TOWN WILL FURNISH UNIFORMS.

OTHER TOWNS AND CITIES EQUIP THEIR POLICE FORCE.

Councilman Ledley Opposed to Proposition and Want Police to Buy Their Own Uniforms—Other Towns Buy.

At Monday night's meeting of the Town Council the newly appointed Town Treasurer, Robert W. Harden, and new Town Attorney, F. S. Taggart, were present and took charge of their respective departments of the town government.

Chairman Settlemayer, of the Police Committee, offered an amendment to the ordinance covering police rules. The only change of importance suggested was that the town furnish the police with one uniform each year. To this proposition Councilman Ledley made a strong protest and informed the Council that in other towns officers purchased their own uniforms. Councilman Settlemayer then presented the Council with letters from officials in nearby cities and towns showing that in most cases uniforms were furnished by the town and that the officers were also furnished with bicycles as well as being better paid than are the Westfield police. The towns mentioned were Montclair, Orange, Plainfield and Summit.

The amendment was put to a vote and passed on first reading, Ledley casting the only negative vote. Councilman Richardson offered a resolution making The Union County STANDARD the official paper of the Town of Westfield. Councilman Ledley objected to this very strongly, and he was backed up by Councilman Alpers. Both thought it unnecessary for a change. Others in the Council thought differently, and when the resolution was put to a vote it resulted in a vote of 6 to 2 in favor of the STANDARD, which paper is now the official organ for the legal transaction of town business.

Over \$5,000 in town bills were passed and ordered paid, it being first necessary to have a certificate of indebtedness issued for the full amount.

The Road Committee, Patrick Traynor Chairman, reported unfavorably on accepting the grade on Harrison avenue, submitted by W. M. Harrison. His proposition was declined.

The Council increased the amount of road appropriation \$1,000 and the appropriation for street lights \$800.

The application of William O. Wilcox for membership in the local Fire Department was received and accepted. Mr. Wilcox joins Hose Co. No. 1.

The Police Committee recommended the appointment of James McCarthy as special officer. The appointment was made.

A resolution was passed providing that all bills to the town must be in the hands of the Town Clerk twenty-four hours prior to the meeting night to ensure payment at that meeting. This is done to give the various committees ample time to go over and audit the bills before they are finally presented for payment.

Mayor Perkins agreed to write to the Union Water Co. and the Cranford Gas Co. regarding the very dangerous condition in which these corporations have left South and Westfield avenues.

An amendment to the Excise ordinance was passed on first reading. The amendment changes the hours of closing local hotels from 11.30 to 12 at night and allows them to open at 5.30 instead of 6.30 a. m. The hour for closing on Saturday night remains as at present, 11.30.

The following committee was appointed to look into the settlement of Garwood affairs: Ledley, Traynor and Alpers.

GARWOOD;

The license of Mrs. Fiedler, Garwood, had sixteen signatures; only eight were legal. The Borough officials, strange as it may appear, were in court in the interest of Mrs. Fiedler. In favor of her license were Councilman Herman Becker, and his wife; Assessor Watt, Borough Marshal Sargent, School Trustees Dushanck, Ex-Marshal Herman Kohner, Councilman Mike Huber and others. But the court refused the license on the ground that there were not enough legal signers. Under the law application cannot be made by Mrs. Fiedler for a saloon license within twelve months and Garwood breathes easier.

CRAZY FATHER KILLS CHILDREN.

THEN SLAYS HIMSELF—OLDEST SON FATALLY WOUNDED.

Act of J. M. Pouch of Roselle Shocks Entire Town—Pouch Notified County Physician of Deed About to Be Committed.

On Monday Joseph M. Pouch of Roselle, while temporarily insane, strangled two of his little children and laid them out on a bed, covered with a sheet. Pouch then wrote to County Physician Westcott and told him to call at the Pouch residence, that there was work there for him. Somewhat puzzled at the letter Dr. Westcott had two officers from Elizabeth sent to investigate the case.

The officers approached the Pouch home and knocked on the door. The knock was followed by three shots from an upstairs room. The police broke into the house and rushed upstairs, only to find that Pouch had just shot two other of his children, a little girl who died instantly, and a 14 year old son who died later. Pouch then turned the smoking pistol upon himself and a well directed shot placed him out of the land of the living.

The officers removed the wounded boy to the Elizabeth hospital where he recovered sufficiently to tell how his father had, on Sunday, strangled and poisoned his two little sisters and kept his other sister locked in a room with himself all Sunday night and Monday without food. The boy died from his wound at 2 o'clock Tuesday morning.

Some two months ago Pouch lost his wife and has brooded over it ever since. It is thought the loss of his wife made him insane and the horrible act of killing his children followed.

Pouch some years ago was a resident of Westfield where, it is said, he claimed to be an undertaker. Off late he has been employed in the Singer factory at Elizabethport.

Notice to Travelers.

It is a source of great satisfaction to a traveler to have good traveling paraphernalia—a good trunk, a good grip or suitcase, good accessories for the carrying of toilet articles—things that will stand the hard usage they get, and strong enough to withstand any emergency. What is needed is not high priced things, but, rather, honestly made. A store that will stick to such a class of goods, will via trade. L. S. Plaut & Co. have enlarged their trunk and bag department. They put in a complete line of staunchly made goods—reliable in material and make. The effort was appreciated and their trunk and bag business went ahead with a bound. The things are all of the dependable kind, and the prices are most moderate. You may get the high and steeper trunks, bags of all shapes, of all leathers and of straw; suit cases of leather and straw; telescopes of canvas and straw; from the lowest price that a meritorious article can be sold for to the finest grades. Step into the "Bee Hive," Newark, and see how well you will be served.

Westfield Station Robbery.

The Westfield Station Robbery has become a memory. Following Carrig's arrest he was released on bail. McGilvery is still in jail. Hackman McCarty is out on bail. The trial will take place at Elizabeth June 16, following indictments by the Grand Jury as already reported in these columns.

"Superfluous Women."

"Superfluous women" are increasing in number. The births in England and Wales last year numbered 947,949—482,191 males and 465,758 females—and the deaths 514,460—266,338 males and 248,122 females. Thus, though there were more boys than girls born, the higher mortality among men more than restored the balance, the ranks of "superfluous women" being thus strengthened by 1,793 recruits.

Water-Cress Salad.

Dress a crisp bunch of cress with salt, pepper, paprika, oil and lemon juice, adding the grated yolks of three hard-cooked eggs; arrange in a mound on a salad platter, garnishing with the whites of the eggs cut lengthwise into eighths, and placed on the salad to simulate the petals of a flower, pressing a star of mayonnaise into the center of the petals.—Good Housekeeping.

Methodist Episcopal Church.
Up to the time of our going to press the program of Children's Day exercises at the Methodist Episcopal church had not been fully arranged. The services will commence at 3.30 Sunday afternoon. The Primary, Intermediate and Main School are all to take part and friends are invited to attend.

—The Westfield public schools will close on Friday of next week, and will reopen Tuesday, September 13th.

HIGH SCHOOL COMMENCEMENT.

Who the Graduates Are—What Colleges Some Will Enter.

The baccalaureate services will be held in the Presbyterian church on Sunday, June 13th at 8 o'clock. Rev. Henry Ketcham will preach the sermon. The Board of Education, graduates, teachers, high school students and alumni will attend these services in a body.

The Senior Class Day exercises will be held in the Washington school auditorium on Thursday, June 16th, at 2.45 p. m. All are invited.

A reception will be given immediately after the exercises to the invited friends of the graduates.

The commencement exercises will be held on Friday, June 17th, at 8 o'clock, in the Washington school auditorium. Miss Marie Sjoström will deliver the salutatory and Miss Etta Shield, the valedictory. Dr. A. E. Winship, of Boston, will deliver the address and Mr. Salter Storrs Clark will present the diplomas. Following are the names of the graduates and the colleges they will attend:

Carolus T. Clark (Yale).
Hendley R. Calloway (Massachusetts Institute of Technology).
Herbert H. Knight (Columbia).
Henry H. Ketcham (Union).
Hunter Delatour (Columbia).
Charles Powell (Columbia).
Etta Shield (Yassar).
Bessie E. Hanford (Yassar).
Maria Sjoström (Smith).
Edith A. Cowperthwaite (Smith).
Linda B. Savitz (Barnard).
Elda F. Plink (Barnard).
Grace R. Powell (Columbia).
Marion A. Randolph.
Hattie Pearsall.
Dorothy Francis.
Marion Browne.
Carrie S. Hart.
Nina R. Baker.

The junior class will give a reception to the graduating class, in the Westfield Club hall, on Monday evening, June 20th.

The alumni reception will take place in the Westfield Club hall on Thursday evening, June 23rd.

Prof. Savitz invites Former Graduates—The members of the Alumni Association and all graduates and former students of the Westfield (Lincoln) high school are cordially invited to meet the senior class, Board of Education, teachers and students in the Presbyterian chapel on Sunday evening, June 13th at 7.45 o'clock, to attend the Baccalaureate services in a body.

POULTRY FOR THE AMATEUR FARMER OR EXPERT.

ALL persons requiring fowls of the best breeds, combining hardiness, utility and of good blood, are invited to view our Poultry farm situated 9 miles from Westfield and 1 mile from Lynde Park on the Trenton and New York R.R. We are the largest breeders of prize and utility poultry in the world. Most of our fowls are imported from our English Farm. Over 7,000 cups and prizes won by us in almost every country. The "Orrington Poultry Journal" published by us monthly is a paper full of instruction and advice. Sample copy free. Pupils taken and taught practically.

SELF-FEEDER FOR POULTRY.

It Enables the Hens to Have a Permanent Supply of Shells with Little Trouble.

The accompanying cut shows a very simple but useful device that I use to feed oyster shells to my hens. It may be used for small grates if desired. Make a small box eight inches deep, placing the lower edge of the board (A) about one inch from the back and

POULTRY SELF FEEDER.

two inches from the bottom, so that the shells can trickle down as eaten. A two-inch strip (B) may be nailed in front so that the shells will not work out in the dirt. It should be made narrow so that the hens cannot get in to scratch out shells. Two pieces (C, C) can be nailed to the bottom to keep it from being upset, or it may be fastened to the side of the building. The top may be hinged to put in more shells. With this arrangement they always have plenty of clean shells with little trouble.—D. J. Folden, in Ohio Farmer.

MOST VALUABLE MANURE.

If You Have Neglected to Save Poultry Yard Fertilizer, Turn Over a New Leaf.

Poultry manure accumulates rapidly, but it can be so treated as not only to be of greater value, but also to lessen the disagreeable odor to a certain extent. The roosts should be so arranged that the droppings will fall on a platform.

Keep the platform covered half an inch thick with well-sifted, fine, dry dirt or ashes. To do this first scatter the dirt or ashes and then over this sprinkle a handful of kainit (German potash sale), which will arrest the escape of ammonia and prevent too rapid decomposition. Two or three times a week (daily is better) sweep the platform with a broom. After it is clean, sprinkle the platform and room with a solution of a tablespoonful of carbolic acid in a gallon of water, and then scatter the dry dirt on the platform.

All the materials of the manure heap should be fine. When the fowls are at work on the manure heap, they not only find quite an amount of waste material, but perform excellent service in rendering the manure fine.

An excellent plan is to throw all the manure in a heap, allow the hens to work on it, and then remove the manure to a large heap, which permits of its being more intimately mixed with any kind of absorbent material. A flock of a dozen hens will save a portion of their food if allowed to scratch over the manure, as there is always more or less food that passes through animals which has not been appropriated or digested.

This manure is more valuable than the same quantity of guano, and will be found most excellent in corn hills or potato drills, and there is nothing better for top-dressing onions. It should not be applied in the raw state as a top-dressing, as it is entirely too strong in this shape and will burn the seed that it comes in direct contact with. But, rightly handled, no manure is better adapted for garden purposes.—Cincinnati Commercial Tribune.

How to Get Strong Chicks.

If a breeder wants good, strong chicks, he must "begin at the beginning" and see that the stock that produces the eggs is strong and vigorous. Strongly fertilized eggs come only from stock that is in good condition, vigorous and healthy, well fed and well cared for. The germ in an egg from weak, diseased stock will always be weak and will never produce a strong chick, if it hatches at all. The breeder who failed to get his breeding stock in the pink of condition before the commencement of the hatching season will not get the best results.—Commercial Poultry.

Hens Better Than Gold Mines.

Hens are more profitable than gold or silver mines. According to government reports 60,000,000,000 eggs were marketed in 1902 at an average price of 11.16 cents per dozen. It is estimated that the crop now exceeds all the gold and silver mined in the United States, being worth annually over \$45,000,000. Iowa stands at the head of the egg states with an output of 101,000,000 dozens annually. Ohio comes next with 92,000,000; Illinois, 87,000,000; and Missouri, 80,000,000. The highest average price is 20 cents in Montana and the lowest is seven cents in Texas.

What the Ducklings Require.

The ducklings should have plenty of water to drink, but do not need any to swim in. In fact, it is better that they should not have a creek or pond to swim in, as they will take too much exercise if they do. Feed them often and always mix the feed fresh for each feeding, as no young poultry should be fed anything that has fermented in the least. Feed often and keep the ducks out. They grow amazingly and at ten weeks of age should weigh five pounds each.

Cheers Up a Plant.

Electricity is not life, but it stimulates life in plants. Its adaptation may yet revolutionize horticulture. In our homes lighted by electricity the conservatory becomes an experimental garden. We modify the lights with shades suited to the needs of the different potted plants. The sick ones are revived by a course in electric therapeutics. The pots are placed near the incandescent or are lights according to the amount of light and stimulation they need, and under their powerful influence they revive, and their diseases are destroyed.—Chicago Post.

Quick Work on Shirts.

The up-to-date song of the shirt lasts just six and one-half minutes, according to a factory inspector for whose edification the foreman of a shirt factory started a piece of cloth on the rounds, and made it come out ready for a customer's back before the second hand on a watch had revolved seven times. In this time seven girls had contributed their efforts to the finished product. One machine in this shop makes 10,000 buttonholes a day, or 28 in a minute, and in a ten-hour day a man can cut 250 dozen shirts.

Beautiful Bible.

The most beautiful volume in the congressional library at Washington is a Bible which was transcribed on parchment by a monk in the sixteenth century. The general lettering is in the German text, each letter is perfect, and there is not a scratch or blot from lid to lid. Each chapter begins with a large illuminated letter, in which is drawn the figure of a saint, some incident of whom the chapter tells.

Electrocute Sharks.

In the British navy the engineers have a curious way of killing sharks. They seal up a dynamite cartridge in an empty can, and put the can inside a lamp of pork. The pork is thrown overboard on a wire, which has been connected with an electric battery. When the shark takes the bait the engineer presses a button, which explodes the cartridge and kills the fish.

Women Voters.

The Isle of Man, of all places, granted the electoral franchise to women in 1880. The Madras presidency recognized female votes in 1885. New Zealand gave its women the electoral franchise in 1893. Victoria has passed a women's suffrage bill. And women have a right to sit in the federal house in Australia.—London Tit-Bits.

Infants and Marriage.

The chances at birth that a baby will eventually marry are nine in twenty, or rather less than one-half. This result may seem surprising, but it is largely accounted for by the great mortality of persons under marriageable age, especially of infants up to the age of five.—Boston Budget.

Mammoth Sawlog.

What is said to be the largest log ever floated in Puget sound has been towed into the Capital box factory ponds. It is a 40-foot spruce log, nine feet through at the small end and 14 feet through at the large end. It was cut on the Skagit river banks.

The biggest lump of coal ever dug out of the earth is that raised from one of the Wigan collieries. It took nine months to hew it out of the seam, and it weighed over 12 tons.

A Very Special Event That
Will Cause a Furore.

This has been a fateful season for the retail trade and all depending on them for support. Importers, manufacturers and jobbers felt this depression and received a decided setback. One of the largest, Sweetser, Pembroke & Co., ended their existence and sold their stock at auction. We attended regularly with our corps of trained buyers, but bought sparingly, for in most instances merchandise brought more than it was worth. Our judgment was verified; by canvassing the wholesale trade we found we could buy lots for less than similar goods brought at auction.

Darwin concluded that the earthworm in five years brings up soil enough to cover the ground one inch thick, and that, therefore, the result of its labor is of vast importance. I reckon that the pocket-gopher does this in five months. It does not do it in the same way or so effectively, because the earthworm actually digests the substance of its castings; but it is evident that the pocket-gopher's method answers the purpose of fully disintegrating and mixing the dead vegetation with the soil to produce a rich and fertile black loam.—Ernest Thompson, in *Century*.

Shakespeare.

In view of certain locally printed comments on the subject it is but fair to the Town Council, which has designated this newspaper as the vehicle of such official communications as the law requires to be published that it should be stated that their action in the matter was entirely upon the warrant of an assured circulation which beyond any question whatever offered them the means by which they could secure the widest dissemination of such intelligence. This left them no other course to pursue without violating their duty to the taxpayers.

How would it do for the Russians to change their tune from "God save the Czar" to "God help the people"?

The uniforming of the Westfield police force at public expense is entirely right and proper. Westfielders never want something for nothing.

We are glad to congratulate the Cranford Citizen upon its getting to be a Big Boy. Now, especially as its growth appears to have a wholesome, lusty look that will mean still better things when its blows are struck for the people instead of a party.

With this issue the STANDARD will turn the Memorial Day Account over to Comrade Samuel W. Reese, who will acknowledge any further contributions that may be made. A little more money is needed which patriotic citizens, who have not yet contributed, will, doubtless, provide. See Reese.

Wouldn't it galvanize your magnetism a little were the Westfield team, after last Saturday's splendid performance, to get wallpopped tomorrow? Never brag, boys. On the other hand, the man with the hammer should take a quiet sneak down stairs.

Westfield laid a wreath of flowers upon the graves of her dead Memorial Day; none slept neglected, under weedy grass. There were flags and flowers and ceremonies in which Westfield's school children participated. Be it or be it not given to the dead to look back and know Memorial, or Decoration, Day has its best value in the ennobling influence it has upon those who survive and are coming on.

In most respects Garwood is always to be heartily congratulated. But in one respect Garwood is to be pitied. For such a beautiful suburb to be afflicted with liquor saloons at the ratio of one saloon to less than each hundred of her population is indeed to be deplored. No wonder that the better element are up in arms on the subject! They have just succeeded in closing one of the five saloons that have preyed upon their fair town and the remaining four understand that they must too the mark strictly within the law, or down and out they go!

The Trenton Y. M. C. A. baseball team is an exceptionally fine one, and we are satisfied that the make-up of the organization is of the high character suggested by its title. It has enjoyed a fine record this season of battles won. It needs no dishonest umpire to improve that record by outrageously unfair rulings, nor will it ask for anything of the kind. We will undertake to say this much for the Trenton Y. M. C. A. baseball team. It remained for the Westfield baseball team to vanquish the Trenton cracks last Saturday despite the rulings of an umpire so grossly bad as to excite on the part of the Trentonites exclamations of disapproval. Had the Westfield team lost the game it might then appear unsportsmanlike to charge the defeat to unfair rulings of a prejudiced umpire. Westfield did not lose, but won, hands down, three to one; a fact which makes it not out of place for a protest against an umpire so obviously ignorant—or worse—as was Sheehan, who presided over last Saturday's game. It will be to the credit of the Trenton Y. M. C. A. team should this man be black-listed and disqualified as either too ignorant or too dishonest to preside over a National game in which the players themselves, if true sportsmen, ask only for a fair field and no favor.

So great has been the change regarding Westfield's sidewalks that any one familiar with old conditions who may have been absent for a period of three months could not fail to be most startlingly impressed. The good work initiated by the late retired town officers has been splendidly carried forward by their successors in office. It is evident that the new board intend to continue to extend such improvements. At their last meeting several hundred feet more of stone sidewalks were ordered. In this connection it should be said that the taxpayers the more immediately interested in the expense of this public work, as a rule, heartily co-operate with the officials, showing a patriotic citizenship that explains the late splendid development of Westfield along metropolitan lines. Public spirit that never fails to give a new dollar for an old one with interest. It is to be hoped that the new order of things regarding uniformity as to sidewalk walk grades, curbing and flagging will be indefinitely extended as far as possible within reasonable limits. The policy of the present town administration is evidently a broad one; but the officers, while business men, are reasonable, and it is safe to say no undue use of power will be resorted to on the sidewalk or any other question. At the present rate Westfield will soon be far ahead of all its neighbors in the sidewalk procession.

Walking by a dental establishment where the proprietor had exposed to view a glass fish globe filled with regular, irregular and defective molars, a friend enquired: "Do you think they have been placed there as a drawing card?"

Uncle Bill Peaseley stepped in to say that the Town authorities have provided the citizens of Westfield with many pleasant sidewalks and that now if they will introduce a few more crosswalks they will greatly add to their glory and make a high average.

Johnny Guff, who made a narrow escape from injury in darting across the road in front of an automobile this morning was chided by Walsingham with the question:

"Don't you know there is always more room behind a thing than in front?"

"Right you are, Walsie—but how about a mule?"

FAIR ACRES.—You are partly correct, but the horse's name was subsequently changed to "Cheap Watch" on account of his always running behind.

NOT BROWN MAIDEN.—The air you allude to is undoubtedly "Hawthorn." We do not know where it can be procured, as we understand it is out of print.

NOBB RAINES.—If I borrow an umbrella and it turns wrong side out, ought I to return it before returning it? You will be on the right side in always returning an umbrella before giving it back.

SAID BY WESTFIELD CHILDREN

A Carleton Place little girl who had a garden space allotted to her this Spring, takes delight in pointing out her "Lehigh valleys."

A Central avenue youngster was crossing the ferry the other day and his mother let him stand on the seat to watch the passing boats which he had never seen before. Dangling in glee he exclaimed to the great amusement of the passengers: "Oh, mamma, see the big vigorous going on the main, and the big whole making soapbuds."

JUNE WEDDINGS.

Pecorini-Coltorti.

A pretty wedding took place at the home of Mr. and Mrs. Wm. J. Taylor, 123 Westfield avenue, on Friday afternoon, June 8d, at 5 o'clock.

The contracting parties were Rev. Alberto Pecorini, of Brooklyn, N. Y., and Miss Regina Coltorti, of Westfield.

The maid of honor was Miss Ellen Campbell, of Montclair, N. J., and the best man, Rev. Stefano Testa, of Brooklyn. The wedding march was played by Miss Mabelle Welch and Mr. Harold Welch, with piano and violin. The bride was gowned in white crepe de chine and carried a bouquet of bridal roses. She entered, leaning on the arm of her brother, Rev. B. J. Coltorti.

Miss Campbell was dressed in white and carried pink roses.

The ceremony was performed by Rev. Wm. Burt, D. D., one of the newly appointed Bishops of the M. E. Church, and who has for many years been at the head of the work of his church in Italy.

The Bishop was president of the college in Rome when Mr. Pecorini and Mr. Coltorti were students there. After the ceremony a collation was served. The newly wedded pair left on the evening train for Philadelphia. On their return they will reside in Brooklyn, where Mr. Pecorini has his pastoral charge.

Among the guests present were the bride's mother, Mrs. Concetta Coltorti, her sisters, Mrs. J. Kossuth, of Buffalo, and Miss Marie Coltorti, of New York City, and her brother, Rev. B. J. Coltorti, pastor of the Italian Mission of Westfield. Rev. H. Nelson, Rev. W. Hunter, Mrs. Francis Brown and daughters, of New York; Mr. and Mrs. John Campbell and Miss Ellen Campbell, of Montclair; Rev. Stefano Testa and Mrs. Testa, of Brooklyn; Mr. and Mrs. W. J. Taylor, Mr. and Mrs. W. S. Welch, the Misses Mabelle, Pearl and Marion Welch, Messrs. Herbert and Harold Welch, Rev. W. I. Stearns, D. D., and Mrs. Stearns, Mrs. H. N. Wheeler, Miss E. D. Starr, Mrs. Willer and Miss Florence Brewer, of Westfield.

Everett-Remer.

The wedding of Miss Ella Louise Remer, daughter of Mr. and Mrs. Ed. Wm. Remer of Summit avenue, to Clifford B. Everett, son of Mr. and Mrs. Nelson Everett, took place on Wednesday afternoon, at 5 o'clock, in the Presbyterian church, Dr. W. I. Stearns, their pastor, officiated and Mrs. Harry N. Taylor presided at the organ.

The bride, who was given in marriage by her father, and was prettily gowned in light brown crepe de chine, with cream lace trimmings, and hat to match. She carried a bouquet of white bridal roses. The bridesmaids were Miss Abbie Remer, sister of the bride, and Miss Emma Everett, sister of the groom. They were daintily gowned in white and pink figured silk, trimmed with white liberty silk. They wore pink and white picture hats and carried bouquets of pink sweet peas. The ushers were Addison H. Clark and Harold Tice, and the best man was Charles Kimball, all of Westfield.

Mr. and Mrs. Everett left upon their wedding tour immediately after the ceremony at the church. They will return next week and will reside at the home of Mr. Everett's parents on Cumberland street. The bride was the recipient of many useful and beautiful gifts.

Guests were present from Newark, New York, Elizabeth and Westfield.

Elizabeth Commercial College Summer School.

The Elizabeth Commercial College, at the request of its students and others, will conduct a summer school for the accommodation of students who desire to make good use of the summer vacation. Those who enter in June or July may complete either the Shorthand or Bookkeeping course before the close of the present year.

The Elizabeth Commercial College is making a remarkable record for itself in graduating competent stenographers and placing them in desirable positions. 99 per cent of this year's graduates are holding good paying positions. Two of our young men have secured positions in the Jersey City offices of the Pennsylvania Railroad Co., and the school has been unable to supply the demand for young men stenographers. Young people desiring to fit themselves for business purposes in the shortest time consistent with thorough work, are invited to visit the cool, well ventilated classrooms of the school and to make inquiries concerning its courses of study, etc. The College has a new ad. in this week's STANDARD.

County Endavorers Meet To Night.

The annual meeting of the Union County Christian Endavor Union will be held in the Trinity Reformed church, Plainfield, this evening, at eight o'clock. Rev. W. T. S. Lumber, president of the State Union, will address the meeting.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; this case out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

CHILDREN'S COUNTRY HOME.

Opening for the Summer's Work Friday, June 3d.

The Children's Country Home was opened for the Summer's work on Friday, June 3d. Notice of the opening had been sent to Dr. Twilch, of the Home for Crippled Children at Newark, to Dr. Daniel, of the Hospital and Dispensary for Women and Children in New York, and to Mrs. Bainbridge, of the Newark Mission. Preference was given to Dr. Twilch, and his children were expected from Newark. The nurse, however, only brought two, reporting that twenty-six were in clinic, but only these two were able to come on Friday. Twelve came from New York, so that the first party of the season is a small one. Dr. Tabbs is the attending physician.

The opening festival was held on Saturday, but the change of time from Decoration Day proved to be an unwise innovation. The afternoon was perfect—not too warm nor sunny—but the number present was not so large as in former years. One had said previously, "No matter what else is going on on Decoration Day people will take in the Children's Home Festival; it has its place in the doings of the day; not so many will go out on any other day." Perhaps two affairs in one week had something to do with the lessened attendance. Those present enjoyed, as of old, the out-of-door social occasion. The children were as pleased as ever with Panch and Judy, and the improved conditions in the house, with the new addition, were highly approved.

The Matron of former years, Mrs. Swartz, is still in charge. The Home is always open to the public and all interested in any way in the work of the Home are invited to it.

FOR COMMENCEMENT CROWD.

The School Board Plan to Accommodate Greatest Number With Greatest Safety.

In view of the crowded condition of the auditorium in the Washington School at the last Commencement and the danger caused by crowding the aisles, the Board of Education has decided that no one will be allowed to occupy the aisles. The seating capacity, however, by a different arrangement of the seats, will be greater than ever before; for about 600 in the body of the room. About 90 seats in the front of the room, will be reserved, by number, for the more immediate friends of the graduates. All seats not numbered will be free.

Royal Arcanum Flags to Fly.

The principal business before Fireside Council last evening was the consideration of a communication from Supervising Deputy Grand Regent Class. In his capacity of Special Flag Deputy for the entire State, he called upon all members of the order to display the National colors on Thursday, June 23d, Arcanum Day, the birthday of the organization. Similar communications have been sent to every council in the State and the response has been unanimous and most enthusiastic. By a rising vote, all the members of Fireside present, agreed to follow his suggestion, and the result will be a display of flags second only to the observance of July 4th.

Brother Burhans entertained the council most agreeably with his phonograph, reproducing numerous instrumental selections, humorous dialogues, etc.

WILLIAM PALMATTER, Executor.

NOTICE.

THE following resolution was unanimously adopted: WHEREAS T. M. K. Mills and others, being the owners of at least one sixth of the property on the south side of Park street, between Summit avenue and Central avenue, have presented to this Council a petition for the construction of a stone sidewalk four feet in width on and along said south side of Park street, from Summit avenue to Central avenue as aforesaid, and for the curbing of said sidewalk between the points aforesaid except in front of the lands of Alfred L. E. Fessel and Charles O. Poor, and have deposited with the Town Clerk the sum of Fifty Dollars to secure the costs and expenses to be incurred in relation to said petition.

RESOLVED, That Monday, the 20th day of June, 1904, at 8 o'clock in the evening, be and as the time, and the Town Room in the Town of Westfield as the place for the hearing of objections to such improvement, etc., etc.

RESOLVED, That it is to the interest of the Town of Westfield that sidewalk of the stone flagging four feet wide be built and constructed on and along the streets and sections of streets in said Town hereinafter designated, to wit: On and along the easterly line of Westfield avenue beginning at the intersection of the easterly line of Westfield avenue and the southerly line of South avenue and running thence southerly along the easterly line of Westfield avenue one hundred and thirty feet more or less to lands of George L. Delaunoy; on and along the westerly side of North Avenue from the southerly side of Broad street to the westerly side of Westfield avenue; on and along the southeasterly side of Spring street from the intersection of the said southeasterly side of Spring Street with the westerly side of Westfield avenue to the intersection of the said Spring street with the northerly side of South avenue; on and along the northerly side of North Avenue from the intersection of the said side of North Avenue with the northerly side of Westfield Avenue to the intersection of the said side of North Avenue with the southeasterly side of Central Avenue, etc., etc.

NOTICE IS HEREBY GIVEN that the above are extracts from resolutions adopted by the Council of the Town of Westfield in the County of Union, at a meeting held June 6th, 1904; and that the Council will meet to consider the proposed improvements above mentioned at the Town Room, corner of Broad and Elm streets, Westfield, N. J., on Monday evening, June 20th, 1904, at eight o'clock. Objections to said proposed improvements must be filed in writing with the Town Clerk at or before the time of said meeting.

By letter, Mr. and Mrs. George Rae, from the United Presbyterian Church, Johnstone, Scotland; and Miss Edith Moffett, from the Westfield Baptist Church.

Letter to F. C. Decker,

Westfield, N. J.

Dear Sir: Clothing is just like paint; it fits or it don't; it wears or it don't; turns weather and water or not; and goes out of fashion.

What do we wear clothes for? Did you ever think of it? Different persons have different reasons, no doubt, but one paints Devos for beauty, to be in fashion, and keep out water.

Fashion says paint: we all paint. There is beauty in paint: we paint a good deal for that. And buildings are costly and fashionable; put on a water proof two or three coats of paint, and your buildings last as long as you keep them dry. It costs nothing to paint: it costs your buildings not to.

Devos is the paint that lasts; disappointing paints are the paints that cost.

Yours truly,

F. W. Devos & Co.

P. S.—Chas. Crickenger sells our paint.

W. O. W. MONUMENT

Unveiled in Fairview Cemetery Sunday Afternoon.

Last Sunday afternoon at Fairview cemetery the Woodmen of World of Cranford, N. J., held their first unveiling ceremony. It is the custom of this order to erect over the grave of a brother a monument. At Fairview a very pretty monument has been erected over the grave of Sov. Fiedler of Garwood, who was a member of the Cranford Camp.

About one hundred and seventy-five Woodmen from Elizabeth, Rahway and Westfield met at the lodge room of the Cranford Camp, and following the Fife and Drum Corp of Westfield marched to the cemetery where an imposing ceremony was performed under the direction of Sov. Davis of the Cranford Camp as field marshal. B. W. Hand, of Westfield was camp orator of the day and in a few well chosen words paid tribute to the memory of the departed and urged all present to prepare for that great change that comes to all men. After the speaker had ended his remarks the members of the Cranford Camp placed bouquets of green on the grave. At the close of the services the members again formed rank and marched back to the lodge room at Cranford.

The W. O. W. is a fraternal insurance order paying weekly benefits and has a membership of over 320,000 and is the fourth largest fraternal beneficiary order in the United States, although it was not organized until 1890. Over \$14,000,000 death losses have been paid and they have an emergency fund of over \$2,000,000. This is the only fraternal order that places a monument over the graves of deceased members.

OBITUARY.

Francis R. Baker.

Francis R. Baker, aged 75 years, died on Wednesday evening, at 6.45 o'clock, at his home, 59 South Broad street, after an illness of three weeks. Mr. Baker had always resided in Westfield. He was a member of the Presbyterian church for many years. Deceased is survived by a widow, who was Miss Charlotte Radley, and seven children, Mrs. Henrietta Van-Auken, Mrs. A. J. Hague and John A. Baker, all of Newark; Frank H. Baker, of New York; Mrs. Leonard Mellick, of Plainfield, and George W. and Edward E. Baker of Westfield. He left eight grandchildren. Mr. and Mrs. Baker celebrated their golden wedding about two years ago. The funeral service will be held tomorrow afternoon at 2 o'clock at his late home. Interment will be made at Fairview.

Funeral of Ferris Johnston.

Ferris Johnston, youngest son of Samuel and Fortnita C. Johnston, of 301 Broad street, died Thursday morning, June 2nd, after a protracted illness. The funeral services were held at the residence of the parents on Saturday afternoon and were conducted by the Rev. Dr. Steans, assisted by Rev. Joseph Greaves. Roland Randolph, soloist, rendered in feeling tone a children's hymn and a selection from The Holy City. The services were concluded at Fairview Cemetery. Little Ferris was eleven years of age. By his many winning qualities of mind and heart he had endeared himself to hosts of friends, young and old. Beautiful floral tributes from his class-mates in school and Sunday school, the Christian Endeavor Society, the church, play-mates and other friends, spoke the strong hold he had upon the affections of a great many people.

A Successful Graduate.

Miss Edyth Alway, a graduate of the Plainfield Business College, has just been engaged to take charge of the Typewriting Department in a large commercial school in New York City. This is the second of the recent graduates of the Teachers' Training Course of the Plainfield College, who have recently contracted to fill responsible positions in large business schools in that city.

KEITH'S THEATRE.

Keith annihilates the superlative. What is the best at other vaudeville houses is but common-place at the Union Square Theatre. A believer in the so-called headliners, at the expense of the balance of the entertainment, Keith's bills are noted for their all around merit, diversity and novelty. McIntyre & Heath for the second and last week will be one of the star attractions for the coming week. For this occasion they have chosen as their offering what they consider their best act, "The Man from Montana." Music not only has charms to soothe the wild beast, but in these sultry days it has the faculty of making one forget their cares. For that reason one of the best places on the coming programme will be filled by the Empire City Quartette. More in this line will be "The Reed Birds" who will present their latest musical comedy "Dodging the Doge." As comedy will be the prevailing feature, Mr. and Mrs. Harry Thorne & Co. will be seen in their mirth provoker "An Up-Town Flat." The other numbers on this highly interesting bill will include the Brothers Martine; Geo. C. Davis; Meakin & McCarty; Kelly & Bartell; LePage; Murphy & Nolan; Helen King Russell; The Biograph with many new and interesting features, and many others, all going to make up a real vaudeville entertainment.

Bostock's Animal Arena at Coney Island.

Bostock's animal arena is one of the most striking features offered at Coney Island this season, as it has been in past years, and justly so, for the Bostock collection is the greatest of trained wild animals ever gathered together.

Bonivita and his twenty-seven forest bred African lions have just returned from Paris. It is the only act of the kind extant.

Another Paris sensation is the circle of death, so called by its originator, Tourbillon, a young daredevil from France. The bicyclist attains high speed on a saucer track, which is placed over a den of a dozen untamed lions. At the word the flooring between the track and the cage is withdrawn and Tourbillon rides for his life over the moribund of the forest. A slip, or any accident would mean an awful death to the rider, as he would be torn to pieces. In the cages and dens about the building are in the neighborhood of 450 wild animals.

Dreamland, Coney Island.

Dreamland, Coney Island, is an established success and is the only amusement place on the Atlantic coast that affords entertainment of the same class as that of the largest expositions. It has been justly called "The World's Fair of Amusement Resorts," for the reason that all the buildings on the grounds of Dreamland are massive and are designed much on the same lines as those that have made notable the largest expositions of the world.

Now that Dreamland's line of steamboats make regular daily trips from New York direct to the steel pier on the grounds, thousands take advantage of the water route. The sail is enjoyable and refreshing and costs no more than by the many trolley lines that start from the New York entrance to the Brooklyn Bridge.

Average Lease of Life.

An Austrian statistician finds that the average lease of life of a medical practitioner is 60 years. Deaths due to tubercular consumption only amount among them to seven per cent, thus showing how careful they are in taking precautions against infection. On the other hand, fully 40 per cent of doctors die of heart disease and nervous collapse.

BLADDER TROUBLE.

People Should Know How Mr. Miller Was Cured of Kidney and Bladder Trouble by the Great New Medicine, Cal-cura Solvent. Your Money Back if it Does Not Cure.

MATTEWAN, N. Y., Sept. 28, 1901.

Gentlemen: I have been troubled with my Kidneys and Bladder for three or four years and doctored with many physicians without obtaining any help.

A few months ago I decided to try Cal-cura Solvent, Dr. Kennedy's latest medicine, and am thankful to say I am now practically cured. You have not asked me for a testimonial but I wish to tell you what Cal-cura Solvent has done for me and hope that others may be so happily relieved. Yours truly,

WILLIAM H. MILLER.

If your druggist does not have Cal-cura Solvent, write to the Cal-cura Company, Rondout, N. Y., but ask your druggist first. \$1.00 a bottle. Only one size. Guarantee: Your druggist will return your money if Cal-cura fails to cure, and The Cal-cura Company will pay the druggist. Remember, Cal-cura Solvent cures 98% of all cases of Kidney, Bladder and Liver disorders.

Child Workers in Japan.
At Osaka, the "Manchester of Japan," of the 58,000 workers, 18,000 are children under 14 years of age. Certain industries, for example, the making of matches and mats, employ almost entirely children of seven or eight years, who work 12 hours a day.

Slurring a Whole Profession.
Members of the legal profession are best able to judge, perhaps, of the proper application of the advice given by Dean Pattie, of the law school of Minnesota, to the students. "Lawyers," he said, "need not necessarily be dishonest, but frequently great elasticity of conscience is required. Many of you are too honest to be good lawyers. Keep out of the law as long as you can." The dean said he was speaking from the experience of years.—Cleveland Leader.

Must Learn Welsh.
A notice which has lately been seen over a shop in Cairo, "I speak English, and understand American," recalls a story which was going round New York society last winter, says Pearson's Weekly. It was said that the daughter of a certain Chicago millionaire, in preparing for her first season in London, devoted herself to studying Welsh so that she might be ready to do the correct thing when conversing with the prince of Wales.

Singular.
A young daughter of a prominent New York financier, who had passed most of her years either in the city or at the large summer resorts, recently paid her first visit to a real country home. She was anxious to show that she was not altogether ignorant of rural conditions, and when a dish of honey was set before her on the breakfast table, she saw her opportunity. "Ah," she observed, carelessly, "I see you keep a bee."

Germany's Canaries.
It is estimated that about 250,000 canary birds are annually reared by the peasants of Germany. Of these, 100,000 are shipped to the United States. The next greatest demand for the birds comes from England, which takes 50,000 birds annually. The best singers are usually sold in Germany, where higher prices can be obtained for them than anywhere else.

Women Newspaper Sellers.
Scattered along Park row, New York, there are about a half-dozen women who sell newspapers. In their procession, says an exchange of that city, of a half-million which passes daily during business hours, there are thousands who prefer to buy their papers from them. A sentimental consideration makes many steady customers.

FIRST DEFEAT

FOR TRENTON.

A CLEAN WIN FOR WESTFIELD TEAM.

Manager Demman's Colts Play Swift Game to Defeat a Ten-man Game—Umpire Sheehan's Work Severely Criticized.

It is a hard proposition for any visiting team to go up against the Trenton Y. M. C. A. with Sheehan doing the umpiring. Before Westfield entered the Y. M. C. A. grounds at Trenton Saturday it was hinted that they would have to play ten men. It was not dreamed, however, that Umpire Sheehan was incompetent to fill his position as umpire. The deal Westfield got was very ragged, and it was only by the swiftest kind of playing that the game was taken from the Trenton boys. Certainly Sheehan did his best to have his own team win. Decision after decision was given his team against Westfield. So open was his unfairness that the better element of Trentonites who paid to see fair play hissed his rank decisions.

The Trenton boys were very confident that Westfield would not have a look in at any stage of the game. With Horan, of Fordham College, in the box for Westfield, the boys started right in to play fast ball. In the first inning Westfield, by swift work, landed one tally. Brady did the trick with a beautiful two-bagger, scoring Rotchford.

Westfield scored again in the 4th and once in the 7th. The Y. M. C. A. scored in the 5th, when Horan threw wild to 2d.

In the 5th Egner, of Trenton, was taken from the box and Klein took his place. By this change Trenton hoped to work out a win, but the Westfield boys kept right on banging out the ball as in former innings. The game the Westfield put up surprised the Association boys and greatly pleased the fans.

The defeat, Westfield 3, Trenton 1, did not set right on the stomachs of the Capitol City boys and they felt very sore. It was simply a case of Westfield playing the better ball, and with an umpire able to give fair decisions, Westfield would have added another run or two.

The score by innings was as follows:

By. But then Tommy doesn't often do those things. His general work was full of soap and ginger.

Captain Mallen dropped an easy fly in centre field and for a time the air in that locality was blue. But then George made good later on.

Jack Burke, as usual, was all there behind the bat. He caught Horan in grand style and his stick work was all right, too.

Captain Mallen had the boys well up on the coaching line and threw hot air into the camp of the Trenton players for all they were worth. Good coaching cuts a big figure in making a team play winning ball.

On Saturday Alis team, of Plainfield, added another victory to their string by defeating the Aeolians for the second time this year. The score was 11 to 0. Alis seems to have no trouble in downing the Aeolians, but when the organ grinders tackle Westfield the local team goes up in the air and there is nothing to the game but Aeolian.

The A. O. U. W. just played circles around the Arcanum team Saturday at Recreation Park. The score, 13 to 0, shows the ability of the two teams to play ball. Never did the Flerside boys have a look at the home plate. A small crowd witnessed the game.

AS OTHERS SEE US—WHAT THE TRENTON PRESS SAYS ABOUT WESTFIELD.

Westfield, N. J., may be rather short on population, but there's nothing abbreviated about its baseball team.—Sunday Telegram.

And from the Trenton Times: The Shamrocks had all the best of the umpiring Saturday and at that couldn't even make a respectable showing against Westfield. Good team, Westfield.

McLennan, who made the Y. M. C. A. team look like "four flushers," has several offers to pitch for big league teams, according to the New York Sun. He is a husky young fellow with remarkable control. His curves are only ordinary, but his judgment is all to the good.

Westfield's small bunch of a shortstop, Hickman, has about the best whip "The Man" has ever seen at Association Field. He can line em from left field to first base. This youngster is the goods in all parts of the game. He is not much taller than a good big grasshopper and is almost as broad as he is high.

Plainfield rooters will be down in bunches tomorrow.

Westfield people should go early if they want grand stand seats.

Eleven runs, eleven hits, eleven errors, was Alis record last Saturday. Quite amateurish.

Bring your glasses, Brother Dobbins, so you can see the sharp plays. And don't forget to report the plays as made.

Who will Capt. Lauder spring on us this week? The drag net is out for the best that can be secured, and never mind the expense. Anything to beat Westfield is the cry of the Plainfield rooter.

It is to be hoped that "Billy" Lauder will be in the game tomorrow, as many Westfield people are anxious to see this high-priced player, and compare his work with that of our own "Tommy" Barry.

Roselle is now playing good, snappy ball. They have recent victories over the Bay Ridge A. C., Star A. C. and Pacific A. C., and on Saturday the strong Manjer A. C. will play the first game of a series. The Manjers have won this season from Elizabeth Y. M. C. A. and Rahway. This should be Roselle's game of the season.

Westfield Golf Club Wins First Match Game at Colonia.

The Westfield Golf Club team played its first match game in the Central Jersey Golf League last Saturday on the links of the Colonia Country Club at Rahway and won out by a good margin. The team's scoring was as follows, figure by the Nassau system:

WESTFIELD			COLONIA		
Halsed	1	Smith	0		
Whitlatch	3	McCormick	0		
Raynor	0	Ward	1		
R. L. Towley	3	Morris	0		
Woodward	3	Stephenson	0		
W. M. Towley	3	J. Savage	0		
Floyd	0	Patterson	3		
Coudit	1	Breck	0		
	14		4		

In the Central Jersey Golf League tomorrow the matches will be Cranford at Westfield and Colonia at Park.

The Westfield Golf Club will hold a handicap ball sweepstakes tomorrow, the entry to which will be one Haskell ball.

The next event in the Women's competition at the Westfield Golf Club will be an 18 holes medal play scratch competition on June 15th, for which the prize is a Patrick driver.

Lake Excursion.

The beauty spot of New Jersey is Lake Hopatcong and one who visits the place is charmed with the diversified entertainment afforded. The surroundings are delightful in every respect and a day spent in the rarified mountain air of the Jersey foothills will do wonders for the tourist. There are ample facilities for fishing and boating, and one who enjoys the rambles in wooded paths, and the quietness of the natural places, to him Lake Hopatcong is the gem of places. On June 19th the New Jersey Central is going to run one of its famous low priced and popular excursions to the Lake. Round trip \$1.00, and special train leaves Westfield at 9:12 a. m. The run is made in three hours and the entire day can be spent in delightful enjoyment.

Hungarians Getting Wise.

Owing to the numerous cases of embezzlement which have taken place recently in Hungarian banks, and which nearly all were traced to losses on the race track, the Hungarian Agrarian Banking company has issued an order forbidding all its employees to attend horse races under penalty of instant dismissal. The government is said to be considering the advisability of issuing the same order to employees of all government institutions.—Detroit Free Press.

Fishing for Plunder.

A visitor to one of the hotels of Peking was awakened during the night by the noise caused by the fall of a roll of paper. Getting out of bed, he saw with astonishment a pole, to which was attached a fish line, moving about the room, collecting various objects and removing them through the window. Upon going downstairs he was heard by the burglarious Chinaman outside, to whom the rod belonged, and who escaped, leaving his fishing line behind him.—London Mail.

Parish Without Inhabitants.

Few people are aware that there is a London parish that does not contain a single inhabitant. This is the parish of St. Christopher-le-Stock, which extends over the open space in front of the Madison house and the royal exchange, and includes the corner of the Bank of England. Its electoral lists and valuation lists have to be made up and duly signed, just as in the case of other parishes.

A Delicious Omelet.

Beat separately the whites of six eggs. Mix with the yolks any flavor you desire and two tablespoonfuls of sugar. Add the whites to the yolks, and beat well. Mix in four or five tablespoonfuls of milk, with a little salt. Cook like an ordinary omelet. Turn over in the dish, sprinkle with powdered sugar, pass the salamander over and serve.—Woman's Home Companion.

The Vulgar Present List.

French society has begun to rebel at the printed list of wedding presents. It is no longer good form, in certain sets, to run down the gamut, in public print, of the parental check down to the fish carver of the servant's hall. The custom has become very ostentatious, and given rise to much vulgar speculation and mental arithmetic.

To Clean Porcelain.

A porcelain saucepan that has become stained should be half filled with water. Into which a tablespoonful of powdered borax has been put. Let the water boil briskly for awhile. Should all the stain not come off, wet a cloth, dip in borax and scour the spots.—Detroit Free Press.

Paternal Duty.

"Blank is a very effeminate sort of fellow, isn't he?" "Yes; you see, his wife is such a strong minded personage that he feels it incumbent upon him to preserve the fine balance of the family for the sake of the children."—Detroit Free Press.

Pay of London Police.

Including the higher officials, London has over 16,000 persons on its police force. A policeman's pay is at first only six dollars a week, rising to eight dollars. Inspectors get \$1,000 a year; the commissioner's salary is \$13,500.

SHEEP BENEFIT PASTURES.

They Are Great Exterminators of Weeds and Stimulate Rich Growth of Grass.

We are convinced that the addition of five or six head of sheep for each cow will tend to increase the productivity of a very weedy pasture, nearly if not quite to the extent of the amount consumed by the sheep. After a few years, when the weeds have been exterminated, the relative number of cows may be increased, but of course the proportion of cows to sheep, as well as the total amount of stock that can be profitably kept upon a given area, will depend upon the nature of the soil and the vegetation, the locality, the climatic conditions, and so forth.

We will not attempt to lay down any hard and fast rule as to how many sheep should be kept upon any farm, but we are firmly of the opinion that some sheep could be profitably kept upon nearly all farms in the state. They will not only serve to keep the pasture free from weeds, but they will also prove excellent scavengers for clearing up stubble fields after harvest and the odd corners on the farm. And, moreover, they will yield a handsome profit on the investment, as well as providing the most wholesome kind of fresh meat for the farmer's family whenever it is desired.

A mistake often made by farmers who start in with a small flock of sheep is to act as scavengers is to buy anything that anyone else may choose to call sheep, has a little wool on its back and will eat weeds, and then treat them as meanly as their appearance seems to deserve. This does not pay. Good blood, individual merit and good care are as necessary for profitable sheep raising as with any other kind of stock.

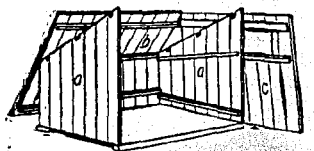

Buy a few good, pure bred, registered sheep of any one of a dozen of the standard breeds, treat them right, and they will do the handsome thing by you. They will earn their keep during the summer by destroying weeds, but they must have good care and feed during the winter. When a considerable number of sheep are required and pure breeds cannot be obtained at satisfactory prices, good grade ewes will do, but nothing but registered rams of high individual merit should ever be used.

Such a flock of sheep of appropriate size will in a few years exterminate the weeds and greatly improve the grass of any good native pasture. Top dressing with manure and sowing bluegrass upon the bare spots will also be found beneficial. If, however, the native grasses are too badly run out, it may pay better to break the sod up, crop it for two or three years and then seed it down again.—South Dakota Bulletin.

HANDY LITTLE STRUCTURE.

Portable Hog House Which Will Be Found of Inestimable Value at Farrowing Time.

More than at any time during the year a sow requires proper housing during farrowing time. Too often comfortable provision is not made and she is given such temporary quarters as may be available, often to the serious loss of the farmer. I have a small, portable house which may be cheaply built from material found about the farm. It is built in five sections and may be taken

PORTABLE HOG HOUSE.

down and stored against the weather when not in use. I use them not only at farrowing time, but as long after as the sow and her little ones require such housing.

As shown in the illustration, the sides, a, are 5 feet high at the front, 3 1/2 feet at the rear. The depth of the house is 5 feet and width 6 feet. The roof, b, is built upon three crosspieces, which are arranged to fit into notches shown in a for rigidity. The roof is built 6 or 8 inches larger each way to afford protection over sides. The front, partially shown at c, is 5 feet high by 8 feet wide. A small door is built in this to permit entrance and exit of occupants. The window shown in the upper part is used for light, ventilation, and for putting in food and slop.

A hinged glass window may be provided to give light without admitting air during cold weather. I move this house with its temporary tenants from one place to another in the feeding pastures.—Farm and Home.

A Cure for Kicking Horses.
If you have a horse that has formed the bad habit of kicking against the side of the stall, just tie him a narrow sheet or two to the partitions and see how soon it will stop him. We had a fine young mare so vicious with this habit that the joints of both hind legs were swollen and threatened to remain so permanently. We tried every known remedy, but failed until we thought of this four-inch sheet, and then the trouble stopped immediately. The horse must strike the edge of the sheet.—C. S. Hunter, in Ohio Farmer.

Live Stock in Cold Climates.
Cold climates are as well suited to the raising of live stock as are temperate and warm climates. While herbage is more abundant in the warm climates and the winters are shorter, yet most of our farm animals do better in the cold climates than in the warm, and diseases are less numerous. Grass is a greater factor in the north than in the south, for climatic reasons.

Severe Marriage Laws.

The Austrian marriage laws are very severe. They prohibit marriage between Christians and Jews and between Christians and infidels. A marriage between a Protestant woman and a man who said he had no particular creed was lately annulled by the supreme court.

Tree Planting at Night.

It has been found that trees may be transplanted in full foliage in May or June with little or no injury. If the moving is done at night, this has been demonstrated to the entire satisfaction of prominent French horticulturists.

Size of Argentina.

Argentina, which we think of as a small state, is in reality over 2,000 miles long, and contains 1,118,000 square miles of territory. It has over 10,000 miles of railroad. Lands are given to immigrants, and any farmer can borrow \$1,000 from the government to be paid back in five years. The total population is 5,000,000. Education between the ages of 6 and 14 is compulsory and gratuitous for both boys and girls. There is a school to every 1,000 inhabitants, with great universities in Buenos Ayres and Cordoba.—N. Y. Press.

Old Tradition of Royalty.

The ameer of Afghanistan, alarmed by the finding of an effigy of himself made in the form of a charm such as "witches" employ, seems to have caught up a tradition which dropped out of favor in western Europe some hundreds of years ago. The duchess of Gloucester in the fifteenth century was compelled to walk for three days through London to St. Paul's cathedral robed only in a sheet and carrying a lighted candle for having, as it was said, made and bewitched a similar image of King Henry VI.

Boers Object to Census.
