in 1968. This year he was back at the Cape Coral National Art Show again, but this time as one of the judges.

Hugo Asbach was born in Germany in 1913, and started painting early in life. After completing his school education in Switzerland, he went to the Art Academy in Frankfurt, Germany; and, subsequently, became stage designer at the Frankfurt Opera. Later he worked as a designer

for a well known jewelry concern.

For the last thirteen years he has devoted all of his time to painting and he works alternately at his studio on Captiva and on his farm in New York state. In recent years Asbach's paintings have been shown in four one-man exhibitions in New York City, Paris, Rome and Munich.

Tickets for the Art Auction are being sold at various places around the islands. Watch for Art League members selling at stores and restaurants. Mrs. Leigh Bair and Mrs. Ted Carnahan are in charge and will be aided by others from Sanibel and Captiva.

OUR THING? The Sanibel-Captiva Art League aims to contribute as much as possible to the Sanibel-Captiva Conservation Foundation.

YOUR THING! The same as ours, so that we can all enjoy for many years to come birding, fishing, and shelling in the wild and beautiful setting which first attracted us to these islands.

## Letter To The Editor

To The Islander:

A copy of the following letter was sent to the Islander for publication:

Lee County Commissioners  
Fort Myers, Fla.  
Gentlemen:

It was my good fortune to be present at the recent dinner at Sanibel at which three of you were present. It was obvious that those present, including Sanibel residents and visitors, much appreciated your being there, and your fine spirit.

This is the fourth recent winter of which I have spent a part on Sanibel. I believe that Sanibel represents and incalculable asset to Lee County -- an asset of which a great many Lee Countians are not fully appreciative. Furthermore, it is not necessarily an asset which will continue to be as great as it now is.

Speaking very plainly, I happen to know of various visitors to Sanibel, including members of my family, who will be much less interested in visiting Lee County in general and Sanibel in particular, if the rapid expansion and development of Sanibel, including vast bulldozing and erection of high-rise apartments such as hoped for by a few developers, is permitted to continue. Visitors who want that kind of development can so easily go to the Miami area or elsewhere, instead of to the unique and wonderful place which Sanibel now is.

I sincerely hope that you may see your way clear to act promptly toward the preservation of Sanibel, thus helping to avoid over-development, which can so easily happen, thus driving many visitors away.

/s/ Paul W. Mathews

To The Islander:

A copy of the following letter was sent to the Islander for publication:

Board of County Commissioners  
Lee County  
Fort Myers, Fla.  
Gentlemen:

It has recently come to my attention that there is a possibility of the building restrictions of Sanibel Island being diluted to permit the infection of this lovely area by condominium structures.

As a native of the state of Florida, I have a fine recollection of the springs, rivers, lakes, beaches, and forests of my childhood. There is very little that I can still recognize of the beauty which was once characteristic of this state. Real estate brokers, developers, speculators and investors, marching behind signs of growth and progress, have managed to burn, trample, uproot, erode, and pave a very large portion of those very special gifts of nature which were once typical of Florida.

As a fraction of Floridians have benefited by the state's prostitution to tourism, the re-

mained seem to be complacent to tolerate this inexcusable loss. There now seems to be an accelerating attempt to feed the insatiable appetites of growth and progress. Just how far will we allow it to go? Who is going to be the first to resist? How much longer will it take for us to realize that there is a difference between growth and progress? The former seldom insures the latter. A blind stampede for new construction and development of the land is not progress. Sanibel Island is tranquility. A densely packed crowd of cheaply constructed and tastelessly designed condominium apartments is not Sanibel Island. Florida's East Coast has enough of those to last us an eternity!

Board of County Commissioners  
Lee County  
Fort Myers, Fla. 33901  
Gentlemen:

As a property owner on Sanibel Island, I urge you to vote for Classification H, to limit the building height on Sanibel and Captiva Islands to 35 feet. My family has owned property on Sanibel for over 20 years, and my children are the fourth generation to visit the Island with great enthusiasm for the peaceful, uncluttered ecologically fascinating surroundings.

There are few places left in Florida which can boast of the unique advantages offered by Sanibel and Captiva Islands. The construction of high rise buildings can do nothing but discourage and eventually destroy the conditions which make them such naturally beautiful attractions. The birds, shells and nesting turtles which draw thousands of visitors would surely be discouraged by the resultant congestion and pollution engendered by such construction.

In this new decade, when national attention is being focused on our country's rapidly disappearing wildlife and our endangered ecology, the people of Lee County should be proud to have these Islands preserved. We urge you to vote for the amendment, and against the commercially oriented devotees of high-rise construction.

Board of County Commissioners

Dear Mr. Geraci:

My family and I have been visiting the islands for many years. We own property on Sani-

bel. From this background we respectfully request that you use your influence to prevent the building of high-rise apartments and subsequent commercial development on the islands.

I'm sure your closeness to the islands makes you more aware than many of the unique beauty and the "island atmosphere" which attracts so many to enjoy the islands. Please vote for the "Classification H" amendment. Please help preserve this natural beauty. There is not any more like it.

/s/ Henry Evans, M.D.

To The Islander:

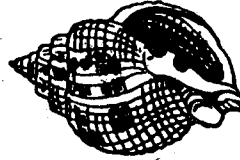

A copy of the following letter was sent to the Islander for publication:

Mr. Kenneth Daniels, Chairman  
Board of County Commissioners  
Fort Myers, Fla.  
Dear Mr. Daniels:

As a property owner and long-time visitor to Sanibel, I respectfully request your help in limiting the building height on Sanibel and Captiva Islands. Please vote for the "Classification H" amendment.

The "island atmosphere" has been such a pleasure to my family and many friends who have visited the Islands over the years. There are so few areas of such natural beauty left for the whole nation to enjoy. Please use your influence to prevent the loss of this beauty to high rise and commercial development.

/s/ Henry Evans, M.D.  
Harlan, Ky.

## GUSTY WINDS MEAN TROUBLE FOR MOTORISTS

Gusty winds and greater speeds can combine to cause trouble for motorists the Florida Highway Patrol cautioned today.

Colonel Reid Clifton, Director of the Patrol said, "Wind gusts, prevalent at this time of the year, are definitely a menace for drivers. Strong cross winds, combined with high speeds of the open roads can lead to an accident. Drivers should be particularly alert for locations along the highway which are hazardous in this respect."

"Likely" spots for the dangerous effects of cross winds are found near bridges, large buildings and heavily wooded areas said the Patrol Commander.

Clifton suggested that drivers be alert for these hazardous locations and be prepared to reduce their speed when approaching them.

"A gust of wind can push a car into another lane or off the roadway. This is why it is important that you remain watchful for potential trouble spots and keep constant control of your car," said Clifton.

## THE HAPPY CORNER

"To see the earth as it truly is, small and blue and beautiful in that eternal silence where it floats, is to see ourselves as riders on the earth together, brothers on that bright loveliness in the eternal cold -- brothers who know now they are truly brothers.
