Israel G. Husted.

Israel G. Husted of 234 Dudley avenue died Tuesday morning November 6th of Cirrhosis of Liver. He was the oldest son of the late Benjamin W. and Rachel P. Husted, of Greenwich, Conn., where he was born. He came from the old Connecticut stock of Revolutionary fame. His grandfather was an officer in the Revolutionary war and his great grandfather was hung by the British on account of his assistance and support to the American army under Gen'l Putnam at the time of his famous ride down the stone steps to escape the Red Coats as the British were then called.

After leaving Col. Husted hanging, the British departed, but before life was extinct he was cut down and revived by his wife and lived for a number of years after. His father Benjamin W. Husted was an officer in the State Militia.

Mr. Husted has been ill for the past few months, and in the last three weeks was a great sufferer. His funeral services were held last evening from his late residence and burial Friday morning in Brooklyn. Rev. Wm. Oscar Jarvis, Rector of St. Paul's officiated, assisted by the Rev. N. W. Cadwell, of the Presbyterian church.

Mr. Husted leaves a widow and only son to mourn his loss.

Five Dollars and seventy cents saves Kelly.

From Jail.

On Saturday night John Kelly started on a spree that lasted until Sunday morning. At the depot, Sunday morning, he became rather boisterous and officer O'Neill was sent for. The officer tried to convince Kelly that it would be quite the proper thing for him to go home and keep off the streets. Kelly couldn't see it in that light, so officer O'Neill to march him to the town lock up.

Before Judge Conkey he was fined \$3.00 and costs, or a total of \$7.70, in default of which he would have to visit the county jail for 30 days. Kelly managed to scrape together the fine and costs and was liberated.

ELECTION IN WESTFIELD.

COUNTY GOES REPUBLICAN—ELIZABETH GOES DEMOCRATIC.

County Clerk Murphy's Plurality of Over 6000—State About 11,000—County Witnessed Quick Election—Westfield Vote Small.

At Tuesday's election Union county went Republican—Murphy's plurality in the county being 6077, and in the State over 16,000. Union county has elected the whole Republican ticket, but the majorities are not as great as in former years. The City of Elizabeth has gone Democratic and P. J. Ryan has been elected Mayor, by a plurality over Squire, of 954.

The next Legislature will be Republican in both branches, the Republicans holding their own in the Senate, and losing but slightly, if any, in the house.

In 1898 Westfield gave Voorhees a majority of 248. On Tuesday Westfield gave Murphy a majority of 271.

The vote in Westfield was light and was counted as follows:

For Governor, 1st Dist. 2d Dist.

Franklin Murphy, R. 2577 272

James M. Seymour, D. 104 154

Too Restless.
"Look here," said the Suffolk farmer to a friend, "I'm going to kill my pig, but I owe so much pork to my neighbors that I shall have none left for myself if I pay it all back. What would you do?"
"Quite easy to trick 'em," said the friend. "Kill your pig and leave it hanging outside until late at night, so every one can see it. Then take it in and say some one stole it. Stick to the tale, and you'll be all right."
The farmer followed instructions, and the kind friend watched his chance and stole the pig. The poor farmer came around next morning to tell what had happened.
"Somebody's stolen my pig!" he cried.
"Good!" said the friend. "Stick to it, and the neighbors will believe you, sure enough."
"But it was stolen, I tell you!"
"Excellent!" quoth the friend. "Just you stick to the tale."
"You confounded ass!" yelled the farmer. "Don't you understand? It was really stolen!"
"Superb!" laughed the delighted friend. "You ought to have been an actor, so you ought!"
That Suffolk farmer slammed the door and went away fuming. —London Answers.

Fire Among the Redwoods.
Perhaps the most startling phenomenon of the fire was the quick death of childlike sequoias only a century or two ago, says John Muir in The Atlantic. In the midst of the other comparatively slow and steady fire work one of these tall, beautiful saplings, leafy and branchy, would be seen blazing up suddenly all in one heaving, booming, passionate flame reaching from the ground to the top of the tree and fifty to a hundred feet or more above it, with a smoke column bending forward and streaming away on the upper free flowing wind.

To burn these green trees a strong fire of dry wood beneath them is required to send up a current of air hot enough to distill inflammable gases from the leaves and sprays; then, instead of the lower limbs gradually catching fire and lighting the next and next in succession, the whole tree seems to explode almost simultaneously, and with awful roaring and throbbing a round tapering flame shoots up 200 or 300 feet, and in a second or two is quenched, leaving the green spire a black dead mist bristled and roughened with down curling boughs.

To Cure Round Shoulders.
In the case of round shoulders the muscles of the back are likely to stiffen from disuse. A special exercise to get them into a limber condition seems to be necessary. Stretch out and down with the arms until they nearly touch the floor, bending back in like manner. To successfully accomplish the latter sit on a stool before an upright piano or heavy desk, plant your knees firmly against the furniture until you have a good support, then slowly bend backward with your hand pointed over your head. At first you think you will surely crack in half, so stiff are the muscles, but astonishingly soon comes the pliability and as it is impossible to fall your progress is easy and rapid. This exercise if persisted in will straighten out a curved spine, but it must be done gently and with patience, because the tendons in the back are delicate and must not be coerced.

The Lustrous Pearl.
Pearls, as most readers know, are small bodies found either in the mother of pearl shells or those with a nacreous lining. They are formed either by a disease, by the presence of a parasite or by an effort on the part of the mollusk to rid itself of some foreign substance, which has found its way into the shell.
Pearls are composed of many layers of carbonate of lime with organic matter between and are not always pearly throughout and invariably have some small central core or nucleus. Round pearls of fine luster and color are very valuable, and their value increases rapidly with their size.

Daring Wasps.
"Wasps were the first paper makers," said an entomologist. "It is very interesting to study the ways of these fierce little insects. For the sake of a grab at the honey store a single individual will sometimes face a whole hive of bees, being in fact combat a match for any of three inhabitants of the apiary. Most of us have had experience of the fearlessness with which they will attack human beings."

Fire Fighting in England.
In the smaller places in England horses have to be borrowed for the fire engines. Often thirty to fifty minutes are wasted in getting horses, which, when an alarm of fire was given, were at work in their daily duty. A considerable amount of time is also lost in finding proper harness for them. The harnessing of steam engines in country districts is a very difficult problem.

How the Loner Looks at the Fire.
When a young Savoyard goes a-wooing, he pays considerably more attention to the admired one's fire than to her face. If she leaves the billets of wood undisturbed on the hearth, it is a sign that he is welcome, but should she place one of the blazing fagots in an upright position against the others it is a hint for him to take his departure.

Considerate.
Bangs—Jubkins is the homeliest man I ever saw.
Slanga—Why don't you say it to his face?
Bangs—I don't want to.
Slanga—You're afraid to, ain't you?
Bangs—Oh, no. But his face has enough to bear already.—Detroit Free Press.

"None but the Thrifty"

deserve the Fair," the old proverb should read. After all, Life Insurance is a good test of a man's love and foresight for his family. Thrift wears better than mere bravery.

BOARD OF EDUCATION MEET.

Special School Meeting Called to Vote on Henry Park Site—Women Can Vote.

The Board of Education held their first meeting in the new Washington school building on Wednesday evening. The clerk read a letter and statement from architect Wilson Potter, in which it was stated that the work of the contractors of the Washington school building had been completed according to contract and that final payment was due. Messrs. Carpenter and Williams, Mr. Cogger told the Board that there were still several little items not yet completed and was instructed to see that everything was completed according to contract before final payment was made. Bills amounting too over \$3000.00 were ordered paid and the custodian of Public school monies was instructed to borrow \$3300. to pay teachers salaries and school expenses.

A Sceneryville firm submitted a proposition to drive a well at the Mountain-side school house and District Clerk Cogger was authorized to close an agreement with them to have the well driven at once. Mr. Cogger was also instructed to purchase new desks for the Mountain-side school and additional desks for the Westfield schools.

On motion of Sifter Storrs Clark, principal J. J. Savitz was authorized to secure a teacher for music and drawing at a salary not exceeding \$300.00 per month.

A communication was received from the Westfield High School Alumni Association asking for the use of the hall in the new Washington building for their lecture courses and entertainments. After considerable discussion it was agreed to turn the matter over to the buildings and grounds committee with power.

The matter of securing the Henry Park property for school purposes was discussed at some length and it was decided to call a special district school meeting for Tuesday evening November 20, in the Washington school hall for the purpose of obtaining authority to purchase the property at a sum not exceeding \$3000, the money to be raised by direct taxation or by the issue of bonds as the meeting may direct. At this meeting women are allowed the privilege of voting. The entire Board favored the idea of purchasing the park property, which would make a valuable addition to the present Washington school site.

A resolution was passed thanking J. A. Dohman for the handsome picture of George Washington, presented by him to the school and to R. Brunner for the clock which he presented for use in the new school building. The meeting then adjourned.

The Christmas Designer.

In addition to a most generous and attractive display in black and white and colors of fashions and millinery, the December Designer pays full homage to the Christmas season in its literature and illustrations. It contains two clever short stories, "Where the Christmas Tree Grows Wild," and "A Traveling Christmas Tree," a Christmas comedy, "Hands Up!," "Charities for Children," and "Christmas Carols and their Composers." Mr. G. Richardson tells those with slender purses how to make "Sixty Presents for Five Dollars," and "Inexpensive gifts for the children to make" are described and illustrated.

"Homemade trimmings for the Christmas tree" and "A Christmas party" contain suggestions which will be eagerly seized upon, and the educationist in search of suitable recitations for Christmas entertainments will find just what is desirable in this number. "Book Notes," "Points on Dressmaking," "Health and Beauty" hints, "Tattling" and "Crocheting" are each given a customary space and attention, and "Etiquette," "Household Advice," "Nursery Lore" and "Cookery" are by no means neglected. Finally, The Designer offers a Christmas contest open to everyone, with cash prizes for the successful ones. Full particulars concerning this scheme are given in the December number.

A Long Sleep.

Dr. Seon, an English physician, reported the case of a young girl of seventeen taken with grippe early in cold "flu" who slept for seven months in the hospital to which she was admitted. When she was aroused from sleep, she responded drowsily to questions put and fell asleep again. At the end of seven months she died of pneumonia, having slept herself out of life. Sometimes she was fed in her sleep and at other times while they kept her awake.

FORCED STOCK REDUCTION Sale of Dress Goods and Silks.

A year ago we started a sensational sale of Dress Goods and Silks. It was to reduce our stock and make room for holiday goods. This sale of Dress Goods and Silks is important, as it is but a few weeks time to the holidays and we must have room for our holiday stock, therefore sacrificing a portion of the Dress Goods and Silk Department to make room for these goods. The sale consists of the season's newest and prettiest weaves of Black and Colored Silks and Dress Goods.

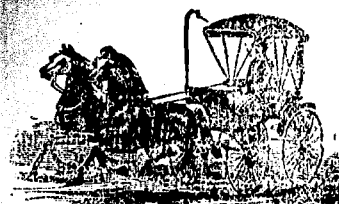

Black Silks, extra fine and heavy quality, all pure silk good staple shade including black or white, a real 60c value, at 45c.

Black Plain De Sile, an exceptional fine quality, all pure silk, nice soft finish perfect jet black, well worth and never sold less than \$1.00, sale price 65c.

TOWN COMMITTEE TO FORCE LAYING OF FLAG WALKS.

Snow and Ice Ordinances to be Enforced—Chief Miller Wants Fire Horses—Trolley Middle—Receives Attention—Cars Must Stop at Curbs.

The township committee held an important meeting on Friday evening when town matters of considerable interest were discussed and acted upon. An ordinance to change the grade of sidewalk on the south side of Walnut street was passed on first reading and an ordinance requiring the laying of a four foot wide flag walk on the north side of Orchard street was also passed on first reading. The ordinance changing the side walk grade on Orchard street was passed on second and third reading.

Chief Matthias Miller came before the meeting in behalf of the Fire Department and related the troubles between the department and Liveryman Barton who refuses to allow his horses to be used to draw the department's apparatus. He said as the case now stands there is no way to get the apparatus to fires without dragging them by hand and asked the committee to take some measures whereby the department would be supplied with horses for each apparatus.

Committeeman Welles moved that chairman J. A. Dennis be appointed a committee of one to confer with Chief Miller and arrange if possible to have horses stabled in the department buildings. Mr. Dennis moved that the township allow the department \$100.00 to make accommodations for the horses in rear of the department buildings.

Several complaints had been made to the members of the committee that the trolley company were not living up to their franchise and that instead of running their cars on fifteen minute headway they were at present running to suit themselves. Some days every 17 minutes, other days 10 minute headway. The clerk was instructed to notify the company to live up to their franchise or they would be compelled to pay the penalty.

On account of the many accidents within the township Mr. Welles moved that the clerk be instructed to notify the company to have their cars come to a full stop on Elm street hill at Walnut street going east and that cars coming down Summit avenue stop one hundred feet from the turn to South avenue. This will greatly lessen the danger of accidents on these hills.

An ordinance was passed requiring the removal by property owners of all snow and ice within 24 hours after a storm and the failure to do so on the part of property owners would result in their being brought before a justice of the peace and fined \$5.00 for each and every offence. This ordinance will be strictly enforced and the police will be asked to co operate with the committee in the matter.

Clerk C. D. Reese read a letter from Chairman J. A. Dennis relative to sidewalk in which was stated that there is a law which allows the Township Committee to lay flag walks throughout the town and assess the cost on the property giving the owner of the property the option of paying the assessment in ten annual payments, or paying the amount in one payment. This plan would allow property owners to have modern walks throughout the township and the method of paying for them would be very easy. The plan suggested in Mr. Dennis' letter seemed to meet with immediate approval of the committee.

The following bills were ordered paid: Insurance, \$3.00; Standard Publishing Concern, \$28.50; Leader, \$28.00; Felix Sterphon, \$48.00; E. Edgar, \$17.50; Thos. O'Neill, \$30.20; O. P. Wilcox, \$20.00; J. P. Knapp, \$30.80; G. W. Young, \$5.60; Jas. Harrison, \$34.00; W. B. Toucey, \$3.50; R. Woodruff, \$34.50; E. W. Chamberlain, \$75.00; S. D. Winter, \$25.00; A. J. Collins, \$23.00; S. D. Winter, \$10.50; Thos. Kennedy, \$11.25; C. Waldron, \$9.18; D. Beck, \$9.00; E. Edgar, \$8.00; Felix Sterphon, \$27.00; Hetheld and Weldon, \$118.74 and Geo. Burrell, \$0.75.

A certificate of indebtedness was ordered issued for \$1000.00. The meeting then adjourned to meet Nov. 15th.

Following is Chairman Dennis' letter to the committee.

Westfield, Oct. 31, 1901.

To the Township Committee,

Westfield, N. J.

Gentlemen: Experience has taught us during the past two years that it is needless and expensive to further attempt to keep in repair the wooden sidewalks of this town and that the law of 1890 provides an easy manner for the citizens to have a substantial and a permanent sidewalk. I would suggest that a flag walk be laid on the north side of the township to redeem them from the condition in which they are now.

As wooden walks have to be relaid about every five years, they are as expensive to the property owner as flag walks, or their equivalent, and as the present law allows us to lay the walks and assess the cost on the property, and gives the owner the option of paying the assessment in ten annual payments, or paying the amount in one payment, it is my opinion that any assessment levied on any lot or any other assessments thereon may be paid in full, and to provide us with funds to meet the cost of these improvements, the law says, "Improvement certificates may be issued to pay the whole cost of constructing, or relaying, or any side walk, and if the certificates shall not be paid at maturity, bonds may be issued in the name of the township to redeem them." All improvement certificates shall bear interest at a rate to be fixed by the committee

Second Floor Attractions.

Forty Splendid Bargains.

Our ability to offer thoroughly good, artistic Pianos at very Low Prices was never better in evidence than at the present moment. The number of bargains we can offer at any time is, of course, limited by the number that have been at rent and returned to us. But fortunately for shrewd purchasers we have an enormous renting business, and we are constantly having Pianos that have been rented for only a few months (and that were new, of course, when sent out,) come back to us to sell at very great

reductions from regular prices. Just now the collection of Pianos in our Second Floor Parlors is better and larger than it has been for some time. Nearly every make that we handle is represented, as well as many fine instruments outside of our regular lines.

Every one of these instruments is backed by our guarantee to the extent that we will exchange if the Piano is not satisfactory at any time within months in use. Each is known to be reliable and worthy, and is sold with the understanding, as we have said, that if you don't like it you can come back and make a new selection. Every instrument in the whole number has been carefully tested before being offered for sale, for with the guarantees we offer a customer we would have no interest in selling any but reliable goods.

At the moment of writing there are exactly **Forty-one** fine instruments—all Uprights—in Parlors A., B. and C. Every style of case, every color of wood, every size (large, medium and small, is represented. But do not take our description, for that will give no adequate idea of the extent and variety of these bargains; you must come and see this fine collection of virtually **New Low Priced Pianos** for yourself. You can scarcely fail to find just the Piano you want with the tone you like, the color of wood, the size, and at the **price** that will suit you. Among them are these:

A Hallet & Davis Upright in dark mahogany. This Piano has been in use some little time, but is in very good condition. \$140

A Mendelssohn Upright in oak; been rented two months, but you would think it new. \$165

A Standard Upright in dark mahogany; been used for concerts only. \$215

A Lester Upright in finely figured birch walnut; been rented two months; worth \$400 more. \$295

A Gilbert Upright in rosewood been in a musician's studio and has a fine "singing" tone; a decided bargain. \$150

An Adams Upright in dark mahogany; been in use but one month; a great bargain. \$175

A Sterling Upright in exquisitely figured quartered oak; a large size Piano. \$285

A small size **Chickering Upright** in a delightful little Piano; been in use two months. \$390

Please do not get the impression that because these Pianos are not absolutely new they are undesirable on that account. Excepting in one or two instances all of the Pianos offered from our second floor would readily be pronounced by experts to be absolutely new. Each looks and is as good as new.

If you wish a fine instrument at an exceptionally low price you must see this collection. Do not let the question of payment prevent your coming. You can have almost any Piano you wish on a first payment of **Ten Dollars**, and a promise to pay **Six, Eight or Ten Dollars** monthly until the whole amount has been paid off.

The sooner you decide to visit us the better is your chance of finding a Piano entirely to your liking.

PIANOS.

not to exceed six per centum per annum, shall be a note payable within three years from their respective dates. The law does not require the consent of any property owner or any election to be held for the extension of these bonds. The law is as follows: "Township bonds may be issued to pay the cost of constructing, or relaying, any sidewalk. When bonds are to be issued, the township committee shall by resolution adopted by a majority of the whole committee provided for the issuing of the same—provided however that bonds shall not be issued for any amount other than to pay the cost of constructing, or relaying, sidewalks—except under the following conditions and restrictions, which restrictions apply to all bonds issued except those issued for the payment of sidewalks. This law gives us power to have substantial and uniform walks throughout the town and in a manner that will not inflict hardship on any owner of property. If all the owners of property on any block or street that intend to lay or relay sidewalks in the future will allow this committee to lay them under the foregoing law, we can place a certificate that will enable us to secure the minimum cost for same, also to secure a uniform walk throughout the township at the earliest behind grade of the streets, which will make the town more desirable as a residential place and vastly add to the value of property. Yours respectfully,
JOHN A. DENNIS,
Chairman.

As long as we have a Monday and a Tuesday in our calendar why not have a "Tree day?" thereby giving our school children an extra half holiday as an inducement for them to exert their energy in clearing, digging and planting trees to beautify our fair town. John A. Dennis has written a letter to the Township Committee on the sidewalk subject. The communication is timely and very much to the purpose. It is in the line of proper things for Westfield and it is a proposition made easily possible upon the Community of Interest basis. The letter is published elsewhere in this

issue of the Standard. It should receive the careful attention of every one interested in the subject of good sidewalks in particular and Westfield's welfare in general.

Will Westfield's township authorities, especially the Board of Health, inquire why it is animate and inanimate nature cannot survive in the neighborhood of the American Copper Extraction Co?

We are very sure that the officials of Westfield and Cranford owe a duty to the people in this relation, not only they not a moment to soon.

The people are slowly but surely being poisoned!

This is no idle saying!

There should be immediate and thorough going official action in this matter.

John Giff—after consulting the globe: "Look here, Valse—do you know that if you could drop a plumb line directly south from Cleveland, Ohio, that it would fall in the Pacific Ocean just west of South America?"

For some time the people of good old Westfield have had under advisement the matter of making the Henry plot on Elm street public property. It is proposed to bring the subject to a school vote at a public meeting Thursday evening, November 20, specifically called for the purpose. At this meeting all legal voters may express their views upon the project, and after that they can vote for or against it. And a higher privilege could not be enjoyed than this one of direct legislation. It should be recalled that it will be legal for women to vote on this proposition and we trust that they will be out in full force to exercise their right.

From every viewpoint it is wise to add this plot to the school property; it is available at a very low price; the individual taxpayer would scarcely realize that it was in his bill. For it is by just such public spirited movements and public improvements that Westfield has earned a reputation that bids for a progressive population; the increased and increasing number of taxpayers thankfully coming in to share such common well-out-lays; well knowing that they proclaim a high community standard which realizes the difference between an acre light and a calow dreg a dirt road and a Bedford highway.

We regret the results of Tuesday's election in the state of New Jersey, because we believe that the ascendancy of the Republican party fosters and increases the already fearful momentum of affairs political in the direction of an aristocracy of wealth with its collateral menace to open competition.

However, for the present, at least, the majority do not see it that way, and there is nothing left for us but to accept gracefully the popular will, American fashion, while confidently expecting, as we do, the masses yet to realize what it means that every form of monopoly and inflation is entrenched behind the Republican breastworks.

That the voters can change their mind has been shown over and over again most recently in the overthrow of that barrel of evil (known as Tammany Hall) by the election of the very man they before defeated and by mandating the very man they but four years ago preferred.

The Democrats revolted against Crokerism.

The Republicans will yet revolt against the absorption of business opportunities.

Meanwhile the Standard will continue to declare in favor of the Initiative and Referendum, the public ownership of public utilities, notably those Agents of Commerce known as Communication, Transportation and Currency; and for everything that moun a country for all the people instead of a country for a few of the people.

Uncle Bill Pensley says that his cousin Amos Vorty has a regretful

George H. Embree met with a very painful accident on Saturday morning while riding his bicycle down Elm street. He was going down the hill at a rapid clip and when in front of the trolley car he collided with a trolley car motorman and was thrown with considerable force to the hard sidewalk. A rib was broken and he received severe bruises and cuts on his legs, arms and face. Mr. Embree was taken home in a carriage. His injuries are not serious but very painful.

AT THE ELECTION SMOKE

A STYLISH AND REPRESENTATIVE
WESTFIELD AUDIENCELadies and Gentlemen Enjoy: Vaudeville
Committee Furnish Excellent Program
—Voted a Success—More to Follow.

N ELECTION night the Westfield club gave a "Vaudeville and Smoker" this being the first entertainment of this kind at which ladies were made welcome. For some time past it had been a question in the minds of the entertainment committee as to whether or not such an entertainment would take with the ladies. It was decided to make the experiment and the gentleman in charge of the affair planned to New York and explained their plan to Mr. H. H. Thompson, 207 West 14th street, who conducted an entertainment bureau. Thompson was given to understand that none but the best performers would be tolerated, and he presented what proved a program of excellence.

The advertising announcements placed about town "Go early or you will have to go away back and sit down" had the desired effect. Long before the hour set for the show the club members and their lady friends began to fill the cozy club hall and by eight o'clock nearly every seat was occupied, the audience including nearly one hundred fashionably dressed ladies.

At this encouraging sight the entertainment committee began to breathe easier and hoped that the talent secured would be of the "right sort."

The entertainment commenced with an overture played by George W. Decker, who showed himself to be a master of the art and fairly made the new "Discher" talk. Elmer P. Ransom followed with his flunions and very cleverly worked his tricks many of them being down among the audience. Irene Stewart, archly sonnette, next captivated the audience with songs and dances. Her voice would not make a fortune in Opera but she did well in her dainty pink dress and black stockings.

It would not seem homelike if a smoker was given in Westfield without Elmer and Bond, who have appeared here so often and always "make good" with the audience. They, of course, appeared Tuesday night and received an ovation. Their work was clean and their mused numbers well rendered. Charles H. Simons in monologues and songs held his own and did some clever character work.

Miss Sallie Randal, comedienne, blond, pretty and graceful, sang and danced her way into the good graces of her listeners. Miss Randal received her share of applause that seemed to be going to the bounds.

The next number proved to be the hit of the evening, and if ever another such entertainment is given in Westfield, Amann and Hartley should be on the program. As sketch artists they are leaders and received a double encore for their work. As a "Prof. of Music," Mr. Amann was clever and genuinely funny. Miss Frances Hartley, his partner, was elegantly gowned, had a pretty face and figure and used both to advantage. As a "Prima Donna," Miss Hartley added much to the comical situations in "The Professor's Studio."

The last number on the program was given by the Howard Sisters, dancers, songs, splits, high kicking, contortion work and other features to numerous to mention.

After the show the floor was cleared and dancing was indulged in until midnight. Election returns were announced between the acts and as everything seemed to point to a Republican victory and the large majority of the audience were Republicans, the applause at the various announcements was deafening.

The entertainment committee who are directly responsible for the pleasant evening, consisted of H. W. Gladwin, chairman, J. B. Wilson, E. P. Condit and Fred G. Smith.

An interesting calculation has been made by a French geologist to the effect that, taking into consideration the wear and tear on the solid land by ocean washing, rivers, wind and weather and leaving out of the calculation volcanic action, the world will in 4,500,000 years be completely under water and no dry land exist at all.

ELECTION HOLIDAY AT GOLF CLUB

Handicap Foursome—Women's Club Golf
Competition—Final Play For President's Cup—Afternoon Tea

The holiday due to Election day was an additive one at the Westfield Golf club; the programme arranged by the newly appointed handicap committee, bringing the members out to compete for various cups and golfing goods, while the tea furthered the enjoyment of social life at this now thoroughly established and popular club.

The morning event was a handicap foursome, 18 holes, medal play, for first and second cups. Eighteen teams teed up the first foursome being sent away at 0.15, in the rain which proved to be only a shower, leaving the going fairly good, though the scoring was on the high side.

Messrs W. J. Floyd and E. H. Pratt playing from the limit mark won with a net score of 70, as follows: 11-15-70. Messrs B. J. and W. M. Tainley secured second place with a score of 99-21-73, while the other net scores followed closely. The afternoon opened with the women's putting contest, or clock golf, at 3.30 for first and second prizes, respectively an aluminum putter and six golf balls. Mrs. J. Allan Worth won out with a score of 23, while Miss Noe, Mrs. R. A. Fairbairn and Mrs. E. W. Gladwin tied for second at 24. On the play of Miss Noe won with a score of 22.

The president's cup competition for the loving cup, presented by Mr. C. D. Orth, for three months' handicap play, point system, ended with election afternoon's play, though the official end is tomorrow, Nov. 9. J. Sherman, Jr., won two points, and has command of the lead, so this is the honor of winning the first president's cup offered at the Westfield Golf club, due to consistent improvement in his play.

Outside of the competitions there was considerable general play, and business overlook some while yet on the links, for such seems to be the enthusiasm of the game.

A feature of the day was the afternoon tea given by the ladies of the club. A most enjoyable gathering of two was thus passed away.

GARMENT MASTERY.

Every day something new is added to assortments unequalled and inimitable. The leading manufacturers of Women's, Misses and Children's outerwear are constantly being drawn upon for their handsomest and best, with the result that many of the season's most fashionable and most exclusive ideas receive their only showing here. Our garments are distinctive too, possessing an indefinable something entirely lacking in those found in less carefully selected lines. Today there is no store in Newark carrying anything like the number of high class novelties, and our assortment of Tailor Made Suits, Street and Evening Gowns, Jackets, Dress, Golf, or Walking Skirts, Raglans, Automobile Coats, Fur Jackets and Single Furs are as nearly complete as possible. For years we've been accorded first place in point of big value giving, and present prices throughout demonstrate that we do not intend to deviate one iota from an established principle which has had much to do with the fame of a great department.

A Long Sleep. Dr. Seon, an English physician, reported the case of a young girl of seven, taken with syncope after a cold "cure" who slept for seven months in the hospital to which she was admitted. When she was aroused from sleep, she responded drowsily to questions put and fell asleep again. At the end of seven months she died of pneumonia, having slept herself out of life. Sometimes she was fed in her sleep and at other times while they kept her awake.

Dog and Wolf. There has been some dispute as to the descent of the dog—whether it is an improved progeny of the wolf or a distinct variety. That it is a different species is proved by the fact that the dog and the wolf will mate and produce offspring. Nevertheless it is probable that the dog is merely descended from the same original stock with the wolf.

LOBSTERS' EGGS.
A fair-sized female lobster carries 20,000 eggs at a time. The eggs, when extruded, are covered with a viscid matter which, drawn out into threads, attaches them to the long hairs that fringe the fanlike tail of the mother. These threads quickly become hard and strong, the eggs waving about in the water and being thus aerated. When they are ready to be hatched, the mother lobster oscillates her tail so as to assist the offspring to escape.

The young at first resemble shrimps, being about one-third of an inch in length. They have bright blue eyes. After a few days they desert the mother and swim out into deep water, where they rise to the surface and lead a vagabond sort of existence for thirty or forty days.

During this time the young ones change their shells four times. On the fourth occasion they shed their swimming organs and fall to the bottom, where they remain for the rest of their lives. During their existence as swimmers most of them are gobbled up by fishes, for which they afford a favorite food.

How Things Grow in Hawaii.
How great are the possibilities of Hawaii as a fruit and vegetable growing country will be understood when it becomes known that four crops of potatoes have been produced in succession on the same piece of land within twelve months. Radishes become edible in ten days after sowing. Strawberry vines bear fruit all the year. The berries are of the finest flavor.

Cabbage grows all the year, and it apparently makes no difference whether it is planted in the spring, summer, autumn or winter. Parsley once sown grows forever apparently. Lima beans continue to grow and bear for over a year, and they have to be gathered every week after starting to bear. Cucumbers bear the entire year, and so do tomatoes, which, with proper attention, bear for years. Raspberries bear for six months.

Pineapples come into bearing when the plants are four months old and bear in abundance for years. Lettuce can be planted at any time, and it develops quickly. The same is true of celery.—Fruit Trade Journal.

Greek Marriage Customs.
The marriage in Constantinople of an Englishman and a Greek woman entails three wedding ceremonies. To be legal it must be performed at the consulate. The couple are legally married there the first day, and on the next a church ceremony is performed in the English church, while the Greek religious ceremony which follows is celebrated at the bride's home. The last is the only legal form of marriage as far as the bride is concerned.

In the Greek ceremony no ring is used, but the best man places a wreath bound with white satin ribbons on the heads of bride and bridegroom. Then, while the priest is pronouncing the words of the service, the couple walk around him in a circle three times, holding candles, the best man at intervals changing the wreaths from one to the other. When all is over, the friends throw small coins or tokens of gold and silver over the wedding pair, and a general scramble ensues among those present to secure the tokens.

Why a Horse Eats Often.
The horse can conveniently eat for twenty hours out of the twenty-four. A horse which is in good health has a good appetite at all times and is able to stand plenty of work and is rarely on the sick list. To be a good feeder, especially on a journey, is a great recommendation in the opinion of every good judge of horseflesh. The reason of a horse being such a constant eater is that its stomach is really small in proportion to the size of its body, and therefore it requires feeding often, not less than four times a day, two of which should be early in the morning and at night, while hay should in the stall be always within its reach.—London Tit-Bits.

Eat Live Fish.
The Japanese practice refined cruelty to delight their palates. They believe that the fish called the dail is most delicious when eaten alive. An expert Japanese carver can dexterously remove five-sixths of the edible matter from its bones without touching a vital part. During this cruel operation the fish is kept alive by wet seaweed which, being placed over its gills, enables it to breathe.

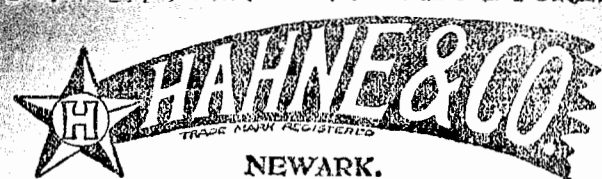

A Simple Disinfectant.
A simple disinfectant to use in a sick-room, or in any room where a close, musty or sewer smell is noticed is to put some ground coffee on a shovel, a bit of camphor gum in the middle of it. Light the gum, which is nonexplosive and easily ignited with a match and allow the coffee to burn with the gum. A refreshing and sanitary perfume is the result.

The Tobacco Habit.
Chewing tobacco is a filthy habit. Smoking makes you so foul that you can smell yourself. Tobacco is very injurious to health. Every user of tobacco tries to quit it and finds it very difficult. Boys see their elders trying to quit, yet boys make themselves sick in acquiring the tobacco habit.—Atchison Globe.

DIPHTHERIA IN WESTFIELD.

Board of Health Taken Active Measures To Prevent the Spread of the Disease.

The regular meeting of the Westfield Board of Health was held in the township rooms on Friday night. Several cases of diphtheria were reported to the Board and prompt attention has been given to prevent the spread of the dreaded plague. Two cases were reported at the home of William Clark on South avenue just on the Fairwood line. Mr. Clark's children are attendants of the Westfield schools and as soon as the case was reported the children were kept at home and their books burned. Another case is that of Harry Goldsblat, son of Samuel Goldsblat of the Westfield hotel. The young man is kept closely confined in an upstairs room away from any guests in the hotel. Still another case is reported on Elm street.

The Board instructed township attorney P. Q. Oliver to take steps to have Robert Woodruff connect his property with the sewer within 90 days. Notice was served on Mr. Woodruff some time ago but no attention has been given the matter. The complaint against A. Berner of Central avenue has received attention and Mr. Berner promised to cover his cesspool and also to connect his property with the sewer. E. Edmar's bill of \$11.50 was passed for payment and the meeting adjourned.

Ball Granted.

The attractive invitations to the Fall reunion of the Congregational church brought together a large number of people who spent a most pleasant evening listening to the program which had been prepared by the ladies. This consisted of greetings from the Pastor, a vocal solo by Miss Marion Rummel of Roselle, a piano duet by Mrs. E. S. Robinson and Mrs. J. A. Worth. The rest of the program consisted of impromptu speeches on the topics of general and church interests. Though the gentlemen were taken by surprise, they arose bravely to the occasion and responded with promptness and care. Among those who spoke were: Robert Johnston, J. D. Clayton, W. G. DeLamater, William H. Gomes, Martin Waller, Lloyd Thompson, Siller S. Clark, Augustus Alpers, and others. The audience commenced the evening by singing "And Sing Syn" and closed with the hymn, "Blest be the tie that binds." After the exercises refreshments were served by the Social committee, consisting of Mrs. W. J. Alpers, Mrs. Wilfred Johnson, Mrs. O. G. Bliss, Mrs. Wm. Shida, Mrs. Randolph Perkins, Mrs. J. E. Cowperthwaite and Miss Sherman.

Orderly Habits.

"It is a curious fact," commented a man recently, "that almost no mother realizes the importance of bringing her son up to orderly habits. She impresses upon her daughters from the time they are old enough to recognize any responsibility the necessity to keep their rooms tidy, put away articles after use and care for their belongings at all times.

The boy, however, is exempt from any similar requirement not only in his own room, but throughout the house. He reads newspapers and throws them on the floor, gets up from a dyan leaving the cushions poked and shapless, without the slightest respect, the only notice taken of the occurrence, indeed, being to ask a sister, if he has one, to pick up the one and straighten the other. The women of the family follow in his footsteps all day long, removing whatever disorder he creates.

Yet there is no business occupation upon which that boy will presently enter in which order is not a fundamental necessity. Girls, on the other hand, do not, as a rule, suffer so seriously from a lack of order, or at least consequences are not so continually disastrous and costly as in the case with boys."—New York Post.

Euro Proof.

When France and Germany were at war, an Englishman was arrested by the French and accused of being a German spy. A letter dated "Berlin" and signed by his mother was found upon him. He was tried by a military court martial and condemned to be shot.

On the way to the place of execution he said that he had left something behind and insisted on going back for it. "You can't go back," was the reply. "You are about to be shot."

"I can't help that," said he. "I have left something, and I must get it." "What have you left?" "My umbrella!"

"That settled it. He was released. No one but an Englishman, said his captors, could be such a thoroughgoing imbecile as that."

MUSIC AND DRAMA

ACADEMY.

The end of "Arizona" magnificent run at the Academy of Music is in sight. Only three weeks more and this most sumptuous production of the best American play of years, must leave the big theatre in Fourteenth street to fulfill an engagement in Philadelphia. From the dog-days down to the present, "Arizona" has crowded the Academy of Music at every performance and this, too, after it had already achieved a record run of twenty weeks in New York last season.

PASTOR'S

Next week Tony Pastor offers a strong bill every turn being of the highest order. It includes: First time here this season—The talented comedy pair, LeRoy & Clayton in George M. Cohan's Comedy Playette, "Hogan of the Hun"; Miss Florence Bindley, Crane Bros., Fluke & McDonough, Miss Emma Kruse, Billy Carter, Carr & Jordan, Russell & Buckley, Nessen, Bentlie & Nessen, Mills & Beecher, Harris & DeLosa, Benline & Hetz, Frank Bowman. The American Vitagraph, life motion pictures of current events. Always the latest and best illustrations of events in Europe and America.

WHAT PRODUCE IS DOING

Manager F. F. Proctor is arranging a strong campaign of vaudeville and comedy for the winter season at his theatres in New York, Albany, Montreal and Newark. There will be an enlargement of the vaudeville scope of his amusement scheme as the season advances, and some of the best European acts, as well as all the American headliners, will appear in conjunction with the Proctor Stock Co. By Thanksgiving day it is expected that his Newark Theatre will be ready to open, and that house straight vaudeville will hold attention while at his four New York houses the Stock Company will continue the revival of well-known comedies with vaudeville interludes between acts.

THEATRE REPUBLIC

J. H. Stoddart will play "The Bonnie Brier Bush" for another week at the Republic Theatre at the end of which time that delightful play will be moved to Harlem for a weeks engagement at the Harlem Opera House. From there it goes to Toronto and the other principal cities of Canada, and the northern and northwestern states.

If there be anything in a name—and theatrical managers disagree with the Bard on that point—a succession of notably large audiences should punctuate the engagement of Grace George in "Under Southern Skies" beginning November 12th at the Republic, New York. The title quoted is redolent of the breath of magnolia blooms, of sounds of warm words of wooing and even of the clash of rival steel. Miss George will have the assistance of a company which includes Ralph Stark, Cuyler Hastings, Barry McIntosh, Grace Henderson, Alice Leigh, Thomas Gray, Eleanor Gist, Minnie Victorson, Will R. Bray, Thomas Burns, Beatrice Bonner, Donald Michener, Kingsley Benedict, Reza Durant, Laura Lemmers, Justine Cutting, Thomas Phillips, Virginia Glyndon, Maud Reinhold and nearly a hundred others. The costumes, properties and scenery are said to be characterized by the accuracy and beauty always notable in the productions of William A. Brady.

MILITARY RIBBON

L. S. Plant & Co. are doing the ribbon business of this State, no question about it. They want you to write for a sample of their 384 inch double face Liberty Sash Ribbon, all colors, you should also ask for a sample of their 4 1/2 inch satin ribbon. Many stores get 50c to 90c yd. for these ribbons. They will send them to you by mail or they will sell them to you over the counter for 25c per yd.

The word "mile" comes from the Latin "mille" a thousand. A thousand paces of a marching soldier made the Roman mile.

A Reef, a Sand Bank and a River.
Lord Coleridge, the famous lord chief justice, once recounted to Sir Mount Stuart E. Grant-Duff an incident of his earlier life. He had to cross examine an eminent professional witness about a proposed harbor. In the course of doing so he said, "But, Mr. —, isn't there a reef of rocks that would be a great inconvenience to you?"

"Oh, yes," replied the witness. "Undoubtedly there is, but we propose to get rid of it in such and such a manner."

"Very good," rejoined Coleridge, "but when you have got rid of it, would there not be a very awkward sand bank to contend with?"

"Certainly," said the witness, "but against it we should provide thus and thus."

"Well," answered Coleridge, "but when you have removed both these obstacles, would you not still have a great deal of trouble from the current of the river when it floods?"

"Clearly," was the answer, "but we should encounter that difficulty successfully by another expedient," which the witness proceeded to explain.

"You have seen the place, have you not?" said Coleridge.

"Oh, yes," replied the other.

"Well, I never did," was the rejoinder. "I have invented a lake to fill the sand bank and the river!"

The Tunnel Was Forgotten.

At Brussels the visitor is often struck by the extreme thinness of the earth covering the Braine le Comte tunnel and wonders why the common sense of the engineers who made the line did not direct them to continue the cutting and thus avoid a subterranean passage.

The mystery is thus explained: When railways were in their infancy, the Belgian government sent a party of engineers over to England to acquire experience in construction of the new iron highways, and on their return they were instructed to lay out the first railway in that enterprising little kingdom. The work was accordingly put in hand, but on its completion one of the engineers exclaimed:

"Good gracious, we have forgotten the tunnel!"

The consternation was general, especially when it was remembered that there was not a single line in England that could boast of a tunnel. What was to be done? Nothing but to construct the long corridor at Braine le Comte, and when it was finished the earth was put on top. The tunnel was the glory of the line.

Massage For the Scalp.

The hair falls out when the strength of its roots is insufficient to sustain its weight any longer, and a new hair will take its place unless the root is diseased. For this reason each person has a certain definite length of hair. When the hair begins to split or fall out, massage of the scalp is excellent.

Since the tips of the fingers firmly upon the scalp, and then vibrate or move the scalp while holding the pressure steadily. This will stimulate the blood vessels underneath and bring about better nourishment of the hair. A brush of unevenly curved bristles is also excellent to use upon the scalp, not the hair.

Irregularity and Indigestion.

A common cause of indigestion is irregularity respecting the time of meals. The human system seems to form habits and to be in a degree dependent upon the performance of its function in accordance with the habits formed. In respect to digestion this is especially observable. If a meal is taken at a regular hour the stomach becomes accustomed to receiving food at that hour and is prepared for it.

If meals are taken irregularly, the stomach is taken by surprise, so to speak, and is never in that state of readiness in which it should be for the prompt and perfect performance of its work.

Action on Cigar.

"Few men professing to be judges of fine cigars know anything at all about smoking them," remarked a cigar dealer. "The ashes on the end of the cigar serve to retain the flavor and should be permitted to remain as long as possible. Then the constant thumping some smokers give their cigars in the attempt to keep them clear of ashes often causes the wrappers to break, and that also lessens the pleasure of a good smoke."

Dogs of Alaska.

The dogs of Alaska are called malamutes. They are a cross between a dog and a wolf and work in harness soon after their birth. They do not bark, but have a peculiar howl. They have long hair and can sleep in the open with the thermometer 60 degrees below zero. Their usual food is fish and seal blubber. They are fed once a day, usually at night.

Look Out for a Headache!
Headache is not a disease, nor is it a disorder. Headache is merely a symptom. A danger signal, warning you that something is wrong. A single dose of **Hydro-Lithia** will correct any disorder capable of producing headache in any form. It cures the disorder at the very root. A timely dose may save you one thousand times its cost. "Hydro-Lithia" capable of warding off more than one dozen different forms of disease. Adopt it in your household. Trial size ten cents. At all druggists.

His First Business Venture.
An American capitalist who has made a fortune running far into the millions likes to tell a story of his first business venture and how he succeeded in the local grocery. At this time he was fond of frequenting a public saloon near his home, where all sorts of bargains were offered.

One day I noticed several boxes of soap of a certain brand which I had often been told to buy at the corner grocery. I thought to myself, "That will go cheap," so I ran to the grocery and received a promise from the man in charge to buy as much of the soap as I could furnish as I could furnish. Of course he never suspected that I could furnish any of it.

I returned to the saloon, and when the soap was put up I bid it in, and it was knocked down to me. My name was demanded, and when I gave it in a shrill voice everybody laughed, for I was then only eleven years of age.

Amused as they were at the sale, the bystanders were amazed when I bid in the whole lot of twenty-two boxes. I had them carried over to the grocery and received the price agreed upon. The grocer wore a weary look when he heard how I had obtained the soap. He said:

"Well, I guess I could have done that myself."

I replied that I guessed he could, too, but he hadn't—YOUTH'S COMPANION.

Cataract Cannot be Cured
with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Cataract is a blood or Constitutional disease, and in order to cure it you must take internal remedies. Hall's Cataract Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Cataract Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonic known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients in what produces such wonderful results in curing Cataract. Send for testimonials free.

A Report From Nature.
Among the useful results of aerial excursions are the satisfactory experiments in the way of echoes and reverberations. John Mackenzie Bacon has many opportunities of testing the carrying of sounds to and from a balloon at a great height, and Mr. Wise, the American aeronaut, relates a case in point.

He was ballooning one day above a dense cloud stream when he heard a cow bell and the sounds of a wood-chopper's ax, whereupon to attract the attention of the laborer, he shouted "Hello!" He was immediately answered by another "Hello!" from the ground.

He then asked the question, "How far is this from Lancaster?" and was answered by being mocked by his own words.

"Being in the clouds," he says, "and not able to see things above or below, I felt somewhat nettled at this cloudish display of wit and in a very audible tone of voice, while the foregoing was still reverberating in my ear, I sang out, 'You're a fool!' which in a very few seconds was answered by an equally distinct and measured tone of voice, 'You're a fool!'"

"Then it suddenly flashed upon my mind that it was the echo of my own voice, which opinion was ratified by the dying reverberations of my words, which had now become as numerous as though a whole regiment had caught the watchword and were passing it in quick succession through the whole line."

Modern Surgery Surpassed.
"While suffering from a bad case of piles, I consulted a physician who advised me to try a box of Dr. Williams' Hazel Salve," says G. F. Carter, Atlanta, Ga. "I procured a box and was entirely cured." Dr. Williams' Hazel Salve is a splendid cure for piles, giving relief instantly, and I heartily recommend it to all sufferers. "Surgery is unnecessary to cure piles," Dr. Williams' Hazel Salve will cure any case. Cuts, burns, bruises and all other wounds are also quickly cured by it. Beware of counterfeits.

Discovery of Coal in Wales.
During the reign of Henry VIII, many attempts were made to discover coal in the valleys, and a Shropshire man named Richard Gardener was the only person who succeeded. The old records read: "He attempted, but failed to find coal about the town (Shrewsbury) in soot-dry places, and in one place especially called Buntley Mine, hitherto by the name of the great mine of sea coal, the which he took to come much commodious both to the rich and poor, that he is not only worthy of commendation and maintenance, but also to be had in remembrance for ever."—Cardiff, West.

ABOUT THE COUNTY

BRANCH MILLS

Mrs. Wm. Darby is visiting at Newark.

Miss Clifflie Ludlow spent Tuesday at Plainfield.

R. A. Fowler led the O. B. meeting Sunday evening.

Harry N. Taylor, of Westfield, has the contract for putting in the furnace in the New Chapel.

The dedication of the new Union chapel will take place Sunday afternoon Nov. 17, at two o'clock, the Rev. Dr. Charles Thompson, of New York City, will deliver the dedication sermon. If stormy, the services will be held next Sunday.

Forty-five persons met at the new chapel on Tuesday Election day, to grade the grounds and arrange for the dedication. Refreshments were served in the school house by the ladies and 85 persons sat down to lunch together. It was a grand sight and a delightful day was spent.

CRANFORD.

The Echo foot ball team defeated Co. O team, of Elizabeth on Saturday, O. B.

The Casino dances this season will be a feature of Cranford's social life this winter.

Undertaker Gray has one of the finest hearse in the county.

The Republican ticket made a clean sweep here on Tuesday.

The local Democratic leaders do not feel discouraged over the result of the recent election. They intend to work together for a strong organization in the town.

The body of a man was found by hunters in the woods near the ball grounds. It is thought he committed suicide, as a bottle labeled "poison" was found near by.

MOUNTAINSIDE.

Rev. Joseph Greaves preached Sunday night.

Miss Stella Bedman will visit friends in Rahway.

John Gratchfield is contemplating a western trip.

Mrs. Schwartz entertained Mrs. Conks and daughter of Newark Wednesday.

Rev. W. O. Jarvis rector of the Episcopal church, will hold a service in the Union chapel Tuesday evening Nov. 12th at 8 o'clock.

Charles H. Marsh has returned from a business trip South.

Mrs. Leonard Collins of N. Y. city visited at the home of her father James Coles Sunday.

WILLOW GROVE.

Miss Bessie Keaton of Plainfield spent a part of last week visiting Miss Emma Dickson.

George Fredericks spent Election day with Harry Darby hunting rabbits.

Miss Adelaide Lambert and her friend Miss Maude Cramer of N. Y. city spent yesterday with friends in the Grove.

The social held in the chapel last week was a great success, and a neat sum was realized.

Miss Cora Miller, of Scotch Plains, spent Friday and Saturday with Miss Florence Darby.

SCOTCH PLAINS.

Only 283 votes were cast here. The registry list shows 817 voters. Everything was quiet.

As usual, the Republicans won out here by a majority of 40. Newcorn was scratched considerably.

Rev. Dr. Nelson, of Cranford preached in the Methodist church on Sunday.

Mr. and Mrs. A. L. Jimeron, of Westfield, spent Sunday with relatives here.

The Panwood Council, R. A., attended the district meeting held in the council rooms of Resolute Council, No. 808, of Elizabeth, on Monday evening.

RAHWAY.

A meeting of the common council will be held Tuesday evening.

The Democratic seem to be elated over their partial victory on Tuesday in Rahway.

The St. Mary's church fair has been very successful and largely attended. The Dr. O. U. A. M. society held Wednesday evening was well attended. An enjoyable evening was spent in dancing and amusement.

How the Boys Fielded.
The following averages apply to all players who took part in the Association games this season who had chances at plays. The record is given with preference to largest number of games the player was in. As a whole the figures show exceptionally strong fielding the record of VanZant being conspicuous. As a fielding pitcher VanZant is remarkable and his average .970 places him the best of all pitchers who have ever played in these parts.

Player	gms.	pts.	ass'ts.	errs.	av'ge.
VanZant	21	11	1	0	.970

In the standards next issue will be printed the pitching record of VanZant as against his opponents.

Celebrated 25th Anniversary.

The members of Westfield Lodge, No. 100 I. O. O. F., celebrated the 25th anniversary of their Lodge on Wednesday evening, in the rooms in Masonic hall. A large number of members turned out and were met by a delegation from Essex County Lodge, of Rahway, and from Plainfield, Elizabeth and Danbury, Ct.

They witnessed the initiation of three new members, after which several addresses were made. A splendid collation was then served. When this was all cleared away cigars were lighted and many short addresses were made, among the most noted being the Vice-Grand of Queen City Lodge of Plainfield and R. E. Mitchell of this place who was present when the Lodge was instituted Nov. 1, 1872.

The members from Rahway had to leave on the 10:15 trolley for their homes while the others remained on hand later. At parting promises were made to bring the ladies to Plainfield on Monday evening next to attend the 10th anniversary of Queen City Lodge.

The Children's Friend.

You'll have a cold this winter. May be you'll have one now. Your children will suffer too. For coughs, croup, bronchitis, grip and other winter complaints One Minute Cough Cure never fails. Act promptly. It is very pleasant to the taste and perfectly harmless. O. B. George, Winchester, Ky., writes: "Our little girl was attacked with croup late one night and was so hoarse she could hardly speak. We gave her a few doses of One Minute Cough Cure. It relieved her immediately and she went to sleep. When she awoke next morning she had no signs of hoarseness or croup."

Who come of a consumptive family when they begin to cough and the lungs are painful. But it is a fact beyond dispute that consumption is not and cannot be inherited. The microbe which breeds disease must absolutely be received by the individual before consumption can be developed.

Men and women who have been afflicted with obstinate coughs, bronchitis, bleeding of the lungs, emaciation and weakness, have been perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It cures the cough, heals the lungs, and builds up the body with solid flesh.

"When I commenced taking your medicine, eighteen months ago, my health was completely broken down," writes Mrs. Cora L. Sunderland, of Chaneyville, Calvert Co., Md. "At times I could not even walk across the room without pains in my chest. The doctor who attended me said I had lung trouble, and that I could never be well again. At last I concluded to try Doctor Pierce's medicine. I bought a bottle of 'Golden Medical Discovery,' took it, and soon commenced to feel a little better, then you directed me to take both the 'Golden Medical Discovery' and the 'Favorite Prescription,' which I did. Altogether I have taken eighteen bottles of 'Golden Medical Discovery,' twelve of the 'Favorite Prescription,' and five vials of 'Pelle's.' I am now almost entirely well, and do all my work without any pain whatever, and can run with more ease than I could formerly walk."
