Quite Realistic.
"This," said the eminent artist, "is my famous study of the 'Cows in the Clover'."
"But where is the clover?" was asked.
"Oh, the cows have eaten it, you know,"—Baltimore American.

Spicy.
"If you intend to dine on us," queried the captured mariner, "why did you greet us with a missile?"
"Because we always pour our food before eating it," returned the cannibal.

HON. MR. SEYMOUR VISITS WESTFIELD.

Local Democrats Tender Reception at Westfield Hotel—Prominent Democrats from the County Present.

Hon. James M. Seymour, Democratic nominee for Governor visited Westfield on Wednesday afternoon and was tendered a reception at the Westfield Hotel. Mr. Seymour and his party, accompanied by the James Band, came in three handsomely decorated trolley cars and led by the band, marched directly to the parlors of the hotel (where he and other politicians of note were welcomed by local Democrats as well as by many Republicans who wished to see the candidate for the "Other side" and meet him personally.

Quite a feature of the reception and one not down on the program, was the gathering of nearly a hundred school children, who took their turn in line to shake the hand of the "Governor" as they called. Several "snap shots" were taken of Mr. Seymour, surrounded by dozens of little school children as he returned to his car to proceed to Elizabeth, where he was to address 6,000 people at 5 o'clock.

Among those well known in political circles who accompanied Mr. Seymour were, ex-Congressman John T. Dunn, Chas. D. Moffett, Edward Nugent, Chas. H. Sulzer, Geo. R. Vanderveer, Col. Collins, Chairman County Committee, Mayor P. J. Ryan, ex-County Clerk, J. L. Crowell, Samuel Schlimmer, B. Lawrence, W. W. St. John, editor of the Elizabeth News, Peter Engell, J. J. Matthews and City Attorney James J. Connolly.

Among the Westfielders who were introduced to Mr. Seymour were, W. B. Tuttle, Jr., who acted as reception committee for the Westfield Democratic Association; J. M. O. Marsh, J. D. Bennett, S. D. Ball, Charles Clark, G. A. V. Hinkle, Dr. W. H. Morse, D. E. Miller, M. M. Soudner, Addison S. Clark, Samuel Goldsblak, E. N. Brown, H. B. Woolston, W. B. Edgar, C. E. Parrish, A. H. Clark and C. F. W. Witke.

W. T. Wesson, Ghoslenville, Va. druggist, writes: "Your One Minute Cough Cure gives perfect satisfaction. My customers say it is the best remedy for coughs, colds, throat and lung troubles." W. H. Trenchard.

BURNED TO THE GROUND.

Little Italy Loses a Residence—House Owned by J. N. Wilcox.

Westfield was startled by an alarm of fire at about eight thirty Monday night. The alarm was turned in from the corner of Park street and Summit avenue and not until after the building, which was owned by J. N. Wilcox and located in the Italian quarter on lower Central avenue, was a mass of flame.

The fire department was somewhat slow in getting started and when they arrived on the ground, the building was beyond the possibility of saving. Empire Engine Co. and the Hook and Ladder truck reached the fire but the Bucket and Engine Co. did not leave their quarters, being unable to get a horse for their hose wagon, one having been applied for at Barton's and promptly refused.

The building was burned to the ground and the origin of the fire is unknown. The house has been unoccupied for some time and on Monday an Italian approached Mr. Wilcox and offered to rent the place and seemed much put out by Mr. Wilcox's refusal to let him have it. Mr. Wilcox's loss is partly covered by insurance.

C. M. Phelps, Forestville, Va. says his child was completely cured of a bad case of eczema by the use of DeWitt's Watch Dog Salve. Beware of all counterfeits. Instantly relieves piles. W. H. Trenchard.

WESTFIELD CLUB.

"Shy," referring to dates—on election day evening, Nov. 5, we're going to have a wadville and smokes. This year the ladies, bless 'em, are coming too. Next year they can't get their noses in the door. We only want to show them how good we are. It's going to be a corking entertainment and we know you'll want the corky tickets and more so when you tell your friends about it. No seats reserved. Come early or you'll have to "go away back and sit down."

Letter To Paul Q. Oliver.

Dear Sir: What won't be the result of selling your pants with this guarantee? "If you have any fault to find with this pair, either the month putting on or orders after the wear, take your dealer and return them to us. We will pay his bill and send you 100." Westfield by both of these guarantees, as we are the maker, we know all about it. Yours truly, R. W. Devoe & Co.

A Clever Don.

TOOK HIM LITERALLY.

That Was Why His Signature Was Rejected at the Bank.

"Bank clerks are so often called upon for directions that they sometimes fall into the habit of giving them in a hurried and mechanical manner, consequently they are frequently misunderstood," remarked the clerk of a savings institution to a reporter the other day. "For instance, the usual formula when a stranger is called upon to sign his name is, 'Sign here; pen and ink at your left hand.' One morning last week a stranger entered our bank and asked me for a certificate of deposit for a considerable sum of money which he handed over. I counted the money and found the amount to be as stated and hurriedly said, 'Sign there; sit pen and ink at your left hand.'"

"Well, it took the stranger a long time to sign his name, but I thought nothing more of it and issued the certificate of deposit. About a week later the same man, whose face I had forgotten, reappeared and presented the certificate. He dashed off an ornate signature, which I proceeded to compare with the first signature. The two were vastly different, as the first one was apparently the labored effort of an old man."

"I can't pay you this money, sir," I said.

"Why not?" asked the astonished stranger.

"Because it is not the signature of the man to whom I issued the certificate of deposit," I replied.

"Well," said the stranger, "when I was here a week ago you told me to write my name with my left hand, and I did so, but I can't write very well that way."

"Then will you oblige me by writing your name with your left hand again?" I asked as a light dawned upon him.

"Certainly," said the man, and after much labor he produced a facsimile of his first signature, and I apologized and paid him his money.—Washington Star.

FLOWER AND TREE.

Plants cannot live if deprived of their leaves.

Then plants at the age of 7 years yield 700 pounds of fruit to the acre.

The date palm requires a hot, dry air, but moisture about the roots and plenty of it.

Dates never live more than 250 years. (Ay has been known to live 450. Chestnut 500, oak 1,000 and yew 2,500.)

An oak tree of average size, with 70,000 leaves, lifts from the earth about 125 tons of water during the five months it is in leaf.

Jasmin is an Indian shrub. Its strong, wax white blossoms are indescribably sweet. All the burning pain and passion and pathos and mystery of the Hindoo race seem to rise up to you in its breath.

There is a rose tree with a trunk 2 feet 6 inches in circumference in a Ventura garden in California. It is a trademark, has been growing a quarter of a century and yielded over 21,000 blooms in 1895.

Beaver's Teeth.

Of the cutting power of the beaver's teeth Frank H. Bisteen says in Record and Gene.

"The beaver is really a sort of portable pulp mill, grinding up most any kind of wood that comes his way. I once measured a white birch tree, 22 inches through, cut down by a beaver. A single beaver generally, if not always, amputates the tree and when it comes down the whole family fall to and have a regular frolic with the trunk and branches. A big beaver will bring down a fair sized sapling, say three inches through, in about two minutes and a large tree in about an hour."

"One of the queerest facts about the beaver is the rapidity with which his long, chisel shaped teeth will recover from an injury. I have known beavers to break their teeth in biting a trap, and when I caught them again, ten days afterward you couldn't see a sign of the break. The teeth had grown out to their former perfection in that short period."

Curatilities of the Cacao Tree.

"The cultivation of cacao is a writer in The Scientific American, is an inviting agricultural pursuit in Trinidad and parts of Venezuela. The cacao tree cannot withstand strong sunshine, and the young plants have to be shaded by banana or plantain trees and later, when they attain their growth, by (oil trees, known as 'immortelles,' or the 'mother of the cacao.' These make a kind of canopy over the entire plantation. The fruit of the cacao tree is a pod resembling a cucumber and growing on the trunk or large branches, where it 'looks as though it were artificially attached.' The seeds are like large, thick lima beans imbedded in pulp. These form the cacao beans of commerce. The processes of curing and drying require much attention.

Yours truly,

It is unfortunate that the splendid abilities of Shepard should have been placed at the disposal of Richard Crouker.

A case of push and pull—the conflict between the paddlers and wind man.

Are we to understand that the war in the Philippines is ended now that another bloody battle has been fought after "Peace" had been made secure?

Mr. Richard Crouker has such a generous, kindly nature, he has even given up the comforts of his foreign home to come over to New York to help her citizens elect the right man.

Politics is constant warfare. Even little towns like New York have their troubles.

"In order to take advantage of the \$500 reduction in the price of the Henry Park, the proposition must be accepted before Nov. 15th and, therefore, as we must have the park, we should act promptly."

Red Lights.
Let the lower lights be burning.
Send a gleam across the wave.
If I lose at this election,
My Wantage I'll still leave.

The annual meeting of the Children's Country Home Association, recently held (and reported elsewhere in this issue) gave evidence of thrifty management and splendid results which do not always follow even thrift and enterprise. The officers are to be greatly thanked and congratulated; and they must be themselves deeply grateful and encouraged to see how their worthy enterprises has prospered on their hands.

One of the happy features connected with the Children's Country Home is its undenominational character; it brings all creeds and classes together.

Walsingham—Johnny, I want your advice. I have a pair of woolen trousers, bought last year for three dollars. They are somewhat worn and a little faded. I can have them dyed for a dollar twenty-five, what do you say?

Johnny Guff—Well, if your engagement is still on and the old man is growing no better, you will undoubtedly want a black pair for a month or two after the end event and then if everything is happily arranged you can blossom out in a pair of plaids. See Fred.

Whatever one's political party affiliations may be no one will be too small to recognize true dignity and worth when carried out in the methods of the other. This observation is a preface to our mentioning with much satisfaction the call of James M. Seymour, at Westfield, Wednesday afternoon. As the candidate of the Democratic party for the Governorship of the State, he is passing among the people without ostentation or display; for he is himself a plain man of the people, though of without inherent distinction and ability to have been thrice elected Mayor of a great city—Newark.

He favorably impressed every one who met him by his straightforward, cleanly, reliable manners. But beyond all was the self-evident, masterful character and business sense that marked his career and won for him the confidence of his fellow citizens.

Some of us talk a good deal and

don't get there. Others are just the quiet kind that so often land all right. Seymour, we take it, is one of the latter.

Uncle Bill Penseley says that dear old Harry Anderson has been too long associated and interested in his Pastor, not to have a kindly heart so generously evinced by his entertainment of the children of Cranford.

Another handsome plume has been added to Westfield's Cap in the new school building, to-night to be opened and named for Washington. In this connection it is due to say that the School Board, to a man, has been most industrious, painstaking, intelligent and patriotic in reaching this proud achievement. We believe that this truth is generally recognized by the citizens of Westfield who will never cease to thank H. E. Knight, Walter Storrs Clark, Charles Forster and Martin Welles, for their disinterested efforts in behalf of the educational welfare of our glorious town. And not one of these men will find fault with us for singling out the tireless John J. Coger for the splendid manner in which he has met and discharged this special and particularly arduous duties in this entire connection, as District Clerk.

Anent Taxation—Uncle Bill Penseley says that he is not sure but that Harry George's single tax theory is correct—anyway, less annoying; for he is obliged to meet all legitimate taxes, let alone taxing his memory, having his patience taxed and suffering from attacks of Westfield dogs.

John Kean, of the United States Senate, and of the State of New Jersey, has been the first public speaker that we know of in this campaign to refer to the act of the "unspeakable Czolgosz" for political capital purposes. In an address in Jersey City Friday evening he said:

"The campaign is a national one. It was not made so by the will of any party, but by the bullet of the assassin. Are we to give force and emphasis to the bullet of the assassin by declaring in the election of the Democratic ticket, that we will not uphold Mr. McKinley's policies and the administration?"

It will, perhaps, be difficult for voters to discern the connection between the cowardly act of a partyless, lawless craven and National policies in a gubernatorial election. Brother Kean must be critical in his speech if he would escape the ridicule of his fellow citizens, while avoiding the suspicion of being vulgar enough to make use of a great National grief and shame for party purposes.

The developments in the Schley Court of Inquiry are as follows:

1. No signals were given Schley that the Spanish fleet was not at Olanchores.
2. The slow progress of the fleet from Olanchores to Santiago was because of the slowness of such boats as the Texas, Merrimac, etc., with the Brooklyn's engines unimpeded by the order of Sampson.
3. Schley signaled Sampson on July 2 that columns of smoke had appeared in the harbor indicating that the Spanish fleet were getting ready to move.
4. Sampson then left the Santiago blockade and went forty miles to the east, leaving the fleet in charge of Schley.
5. At the battle on July 3 Schley did not give the order for the famous loop. It was given by the captain of the Brooklyn.
6. The famous loop was a success; it has been pronounced by nearly all witnesses to have been a very strategic move.
7. Of all the damage done to the Spanish boats, 85 per cent. is credited to the guns of the Brooklyn.
8. Schley gave the signal to the Oregon when to shoot the 18 inch gun that went through the Viscaya from stem to stern.
9. Schley received the surrender of the Spaniards.
10. After the battle and on the return of Sampson, Schley signaled the result.
11. Schley had full control and no previous arrangements could have availed.

It looks as though credit must be given to the fighting admiral instead of to the tea party admiral.

A Wonderful Fan.
Mme. Pompadour had a wonderful fan. The lace cost about \$80,000, and it took some years to make the five sections, each one containing a medallion so minute as to be almost invisible to the naked eye. It is now in existence, broken and apart, but still showing traces of its great beauty.

CHILDREN'S COUNTRY HOME ANNUAL MEETING.

New Officers Elected—Association in Prosperous Condition—Work Planned for Next Year.

The annual meeting of the Children's Country Home Association was held in the Baptist Church on Monday evening, Oct. 21.

The meeting was called to order by the President Mrs. V. O. Burdick, and opened with singing of "America," reading of scripture, and prayer by Rev. George A. Francis, pastor of the Baptist Church. The annual reports of the Secretary and Treasurer were read and approved.

Receipts of general fund, \$1,149.60; receipts of water plant fund, \$331; balance on hand, \$217.41.

The report of the nominating committee who had been appointed by the President, was then read by the chairman, J. S. Ferris, and on motion, the Secretary was directed to read the ballot, and the following ladies were elected for a term of three years: Mrs. V. O. Burdick, Mrs. A. S. Clark, A. E. Decker, Mrs. Randolph Perkins, Mrs. David Stanley, Mrs. George H. Starr, Mrs. Martin Welles, and the Advisory Board of seven gentlemen, as follows: James O. Clark, H. E. Knight, Randolph Perkins, John Platt, W. J. DeLamater, H. J. White, Prof. J. J. Savitz.

A ten year sketch which had been written by Mrs. Welles was then read by her.

The meeting was then thrown open to those present for suggestions as to further work. On motion, it was decided to have the historical sketch printed for distribution.

James O. Clark then addressed the meeting upon the beauty of the work, the compensation in it, and the necessity of ending the institution the Convalescent Children's Home.

Mrs. Welles spoke of the necessity of a play room, and of the plan of appealing to the Sunday schools and the Christian Endeavor Societies through the coming winter to raise necessary money for the purpose of building one. The president spoke of the necessity of a room for special cases of illness, and Miss Bridges of the hope, some day, of having a steam heating plant.

On motion, it was decided to print the letter of Dr. J. B. Harrison, which had been read by the Secretary, and publish with the historical sketch as ordered.

Mr. Welles added a few words and Mrs. DeLamater asked if these suggested improvements were contemplated to be undertaken in the near future, and spoke words of encouragement, advising "go ahead," believing that all necessary support would be given.

A few words more from Mr. Clark, and the minutes of the meeting were ordered read and approved. On motion, the meeting then adjourned.

In a later edition the Standard will publish the reports of the Secretary and Treasurer, and other interesting matter concerning the Home.

H. S. Manning married Miss Josephine Bloomfield.

Many Westfielders witnessed the marriage of Howard S. Manning of this place to Miss Josephine Bloomfield at the home of the bride in Brooklyn on Tuesday evening. The house was tastefully decorated with palms and cut flowers. The bridesmaid was Miss Louise Sherry and the best man Edgar Manning, brother of the groom.

Mr. and Mrs. Manning will reside at Lorraine upon their return from a short wedding trip. Among those from Westfield who were present were Mrs. Fannie Manning, the Misses Manning, O. L. Manning, Mr. and Mrs. H. P. Manning, Miss A. Demming, Mr. and Mrs. Wallace Kaylor and Mr. and Mrs. Wallace Kaylor, Jr. and Dorale Sorter. The newly married couple were the recipients of many handsome gifts.

Ferryboat Elizabeth Destroyed.

Just as the Jersey Central ferryboat "Elizabeth" pulled into her slip at Jersey City on Tuesday morning at 8 o'clock fire was discovered amidships and the passengers were quickly hustled off and the boat towed out in the stream, headed for the mud flats off the Jersey shore. Several fire boats were soon on the scene and pumping water into her hold, but the flames had gained such headway that the boat soon burned to the waters edge. Many Westfield commuters who took early trains saw the sight as the boat drifted down the stream all ablaze. The cause of the fire is unknown.

New Brakes for Trolleys.

The trolley company has taken off the large closed cars and has placed them on the Netherwood line until they can be refitted with the Sterling hand brake. The brake now in use has proven unsafe for the hills on the Plainfield-Elizabeth line and has been the cause of the many bad accidents that have occurred lately on this line. In the meantime old and smaller cars will be run through Westfield.

FLAG WALKS FOR WESTFIELD.

Township Committee Invited to be Present at the New School Opening—Reckless Speed of Trolleys to be Stopped.

The Township Committee met in the town Rooms Friday evening. President of the Board of Education Harry E. Knight and District Clerk J. J. Coger, were present to inspect maps of the new sidewalk grade on Orchard street. They informed the committee that they intended to lay a temporary walk on the school property along Orchard and Walnut streets, and later to put down flagging.

President Knight extended an invitation to the Township Committee to be present at the opening exercises, being held to-day, of the new Washington school.

Mrs. Fealy was given a permit to move the building now on L. M. Whitaker's lot on Broad street, to her own property on Spring street, providing she had the building off the streets within five days.

The clerk was instructed to notify the United Electric Company to put the lights in the fire department building on the free list to go on the 15 free light's the township was entitled to.

Bucket and Engine Company asked for permission to take the new hose wagon out of town on Oct. 31, with the understanding the same would be back by 9 p. m. of that date. Permission was granted.

Complaint was made that every evening a freight train blocked the Broad street crossing for ten or fifteen minutes and that the engineer refused to "break" the train so that travel along that thoroughfare could go on without unnecessary delay. The clerk was ordered to notify the railroad authorities to abate the nuisance.

The property owners along Orchard and Walnut streets will be requested to lay flag walks in front of their property, and it is the intention of the Committee to order new flag walks put down throughout the town, instead of the board walks, whenever it becomes necessary for new walks to be laid.

During the meeting of the Committee word was brought in that a trolley car had jumped the track at Broad and Elm streets. The matter of the ordinance relating to the speed of cars through Westfield was taken up and the clerk was instructed to call the attention of the trolley company to the high rate of speed the cars attain while within the township limits, and to request them to live up to the ordinance which limits the speed to eight miles an hour.

The following bills were passed for payment: George D. Burrell, \$9; S. D. Winter, \$16.45; R. Woodruff, \$29.18; T. Kennedy, \$10; W. McCarty, \$4.60; M. Kelley, \$7.60; O. P. Wilcox, \$31.25; J. E. Knapp, \$23; Thomas O'Neill, \$38; G. W. Young, \$2; E. O. Decker, \$38; N. J. Sinte Board of Children's Guardians, \$27.13; A. E. Decker, \$3; Plainfield Press, \$150; W. H. Barton, \$20; G. W. Peck, Jr., \$25; Goodyear Rubber Company, \$10; J. M. O. Marsh, \$16; Board of Health certificate, to J. M. O. Marsh, \$2; W. J. Perrine, \$2.60; N. Y. & N. J. Telephone Company, \$10.95.

The meeting then adjourned to meet Friday evening, Nov. 1st at 8 p. m. in the town rooms.

A Curious Eating Custom.
The Dyaks divide in pairs when the hour arrives for taking food, the father and mother at one platter, two sisters at one and still two brothers at another. When the family is not equally divided as to sex, a brother and sister may eat together, but this must always be the youngest and oldest of the family.

Her Pet Name.
"Ah!" he sighed after she had blushingly whispered "Yes" in his bosom. "My own Melitabell! Oh, that name's so comical! Surely your friends use some shorter one, some pet name."

"Well," she murmured, "the girls at boarding school used to call me 'Pickles.'"—Philadelphia Press.

Mr. and Mrs. Rich left this morning for a wedding trip through New England.

Native to the Manor Born.

Westfield, N. J., Oct. 23, 1901.
Editor Union County Standard.

Dear Sir:—Newspapers are supposed to know it all. So perhaps, you can tell me if Franklin Murphy, Republican candidate for Governor was born in this country or in Ireland. This information will be greatly appreciated by myself and others.

Yours very respectfully,
Orvus P. Wilcox.

Hon. Franklin Murphy, is not only a native of the United States, but of this State as well; having been born Jan. 3, 1846, in Jersey City; the direct descendant of a loyal line of Indian fighters in the Colonial days, in the Revolutionary War and in the war of 1812. He is a prominent member of the Sons of the American Revolution, was himself a soldier, having entered the 13th regiment of this State as a private and left it with a lieutenant in his pocket. For a decade or more he was a trustee of Drew Theological Seminary and has always been, as he is now, a staunch member of the Methodist Episcopal church.—Ed.

Ticket Agent Allen Pools His Friends.
Angus A. Allen, ticket agent at the Westfield depot, told his friends on Monday that he was going on a vacation trip to his old home in Canada. He left Monday afternoon, but stopped off at Plainfield where he took into himself a wife to enjoy his trip with him. At eight o'clock Monday night at the residence of Mr. and Mrs. G. B. Doty on East Front street Plainfield was the scene of a pretty home wedding when their daughter Miss Frances Elizabeth was united in marriage to Angus A. Allen. Only near relatives and a few intimate friends witnessed the ceremony, which was performed by the Rev. J. W. Richardson, pastor of the Park Avenue Baptist Church.

A collation was served after the ceremony and Mr. and Mrs. Allen started on an extended trip to California, to be gone about a month.

Not In Order.

In a certain Lamarkshire village a meeting was called to consider the advisability of erecting a bridge over a creek which had been heretofore crossed by means of stepping stones.

The schoolmaster, who presided over the meeting, warmly advocated the erection of a bridge. In an eloquent speech, which a local worthy, who was something of a character and noted for his outspokenness, got up and interrupted.

"I don't, schoolmaster, you're tall, halcyon!"

"I ken I'm out o' order," rejoined the interrupter amid the laughter of the audience. "If I was in order, I'd end jump as fast again!"—London "Answers."

A Home In The South.

Escape the rigors of another Northern Winter and enjoy the delights of the Southland.

Nowhere can be found a more delightful climate than in our own Southland. Its winters are mild and balmy and in the most cases summer does not bring with it such extremes of heat as are to be found elsewhere. In fact, the South is a land where extremes of climate are avoided and consequently is a healthful and altogether desirable location.

The tide of emigration has turned Southward, for it is not alone in climate advantages that this favored land excels, but its resources, the fertility of its soil and its mineral wealth, and abundant water power, commend it to the thoughtful consideration of any one who seeks a home where Northern thrift and enterprise may carve out success.

Fell From Trolley. Crushed His Skull.

William Dowling, a trolley motor man off duty, was riding on a trolley car to Westfield Saturday night and met with what may prove a fatal accident. He was standing upon the front platform of the car and as it struck the curve near the new car sheds at Railway Junction, he was thrown against the gate which gave way and he fell with great force on the east-bound track, his head striking the rail. The car was stopped and Dowling, unconscious, was taken to the office of Dr. Sinclair where an examination showed that he had received a fracture of the skull. Dr. Sinclair sent him to the Alexian Brothers Hospital in Elizabeth, where he has been in a precarious condition ever since.

UNION WATER COMPANY

Incorporated 1870. Organized by the Union Water Company supplies the inhabitants of the villages of Westwood, Westfield, Cranford and Roselle with water for domestic use.

"The Purest and Sweetest that Nature can Yield."

In June 1865 the water supplied by the Company was analyzed by Allen Hazen, the leading hydraulic expert of Boston, and pronounced by him to be "water of great purity," and in a letter to one of the Company's patrons he adds: "You are to be congratulated upon having so good a supply, and yet have no anxiety whatever as to its wholesomeness."

The interest of the Company is identified with the villages in which its plants are located, and it is the policy of the management to use its full share to promote their growth and prosperity.

The Company refers to all its Patrons. A representative of the Company will be pleased to call on parties who do not at present use water from its mains, and explain rates, terms, method of service, etc.

MUSIC AND THE DRAMA

BIG ATTRACTION AT PROCTOR'S.

Business at F. E. Proctor's four theatres in New York is phenomenally big, and the season gives promise of being one of the most prosperous in Manager Proctor's long managerial career.

The Proctor Stock Company continues to revive the best comedies, and the vaudeville numbers presented between the acts are drawn from the cream of the profession. An early revival of Joseph Arthur's celebrated comedy drama, "Blue Jeans," will be an important factor in Manager Proctor's plans for the autumn months.

David Belasco's sumptuous production of John Luther Long's Japanese tragedy, "Mme. Butterfly," is now touring the circuit and will be an early attraction at this new Proctor theatre now nearing completion in Newark. Miss Eliza Meritt, the celebrated French actress, is playing Cho Cho San, and repeating her previous success in the difficult role.

Sandow, the celebrated strongman, is also a prevailing attraction at the Proctor theatres. The Trautvins Sisters, European novelty dancers, will arrive soon for an extended engagement.

THEATRE REPUBLICO

That rare old actor, J. H. Stoddard, has made of the Theatre Republico a shrine to which all literary New York, as well as the best class of the theatre-going public of the metropolis, journey for the purpose of experiencing a re-creation of the ideal in dramatic art. The "Bonnie Brier Bush," dramatized from Ian MacLaren's beautiful Scotch stories, is an idyllic little play and the magnificent old actor who creates the chief part is splendidly supported by Kirkie La Shelle's excellent company.

TONY PASTORI

Next week at Pastor's popular Downtown street house offers a star program as follows: Wilson & Errol Harding & Au Sid; Miss Blanche Ring; Welch Francis & Co.; Mills Olive, Mr. and Mrs. Stuart Darrow; Simons Bros.; Swan & Coleman; Siddons & Nelson; Clayton & DeShon; Signor Maceo, and his talking and performing dog, Chicago; Riccio; the American Vitagraph, and a special attraction, Charles T. Aldrich, the great eccentric comedian.

KEEP YOUR BLOOD CLEAN

Italians Love Tomatoes.

Italians more than any other people value tomatoes, and each one that comes to perfection is as carefully tended as though it were an apple of gold. Not only do the housewives delight in the fresh vegetables themselves, but, generally speaking, those home-tended are better than any purchased at the market, and so each one is jealously saved to make tomato sauce for the spaghetti, without which no Italian Sunday would be Sunday. One soapbox orator once said enough tomatoes to give him quite a little pin money. No one who knows the Italian well will be surprised to learn that many of the boxes are devoted to peppers, for they in truth furnish much of their spice of life, and even the little Italian girls know how to stuff and cook them in a dozen different ways that tempt the palate.—Boston Transcript.

Coloring of Flowers.

A florist says that the law governing the coloring of flowers makes a blue rose impossible. According to this law the three colors red, blue and yellow never all appear in the same species of flowers. Any two may exist, but never the third. Thus we have the red and yellow roses, but no blue red and blue verbena, but no yellow yellow and blue in the various members of the viola family (as pansies, for instance), but no red red and yellow gladioli, but no blue, and so on.

Rubber Plants.

Many plant growers become annoyed because the older leaves at the base of their rubber plants turn yellow and fall off. This is a natural process. It does not indicate any defect in the plant. It is simply the ripening of the old foliage, which cannot be retained indefinitely. Sometimes, however, the loss of foliage results from the warmer root room, but in such cases the plants refuse to grow.

Railroad Telegrams.

When a traveler in the grand duchy of Baden, Germany, wants to send a telegram while he is in the train, he writes the message on a postcard with the request that it be wired, puts on a stamp and drops it into the train letter box. At the next station the box is cleared and the message sent out.

Matrimony and Eyes.

An old man was rallied by his friends, on his marrying a young wife, on the inequality of their ages. He replied, "She will be near me to close my eyes." "Well," replied a friend, "I've had two of them, and they opened my eyes."—Exchange.

The Mistake of the Polar Bear.

Nordenskjold found that the white bears generally went through a long performance of stalking his sailors, clearly on the mistaken conclusion that they were seals. As the men were clothed partly in sealskin, it was a very natural mistake. But the interest of the story lies in the generalization made by the bear. The bear said:

"There are two or three seals, one standing up on its flippers in a very unusual way. I will therefore stalk them unseen as long as I can and when they see me pretend to be doing something else."

So the men, with their guns and jances, who wanted to shoot the bear had the pleasure of seeing him carefully crawling behind rocks and ice hummocks, making long detours this way and that and every now and then cautiously over to see if the seals had gone. On the open snow the bear would saunter off in another direction and then, falling flat, push himself along on his belly, with his great front paws covering his black muzzle, the only thing not matching the snow about him. Just as the bear thought he had got his "seal", the latter fired and shot him, a victim of false analogy.—Spectator.

Norwegian Hotel Fire Escapes.

Nor do Norwegian hotels themselves console you. Built of wood, their chief merit lies in the fire escape, which is to be found in the chief room upon every landing. At Visnes I spent a happy night answering the questions of nervous travelers who came from hour to hour to see if the fire escape in my room was working properly. Angry assurances were powerless to convince timid if ancient ladies. "Did I really think the rope would work? Was there any danger? Had I tried the contrivance myself? Excellent souls! As if the principle of a rope were not known!"

"At Visnes I spent a happy night answering the questions of nervous travelers who came from hour to hour to see if the fire escape in my room was working properly. Angry assurances were powerless to convince timid if ancient ladies. "Did I really think the rope would work? Was there any danger? Had I tried the contrivance myself? Excellent souls! As if the principle of a rope were not known!"

Change to Change a Quarter.

"How much does it take to change a quarter?" asked the bartender. "Twenty-five cents, eh? Not on your life. It takes seventy cents to do the trick. How many ways do you suppose a quarter dollar can be changed? Just exactly eleven. A fellow of limited means may like the jingle of coin in his clothes. In that event you can give him twenty-five pennies or twenty pennies and one nickel. He may like to have a little sprinkling of silver in his clothes, and you can accommodate him with fifteen pennies and a dime or ten pennies, a dime and a nickel.

"If he prefers to have change handy for a beer and a car fare, why, fifteen pennies and two nickels will fix him up, and if he wants a cigar in addition, besides having a little stock of cash in his jeans, give him ten pennies and three nickels. That makes six ways. Now, then, a fellow with a quarter can trade it off for five pennies and two dimes, five pennies and four nickels, two dimes and one nickel, one dime and three nickels or five nickels. Just as he prefers. And to accommodate him in any way that he might select you have to possess twenty-five pennies, two dimes and five nickels—seventy cents in all."—Philadelphia Record.

Round Foolishness.

One of the commonest forms of round foolishness is continued by many high authorities. This is the purchase of certain household provisions in large quantities. Few writers on domestic topics fail to lay stress upon the economy of buying groceries in bulk. That sugar and flour, potatoes and apples should be bought by the half or whole barrel, reveals by the case, better by the tin and other things in like proportion, the sense of the early precepts in the "Young Housekeeper's Complete Guide to Domestic Economy."

The ignorant come (things buy the provisions of it and the experience afterwards. The flour grows musty, the sugar turns sour, the potatoes rot, and the apples decay. In the meantime, the housewife has expended a good deal of money, and she has a lot of food that is no longer fit to eat. This is a very common mistake, and it is one that can be avoided by buying in small quantities. It is better to buy a little more often than to buy a lot and let it go bad.

12 Minutes for Lunch.

That is the average time spent in a large city restaurant by three thousand lunchers. It takes three hours to digest a fresh egg soft boiled; three hours to digest a boiled apple dumpling; three hours to digest fresh roast beef. In fact, three hours is about the time required to digest the average twelve minute lunch. The object of the busy lunch is to let the busy man get back to his office work. But when the brain is active, the stomach is inactive for lack of necessary blood. The natural consequence is indigestion, and indigestion opens the door to many diseases.

Indigestion is cured by the use of Dr. Pierce's Golden Medical Discovery, which cures diseases of the stomach and other organs of digestion and nutrition, and enables the perfect digestion and assimilation of food.

It is with heartfelt gratitude that I send this testimonial which I wish you to publish with my name and address," writes Mr. Willis Seaman, of Washingtonville, Orange Co., N. Y. "I had stomach trouble from childhood and suffered with it more or less as I grew up. At the age of 20 I was broken down with dyspepsia. My suffering was terrible. Could not eat without distress. Could only eat a few certain things and was not able to work half the time. Every thing I tried only gave me temporary relief. My wife finally persuaded me to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' I took six bottles of the Golden Medical Discovery and two vials of Dr. Pierce's Pleasant Pellets. I then felt so well that I stopped taking medicine. Several months have passed and I can do the hardest kind of work, can eat anything that is set before me and enjoy it. I am 27 years old and this is the first time I have ever been well."
