## PAINTINGS DONATED FOR AUCTION

Variety is the word which best sums up the stories of the artists who are contributing pictures to be sold at the auction being held by the Sanibel-Captiva Art League on March 14 at 8:00 at Casa Ybel Auditorium. There is great variety in their styles of painting and also in the artists' education, art training, work and travel. A few of those who have donated pictures at this time are:

Elizabeth N. deVicq, who winters on Captiva is a graduate of Massachusetts College of Art. She has two sons, Tech, Sergeant Joseph E. deVicq of the Air Force and Commander David C. deVicq, a civil engineer with the Navy. To quote Mrs. deVicq, "I'll bet I am the only artist in the auction with a Japanese daughter-in-law and two beautiful Japanese-American grandchildren." When at home at Gloucester, Mass., she is active in several artists' associations. For the past few years she has specialized in watercolor paintings of mushrooms. Her most recent one-man show was held this winter at Stuart, Florida.

Margaret L. Dugdale, who has spent winters on Captiva for 32 years, also finds inspiration for her watercolor work in the forms of nature. However, her specialties have been paintings of the life cycle of butterflies native to Maryland (her home state) and Florida, sea life from live specimens, and a portfolio of the plant life of Captiva and Florida. Mrs. Dugdale was a friend and protegee of "Ding" Darling for whom the

sanctuary is named.

Mary Pevear, who has a home on Captiva near her sisters, Mrs. Harold Bixby and Mrs. Audenreid Whittemore, makes a unique contribution to the auction. She studied over five years with internationally known decoupage artists Maybelle and Hiram Manning in Boston. From the typical two dimensional decoupage requiring 25 to 30 time consuming coats of varnish, her work has evolved to a three-dimensional form for which Mrs. Pevear often uses copies of the famous Currier and Ives prints. It is one of these which she has donated. Mrs. Pevear is also unique among the artists in that she is the only one who has three great-grandchildren.

Born in Savannah, Georgia, and educated at Georgia Tech, Leon Levy found his way to New York where he established his reputation as an architect. Best known of the buildings he designed and brought into being is the New York Coliseum. After retiring to Sanibel, Mr. Levy turned his artistic talent to painting. He has experimented with many materials and techniques with such success that he has won numerous prizes in area juried shows and has sold paintings to many private collectors. Since retiring, he and Mrs. Levy have travelled in the United States and Europe.

Some of the world may have rubbed off on Oneita McCulloch as she travelled to many far places with her husband, Paul. The color and mood of her oil paintings have been affected more by remembered vignettes and vistas from Bali to Greenwich than by formal education and training. This responsiveness to the world around her is now evidenced in her hibiscus paintings, one of which will be in the auction.

Another world traveller is Wilb Snyder whose profession and military service have taken him to Europe, the Carribean, Africa, Australia, New Zealand, South America, to Greece for two years, to India for 18 months, and to the Middle East. After graduating from the University of Pennsylvania and taking his Masters and Ph. D. degrees at

## SHELL FAIR ART EXHIBIT

Sanibel and Captiva artists are invited to exhibit their work during the Shell Fair, March 5, 6 and 7 at the Sanibel Community House. Because of limited space only two pictures can be accepted from each artist. No entry fee will be charged, but each exhibitor is asked to donate a small picture for the clothes line sale.

These pictures will be sold for \$10 each. Proceeds from this sale, and 15% commission for other work sold will be donated to the Community Association. Paintings will be taken in at night and all reasonable care will be given the entries but the Sanibel Community Association cannot assume any responsibility for loss or damage to any work submitted. All work should be delivered to the Community House on March 4th between the hours of two and four in the afternoon, and picked up at 3 p.m. on Saturday, March 7.

## Letter To The Editor

To The Islander:

I would like to quote from a letter received by the Planning Committee from the firm of Sasaki, Dawson, DeMay Associates, Landscape Planners, one of the finest and best known such outfits in the country. Mr. Richard E. Galehouse, who signed the letter, is a frequent visitor here.

"Because the Islands are unique and physically fragile, the land use controls which guide their development must be carefully designed and tailored to the Islands' special qualities. Low rise, high quality development is consistent with the unique qualities of the Islands. High rise, high density development is incompatible and in all likelihood would destroy the very characteristics which make the islands so attractive."

This firm planned the Sea Pines Plantation development on Hilton Head, S.C. Building heights there are limited to 35 ft. -- none rise over the tree tops. With such an authoritative opinion, Adley Associates should certainly stop insisting that high rises are all right on Sanibel and Captiva. Each one of the Commissioners received a copy of Mr. Galehouse's letter in the brief prepared by our attorneys.

/s/ Elinore Dormer

To The Islander:

I first came here five years ago for two days of shelling with my late husband. Two years ago I returned with my little girl and found Sanibel pretty much the same. It was then, on a longer visit, that I discovered the wonderful birds there.

Last year I noticed a much greater change and as a member of the National Audubon Society I became alarmed and before I left joined the Sanibel-Captiva Conservation Association. I subscribe to the Islander too so that I might keep posted on developments here.

The big question this week is the high-rise and how to keep it out. I'd say developers are just as big a menace. At present at least six are bulldozing trees and digging canals. How many next year and how many in 1972. One developer's salesman told me when I inquired about a lot that I wouldn't "be allowed" to build a wooden house in their development. Concrete block, stuccoed homes may be O.K. in the rest of Florida and I'm sure some prefer them to frame here because of upkeep but one after another in the same area is hardly "Sanibel Island style."

Three years ago I left Chicago for the south suburbs. As an exhibitor of show dogs and an owner of two Spaniels I had to "shop" the best area with the most liberal attitude toward pets. All municipalities have their own rules and regulations about hundreds of things. Perhaps you could incorporate into a town, village or city and write your own ticket. Your county is being pushed by strong and persistent people who have the money to continue the battle. Elect your conservationists to the legislative bodies and you might be able to stop this before it gets out of hand.

The Everglades has been spared the jet-port, save the islands from the developers whose first business of the day is money and not nature.

/s/ Jeannette S. McCormick  
Chicago Heights, Ill.

To The Islander:

The Sanibel-Captiva Planning Committee wishes to express appreciation to all Islanders and supporters who were present at the hearing Feb. 17. This magnificent show of strength, over 300 people, made a very deep impression on both the Commissioners and those who oppose us. We regret so many had to stand but your presence not only greatly encouraged our speakers but also indicated, beyond the shadow of a doubt, where we stand on the high rise controversy. Consequently, the Commissioners have indicated, that if Sanibel and Captiva can be designated as a special area, they probably will agree to a 35 ft. height restriction for us. Our attorneys are presently working with the County Attorney on such an ordinance. However, since we are not yet out of the woods on this, and will not be until all the legal procedures have been completed, we ask your continued help by sending in cards, writing the Commissioners, and making what contributions you can to help defray our continuing legal costs. Many thanks.

New York University, Mr. Snyder became a colonel in the U. S. Air Force. He has served at several universities and with the Air Force and the Department of State in various capacities which took him all over the world. Nevertheless, his favorite subjects for paintings are scenes near his winter home on Sanibel Island.

Helene Sparkes, vivacious young mother of three children brings the influence of Florida sunshine and island scenery to her work. Continuing study with outstanding aquarelle teachers has resulted in a technique which consistently brings her honors in Southwest Florida juried exhibits. Another measure of her success is the number of her paintings which have been purchased for private collections by people who love them for their recognizable depiction of familiar places.

These are only a few of the contributing artists whose works the Sanibel-Captiva Art League is happy to have for the auction. There will be more later.

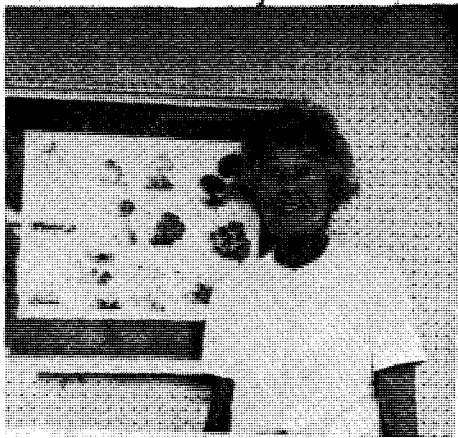

Oneita McCulloch --- a painter and mirror of the world.

Wilb Snyder --- teacher and advisor, world traveller, painter.

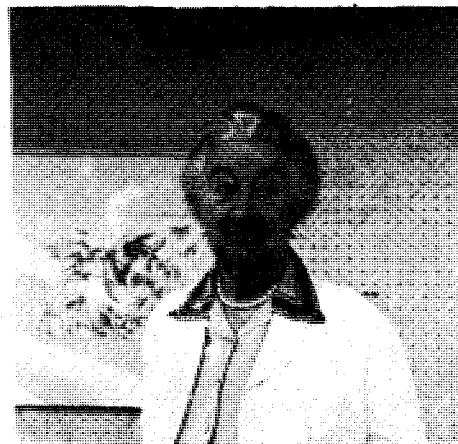

Helene Sparkes --- aquarellist & mother of three.

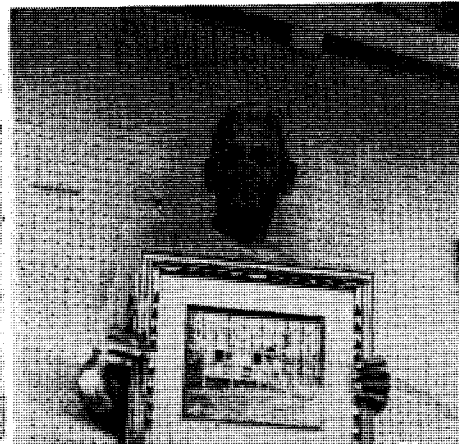

Elizabeth deVicq --- watercolor artist, mycologist and grandmother.

Mary Pevear --- decoupage artist and great-grandmother.

Margaret Dugdale --- naturalist with a paint brush.

Leon R. Levy --- architect, bon-vivant and painter.

SANIBEL-CAPTIVA SHELL CLUB

It was standing room only at the February meeting of the Sanibel-Captiva Shell Club when Robert Lipe of the St. Petersburg Shell Club took the audience on a family camping trip which started in one of the lovely inland Florida State parks and then went to the Keys where they unexpectedly met up with a field trip of the Broward County Shell Club with plenty of room to take

Bob along to the reef. Bob and 12 year old daughter Alice snorkeled while the rest of the family including a one year old niece stayed ashore. We never did know where the reef was but did get clues as to the other shelling places.

There were beautiful golden Marginellas with the gold, spotted as one specie fed on another but there was plenty of activity to satisfy all.

An added note was the presence, in addition to the Lipes from the St. Petersburg Shell Club, of seven from the Chicago Club, two from the Boston Club, two from Rochester, N.Y. and two from the Connecticut Valley Club which headquarters in Springfield, Mass.

Last year Mr. Lipe won the Smithsonian Award which is given only to the St. Petersburg Shell Show. He is entering in this year's Shell Fair.

square mantle extended. In fact there were several species of Marginella, all live and all with their mantles extended.

The most interesting part came when we saw the "finds" alive in the home aquarium. Naturally there were some fatalities

This is Jimmy Durante in person. But I've got more on my mind than "Inka-Dinka-Do" today. Stop for a minute and consider that there are millions of people in this country who don't have enough of the right kind of food to eat! Famine ain't a very pretty picture and us Americans ain't very pretty people if we let our neighbors go hungry.

Every last one of us can help through the wonderful Meals for Millions Foundation. They're really DOIN' SUMPIN' about hunger in America. Helpin' them help others will make life seem a little brighter for all of us. Thank you and God bless you, Jimmy Durante

Our grateful thanks to the much-beloved Jimmy Durante for his warm expression of support and Ruth and Philip Hunter of the Pirate Playhouse want to thank their audiences for contributions to Meals for Millions through free coffee during intermissions and the sale of Ruth's book, Barefoot Girl on Broadway. So far this season \$150.00 has been collected to help feed the hungry throughout the world.
