## FINAL HEARING ON BUILDING HEIGHT RESTRICTIONS

On Wednesday, April 22 at 2 p.m. there will be the final hearing before the Commissioners on building height restrictions for Sanibel and Captiva. Please - everyone who can possibly attend, be in the hearing room of the Lee County Building at that time.

On February 17, we had an overflow crowd of over 300 people and made a tremendous impression on the Commissioners. Remember, they are elected officials; they are suppose to represent us. Let there be no doubt at all in their minds that now more than ever, we demand our 35 ft. height restriction, and give them visual proff that we are keeping a sharp, eagle eye on the proceedings.

Anyone needing a ride to or from Fort Myers, please call Don Marshall on Gulf Drive or Bob Dormer at San Carlos Realty.

## AUDUBON ANNUAL MEETING AND ELECTION

At the closing meeting of the 1969-70 season, held on April 9, the members of the Sanibel-Captiva Audubon Society elected unanimously the following officers for 1970: Mario F. Hutton, president; Griffing Bancroft, vice-president; Louise Goodwin, secretary-treasurer. Elected directors for three year terms were Hal H. Harrison, Erard A. Matthiessen and Julie Miller. Dr. Elmer L. Severinghaus was elected to a two year term, and Roy E. Bazire was appointed 'ex-officio' to a one year term, in his capacity of Chairman of the Sanibel-Captiva Conservation Foundation. Serving unexpired terms from previous years will be the following board members: Marion Cannon, Edm und Carnahan and Clarence R. Conklin.

In submitting his annual report, President Mario Hutton stated that 1969 was another year of achievement and continued progress for the local Audubon, with further increase in the number of members and improvement in the association's financial conditions. Among accomplishments worth mentioning, he listed many interventions on the national, state and local levels in matters regarding conservation problems in general, and in particular the defense of our island's unique ecological treasures. Mr. Hutton also stated that several groups such as 9 Florida Audubon Chapters, also the President and other leaders of National Audubon were escorted and fully acquainted with the islands' natural assets during the past twelve months. He also announced that the Board of Directors of the National Audubon has accepted the invitation to hold their meeting of January 1971 on Sanibel, spending three days here. Finally, as a token of the local Audubon's closest and wholehearted cooperation with the Sanibel-Captiva Conservation Foundation, it was announced that the Chapter's Board of Directors has unanimously approved taking out a one thousand life membership in the Foundation, considering this the worthiest investment for its surplus funds.

**GARDENING NEWS**

There are a number of things that should be done in April to your yard and garden according to the Florida Nurserymen and Growers Association. The warm weather is going to bring about chinch bug invasion in your St. Augustine lawn. If you have not applied a chinch bug control material, now is a good time. These bugs will begin to lay their eggs this month and this will increase the population to the extent that the lawn may suffer before you notice the presence of bugs. Check with your local FNGA nurseryman for the correct materials.

Oleanders will be growing rapidly as the weather warms and new growth is subject to attack by the oleander caterpillar. The small butterfly that lays the eggs for the caterpillar is a bright blue with an orange abdomen. The eggs hatch rather quickly and the young worms appear almost over night. If a good stomach poisoning such as sevin is applied to the new growth the young worms will be easily controlled. After the worms grow older they become more difficult to kill.

Ligustrum and viburnum hedges are growing rapidly. This new growth is readily attacked by aphids. Again, malathion is the best control. You may need to spray once every 7 - 10 days until you get them eradicated.

If you have not trimmed your crotons after winter weather has ceased, then the FNGA suggests you do it now. Long, slender stems can be made to produce healthy branching by cutting the plants back one-third. Always fertilize after pruning with any good mixed fertilizer.

Most nurserymen have an excellent selection of rose bushes now. The foliage is clean, dark green, and the bush may have numerous blossoms. In order to keep your plant healthy after it is purchased, you need to spray at least once a week. There are about three materials you need -- malathion, kelthane and dithane M-45 or fore. These materials will prevent invasion of insects such as aphids and red spider and fungus. Should you have powdery mildew, Acti-dione PM will take care of it.

**SANIBEL AND CANCER RESEARCH**

In response to a call for Spanish bayonet (*Yucca aloifolia*) in full bloom, by the A. P. Cooke Memorial Cancer Laboratory, Florida Southern College in Lakeland, which appeared in a local newspaper recently, Mary Nix contacted them offering all blooms she had and agreed to contact local property owners for permission to cut blooms on their land.

There was immediate response and a field team from the National Leukemia Research Society, Denver, Colo, made two trips to Sanibel to collect blooms. Miss Catherine Gibson headed the team, assisted by Bob and Barbara Hanson. They may come here again to increase their supply. Several thousand bloom stalks were needed.

Tom and Mary Nix assisted in gathering the blooms which were rushed back to Lakeland for immediate processing.

Calls were made to many property owners and, without exception, all generously offered whatever they had, including Gerald Martin, Howard Dayton, Tom Mitchell, Priscilla Murphy, Roy Bazire, Elinor Dormer, Marty Holts, Bob Aycock, Dr. Larimore and John Oster. The research team contacted the roads commissioner and received approval to collect on the rights of way.

Should our yucca blooms prove to be the break through in the fight on Leukemia, our little island can take humble pride in having helped.

The yucca is a beautiful plant whether used as a hedge or massed in clumps and comes into full bloom around Easter. It thrives in this area and requires little care, or none—each leaf terminates in a needle like point so it requires careful handling but the end result is well worth the effort.

**BLUE CIRCLE**

Last Monday Kay Schulz entertained the Blue Circle at her shorefront home opposite Buck Key on the bay at Captiva. Those attending worked very hard rolling bandages for the sick poor through the Catholic Medical Mission Board at 10 west 17th St., New York City.

There were 12 bandage rollers; Betsy Reddy, Violet Renshaw, Linn Kuder, Georgia Hemphill, Pin Mills, "Cherry", Mrs. Cherrill of Australia, Dot Seymour, Fran Shaver, Dolothly Robinson, Peg Dunham, Kay Schulz and Ruth Hunter.

A round robin was signed for Mrs. John Racek to wish her well.

**TOO LATE TO CLASSIFY**  
by Russell Kay

In spite of the fact that we are now paying the highest rate in U. S. Postal history for a first class letter, it appears that we will soon be paying four cents additional or a total of 10 cents. We are also warned that even this increase may not be enough to keep our Post Office Department operating in the black.

I don't know about you, but I am on a limited income. I am taking steps to meet the situation. I am sending the following notifications to my relatives and friends:

"Dear Folks: You have been receiving a letter from me at frequent intervals just to let you know of my affection and friendship but at 10 cents a throw it is beyond my means. So do not look for my occasionally letter from now on. If anything happens that I consider important enough to advise you I will telephone after 7 p.m. or on Saturday or Sunday, a free enterprise operation not burdened by politics and governmental inefficiencies."

I am sending the following notice to my creditors. "Gentlemen: This is the last check I will send through the mails. Don't worry, I intend to pay you, but I will deliver my check in person. It will be cheaper than use of the mail at present rates."

For ten years I sent Christmas cards to about 1,200 people at two cents postage for each card. I cut the list to about 300 when the rate advanced to five cents and cut it again when it reached six cents. So next year please don't expect a card from me. Just know I love you and think about you and I will certainly not expect a card from you. Save your dime on postage plus the cost of the card and we will all be better off. And the poor postman will not be overburdened.

My Christmas presents this year will be sent by railway express so our over-worked post office will not be burdened. Locally I will deliver them myself.

In the meantime, I am marking every piece of junk mail "return to sender" instead of throwing it in the wastebasket. I hope the Post Office Department will return it and charge them the full postage. But even if they do it would be a lot less than the 10 cents I am asked to pay to write a personal letter.

Another thing that gripes me is the crazy mixed up publicity I receive from my congressmen and senators telling me the state of the nation, how they love me and what they think they are doing about it. I am paying the postage for their mailing privilege.

I don't know about you, brother, but I think we are being taken and I don't like it. Let's rebel and show the Post Office Department and the politicians that we have had enough. And I do mean enough.

### SANIBEL COMMUNITY ASSOCIATION

"It's been eighteen years since I last served in this capacity," was Priscilla Murphy's remark on acceptance of the office of President to which she was elected at the annual meeting for election of officers and directors of the Sanibel Community Association for the 1970-1971 term.

Other officers elected to serve are Vice President, Marshall H. Holtz; Treasurer, Roy S. Gochenour and Secretary, Mary E. Nix. Members elected for a two year term to the Board of Directors are Sylvia Strong, Blanche Flough and John Shepherd. Hold-over members of the Board are Floyd Snook, past president; Robert Aycock, Robert Dormer and Daniel Moore. Reports on the 1970 Shell Fair were presented. Jean Culpepper read the report submitted by Robert and Jeanne Aycock, Exhibit co-chairmen. Fae Muller gave a report on the Driftwood Booth, which she and Holly Moore co-chaired. Mary Nix presented the report on the shell table for which she served as chairman; Marty Holtz, who chaired the food booth, reported it a success in spite of the weather and Marshall Tabacchi, traffic control chairman gave a comprehensive report on that phase of the show. Jean Culpepper, island chairman for the Cancer Drive, called for help as did Priscilla Murphy who is island chairman for the Heart Fund.

Don Marshall advised that the meeting regarding high rise restrictions on the islands will be held at 2 p.m. on April 22 in the County Commissioners' meeting room at the Court House.

Driftwood and red hibiscus were used to decorate the buffet table for the supper preceding the business meeting. Hosts for the supper were, Mr. & Mrs. Robert Dormer, Mr. Dan Malone, Mr. Howard Hoffman and Mr. & Mrs. Tom Nix.

NEWS ABOUT THE FLORIDA STATE SCIENCE FAIR

Ty Symroski, son of Col. and Mrs. Le Symroski, Sanibel won second place in the Biological Science Division at the Florida State Science Fair. He was also chosen as the alternate to the International Fair in Baltimore later this month.

Ty again expresses his thanks to the Sanibel-Captiva Conservation Association for lending him their boat and furnishing gas.

Students from this area received more awards than any other district in the state. We should all be proud and grateful to the teachers who have stimulated and motivated these young people.
