## SANIBEL COMMUNITY ASSOCIATION

Doctors Fred F. Burford and Robert G. Cushman will discuss the "Role of Cholesterol and Salt in Heart Disease" at the February meeting of the Sanibel Community Association to be held Feb. 2. There will be a presentation of some of the significant features of cholesterol and how it relates to heart disease. Following this there will be a presentation of the "Role that Sodium Plays in Normal Metabolism of the Body and Its Role as a Factor in the Control of Certain Types of Heart Disease." Following these presentations there will be a discussion of these general topics based upon questions submitted by those in attendance. Since cholesterol, fats, and salt are important constituents of the every day diet, there will be some discussion of how dietary control can be affectively practiced.

Dr. Fred F. Burford, a native of Georgia was graduated from Emory University School of Medicine and has practiced Internal Medicine in Fort Myers for about ten years.

Dr. Robert G. Cushman, a native of Florida received his MD degree from Wake Forest University and has practiced Internal Medicine in North Carolina and Florida.

## CONSERVATION COUNCIL

Twenty-five or more conservation organizations from all of Southwest Florida are sponsoring the first Southwest Florida Conservation Council conference, to be held on Sanibel and Captiva Islands Friday and Saturday, January 22 and 23, with the Sanibel-Captiva Conservation Foundation as host.

Opening session will be 8:30 p.m. in the Sanibel Community House, a public meeting at which speakers from four national conservation organizations -- National Audubon Society, The Nature Conservancy, National Wildlife Federation and the Conservation Foundation, will address the delegates and guests.

On Saturday, an all-day workshop at Sanibel Community House will be confined to delegates designated by the sponsoring organizations. Questions to be considered are: Is there a need for a Southwest Florida Conservation group? If formed, what would be its functions? How could such a group be coordinated with private and public organizations? What kind of organization should be formed?

Saturday evening, a public meeting at 8 p.m. at the Sanibel Community House will feature a talk on the Everglades by Mrs. Marjory Stoneman Douglas, noted author and founder of Friends of the Everglades. Results of the day's Workshop session will be reported, with opportunity for questions from the public.

The invited joint sponsors of the conference are: Collier County Audubon Society, Collier County Conservancy, Corkscrew Sanctuary, Friends of the Everglades, Rookery Bay Sanctuary, Sarasota Audubon Society, Save Our Bays Association, Crowley Nature Center, Manatee Audubon Society, Izaak Walton League Manatee Chapter, Izaak Walton League Sarasota Chapter, Venice Area Audubon Society, Lemon Bay Nature Conservancy Project, Southwest Florida Conservation Clearinghouse, Audubon Society of Southwest Florida, Lee County Conservation Association, Caloosa Bird Club, Organized Fishermen of Florida, Fort Myers and Lee County Nature Environment Center, Sanibel-Captiva Audubon Society, Sanibel-Captiva Shell Club, Sanibel-Captiva Conservation Foundation, Caretta Research, Koreshan State Park, Marco Island Civic Association.

Cooperating sponsors are: National Audubon Society, National Wildlife Federation, The Nature Conservancy, The Conservation Foundation, Florida Audubon Society, Florida Wildlife Federation, Florida Chapter The Nature Conservancy, Conservation 70's, Florida Conservation Council.

## TEENAGERS CONTRIBUTE

The dedication of young people, even teenagers, to the cause of conservation was demonstrated here recently when Martha Bowers, 15, and Steven Foley, 13, made sizeable contributions to the Sanibel-Captiva Conservation Foundation.

Of particular interest is the \$100 donated to the Foundation and the \$50 to Caretta Research by Martha Bowers, for it was her request that her parents, Mr. & Mrs. Lloyd W. Bowers, Lake Forest, Ill., make this their Christmas present to her. In the Spring of 1970, Martha visited Captiva where her parents have a home. It was then that she learned of the work of the Foundation and became intensely interested; so much so, that when she returned to Lake Forest she mailed a check for \$25 out of her allowance to become a contributing member.

Steven Foley lives in Stamford, Conn. Accompanying his gift of \$50 to the Foundation was the following note from his father, P. M. Foley: "The enclosed gift is from my son Steven (13). You may be interested that he chose the Sanibel-Captiva Conservation Foundation because of the beauty we saw there on our vacation last year."

# Letter To The Editor

To The Islander:

The following letter was sent to the Islander for publication:

Lee County Board of County Commissioners  
Lee County Courthouse  
Fort Myers, Fla.  
Gentlemen:

On behalf of the Board of Directors of the Sanibel-Captiva Conservation Foundation and our almost 900 members, we wish to express our appreciation for the position taken by the Board of County Commissioners in approving a height restriction for Sanibel and Captiva Islands. Your official recognition of them as a "unique natural environment" should go far to effect the preservation of this National Heritage.

You have taken a long step forward in a move that required vision and courage. We salute you.

We look forward to working together with your board, and the many friends of the islands in both government and private sectors, throughout the nation, to achieve our common goals.

### MAKING TACKS with Sandy

Her name is Maggi Davis and she's an attractive new "artist-in-residence" in Sanibel. She and her husband Roy have moved here from Huntington, Long Island (where they formerly had a florist shop) and have opened a boutique at the corner of Periwinkle and Main, naturally called "The Corner Shop." Having very much the atmosphere of a New England shop, it features art work by Maggi herself; driftwood paintings, shell craft, hand painted note papers and handsome dried and artificial flower arrangements. Then there are handmade children's clothing; baby bonnets and jackets, imported gifts and candles. Oh, I could go on and on, I found the shop so charming I could scarcely tear myself away. Also, if you like to knit you have a treat in store because a shipment of yarn is due any moment, Roy, the builder of the shop and Maggi, the artist, both artistic and talented. What a combination! Welcome to Sanibel!

Another person who is talented and interesting, I hear, is Mrs. John Shepherd. Grace has the unique distinction of having made her own living room rug; not only made it but designed it. I understand it is a large, oval, hooked rug and the unusual thing about it is the shell designs around the edge, Sanibel abounds with talent. Why not combine it someday in a Crafts Fair then we won't be hiding our lights under a bushel!

### THE ISLAND GARDENER

One of Florida's tropical fruits, the mango, will need some care this month according to the Florida Nurserymen and Growers Association (FNGA). Mango is subject to attack by a disease called scab. If you do not spray your tree with neutral copper or zineb prior to blooming the fruit may be spotted and develop rotten spots when it matures. Scab also causes excessive blossom drop and poor fruit set.

If you are driving around you may notice that some of the commercial citrus producers are beginning to fertilize their trees. Why not follow their procedure and make plans to apply a complete citrus fertilizer to your trees in the next two or three weeks. If you have not applied dolomite to your citrus trees now is an excellent time.

Your winter vegetables should be doing very well at this time and new growth will be very subject to attack by aphids. Aphids can be controlled on most vegetables by using malathion. Read the directions carefully if the plant is a leafy vegetable. If so you should wait at least three to five days after spraying before picking. Tomatoes and other tough-skinned vegetables can be used three days after spraying with malathion.

Worms are always present. If you have cabbage then you are probably experiencing an invasion of the cabbage looper. These can be controlled by an application of Thorocide. This is a spray that contains bacteria which attacks the worm and kills it. Commercial growers frequently use this type of control to avoid residue.

## THE ISLAND CHEF

### CRABMEAT-IN-SHELL SOUP

An elegant soup you make in only one saucepan --

- 1/4 cup chopped onion
- 1/4 cup chopped green pepper
- 1/4 cup diced celery
- 2 Tbsp. butter or margarine
- 2 13-3/4 oz. cans (3-1/2 cups) chicken broth
- 1 7-1/2 oz. can (1 cup) tomatoes, cut up
- 1/4 cup conchigliette (tiny shells)
- 1 Tbsp. snipped parsley
- 1/4 tsp. salt
- Dash of pepper
- 1 7-1/2 oz. crabmeat, drained, flaked, and cartilage removed

In large saucepan, cook onion, green pepper, and celery in butter or margarine till tender but not brown. Add broth, tomatoes, conchigliette, parsley, salt and pepper; bring to boiling. Cover and simmer 30 minutes or till pasta is tender. Add crabmeat; cook 5 minutes longer. Makes 6 to 8 servings.

### FAMOUS ARTIST

Elvy Kalep, who has originated a new art form, portraits in leather, was the luncheon guest, along with Playwright Cynthia Englund and Composer Marion Chaplin and friends at the Pirate Playhouse.

Elvy and Ruth first met each other at the Hunter's Dairy Cottage Art Gallery at the home of J. P. Morgan on Morgan Island in Glen Cove, N.Y.

Elvy Kalep is a flyer, who flew the last plant out of Estonia when it was taken over so Ruth had a centerpiece of Florida holly with Elvy's parachute doll which the artist had just invented at that time -- 2 years ago, and which she had kept.

Plans are for a showing of Elvy Kalep's work sometime in March on Sanibel Island.

### THE SURFRIDER BY SUSAN WILLE

This 85 degrees above zero goes over very well with our guests, who are mostly from the cool regions of the country.

Mr. & Mrs. Milford Knowles of Attica, Ind. are enjoying this summer weather and just relaxing.

Mr. & Mrs. George Koutelahaer of Pompano Beach are here for a little R&R. Mr. & Mrs. Armando Cervi, Jr. of Ambler, Pa. (a cool 35) are enjoying the beach and shelling. Dorothy Dunkelberger of Locust Valley, N.Y. is amazed at our early morning fogs.

Mrs. G. H. Carpenter of East Dennis, Mass., and her two teenagers are having a ball and after 8 days here are going to the keys.

Olin Williams of Murfreesboro, Tenn. had a wonderful time bird watching. The J. H. Monjar's of Muncie, Ind., think the Surfrider is just heavenly.

The Donald Engo's, their daughter and a school friend, and Mr. Howard Marshak and son of Evanston, Ill. spent an enjoyable week of shelling and playing shuffleboard.

Mr. & Mrs. Edward Foss, Jr. and children Edward and Tracy of Cincinnati, Ohio are now in love with Sanibel and are planning a return trip in the summer.

I would like to retract a statement about Miss Keenan Fishburne, daughter of Mr. & Mrs. Fishburne of Gulf Drive, who is on the Dean's List at Stetson University. She is now on a trip to Europe.

Mr. & Mrs. Joe Matthis of Louisville, Ky., are here to enjoy some of our beautiful weather and fine shelling and bird-watching. They were taken on a tour of the islands and a shelling trip.

Among other guests at the Surfrider were Mrs. Elaine Carp and Mrs. Mary Ann Vachon of Burlington, Vt., Miss Rita Angolana and Mrs. Charlotte Myers of Winoski, Vt., Mrs. Cheryl Karem of Pompano Beach, Mrs. Theresa Baynum, Mrs. A. M. Couture, Mrs. Marie Pollard, and Mrs. Lorraine McNamara all of Hialeah, Fla. They all enjoyed a shelling trip to Blind Pass and of course shelling on our lovely beach.

Mr. & Mrs. Robert Fowler and guest Mrs. Margaret Lee, all of Ft. Fairfield, Me. are enjoying a return to our beautiful islands for plenty of R&R.

Mr. Fowler, Mr. Matthis, and Mr. Wm. Such, Jr. enjoyed the beautiful weather for a little trek to the golf course. Mr. Milford Knowles had very good luck with our Sanibel fish.

**SANIBEL LIBRARY ELECTS OFFICERS**

Robert C. Haynie was re-elected president of the Sanibel Public Library and C. P. Siegenthaler was re-elected treasurer, at the annual meeting of the Library's Board of Trustees on January 14. John Cook was elected as a Library Aid and as such is a new member of the executive committee; he takes the place left by Mrs. Edith Levy, who retired this year as Library Aid but remains a member of the Board of Trustees.

Officers of the Library are elected for two-year terms, so that officers who were elected at the annual meeting a year ago continue in office for another year: Mrs. Sylva Strong and Mrs. Betty Zajicek, library aids; Mrs. Barbara Sur, secretary; and Dr. Reason A. Goodwin, vice president.

Volunteer workers of the Library also attended the meeting, heard reports of the Library's progress during the past year, and took part in discussions of the current work and problems.

Mrs. Rhoda J. Franklin, Librarian, reported that circulation in 1970 was 6,221 volumes, up from 5,555 in 1969. The Library is now open on five days each week, for since November 17 it has been open from 10 to 12 on Tuesday, Wednesday, Friday and Saturday mornings, and from 2 to 4 on Thursday afternoons. The Library has been thoroughly house cleaned and decorated with shells; the shelves have been checked and weeded, discarding old and battered books; and the card catalog has been completely revised and combines the adult and juvenile books.

All of the work of the Library is done by volunteer workers. Twenty-two volunteers were trained during the year, most of them at a course given on Sanibel Island last spring by Mrs. Fayette Storm, the Lee County Librarian. It is possible that there will be another training course as the waiting list of volunteer workers grows.

**HOMES AFLOAT CALLED HAZARDS**

Lee County Health Dept. declared two floating homes at Sanibel Marina "are believed to be a potential health hazard, and are thought to be in violation of at least four codes, ordinances and Florida statutes."

Warning notices were posted on both boats reading, "Warning -- Do Not Occupy." Charles Martindale, Lee County sanitarian said he did not know who owned the two homes, one of which was posted several months ago, but the sign was torn off. Sales signs have appeared on the boats off and on in recent months. The boats are not attractive. The larger of the homes is a 1,000 sq. ft. boat mounted on two pontoons. It was reportedly sold recently for \$18,500.

The complaint was made to the Health Dept. in the interest of pollution, by Dr. Vernon McKenzie, retired assistant to the Surgeon General of the U. S. Public Health Service in Washington, D.C., whose home is located about 100 yards from the Marina at Lighthouse way.

Dr. McKenzie reports human waste from the two homes has been noted floating in the marina inlet. He said, "Though there is no odor, I am concerned with the bacterial count of the floating material and potential infections which might result from this facility. When the intestinal discharges of people are dumped into water, the water becomes contaminated and can cause eye, ear, nose and throat infections and also gastro-intestinal infections."

Dr. McKenzie further stated the waters of San Carlos Bay just outside the Sanibel Marina inlet are in a high quality classification (Class 11) made necessary for the collection of shellfish, because the animals (especially oysters) collect and store waste materials. On a per unity volume basis, there is usually more waste materials in these shellfish than there is in the surrounding water.

Martindale said there is a health hazard when untreated or partially treated sewage is dumped directly into public waters close to inhabited areas. Homes in the immediate area are connected to sewer lines connecting to a treatment plant. He further stated that violations are being committed by owners of floating homes, because the homes were called houseboats. He said the county zoning code prohibits these type of dwellings if they are not self-propelled. He believes that such dwellings would be in violation of the county code whether self-propelled or not. He further said that any dwelling, pleasure craft or other, could become a health hazard, if it stood in a fixed location for any period of time without approved waste disposal.

"It is reasoned that houseboats should be classified as dwellings, if the duration of stay in a fixed location is established to create an unsanitary condition," Martindale stated. He said he hoped the warning signs posted on the boats would be sufficient to avoid further positive action by the Health Dept. He further said if they are torn down again and disregarded, we will have to take the matter to the courts.

CONSERVATIONISTS ON TOUR

A dozen members of the Southwest Florida Conservation Clearinghouse toured Black Island as guests of developer Floyd Luckey, according to Bradford Patton, Clearinghouse chairman. "Mr. Luckey said he fully intends to save some areas of the island," Patton reported. "The outer edges and the beaches will be preserved, although the center of the island has been bulldozed and burned. He will make a full report to the Clearinghouse meeting January 21 at 10 a.m. in the Small Claims Room at the Courthouse."

COUNTY GIVEN WILDLIFE FUND

A check in the amount of \$1,886 was presented to Lee County on Tuesday by Mr. Charles LeBuff of the Bureau of Sports Fisheries and Wildlife and the J. N. (Ding) Darling National Wildlife Refuge on Sanibel. The check represented a federal self-assessment on the 4,700 acres of refuge, figured at three quarters of one percent of an adjusted "cost" of \$251,550. Mr. LeBuff presented the check to new County Commissioner Walter representing District 2 which includes Sanibel and Captiva. The compensation under Public Law 88-523 allows the system of refuges to atone in part for lands removed from the tax rolls. The acreage represented above amounts to a little more than 7 square miles.

A FISHERMAN'S PRAYER  
FROM RED PELICAN COVE

"Oh, Lord, give me the grace to catch a fish  
So large that even I, in talking of it afterwards,  
May never need to lie.  
A question I would ask you, and a truthful answer wish  
Are all men liars, or do only liars fish?  
Since a question you have asked, and the truth is what you wish  
All men are liars, and some of them are fish."

SHELL HARBOR INN GUESTS

Dr. Boris Borontinski and his charming teenage daughter of Western Springs, Ill. came to Sanibel after the doctor attended a medical convention in Miami, for a quiet respite before returning to school, and after the mid-term session. Mr. & Mrs. Neal Kennedy are being welcomed from Hinsdale, Ill., for their 15th yearly visit. North Carolina visitors are Mr. & Mrs. C. W. Wood of Whispering Pines and Mr. & Mrs. Harold Gardenhour of Waynesboro. Guests are from various states, some returnees to the islands and others newcomers, but all have enjoyed shelling, four reporting they found junonias and golden olives and others catching snook. Guests seen on the beach from Shell Harbor Inn include Mr. & Mrs. John C. Vooren, Chicago, Ill., Mr. and Mrs. William F. Gordon, Doylestown, Pa., Mr. & Mrs. John Aron, Akron, Ohio, Mr. & Mrs. John Ireland and attractive daughter of Rochester, N.Y., Mr. & Mrs. Robert Klock, Williamson, N.Y. Mr. Klock is a top executive for Mott's Applejuice, much preferring the white sands of the islands to the white snows prevalent in New York at the moment. Other Shell Harbor guests are, Mr. & Mrs. John Buchman of Evansville, Ind., Mr. & Mrs. G. Summerfield, Ann Arbor, Mich., Dr. Paul Davidson of Madison, Wisc., Mr. & Mrs. Reubin Jaffe of Southfield, Mich., and Mr. & Mrs. Harry Boline and friends in his party from Atlanta, Ga.

CASA YBEL RESORT AND THE WINTER INSTITUTE

With the goals manned by the Johns Hopkins University research team of Holloway and Schnuelle and with the offensive units being led by Drs. Per Olov Lowdin, Calais and Brandas, once again, the aircraft tie down area had been converted into a soccer field and Casa Ybel Resort had the pleasure of hosting the Winter Institute in Quantum Chemistry, Solid State Physics and Quantum Biology.

Arranged by the Quantum Theory Project at the University of Florida in collaboration with the Quantum Chemistry group from Uppsala Univ., Sweden, the 7 week long Winter Institute culminated with a one week symposium, Jan. 18 to 23, again, at Casa Ybel.

The two weeks preceding the symposium consisted of 88 hours of lectures by Dr. Lowdin, the institute's director; Dr. Slater, Univ. of Florida and MIT; Dr. Calais, from Uppsala Univ., whispered to be a raconteur as well as a lecturer; along with Dr. Brandas, Univ. of Florida, and rounding out the impressive list of lecturers, as well as the soccer team, was Dr. McLean from the IBM Corp. in San Jose, Calif.

The learned gentlemen and ladies who took part in the two weeks of lectures and discussions proved to be pleasant company for all of us at Casa Ybel. Happily, all of the guests managed to intermingle physics, chemistry and biology with shelling, swimming and soccer. From the U. S. Naval Weapons Lab., came Carol Springer; from Brazil, Elisa Maria Baggio Saitovitch; Orville Day, Jr. from Brigham Young Univ.; Walter Ermler, Ohio State Univ.; Ingvar Lindgreen from Yale Univ., and the list goes on. From the Chemistry department at Queens Univ. Kingston Ontario, Canada, came Frank Wayne; from Denmark, Claus Schaeffer; Michael Schlueter from Switzerland, and from the University of Florida, John Bellum, George Purvis and Paul McGuire.

Inasmuch as he didn't have to go back too many years to remember his football playing days, Marshall Anderson, doing post-doctoral studies at North Carolina State, canned the shelling after a couple of days and took to the soccer field. He's returned to shelling, but only through the aid of his friend from Tulane Univ., Dick Harrison.

Word has it that the billiard table was no place for a novice when Drs. Lowdin, Calais and Brandas were present; it didn't take long, however, for the conversant Forest Carter, from the Naval Research Lab., to show his expertise in this field.

Most of the participants in the Winter Institute had to leave their families behind; we are happy that this was not the case for Drs. Lowdin, Slater and Brandas. Mrs.

Lowdin, her two children, the youngest accompanied by her teacher, Mrs. Slater and Mrs. Brandas and her two children added a pleasant touch to the Casa Ybel surroundings. In fact, it was mainly through the ladies' efforts that a unique gathering took place one evening last week, as all gathered at the "Ding" Darling Sanctuary tower for cocktails, sandwiches and amiable conversation, to watch the birds feed during the ebb tide, the sun set and the moon rise. It was, so to speak, a "toast" to the workings of nature. And surely it was more than a novel idea; it said a great deal for the Weltanschauung of the scientists and their families.

Thanks to the seemingly limitless effort and cooperation of our co-managers, Bryce Brant and Dick Wolfe, and the institute's director, Per Olov Lowdin and Dr. Brandas, a successful 1970 Winter Institute was accomplished and those at Casa Ybel Resort and Sanibel Island were happy to have been a small part of it.

To those who were able to spend the two weeks preceding the symposium, allow Casa Ybel to thank you for contributing to a friendly atmosphere. And to the many, many more guests and their families who arrived for the Winter Institute's symposium, "Welcome!"

Though she may have been separated from her husband, the wife was not forgotten, as Mrs. Holloway in Maryland received a call from her husband, as did Mrs. Schaeffer in Denmark and Mrs. Katriel in Israel. After two months with the Winter Institute, Jacob Katriel, from the Nuclear Research Center in Israel, is anxious to return to his wife and 10 month old son.

GROUP SHOW AT EXHIBIT BOARD

**NATIONAL AUDUBON SOCIETY BOARD OF DIRECTORS MEETING**

The Board of Directors of the National Audubon Society will hold its winter meeting on Sanibel, Friday, Saturday and Sunday, January 22, 23 and 24.

Some seventy people, including directors and wives or husbands and other officials of the national organization will start arriving Friday afternoon, when they will tour the islands and visit the Ding Darling National Wildlife Refuge.

Dr. Elvis Stahr, president of the National Audubon Society, will be one of the speakers representing four major national conservation organizations to address the first session of the Southwest Florida Conservation Council's organizational workshop Jan. 22, 8:30 p.m., Sanibel Community House. The meeting, open to the public, will be attended by the entire National Audubon group.

During the day Saturday, Audubon directors will hold their business sessions at Island Inn. Wives and others not participating will tour the Edison home in Fort Myers and witness a demonstration of netting and banding birds by Mrs. Dorothy A. Mendenhall.

On Sunday, National Audubon will host a barbecue at its Corkscrew Swamp sanctuary to which county commissioners and other officials of Lee and Collier counties, and conservation leaders from the two counties, have been invited.

Members of the Board of National Audubon, besides President Stahr, who will attend include: Gene W. Setzer, chair of the board; Walter D. Binger, chairman of the executive committee; Charles H. Callison, executive vice president; Ernest Brooks, Jr. and Roland C. Clement, vice presidents; Alan T. Wenzell, treasurer; George Porter, controller; and directors: George P. Bent, II, Erard Matthiessen, Dudley H. Mills, Philip W. Pillsburg, William G. Conway, Ostrom Enders, Robert G. Goelet, Mrs. Henry B. Guthrie, Sydney Howe, Mrs. Roy E. Larson, Dr. Olin Sewall Pettingill Jr., R. Watson Pomeroy, Richard H. Pough, James H. Wickersham, Jr., Mrs. John W. Aull, Walter Bogan, John E. Du Pont, Dr. Thomas Eisner, Amos Eno, Mrs. Donald H. McLaughlin, Leonard A. Shelton, Edward M. Simmons, Thomas O. Wimmer, Dr. John D. Withers and Rawson L. Wood.

**CHAMBER OF COMMERCE MEETS WALTER SHIREY**

The Board of Directors of the Sanibel Chamber of Commerce met Thursday to discuss various island problems with new County Commissioner Walter Shirey. The personable, young commissioner lent a sympathetic ear to twelve problems the board discussed with him, led by John Rushworth, Chamber president.

Problem number one was the possibility of a catwalk being installed on the mid causeway span for fishing, since the extensive repairs needed for the fishing pier will require extensive time but the second problem concerned getting county help for the expeditious repair of the pier. The third problem was concerned with the desirability of lowering the speed limit on Periwinkle Road from 45 miles per hour to 35. Problem number four had to do with the deplorable state of the picnic area on Periwinkle Dr. and measures needed to rehabilitate it and maintain it. The fifth problem centered around the conditions on Turner Beach; the deplorable state of the restroom facilities and inadequate parking, causing a fire and rescue hazard. The sixth problem to be aired was for a change in the county ordinance to one requiring dogs on the islands be kept on a leash or not being permitted to run free on other's property. Problem number seven was a regulation for informing trailers illegally parked overnight all over the islands of their encroachment on private and public property. Eight was one of law enforcement on the islands. Number nine was a question of Mr. Shirey's opinion on the sign ordinance which was presented to the County Commissioners on Wednesday.

Problem number ten was a request that the county take measures to repaint center divider markings on the bridge and causeways and also edge lines, which are vital these foggy mornings and evenings. Problem eleven concerned a request that the county place anti-litter signs on all island roadways and the last request was for the consideration of the extension of Gulf Drive eastward toward the Lighthouse. This would entail the purchase of road easements from various property owners.

Mr. Shirey spoke of his wishes for all of these improvements, and promised complete cooperation with the Chamber of Commerce.

## SANIBEL - CAPTIVA PLANNING BOARD, INC.

### We Have Won On High Rises - Now Let's Win On Density

The Sanibel-Captiva Planning Board, Inc. is the successor organization to the Sanibel-Captiva Planning Committee.

PURPOSE: To protect the esthetic and other qualities of the natural environment of Sanibel and Captiva through studies of planning, zoning, pollution control and similar matters and to represent before state and local official agencies the residents and organizations of the islands interested in this purpose.

## FOG HAZARD

Mr. W. F. Newman, of the Chamber of Commerce, reports, "the fishing is just great, and so is shelling along the beaches. Night fishing during the full moon is particularly good, and bridge traffic is extensive, but recently the approaches to the bridge and causeways were covered with sand and rock which eroded the center marking lines and also the edge of the road marker and guide lines. Ordinarily this would cause no problem, but due to the extensive fogs in the early morning and late evening hours, there is some danger of missing the road, as the lines are valuable guides in a foggy condition. We sincerely hope authorities will try to remedy this situation as soon as possible," he said.
